| 4/2/2024       | "they are dangerous the light are a blur"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 4/2/2024       | "find it so difficult to drive with these bright lights. far to bright and being a small car owner they shine through the windscreen. dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 4/2/2024       | "Too bright!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4/1/2024       | "I hate getting blinded by those L.E.D. bright lights!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/1/2024       | "I can't even drive at night anymore. this is ridiculous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 4/1/2024       | "I am experiencing this so badly that I avoid driving at night. The problem could also be cataracts, folks. But when you experience both, like I do,-wow!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 4/1/2024       | "The brighter lights make it harder to drive at night"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 4/1/2024       | "I am one of the over 60 drivers and I find these lights nerve -wracking, especially driving in the dark, which has made me increasingly reluctant to drive at night. I don't see this "upgrade" in lighting as a positive development."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 3/31/2024      | "There are so many different levels of headlight brightness coming towards me that I find it blinding and extremely dangerous. It is especially bad on backroads where there are no other lights to light the area and highways where there could be continuous streams of headlights coming towards me."                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 3/31/2024      | "The newer bright headlights from oncoming cars are glaring and unsafe. They prevent me from seeing the road in front of me."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 3/31/2024      | "I'm regularly blinded when driving at night. The new headlights must be adjusted so that everyone is safer."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 3/31/2024      | "I drive a lot at night on highways. Not only are the lights themselves annoying but the way people tailgate amplifies oncoming streams of light compounding the problem."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 3/31/2024      | "The headlights make it very hard to see anything except the on coming lights. It is dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 3/30/2024      | "I can no longer safely or comfortably drive or bike at night. It's not just a highway issue, drivers will idle with their lights on in neighborhood streets, unknowingly making the entire corridor an unrelenting hellscape of white light."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 3/29/2024      | "Pay VERY Close attention to pages 11 -& 21 of this study of pedestrian deaths in the US. Besides the usual factors of the increased saturation of taller SUVs/Pickup Trucks, Distracted driving by Electronic Devices, etc, etc, etc notice how we were doing so well with pedestrian death continually on a decline but, it started to skyrocket since 2010 ? Guess what came into increasing prevalence since 2010 (LED Headlights). Also, on page 21, You'll see Dark hours pedestrian fatalities significantly increase while daylight hours stay relatively flat ? Shouldn't they increase at an even rate ? Aren't LED headlights, LED Streetlights supposed to make everything & everyone safer especially at night ???" |
| 3/28/2024      | "I keep getting blinded by LED headlights almost every time I drive at night and I'm sick and tired of it. I've gotten multiple migraines from this and worry that I'll end up getting into an accident because of how much I'm having to look away from the road/close my eyes."                                                                                                                                                                                                                                                                                                                                                                                                                                                |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                 |
|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3/28/2024 | "There is absolutely no need for such high intensity automobile headlights! And they are extremely dangerous to drivers from the opposite direction."                                                                                                                                                                                                                                                           |
| 3/28/2024 | "Don't believe the statistics fit the time frame for the yrs. involved but still really hate those lights. Thorough study of their affect couldn't have been done, at least not properly."                                                                                                                                                                                                                      |
| 3/28/2024 | "LED lights are dangerous and should not be used on cars. The fact that these were designed as a deterrent to environmental safety is a lie. They have a higher content of mercury than the incandescent lights."                                                                                                                                                                                               |
| 3/27/2024 | "Bicycleist can not see ANYTHING with snow on-coming car with those lights"                                                                                                                                                                                                                                                                                                                                     |
| 3/26/2024 | "I'm old enough to know the new headlights are brighter than the old "brights"."                                                                                                                                                                                                                                                                                                                                |
| 3/26/2024 | "The blinding headlights are just too dangerous!"                                                                                                                                                                                                                                                                                                                                                               |
| 3/23/2024 | "I'm tired of driving blinded by oncoming headlights."                                                                                                                                                                                                                                                                                                                                                          |
| 3/22/2024 | "Too-bright headlights are a danger to everyone and they need to be prohibited."                                                                                                                                                                                                                                                                                                                                |
| 3/22/2024 | "Those lights are terrible and dangerous for workers who work at night on the road. Also for the average person over 40 who have to drive at night you can't see a darn thing they're terrible. I wish they would go back to the old headlights or come up with something that lowers them when they're coming to a lot of traffic."                                                                            |
| 3/22/2024 | "Bright headlights are blinding and hurt my eyes"                                                                                                                                                                                                                                                                                                                                                               |
| 3/22/2024 | "Susan Lavallee"                                                                                                                                                                                                                                                                                                                                                                                                |
| 3/21/2024 | "Aftermarket LEDs are awful!"                                                                                                                                                                                                                                                                                                                                                                                   |
| 3/21/2024 | "I constantly feel blinded at night by these types of lights and believe that driving at night is unsafe when I can barely see the road when bright lights in my side mirrors blind me as well as traffic on the other side of the street or highway. It's definitely a big problem and I'm scared that when I grow older I will have more sight issues due to the increased use of these types of headlights." |
| 3/21/2024 | "My question is why do the manufacturers make LED lights so overly bright to begin with? There must be a way to lower the lumens, but no one in the industry seems to care about that or all the problems they're causing for drivers."                                                                                                                                                                         |
| 3/21/2024 | "The roads near me are narrow... when an oncoming car is using blinding lights I can't see the edges of my lane and struggle to not go off the road... I also can't see if there is anyone walking and these lights endanger pedestrians..."                                                                                                                                                                    |
| 3/20/2024 | "I had to stop driving at night . The Led lights are so bright and blind you . I shouldn't have to stop driving at night and getting headaches from the bright blinding led lights"                                                                                                                                                                                                                             |
| 3/20/2024 | "It truly is a huge but frustrating common safety issue. Thankfully, it's fixable!"                                                                                                                                                                                                                                                                                                                             |
| 3/20/2024 | "Its getting harder and harder to drive to workn in the mornings nowadays"                                                                                                                                                                                                                                                                                                                                      |
| 3/20/2024 | "These lights make night driving dangerous!"                                                                                                                                                                                                                                                                                                                                                                    |
| 3/19/2024 | "I find myself looking away from oncoming traffic even in the daytime because even a brief direct look at the overly bright headlights momentarily blinds me. Dangerous for everyone including pedestrians."                                                                                                                                                                                                    |
| 3/19/2024 | "I thought I was alone or aging rapidly by being blinded by most new cars. I find Hondas/Acuras and the Cadillac Escalade to be the most aggravating. I work in the automobile business for many years and I get tbe technology. Was happy yo see the reported on WBZ and I eaderly sign my name to help find a solution for the offense of these laser-like headlights."                                       |
| 3/19/2024 | "Those lights are blinding."                                                                                                                                                                                                                                                                                                                                                                                    |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| 3/18/2024 | "These blind me and create more danger for drivers on the road. We've been just fine with regular headlights for decades; lets not ruin it with these LED headlights. If it doesn't stop, soon it'll be impossible to drive at night safely"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 3/16/2024 | "I was blind"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 3/16/2024 | "Having low vision, I struggle anyway, and there is always a "bewitching hour" I leave events because of difficulty seeing while driving at night. I will NEVER forget the first LED lights my eyes got "hit by". I was totally blind. A higher power took my wheel because I COULD NOT SEE!! Just because a few selfish 'very cool' or just 'idiots' see it as a step up? No one can tell me these have caused no problems on any road at night. All you "cool" dudes? You'll save a life or two if you care. But EGOS run high on the people who install them or buy them on their new car. WE SEE YOU ALREADY! VERY COOL CAR. EXCEPT YOUR HEADLIGHTS MAKE YOU LOOK VERY STUPID."                                                                                                                                                                                     |
| 3/15/2024 | "Blinding headlights are awful!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 3/13/2024 | "Bright white HED headlight are a hazard and car manufactures should be forced to revert to tradition holgens."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 3/13/2024 | "they obstruct others view of the road because of the unnecessary brightness, if you need LED lights for driving, you shouldn't be driving."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 3/13/2024 | "I have never had an issue driving at night or with headlight glare up until recently. The latest headlights cause such a blinding glare that it is so difficult to drive against them on a normal open road and almost impossible driving against them on tight winding back roads of rural areas. Recently, while driving up to the San Bernardino mountains, I found myself almost crashing due to the intense HI VIZ lights staring back down at me from traffic coming down the mountain. Some thing needs to change... How many lives will it take?!"                                                                                                                                                                                                                                                                                                             |
