

November 29, 2020

Dear Neighbor,

There are additional plaintiffs ready to file separate \$10,000 Small Claims actions against you for shining high energy light into their eyes. I would like to give you this opportunity to respond to the following questions before they file and prevent this issue from becoming more expensive for you.

- 1) Do you assert an unrestricted right to shine high energy light into the eyes of a person?
- 2) Will you agree to shield all outdoor lighting at your property by February 1, 2020 such that direct rays from the lights do not cross property boundaries?
- 3) Will you agree to turn off all exterior lighting when not in immediate use?

I request a response by December 4, 2020.

Sincerely,

Mark Baker
