**Re: The LED Fraud**

Dear Gerald Posner,

Do you need a new project to work on? The Soft Lights Foundation has accumulated much of the evidence needed to prove that the entire switch to LED lighting is based on the fraudulent statement, "LEDs save energy". When I read your story about Marianne Skolek Perez and Purdue Pharma, I see exact parallels between the OxyContin fraud and the LED fraud.

If you have an interest, please contact me.

Sincerely,

Mark Baker  
President  
Soft Lights Foundation