| 3/13/2024 | "Anyone with common sense knows that LEDs cause huge accident increases, especially with elderly drivers. LED is known to cause profound, permanent retinal damage and blindness with over exposures, and all through society these killer lights are diminishing the public's eyesight. This is your typical indifference by corporate/government (same entity) to the well-being of we the people! We absolutely need to ban the headlights, street lights, and LEDs in all public and private facilities in most of North America. And likewise abandon mandates against safe, incandescents and the requiring of only LEDS and CFL - fluoesant - which both emit harmful RF energy, have terrible spectral signatures which are bad for health, as well as corrupting electrical systems with dirty electricity, which degrades equipment and human/animal health." |
| 3/12/2024 | "It hasn't gotten darker over the past few years... so why am I getting multiple X-rays from headlights on my drive home from work every night? These headlights are so bright I have to look to the fog line and barely open my eyes and even then I'm temporarily blinded."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 3/11/2024 | "I'm tired of not being able to see. Especially bc I live in a place where everyone has raised cars/trucks so their headlights are beaming the light of God in my eyes directly behind me."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 3/11/2024 | "These headlights are blinding, especially when on large vehicles that sit high on the roadways. They pose a danger to all nighttime drivers, pedestrians in crosswalks, wildlife crossing roadways, and to public safety in general. Please ban them."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 3/9/2024  | "LEDs are the most toxic light source there is."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 3/6/2024  | "I nearly died last week thanks to LED headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| 3/6/2024 | "Bright headlights blind other drivers making it more difficult to see pedestrians or other vehicles."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 3/6/2024 | "I am getting affected by these LED and HID light in my everyday life. Maybe its just a matter of time to have an accident. Goverment should ban these lights before it will get too late."                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 3/5/2024 | "Driving at night has become very difficult due to headlight glare"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 3/5/2024 | "I have experienced LED lights shining into my vehicle so bright that it whited out my windshield and left me completely blinded, I had to stop my vehicle for a minute and let the other car go by. This is very dangerous. There is absolutely no reason to have headlights shining into peoples eyes and blinding them."                                                                                                                                                                                                                                                                                      |
| 3/5/2024 | "There are times I cannot see to my left, my right, in front of me, and or behind. I can not see the dividing lines on the road and had to have faith that I'm moving in the right direction. Even low beam LED lights make it incredibly harder to see. I wouldn't want to do that to someone else so I refuse to purchase led lights myself. Many Americans also deal with having an astigmatism which can make lighting more intense as is the case with me. Only police should have these lights on the road. One day I won't see something coming that I'd wish I would have."                              |
| 3/5/2024 | "i hate led headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 3/4/2024 | "I'm worried I will get into an accident due to blinding oncoming headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 3/4/2024 | "LED headlights are blinding!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 3/4/2024 | "Almost everyday I am confronted by blinding headlights be it in a vehicle coming toward me on the opposite side of the road or behind me.I leave early for work before the sun rises and sometimes I am out in the evening. I drive a compact sedan.These lights are often seen on pick up trucks and large SUVs as it seems the drivers are compensating for something missing in there lives.I just turn my rear view mirror so there lights shine back on them and they immediately back off as they know they are purposely trying to show an aggressive behavior an now don't like the backlash. Pitiful." |
| 3/4/2024 | "Most of my driving is on country roads, often winding and without any streetlamps anywhere. These new headlights are a disaster for me. I am afraid to drive at night because of them. Suddenly I can't see that the road curves or that there is a deer ahead. I have to slam on my brakes until the other car passes because I'm completely blinded."                                                                                                                                                                                                                                                         |
| 3/4/2024 | "These headlights are dangerous. I almost had many accidents because I was blinded by them."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 3/4/2024 | ""AAA has published numerous studies about headlights and related issues such as glare and did not find a problem" Are they kidding? Are they paid off? I have to focus my vision at the right side of the highway when one of these insanely bright cars is approaching or risk temporary retina burn that makes it nearly impossible to see. And don't get me started about these LED light when the idiot driver has the high beams on..."                                                                                                                                                                    |
| 3/4/2024 | "I drive a sedan and have been "blinded" by the bright lights of oncoming traffic. These lights need to be aimed and focused properly to minimize the danger this poses."                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 3/3/2024 | "They are dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 3/3/2024 | "We are moving further away from what is good for us, and must reverse course."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 3/3/2024 | "I'm tired of being blinded by terribly bright headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| 3/1/2024  | "They are hazardous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2/29/2024 | "I find these blinding lights dangerous. Especially when they are fitted in these higher SUV type of vehicles. I literally cannot see where I am going after passing one on a hill or rounding a corner"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 2/28/2024 | "With the increased popularity of SUV's combined with unnecessarily bright headlights the dangers for driving at night for lower chassis vehicles are increasing as well."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2/28/2024 | "FMVSS allows headlight beams that a horizontal. Mandating a 1% drop for instance 4 inch every 33 feet would be a good start. Pickup truck should have more drop because lights are mounted higher up by manufacturers design purely for aesthetics rather than safety of others"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 2/28/2024 | "I can no longer drive at night because of the danger."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/28/2024 | "I want to retain the best possible vision health for as long as possible. Reducing incidents of extreme glare exposure, especially during the heightened-attention activity of driving or at-night driving times when you cannot look away or shield your eyes, seems like a sensible step towards that aim. Furthermore, moments of blinding light exposure while driving also threaten the safety of the public, both those in vehicles and pedestrians, and should be designed away via safety regulations."                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 2/27/2024 | "I drive at night and people are bragging about " lighting up people's cabs". They are blinding me."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 2/27/2024 | "The blinding headlights are only getting worse. Now there is a whole big bar light across the front of some cars. They are so bright you can't see what's surrounding them. Dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 2/27/2024 | "Night driving has become very stressful and difficult for me due to the intensity of headlights on new cars"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 2/27/2024 | "They blind drivers in oncoming traffic. Especially older drivers who are a large part of the drivers"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 2/24/2024 | "our great empire of life is threatened by these pieces of dog fecal mater because it stops you from seeing and you crash and die and there is no heaven so death will be permanent"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 2/23/2024 | "Tired of having to literally close mid drive to avoid the blinding glare"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2/23/2024 | "Yes please. I have been in a few near-misses while being blinded by oncoming traffic."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/23/2024 | "LED headlights are causing problems."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 2/23/2024 | "It is atrocious that some people think they need excessively bright Headlights, also the lights were never approved or tested."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 2/22/2024 | "I am tired of car manufactures trying to cram as many LED's and other HID headlights that are intense in lumens, in such a way that it poses a real risk for everyone who has to be on the road with them. Especially when you factor in different heights of many of these vehicles, all the way up to big rig trucks, those of us in cars are absolutely getting wrecked by bright lights boring holes in our retinas. Many eye doctors around the United States are seeing higher rates of eye degeneration, due to being exposed to this blinding high intensity lumens that are allowed to be on the road. These headlights are insanely dangerous, and it is not always feasible for one to just "look away" from the headlights. There are people who are driving around with their headlights, led light bar wrapped around the headlights, their fog lights, and off-roading light bars full of LEDs, and other such headlight kits that absolutely blind the |

| 2/20/2024 | "As one of the millions suffering from migraines, the lights not only completely blind me they make me want to vomit. If that happened maybe I'd end up on top of the oncoming headlight abuser."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/19/2024 | "Dear god please dont let me die because some one in a giant vehicle is blinding me while I drive the winding mountain roads where I live!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 2/19/2024 | "I drive between Minneapolis and Chicago often and with my smaller car I am often blinded by those in trucks with LEDs. It's quite frustrating and dangerous since it hurts my ability to see the rest of the surroundings"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 2/18/2024 | "Dazzling Headlights are dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2/18/2024 | "I am 73 and have my eyesight checked regularly. But when driving I find many headlights are far too bright. I don't think it is necessary to have such bright lights and I think they are dangerous, as they dazzle you so much it is difficult to see the road ahead."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2/17/2024 | "There's a simple solution to safely being able to drive at night and deal with bright headlights and street lighting along with the glare they produce. Just wear polarized eyewear while driving or anytime you're out in the evening. I have been doing so for years and have no issues with bright lighting. The polarized eyewear does make a huge difference in dealing with the glare. I use lenses that clip on to my driving glasses. They are available in different shades to use in the evening or daytime; bronze or amber for evening or rainy weather and shades of grey for daytime use. The polarized lenses also sharpen your vision when driving on the highway during rain and fog. Just be smart about it and don't wear too dark of a lens in the evening." |
| 2/16/2024 | "LED headlights are blinding and dangerous fpr other drivers"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 2/15/2024 | "whenever I drive at night, I basically can't see from behind and from the opposite lane. It's scary and a danger to all."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 2/14/2024 | "I FUCKING HATE LED HEADLIGHTS"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

There is light pollution of all sorts damaging peoples eyesight and it should be addressed v"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 2/14/2024 | "I hate the glare at night it blinds me"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2/14/2024 | "This is a real problem, the lights are far to bright and makes it dangerous when dazzled by bright lights!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 2/13/2024 | "Headlights as well as red break lights as well! When I'm at a red light I feel I could melt, due to the intensity of those red break lights!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 2/13/2024 | "I will literally no longer be able to drive at night because of this I'm only 48 years old. These lights literally blind me and I'm afraid I'm going to crash."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 2/12/2024 | "The amount of light that is produced from headlights is absolutely blinding and makes me feel like I'm going to crash all of the time. There is nobody who needs that much light in order to drive well. However, we do need less light in order to drive well and be safe. Light pollution is an underappreciated problem. This is why I'm signing this petition."                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2/12/2024 | "Night time driving has become a nightmare for me due to blinding, misaligned and confusing lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

It's a problem for many people."                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 2/11/2024 | "I can't see at night when I drive and it's very dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 2/11/2024 | "Making driving in the dark more dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2/11/2024 | "This new crop of bright headlights are seriously too bright for me at night. I struggle every time I need to change lanes on highways and multi-lane streets because I cannot avert my eyes or ignore the bright lights in my side or rearview mirror. What used to be an occasional annoyance is now becoming a more substantial threat to my safety (and everyone who shares the road with me).. they're even brighter than my high beams! They also pose a safety threat for pedestrians, especially the elderly and visually impaired who are light sensitive." |
| 2/11/2024 | "I want to stay safe on the road."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2/11/2024 | "There's no recognition of the dangers of driving light that are to bright, both at night and also during the day, for cars trucks and motorbikes, due to government stupidly encouraging daytime use of head lights and daytime running lights (a marvellous safety innovation) that are too bright. The inept policy of wired on motorcycle headlight causes multiple deaths due to other road users not being able to judge motorcycle speed and acceleration."                                                                                                   |
| 2/11/2024 | "These headlights are dangerous, the glare reduces the ability of oncoming drivers"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 2/10/2024 | "It is getting increasingly difficult to drive safely at night. I am constantly being blinded by the ultra bright lights of oncoming traffic. There needs to be legislation to limit the intensity of headlights."                                                                                                                                                                                                                                                                                                                                                   |
| 2/10/2024 | "Living in a rural location, I have to drive home from work in middle of road to avoid numerous potholes on side of country roads and I literally have to stop if another car comes towards me with their oncoming blinding headlights with fear if I don't, I face a puncture from a pothole .....I can't win either way!"                                                                                                                                                                                                                                          |
| 2/10/2024 | "It's blinding"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 2/10/2024 | "Glaring headlights, side lights, hazard and bicycle lights are dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2/10/2024 | "New LED car lights are blinding, making driving extremely risky, especially on minor and country roads"                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| 2/9/2024 | "This is a real problem on country roads"                                                                                                                                                                                                                                                                                                                                        |
| 2/9/2024 | "I am being blinded by headlights it has become a real problem driving at night in the last few years. I don't feel safe."                                                                                                                                                                                                                                                       |
| 2/9/2024 | "Veronica ouchabane"                                                                                                                                                                                                                                                                                                                                                             |
| 2/9/2024 | "The lights are blinding and dangerous"                                                                                                                                                                                                                                                                                                                                          |
| 2/9/2024 | "Blinding lights are dangerous"                                                                                                                                                                                                                                                                                                                                                  |
| 2/9/2024 | "I find modern headlights too bright, sometimes blinding!"                                                                                                                                                                                                                                                                                                                       |
| 2/9/2024 | "Driving in the dark has become extremely dangerous. Risk like this would not be allowed in any work place never mind driving a killing machine around a bend or over a hill and just hoping for the best! Should be banned immediately."                                                                                                                                        |
| 2/9/2024 | "The lights are blinding as if people have full beam on"                                                                                                                                                                                                                                                                                                                         |
| 2/9/2024 | "Modern headlights are far too bright. It's alright for those behind the wheel, but for those facing the lights it's far too dangerous. It's an unnecessary hazard that's putting lives at risk. Modern drivers are so used to driving motors fitted with such dangerous lights that they just won't be able to cope if there's another war and we have to restrict our lights." |
| 2/8/2024 | "Headlights are way too bright now"                                                                                                                                                                                                                                                                                                                                              |
| 2/8/2024 | "Some of these Led lights are dangerous. Everything around them appears black and I have to slow down - sometimes to almost a stop in order to feel safe."                                                                                                                                                                                                                       |
| 2/8/2024 | "LED headlights are not cleanly focused downwards hence glare to oncoming drivers even when "dipped". Also LED light colour is cold-white, whilst incandescent are warm-white, hence less glare."                                                                                                                                                                                |
| 2/8/2024 | "I am regularly blinded by new Xeon headlights. They are dangerous"                                                                                                                                                                                                                                                                                                              |
| 2/8/2024 | "I am always being blinded by headlights that are too bright."                                                                                                                                                                                                                                                                                                                   |
| 2/8/2024 | "I find it very difficult to see the road when I am being blinded by oncoming traffic and sometimes traffic behind me, I have to avoid looking in my mirrors and checking behind me like I normally would for that reason."                                                                                                                                                      |
| 2/8/2024 | "Headlights are too bright or badly adjusted."                                                                                                                                                                                                                                                                                                                                   |
| 2/8/2024 | "I'm often blinded by oncoming headlights I'm 66 and I know my eyes are not perfect, but this is a real problem for me."                                                                                                                                                                                                                                                         |
| 2/8/2024 | "I have been dazzled so many times by these grossly inappropriate and unnecessary headlights that I frequently fear driving at night. They are the product of arrant stupidity on behalf of car designers who have limited understanding of what they are doing."                                                                                                                |
| 2/8/2024 | "Fed up being dazzled all the time,"                                                                                                                                                                                                                                                                                                                                             |
| 2/8/2024 | "Some headlights are so dazzling that they are a danger to all motorists. It's particularly bad when the oncoming vehicle is a SUV and also when it's raining. I have been driving behind vehicles where the driver has slowed to a really low speed because the driver is dazzled by headlights. This can be a secondary risk outcome of such bright oncoming headlights."      |
| 2/8/2024 | "I'm only 60 and already struggling to drive after dark safely due to the glare from LED headlights and high vehicles"                                                                                                                                                                                                                                                           |
| 2/8/2024 | "These excessively bright LED lights are stopping me going out in the evening. They are almost blinding."                                                                                                                                                                                                                                                                        |
| 2/8/2024 | "As I get older I'm finding it much harder to drive at night, despite having good eyesight and being an experienced driver. Some car headlights are simply dangerous."                                                                                                                                                                                                           |

|          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| 2/8/2024 | "Bright headlights are an increasing danger on our roads."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 2/8/2024 | "These lights are dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2/7/2024 | "LED lights are dangerous and strain drivers eyesight while in a vulnerable state in darkness to be "blinded" by bright lights from all directions."                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 2/7/2024 | "LED halogen headlights are dangerously bright; exceeding even brights of many cars."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 2/7/2024 | "there doing it on purpose just like everything else to decrease the population..."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 2/5/2024 | "They hurt!!!!!! It is truly painful! I should not have to stop night driving because some companies will not fix this mistake."                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2/5/2024 | "the lights are just too bright, and it's unsafe for other drivers!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 2/5/2024 | "These lights are too bright for on coming traffic. I try to look away, at the right paint strip, but once you glance into these lights, it's spots for several seconds. I believe risk to other drivers outweighs benefits of being able to see into the next county. Thanks."                                                                                                                                                                                                                                                                                                           |
| 2/5/2024 | "I HATE those headlights. I can't tell you how often I'm blinded by them; it's like people are driving around with their brights on. And, that auto-dimming feature doesn't work well at all."                                                                                                                                                                                                                                                                                                                                                                                            |
| 2/4/2024 | "Instead of Banning Blinding headlights, why not try to raise awareness for blinding headlights and suggest tinting or nighttime worn glasses."                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 2/4/2024 | "I've almost killed a pedestrian . It is unbelievably dangerous and needs to be recalled , just like airbags or dangerous seatbelts!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 2/4/2024 | "I'm tired of blinding lights and tailgating with said blinding lights trying to run me off the road. It's obnoxious and absolutely a danger to drivers. Nobody needs lights on their car bright enough to see into the future."                                                                                                                                                                                                                                                                                                                                                          |
| 2/4/2024 | "These really are dangerous and I can only hope they get banned."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 2/3/2024 | "I want to be able to drive at night without being blinded by headlights. Either ban them or position them lower."                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 2/3/2024 | "I can't stand being blinded by an increasing number of headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 2/2/2024 | "It's a health hazard and safety hazard to not only human beings but all living beings"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2/2/2024 | "Safety matters."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 2/2/2024 | "I am a young woman and it has become so difficult to drive at night because of bright headlights. I even have a higher sitting car and it is still difficult, it has made driving at night anxiety inducing and something needs to change."                                                                                                                                                                                                                                                                                                                                              |
| 2/1/2024 | "High glare blue LED headlights blind drivers especially on dark roads. Night vision is blown as one comes around a curve into those glaring lights. Overly bright blue lights are a dangerous safety hazard. Too many years have passed without DOT or other agency action. Outlaw blue headlights ASAP!"                                                                                                                                                                                                                                                                                |
| 2/1/2024 | "I drive at night due to my work schedule. Oncoming lights are bad news"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 2/1/2024 | "LED headlights are danger to the road and hazardous. they're not needed and they're not appreciated"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 2/1/2024 | "I suffer to and from work each and every day. I see people blinding others at crosswalks and even near schools. I find it unbelievable that it is standard practice. School buses use high beams as well. Vehicles are using highbeams even before my night time running lights go on automatically. It is extremely dangerous for the safety of children. I hope you can make a difference. According to Academies of Opthamology, they are damaging to our eyes as well. The long term damage is unknown, but it is painful to the eye indicating the possibility of damage. Insurance |

| 1/23/2024 | "I need to hold up my left hand to block the super bright oncoming lights. So annoying and dangerous!!"                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/22/2024 | "its really dangerous to keep those LED headlights on the road, its blinding!!"                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 1/22/2024 | "Led/hid head lights should be illegal"                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/22/2024 | "I've nearly been in accidents from blinding headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 1/22/2024 | "It is Awfull trying to drive safely on the roads/motorways with these ridiculous unwelcome unneeded bright lights that blind you whilst trying to drive safely for yourself & others! Unnessasary! Something needs to be done about the problem it's causing !!"                                                                                                                                                                                                                                               |
| 1/21/2024 | "I definitely hate driving at night because of these bright lights. Once it hits my eyes while driving I can't see for a couple of seconds. Which is bad because I could get into an accident. I've had to even get anti-glare glasses to see at night because my vision has gotten worst due to the bright lights blinding me."                                                                                                                                                                                |
| 1/21/2024 | "Ban Blinding Headlights and Save Lives! Auto makers have been putting dangerously bright lights on cars. They cause accidents and deaths!!!nIt is a great risk to drive at night any more!! Let's change that!!"                                                                                                                                                                                                                                                                                               |
| 1/21/2024 | "It's hard to see anything when oncoming traffic and the other side of the road has these lights, which makes a very blind and indificul To see in order to drive safely ."                                                                                                                                                                                                                                                                                                                                     |
| 1/20/2024 | "Headlights should be limited by lumens and brighter bulbs banned from sale. They dazzle, and retinal afterglow at night still makes driving unsafe for several seconds after being seen."                                                                                                                                                                                                                                                                                                                      |
| 1/20/2024 | "I want to be able to use my eyes properly on the road"                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/20/2024 | "Factory installed binding lights is reckless and should be outlawed and car manufacturing corps sued. Blinding lights cause crashes and deaths. Recall all cars with such lights and ban them!!!"                                                                                                                                                                                                                                                                                                              |
| 1/20/2024 | "There's no need for LED lights. The old ones were good enough for all those years."                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 1/20/2024 | "LED headlights are blinding for other drivers and this can get people KILLED."                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 1/19/2024 | "This is getting ridiculous. I'm not for banning LED lights all together but they can't allow the truck headlights, at eye level of the average car, to have these bright lights. The average car is below the cutoff shield of the tall trucks. I now carry a piece of cardboard covered in tape to hold up to these lights and have pointed my mirrors away from the other vehicles. All of this is making things more unsafe. I've wrote the safety board many times but always get the same response back." |
| 1/19/2024 | "LED lights have triggered so many migraines and negatively affected my ability to work because of it."                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/19/2024 | "These headlights blind me, making it hard to see the road while they approach me, and after they pass, as my eyes readjust. In my small town with pedestrians, if one were step out into the street to cross, I wouldn't see them because of these headlights. It's a disaster waiting to happen."                                                                                                                                                                                                             |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| 1/17/2024 | "I like being able to see."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 1/17/2024 | "The too bright headlights are dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 1/16/2024 | "I want to be able to drive at night without guessing where the painted lines start and end because all I see is blinding light"                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 1/15/2024 | "I am getting old and these light are blinding, I have to drive home around 8:30 every night and the lights make driving almost impossible"                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 1/15/2024 | "for a no. of years I have increasingly been aaffec=ted by the many factors mentioned n this petition. I kept thinking these things would immediately be changed in the next year's car models or not permitted by federal agencies that ,monitor safety in our cars, on oour roads, etc. But it is only gotten worse on a daily basis. This petition speaks to a terrible danger among us throughout the country as proven by our growing death toll. It is already too late for many but will help everyone if some of the suggested actions are implemented now and by federal law." |
| 1/14/2024 | "I am also having trouble driving at night. The new car headlights blind me"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 1/14/2024 | "They are a menise and blinding"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 1/14/2024 | "I find these lights really hurt my eyes, even in my mirrors when the car is behind me. This is bot only very distracting when I'm driving home after a 12 hour care shift, but, I believe, damaging to the eyes as well as stressful and unnerving for other road users. I believe this affects our safety and our wellbeing. Please please ban their use. Their benefits to the driver with this lights is far outweighed by the detriment they cause to others."                                                                                                                     |
| 1/14/2024 | "Those headlights are not only dangerous, but it is also stopping probably THOUSANDS of us frm going out at night, thus leading to ALSO damaging the                                                                                                                                                                                                                                                                                                                                                                                                                                    |

|           |                                                                                                                                                                                                                                                                                                   |
|-----------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|           | economy, family ties, and MANY small businesses! I personally know at least 10 people who will no longer go out at night! They are even a drag in the daytime!"                                                                                                                                   |
| 1/14/2024 | "It's gotten to the point where I avoid driving at night completely because I find it so dazzling and cannot see. It's so unsafe!"                                                                                                                                                                |
| 1/14/2024 | "You are correct, this is the reasons why people get blind."                                                                                                                                                                                                                                      |
| 1/14/2024 | "I hate blinding lights like the song by The Weeknd"                                                                                                                                                                                                                                              |
| 1/14/2024 | "I am finding it very difficult to cope with these very bright headlights which do not seem to bother to dip until the last minute"                                                                                                                                                               |
| 1/13/2024 | "I'm beginning to be very concerned about night driving. The glare is so dazzling that the total ability of seeing clearly compounds the problem of avoiding pot holes at the side of the road"                                                                                                   |
| 1/13/2024 | "It's absurd that these aren't outlawed already. WAY worse than brights, which ARE illegal to have "always on"."                                                                                                                                                                                  |
| 1/13/2024 | "These lights are very blinding."                                                                                                                                                                                                                                                                 |
| 1/13/2024 | "I have been blinded many times by bright lights. I believe they cause too many accidents on our roads."                                                                                                                                                                                          |
| 1/13/2024 | "I often struggle driving when it's dark due to other vehicle headlights"                                                                                                                                                                                                                         |
| 1/13/2024 | "They blind me"                                                                                                                                                                                                                                                                                   |
| 1/12/2024 | "I am blinded daily! They need to change the headlights!! Meg Shaw"                                                                                                                                                                                                                               |
| 1/12/2024 | "I've read some of the studies that show humans need shadows and light contrast in order to see well. Other species are severely impacted by these too bright lights. These lights disrupt migratory birds, disturb mating, interfere with navigation, and cause numerous other health problems." |
| 1/12/2024 | "Fed up of being blinded"                                                                                                                                                                                                                                                                         |
| 1/12/2024 | "These lights are damaging and hurting my eyes"                                                                                                                                                                                                                                                   |
| 1/12/2024 | "They are blinding towards drivers travelling in both directions it should be made illegal"                                                                                                                                                                                                       |
| 1/11/2024 | "I'm sick and tired of being blinded while trying to drive at night."                                                                                                                                                                                                                             |
| 1/11/2024 | "Far to Bright ! Can't see at night !"                                                                                                                                                                                                                                                            |
| 1/11/2024 | "It's dangerous to drive and I've nearly had an accident due to not being able to see"                                                                                                                                                                                                            |
| 1/10/2024 | "I can't see the road when these lights are coming at me. Some of them physically hurt."                                                                                                                                                                                                          |
| 1/10/2024 | "I want these LED headlights banned because they may cause fatalities on our country roads or any other roads. The cars are higher now and the lights blinding to incoming traffic."                                                                                                              |
| 1/10/2024 | "I think this is a growing problem, especially with the increased use of after market replacement bulbs. Accidents due to dazzle remain largely unprovable and hidden."                                                                                                                           |

| 1/3/2024  | "It is blinding and dangerous to have head on traffic have these bright lights on."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 1/3/2024  | "I've literally had to stop my car in middle of St because I was blinded so bad and continue to be blinded by tree lighs"                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 1/3/2024  | "I could no longer drive at night because of these blinding lights. Please ban them now."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 1/3/2024  | "HID's don't help the driver see better, they're only more blinding to incoming traffic. Gotta go."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 1/3/2024  | "It's difficult to drive at night with these blinding lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1/2/2024  | "These lights can suck my dick"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/2/2024  | "Ok listen up everyone reading this. I have some cold hard facts to say and what I have resorted to doing First the cold facts A petition won't do anything this is a company that does what it wants. Which brings me to fact 2 Contrary to what anyone thinks or says, LED's are actually not legal on headlights. The companies just went ahead and did it as there is no recourse. Just like cops do things that aren't legal, they just go ahead and do it anyway. What are you going to do? Oncoming isn't the real problem either. The real danger is from behind you which impairs all vision." |

|          |                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|          | Oncoming is still dangerous but behind is completely lethal Here is what I have resorted to doing. I encourage everyone else to do the same. Because this problem is so bad I have resorted to keeping a pretty large highly polished 2-way mirror in my vehicle which I put up any time some idiot with this hazard is behind me. I'm also on the verge of covering the outside of my vehicle with mirrors"                      |
| 1/2/2024 | "I no longer drive very far at all at night due to these oncoming glaring headlights; some are not merely 'individual' headlights but ones which light up most of front AND rear of newer cars! Yes, I am an older driver but I know of many people considerably younger than I am who feel the issue of oncoming glaring/blinding headlights is not just annoying but downright dangerous!"                                      |
| 1/1/2024 | "Driving in towards or in front of bright blinding lights is so dangerous, and my aging eyes can not adjust quickly enough to safely drive. BLINDINGLY bright headlights should be illegal. Aftermarket modifications should also be illegal."                                                                                                                                                                                    |
| 1/1/2024 | "These ridiculously bright headlights leave me partially blinded and I'm worried it will lead to me hitting a pedestrian. I feel like I'm being assaulted everytime I drive at night, and sometimes even during the middle of the day by vehicles 2-3 blocks away. The attempts to refine headlight adaptive technology is a waste of time for anywhere that isn't perfectly flat at all times, such as in Seattle where I live." |
| 1/1/2024 | "These super bright lights are blinding me so much as to making my driving at night very scary and dangerous to me and others"                                                                                                                                                                                                                                                                                                    |
| 1/1/2024 | "I can't see when I drive at night because selfish people drive cars with unregulated headlights that blind others while lazy government officials do nothing to correct a public safety hazard."                                                                                                                                                                                                                                 |

| 12/31/2023     | "Im tired of being blinded for seconds on end while driving at night. It is a safety hazard and just unnecessary road bullying in my opinion."                                                               |
| 12/31/2023     | "he aint lying!!!!!!!!!!!!!!"                                                                                                                                                                                |
| 12/31/2023     | "I can't see when led headlights come toward me at night."                                                                                                                                                   |
| 12/30/2023     | "I cannot see for these headlights coming at me. I fear for my life and the lives of others."                                                                                                                |
| 12/30/2023     | "I can't see when hit full on with those brights."                                                                                                                                                           |
| 12/30/2023     | "New car's and SUV's and Truck's are a very blinding and distracting intensity and color...Make's me want to put my sunglasses on but as we know this can be Deadly."                                        |
| 12/30/2023     | "I know LED's are better, however they need to be checked for brightness and blue light. Make them less bright and more yellow/orange."                                                                      |
| 12/29/2023     | "I was forced to stop in heavy traffic when I was blinded by a truck with very bright headlights. Others were forced to stop as well. I feel lucky to have avoided an accident. This is not the first time." |
| 12/29/2023     | "These bright headlights make it difficult for me to drive at night. Blinding!"                                                                                                                              |
| 12/29/2023     | "These headlights are unsafe and unnecessary."                                                                                                                                                               |

|            |                                                                                                                                                                                                                                                                                                                                                        |
|------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 12/28/2023 | "I just drove the most horrific night drive of my life with blinding headlights and rain making me worry if we would make it home alive. Tons of accidents on the interstate. These blinding lights make it so much more difficult to see the lines."                                                                                                  |
| 12/28/2023 | "I am signing because I have eyes and wish not to be blinded and driven off the road after staring at two, small orbs which cast light so boiling hot that they may as well be two small suns."                                                                                                                                                        |
| 12/28/2023 | "I'm tired of being blinded at night my extremely bright headlights. And my eyes are not overly sensitive."                                                                                                                                                                                                                                            |
| 12/27/2023 | "It's crazy. I counted six headlights on a truck the other day. Maybe these are meant to be pavement princesses, but this amount of light suddenly can literally stun you if it comes over a hill fadt."                                                                                                                                               |
| 12/27/2023 | "It is interest of safety"                                                                                                                                                                                                                                                                                                                             |
| 12/25/2023 | "Donna Shaw"                                                                                                                                                                                                                                                                                                                                           |
| 12/25/2023 | "I can barely drive at night anymore."                                                                                                                                                                                                                                                                                                                 |
| 12/25/2023 | "In the last year alone, I have noticed an upturn in being blinded by overly bright headlights or high beams. I'm exceptionally tired of having to adjust my rear view mirror or side mirrors to stop being blinded."                                                                                                                                  |
| 12/24/2023 | "Unsafe.....what if a bicycle is in front of me and I'm dazzled by these led lights"                                                                                                                                                                                                                                                                   |
| 12/24/2023 | "This is very dangerous gives me massive headaches. I feel like car inspections should come back and testing headlights should be one of the items that drivers either have to fix or no be allowed to have those cars on the road."                                                                                                                   |
| 12/23/2023 | "Duh!"                                                                                                                                                                                                                                                                                                                                                 |
| 12/23/2023 | "Blinding headlights are simply dangerous. We need regulation to limit how bright headlights can be."                                                                                                                                                                                                                                                  |
| 12/21/2023 | "The lights are blinding and darken visibility around us. We don't need these lights!"                                                                                                                                                                                                                                                                 |
| 12/21/2023 | "I am constantly blinded at night by these new headlights! And i am young with good vision except for some astigmatism."                                                                                                                                                                                                                               |
| 12/21/2023 | "Xenon headlights are extremely bright and blinding, if you can't use your cellphone while driving because it is a distraction from the road, then why are these headlights allowed when they distract/blind other drivers?"                                                                                                                           |
| 12/20/2023 | "I feel that I can't safely drive at night. This impacts my social life greatly. I used to go to meetings and was involved in the community and events."                                                                                                                                                                                               |
| 12/20/2023 | "Let's go back to when we cared about the other people on the road. Also must band auto adjust as it doesn't work fast enough. Been getting blinded by these ultra bright lights that exceed my high beams. It's dangerous. How did the USDOT miss this??? Negligence on there part to the highest degree!"                                            |
| 12/20/2023 | "I have noticed over the last 10 years or so a lot of extra bright, blue tinted headlights. They cause pain in the eyes since blue is a color the eye is sensitive to and they are dangerous since after car has passed your eyes have shrunk the amount of light allowed into the eye so it takes a minute or so to regain your normal night vision." |
| 12/20/2023 | "Headlights are so incredibly intense these days, especially on dark country roads. I am scared to drive at night now."                                                                                                                                                                                                                                |
| 12/20/2023 | "I have astigmatism in both eyes and driving at night is brutal due to the headlights."                                                                                                                                                                                                                                                                |
| 12/20/2023 | "I stand for this!"                                                                                                                                                                                                                                                                                                                                    |
| 12/20/2023 | "Those headlights make it so I can't see shit. That's why"                                                                                                                                                                                                                                                                                             |
| 12/19/2023 | "I can't stand the halogen headlights! They give me a headache and make my night blindness so much worse."                                                                                                                                                                                                                                             |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 12/19/2023 | "Hi Annette, Halogen on Low Beam is actually Much better than LEDs as far as being safer for Everyone. The nature of LEDs being such a dense and directional form of light is the reason that we're up in arms."                                                                                                                                                                                                                                                                                             |
| 12/19/2023 | "Those lights hit you right in the face and make it impossible to see!! Please fix this!!!"                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/18/2023 | "I like to be able to see where I'm driving at night. LED headlights are the worst"                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 12/18/2023 | "Road fatalities, dead birds, eye stabbing lights. Enough is enough!"                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/18/2023 | "The brightness makes it quite difficult to see anything else."                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/18/2023 | "These headlights have been a problem for me, also. I support this effort."                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/17/2023 | "I feel that the trend of ultra white bright headlights are a serious safety hazard."                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/17/2023 | "Personally tired of being blinded by these lights while driving."                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/17/2023 | "They are blinding to oncoming traffic."                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 12/17/2023 | "I'm a trucker and I don't want to kill anybody because of overly bright headlights. It's so sad that the FMCSA and the DOT are playing games with you and I and refuses to testify in front of the world and in front of bright blinding headlights with their eyes wide open staring into the beast they unleashed upon the world. I would gladly make a mobile light system with the maximum limit they allowed which is 75,000 luminous power just to see how long their eyeballs last as they testify." |
| 12/16/2023 | "I hate the blinding blue led lights especially!"                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 12/16/2023 | "I'm tired of the recent trend toward blinding oncoming headlights!"                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/16/2023 | "I have a car and have experienced this "blinding", especially when I approach a truck or SUV coming toward me in the opposite lane. I have had several near misses. This needs to be corrected ASAP. What were the car manufacturers thinking?????"                                                                                                                                                                                                                                                         |
| 12/16/2023 | "I'm tired of being blinded constantly at night because of these overly bright headlights. Also some of the drivers of cars with these headlights are inconsiderate to others when parking in lots by leaving them on while parked in front of you. Many of them also tailgate you and the lights are so bright in your mirrors it makes driving very dangerous."                                                                                                                                            |
| 12/15/2023 | "I agree. They are blinding both coming at you and when behind you. I see these lights for sale everywhere. Why?!"                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/15/2023 | "I would rather hit a deer than oncoming traffic! I cannot see, both when traffic is coming at me and when a car with these lights is behind me! The idea that now there will be glass that dims the glare on these lights is ludicrous. When does it end? Insane. Nobody is landing a freaking 747 and testing these on an empty track? Come on. Get rid of these LED lights."                                                                                                                              |
| 12/15/2023 | "I wholeheartedly agree. These ridiculous LED car lights NEED to be banned. So dangerous and so unnecessary. They also cause long term damage to our eye sight, damaging the retina. I've often had to break sharply as the road ahead can't be seen because of oncoming cars with these blinding lights. Even cars behind blinding me with their LEDs shining into my rear view mirror. And driving far too close on country roads, being so impatient... but that's for another petition!"                 |
| 12/15/2023 | "It's outrageous. And I can't see at night"                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/15/2023 | "They are absolutely blinding & make it unsafe to drive."                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/14/2023 | "They need to be banned. They are blinding when driving. Not safe at all."                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/14/2023 | "Every day I am blinded driving on dark country lanes by these lights that are too bright. It is seriously dangerous"                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/14/2023 | "If ANYBODY Needs THAT BRIGHT Of Blinding Headlights To See The Road When Driving At Night, They Shouldn't Be Driving AT ALL In The First Place. People Need To                                                                                                                                                                                                                                                                                                                                              |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|            | SLOW DOWN When Driving At Night, Especially In High Traffic Areas, Or ANYWHERE For That Matter. Simply OUTLAW The Bulbs And Have Them Replaced With The Traditional Yellow Bulbs At Safety Inspection Time, Or The Driver Gets Ticketed. Problem Solved REAL FAST..."                                                                                                                                                                                         |
| 12/13/2023 | "These lights are so dangerous at night when someone has a light case of night blindness these bright lights make things a lot worse."                                                                                                                                                                                                                                                                                                                        |
| 12/13/2023 | "It's becoming impossible to leave my house at night...I live off a two lane highway and often have to pull off the road."                                                                                                                                                                                                                                                                                                                                    |
| 12/13/2023 | "Too many bright lights not properly aimed, but blinding me from front or rear. I travel on twisty road, and lots of deer roaming about."                                                                                                                                                                                                                                                                                                                     |
| 12/13/2023 | "I'm tired of being blinded"                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/13/2023 | "Halogen lights on other vehicles make driving dangerous for other road users. My child is AUTISTIC and she gets distressed in the car, when we are driving in the Winter, or in low light conditions, when other road users have these blinding headlights. They are unnecessary and dangerous."                                                                                                                                                             |
| 12/13/2023 | "These lights blind you and keep you from seeing correctly."                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/13/2023 | "Safety of my family"                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/12/2023 | "Safety issue...I can't see when I'm driving and cars coming at me blind me."                                                                                                                                                                                                                                                                                                                                                                                 |
| 12/12/2023 | "It's ridiculous I have to wear sunglasses at night and it's still too bright. I can't file suit against them since I'm in a ditch...dead."                                                                                                                                                                                                                                                                                                                   |
| 12/12/2023 | "Blue/ super white lights make very difficult to drive at night"                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/12/2023 | "I have almost sworn off driving at night due to the dangers of glare."                                                                                                                                                                                                                                                                                                                                                                                       |
| 12/11/2023 | "I agree!"                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/11/2023 | "Too much glare at night."                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/11/2023 | "These lights are blinding to other drivers, incl me, which makes driving more dangerous than it already is."                                                                                                                                                                                                                                                                                                                                                 |
| 12/11/2023 | "I want to be safe in the roads at night when I drive my kids in our low to the ground station wagon!"                                                                                                                                                                                                                                                                                                                                                        |
| 12/11/2023 | "Of course! And postal delivery trucks are the worst offenders"                                                                                                                                                                                                                                                                                                                                                                                               |
| 12/11/2023 | "I agree. They say its safer for people because it allows them to see but what about those are blinded. Someone said that it looks like everyone has their brights on. There's the point when you are in traffic your lights aren't on bright and away from traffic on bright to see better. We don't need brighter lights for the low beam. Make the high beam bright to see better when your in the dark not in traffic."                                   |
| 12/11/2023 | "The "new" headlights are too bright. When confronted w them, my eyes do not adjust to nighttime normal light levels. This is a particularly serious issue when driving through unlit places such as rural roads and many town streets. Also, w the driving field lit so brightly in front of drivers who have these lights, a cave effect is created, thereby they cannot see to the left or right where there could be an animal, a person, a stalled car." |
| 12/11/2023 | "I have been blinded by these lights also and have nearly been into accidents. I think people are able to see just fine with our old headlights and if they can't then maybe they should not be driving at all."                                                                                                                                                                                                                                              |
| 12/11/2023 | "Regulation & enforcement needed."                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 12/11/2023 | "The blinding light is unbelievably dangerous and creates unnecessary hazards for all on the road."                                                                                                                                                                                                                                                                                                                                                           |
| 12/9/2023  | "I'm 28, with no vision issues, and I still hate these blinding headlights."                                                                                                                                                                                                                                                                                                                                                                                  |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| 12/8/2023 | "Tired of being absolutely fucking blinded on roads"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 12/8/2023 | "Get rid of the blue headlamps completely, please."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/8/2023 | "i see lights like this all the time and it never gets old. there's been multiple times i haven't been able to see because a huge truck was behind me with their lights blaring. it's unsafe, and it can cause wrecks and dies cause wrecks all the time. nobody is going to stop using them, so we should definitely ban them. i get the appeal of wanting to be able to see better at night. but over the safety of others? no"                                                                                                                                                                                               |
| 12/7/2023 | "The new LED headlights have gotten out of hand. They make driving at night especially hazardous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/7/2023 | "It getting is increasingly hard and uncomfortable to drive at night with more and more cars having blinding headlights. I worry that it could affect my safety, or safety of others."                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 12/6/2023 | "Led headlights are dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/6/2023 | "My eyes are highly sensitive to light, and the intense brightness, akin to high beams, illuminates my entire vehicle, blinding me. Consequently, I have to turn all my mirrors away to divert the light from my eyes, which poses a safety risk as I lose the functionality of my mirrors. In such situations, I find it necessary to pull over to the side of the road and allow the vehicles with bright lights to pass. This can be perilous, and it's crucial for people to comprehend the impact these bright lights have on the driver ahead, surpassing even the disturbance caused by emergency blue flashing lights." |
| 12/6/2023 | "These extremely bright headlights - especially on these huge trucks and SUVs are dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/6/2023 | "It's so dangerous to drive at night when you are literally blinded by oncoming cars constantly!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 12/6/2023 | "This shouldn't even be needed. These things are dangerous, whether you're going toward them or if they're in your rear-view. They need to GO AWAY!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 12/6/2023 | "The new lights are brighter than a high beam, making it very dangerous. Specially at night, we can't even see the roads because of these lights. Please just STOP."                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 12/5/2023 | "I am sick of being blinded and rendered unsafe by cars in the other lane. It's incredibly unsafe and inconsiderate."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/4/2023 | "I've had to slam my on breaks on on numerous occasions simply because I couldn't see anything ahead other than the dazzling headlights, they are very dangerous. Even more so in the rain when you are trying to avoid potholes. Plus, having such bright lights can make drivers less cautious when driving along unlit roads, making them even more of a hazard."                                                                                                                                                                                                                                                            |
| 12/3/2023 | "LED lights are blinding and make night driving a dread. I often cancel plans or leave before dark to avoid vehicles on the road that have LED lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/3/2023 | "These new LED lights are so bright!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/3/2023 | "the new headlights are to bright! They are blinding!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 12/3/2023 | "I was almost killed cause I was blinded by the LED headlights on a vehicle. Please do something about these headlights. No one needs headlights as blindly bright as they are."                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/2/2023 | "I be find driving home at night terrifying as I have to drive on a fast road with bends in the country and sometimes find it hard to see"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/2/2023 | "I've had experience of these dazzling headlights. I have to really slow down as I can never see my surroundings"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| 12/1/2023  | "I'm a senior, nearly 70, and have had cataract and DESEK surgery. So, the latest super-bright headlights really glare and bother my night vision."                                                                                                                                                                                                                                                                                                                                      |
| 11/29/2023 | "LED headlights feel like someone shining a spotlight directly in your eyes. Painful, distracting, and dangerous. Please ban these awful lights from the market!"                                                                                                                                                                                                                                                                                                                        |
| 11/29/2023 | "Suzanne Dolgetta"                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 11/28/2023 | "I almost hit a guy because someone else's headlights made it impossible to see the road"                                                                                                                                                                                                                                                                                                                                                                                                |
| 11/28/2023 | "Not only are these lights blinding and dangerous but it is triggers migraines to people, such as myself. I was so blinded driving last night that I woke up with an excruciating migraine! These lights need to be band!!"                                                                                                                                                                                                                                                              |
| 11/24/2023 | "I have an astigmatism in both eyes, and am very prone to migraines and driving at night is so stressful. I wish I could just not drive at night, but it's simply not feasible. Please limit the lumens on headlights so we feel safer driving at night"                                                                                                                                                                                                                                 |
| 11/24/2023 | "Safe driving"                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 11/23/2023 | "I believe in saving lives and agree with what this petition is saying. Plain and simple all these bright lights do indeed cuase a bright blinding to the other drivers on the road."                                                                                                                                                                                                                                                                                                    |
| 11/21/2023 | "As somone eith astigmatism driving home at night has become something I dread."                                                                                                                                                                                                                                                                                                                                                                                                         |
| 11/20/2023 | "It is time to make driving safe for everyone again."                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 11/20/2023 | "They are indeed blinding for other drivers, pedestrians & animals, both pets & urban wildlife."                                                                                                                                                                                                                                                                                                                                                                                         |
| 11/19/2023 | "I almost ran off into the ditch because of these light - twice (from a big truck). Was coming home from class - roads are marked but blinded me big time. Scared me. 🙄"                                                                                                                                                                                                                                                                                                                 |
| 11/18/2023 | "I'm tired of being blinded every night"                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 11/18/2023 | "Just because EV cars have longer range with LEDs it should of never been passed to be allowed into production, I remember 10+ years ago when people were modifying there cars with HID and getting pulled for it, now its the norm! Is this another reason they are having to reduce speed limits because everyone is dazzled by the lights?! It needs to change."                                                                                                                      |
| 11/17/2023 | "Boy,the mentality"                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 11/16/2023 | "Headlights are too damn bright nowadays, and something needs to be done about it!"                                                                                                                                                                                                                                                                                                                                                                                                      |
| 11/16/2023 | "I have astigmatism and the headlights are way too bright at night which causes difficulty to see ironically."                                                                                                                                                                                                                                                                                                                                                                           |
| 11/16/2023 | "My eyes are light sensitive, and these headlights appear to me as if they are on the 'bright' setting. They are essentially blinding for someone like me....I've had many terrible experiences trying to navigate, particularly with narrow and/winding roads, with drivers of vehicles with LED headlights. The jacked up trucks are the worst, due to where their headlights hit the side & rear view mirrors of smaller vehicles."                                                   |
| 11/15/2023 | "LED car headlights are way too bright during nighttime driving. It becomes even worse when people use high beams when they're ABSOLUTLY NOT NECESSARY. Legally, you are only allowed to use high beams when it is difficult to see and there is no approaching traffic (not just cause you feel like it). LEDs create extreme glare, which blinds all incoming traffic and from the back if they are behind you. This makes it way more dangerous to drive at night than it should be." |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

They are dangerous enough when driving nevermind parked on narrow roads full blazing so you can't see what's going on past the car! They want to thank their lucky stars I'm not one to rally around the place...They need banning"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 11/15/2023 | "fuck these god damn lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 11/15/2023 | "Brian Miller stated a few comments ago: "You guys are not aiming your reform at the true problem. LED headlights are fine, when implemented and used CORRECTLY! And also the guys who simply put LED bulbs into headlights that were designed for halogen beams, which causes glare unlike properly designed LED lights". So Brian, all of the hundreds of thousands of people on here, Facebook, Twitter, Tik Tok and other social media complaining about these headlights are wrong, and you are right? And all of the medical studies and government agencies condemning LED headlights as poisonous, photo-toxic and dangerous are also wrong, but you are right? How absolutely laughable. I drive for a living and I see headlights all day long, every day. I see them on in the daytime as well as on overcast and raining days, when it is light out. So I can clearly see that the majority of these problematic headlights ARE factory installed LED headlights on newer vehicles. Only about 20 percent of them are LED bulbs in halogen housings or aftermarket LED retrofit kits (easily identifiable). EXCEPT for semi-trucks. For them the rate of illegality is near 95 percent. As for the naysayers who continue to claim that the problem with LED headlights is merely that they are all misaligned, and that all of these vehicles with LED headlights are leaving the factory that way: that as well is absolutely laughable. And even IF that was true, that only PROVES that LED headlights are dangerous. Because any PROPER headlight would NOT be blinding or dangerous even if they WERE misaligned. In my 35 years of driving I have met many vehicles with one or two halogen headlights obviously misaligned, either pointing too high or too far into my lane. Even misaligned, no halogen headlight has EVER forced me to close my eyes, or almost made me have an accident because I could not see anything, caused me eye pain, or given me a pounding headache. But that's a regular occurrence for me (and many others) with these so-called "correctly implemented and used" factory LED headlights. This is simple logic, Brian. Try using it sometime. The only properly designed LED headlight is one that has been smashed to shards with a baseball bat. PS: I have been typing this with a belly full of pain killers which I took to try and cope with ANOTHER ocular headache brought on by exposure to FACTORY LED headlights on my drive home from work in the dark." |
| 11/15/2023 | "I care about people not crashing"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 11/15/2023 | "Lights above a certain brightness are a danger to oncoming drivers"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 11/15/2023 | "This is dangerous for other drivers."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 11/15/2023 | "I hate those dumb ass bright lights!! Shits dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| 11/14/2023 | "You guys are not aiming your reform at the true problem... LED headlights are fine, when implemented and used CORRECTLY! The problem we have is all the D-bags in lifted vehicles who have their headlights aimed higher than they should be. And also the guys who simply put LED bulbs into headlights that were designed for halogen beams, which causes glare unlike properly designed LED lights."                                                                                                                                                                                                                                                                                                                |
| 11/14/2023 | "It's extremely distracting and it is painful f9r the eyes they should be klegal"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 11/13/2023 | "LED and Xenon headlights are blinding with a brightness that is unnecessary."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 11/13/2023 | "The LED headlights are so bright that they blind me when I am driving. I have to wear sunglasses at night and they are still too bright. They are going to cause a lot of accidents. Living in the city is stressful enough and we do not need the whole city driving around with their high beams on blinding oncoming traffic. For that matter if a large truck is behind me it blinds me in my rear view mirror as well. This has got to be reversed immediately! So do the LED Street lights!"                                                                                                                                                                                                                     |
| 11/12/2023 | "I know how hard it is to drive with blinding lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 11/12/2023 | "I like being able to drive (or walk or bicycle) safely without being blinded by others' headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 11/12/2023 | "I'm signing because they're unsafe for the road! They're unsafe for anyone. They cannot possibly add enough additional acuity for the driver on the road to justifying making it exponentially more unsafe for every single driver whom they drive opposite of. They're blinding. I have to put my hands up in front of my eyes when I am driving opposite someone with these headlights, which clearly is NOT good for road safety. They're selfish, they're wrong, we need to outlaw these and make there be a legal limit for how many lumens headlights can be. Simple as that. Very glad to be supporting this petition."                                                                                         |
| 11/11/2023 | "I have an astigmatism and these lights scare me every day. I hope we can get these regulated and fixed"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 11/11/2023 | "I'm tired of being blinded by cars at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 11/11/2023 | "LED Headlights Especially on trucks that are not originally fitted with them are causing me dangerous night time driving situations. As a combat Army vet I already suffer random migraines headaches. These LED headlights are way way to bright on coming towards drivers. These need to be replaced with lower output brightness."                                                                                                                                                                                                                                                                                                                                                                                  |
| 11/10/2023 | "I hate being blinded by blinding headlights and led daytime running lamps, and people driving with off road lights on public roads. #banblindingheadlights #bandeafeningexhaust"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 11/9/2023  | "They're illegal, they must be white and no brighter than 3000 candelas. This has been law since 1968. The majority of aftermarket lights DIYs add to their vehicles are illegal when used on public roads. Lighting Location Color Headlamp:<br>Front White Turn Signal: Front Amber Identification Lamps Front<br>Amber Clearance Lamps Front Amber Hazard Lamps Front Amber<br>License Plate Lamp Rear White Backup Lamps Rear White Hazard<br>Lamps Rear Red or Amber Tail Lamps Rear Red Stop Lamps<br>Rear Red Turn Signal Rear Red Clearance Lamps Rear Red<br>Federal Motor Vehicle Safety Standard 108 (FMVSS 108) regulates all automotive lighting, signalling and reflective devices in the United States." |
| 11/7/2023  | "It's ridiculous how bright these lights are! The blind pedestrians and other drivers and cause accidents!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| 10/13/2023 | "I can barely see where I'm going at night."                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 10/12/2023 | "I work night shift. For me its real danger every night."                                                                                                                                                                                                                                                                                                                                                                                                     |
| 10/12/2023 | "Modern LED. HID and other headlights are so bright that I cannot see anything at all when oncoming cars shine them in my eyes. Nothing. I can't see the ground, let alone pedestrians, road dividers, or even other road traffic. I am one of several I have talked to who has had to shut their eyes while driving. What will you say when someone runs over a family member of yours and, thinking they have driven through a big pothole, keeps driving?" |
| 10/11/2023 | "Is there a way to automatically send a letter to our representatives in Congress?"                                                                                                                                                                                                                                                                                                                                                                           |
| 10/10/2023 | "led headlights suck"                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 10/9/2023  | "Yes these led lights are eliminating this group of people from driving due to light sensitivity, concussion, migraines, and seizures. They need to take this population into consideration. The white, strobe led light on top of school buses in Pennsylvania are significant to these symptoms as well."                                                                                                                                                   |
| 10/9/2023  | "Tired of being blinded by oncoming led headlights,also I've seen tail and brake lights that are also. THIS NEEDS TO STOP!!!"                                                                                                                                                                                                                                                                                                                                 |

|           | and when it's raining it's even worse. People seeing more in front of them should not come at the expense of blinding others."                                                                                                                                                                                                                                                                                                                                                                  |
| 10/6/2023 | "The blinding headlights of so many cars now make it very difficult for me to drive at night. And in the rain, the lights are even more blinding!"                                                                                                                                                                                                                                                                                                                                              |
| 10/5/2023 | "It is very difficult driving at night with the blinding brightness of oncoming cars. It is very dangerous."                                                                                                                                                                                                                                                                                                                                                                                    |
| 10/5/2023 | "modern headlights have almost caused me to swerve into ditches or other people because i cannot see the road at all even after they pass me. I also cannot see road signs due to this and I have almost gone straight on curvy roads. It is extremely unsafe for everyone and it has almost been the cause of my death numerous times."                                                                                                                                                        |
| 10/5/2023 | "LEDs are blinding and dangerous. In the city and suburbs, you can literally drive at night with no lights on, much less blinding LED. Lumen should be limited to 1100."                                                                                                                                                                                                                                                                                                                        |
| 10/2/2023 | "I am light sensitive. They make me sick, give me migraines and vertigo. Also, LED headlights are dangerously bright, blinding people in oncoming traffic."                                                                                                                                                                                                                                                                                                                                     |
| 10/2/2023 | "Bright headlights are dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 10/2/2023 | "The modern lights on cars are dangerous and will amount to more accidents"                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 10/2/2023 | "Led lights are just too intense. They need to be measured in lux and not lumens. Even during the day they are blinding"                                                                                                                                                                                                                                                                                                                                                                        |
| 10/1/2023 | "These bright headlights are dangerous and I've almost been in car accidents from being blinded."                                                                                                                                                                                                                                                                                                                                                                                               |
| 10/1/2023 | "Astigmatism only make it worse"                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 10/1/2023 | "Marie Venusti Dilluvio"                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 10/1/2023 | "Those lights are menace to every single pedestrian, cyclist, and driver! I have Asperger's syndrome and I can't imagine how terrible it would be for those who are more susceptible to sensory overload or who have epilepsy or light sensitivity. I even got extreme sidewalk rage from inconsiderate drivers who don't dip their brights and now I can't do even night walks without worrying about being blinded by them. These things should be ILLEGAL!"                                  |
| 9/30/2023 | "They are blinding"                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 9/30/2023 | "I hate being blinded while driving it makes me want to drive into a tree"                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 9/29/2023 | "I am 75 years young and have no problems driving at night until some inconsiderate person behind me insists on driving with their halogen high beams on or some oncoming traffic has their halogen high beams on blinding me! Those halogen headlamps should be illegal since they blind you and cause deadly accidents! They do more harm than good!"                                                                                                                                         |
| 9/29/2023 | "This is a problem that I've been experiencing also. Thought it was my age also. So glad to hear it is not just me! These bright headlights are dangerous & need to be addressed."                                                                                                                                                                                                                                                                                                              |
| 9/29/2023 | "These headlights have limited my ability to drive after dusk. They are dangerous and should be changed."                                                                                                                                                                                                                                                                                                                                                                                       |
| 9/29/2023 | "This is a real problem because the one with the bright headlights can't tell that the other person is blinded. The daytime running lights are horrible too, people think their lights are on at night but they are completely dark in the back waiting to get rear-ended. Police do not understand this either. The flashing lights and headlights are super bright so you can't see them waving you by or telling you to back up etc and you can't judge the distance because you can't see." |
| 9/29/2023 | "It would s horrible."                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| 9/27/2023 | "I swear people don't care if they could end up killing someone with those lights...."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 9/26/2023 | "The bright LED lights are horribly blinding and give me a headache. They are a hazard and should not be allowed on the road."                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 9/26/2023 | "I'm a concerned American citizen who is often on the receiving end of these extremely dangerous unnecessarily bright blinding headlights from city police cruisers, ambulances, sheriff's vehicles, state troopers and any other and all first responders to semi trailers and all ordinary every day vehicles. I hit a deer and totaled my vehicle when I topped a hill and was severely, I mean severely blinded by a city police cruiser's 100% blinding headlights. The police cruiser was sitting on the side of the road facing the opposite direction. This accident could have been avoided." |
| 9/26/2023 | "Was just driving home on the 401 and a rainstorm hit halfway. I could barely see a few meters with all the lights reflected from the oncoming lanes super bright LED's. If someone was behind me I was blinded in my mirrors. These lights are way too much, people are going to get hurt if something doesn't change."                                                                                                                                                                                                                                                                               |
| 9/26/2023 | "These lights are dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 9/26/2023 | "I am unable to drive at night because of these glaring, blinding lights. This much light is not necessary for any driver!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 9/24/2023 | "Signed. Now, let's work on getting LED LIGHT BARS banned. Every single pick up and jeep in my town has them on full blast, and it doesn't even matter if you look away, you're still getting blinded. Ugh."                                                                                                                                                                                                                                                                                                                                                                                           |
| 9/24/2023 | "I suffer from photophobia due to a concussion it's struggling to drive on a normal basis but the car industry is interfering with the priceless to drive LEDs are seen by people with concussion and head injury as a strobe light and sometimes can set off a migraine in addition the car industry continues to fancy up the tail lights making them blink more or steam from center to left on turn signals . They need to go back to basics"                                                                                                                                                      |
| 9/24/2023 | "I cannot see at night"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 9/24/2023 | "Put on your flashing hazard lights momentarily and stop in the middle of the road until the dangerous situation ends. Block your eyes with your hand until the visual impairment hazard ends, too..."                                                                                                                                                                                                                                                                                                                                                                                                 |
| 9/21/2023 | "LED lights are great for offroad use, but there is no reason to use them on the road."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 9/21/2023 | "Can no longer drive at night, & even walking is difficult, due to these lights on cars and elsewhere."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 9/20/2023 | "Absolutely getting out of control and readily available at online everywhere (Amazon), and stores like Napa, Walmart, etc. Some kid does an "upgrade" to their first vehicle by installing these ultra bright headlights (of course they buy the very brightest (for safety) and they are so excited about how much better they can see that they do the same for their mom, their dad, their girlfriend and the girl friends neighbor... It is at the point that I MUST SHIELD MY EYES with my hand and that becomes a distraction. I am certainly not alone."                                       |
| 9/20/2023 | "I can't enjoy a walk at night in my neighborhood."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 9/20/2023 | "LED pollution. Yes, it doesn't get dark in suburbs anymore... almost dusky is the darkest it can get. I can't teach my kids about the stars and constellations unless I take them to a planetarium (and the gizmo uses LED lights)"                                                                                                                                                                                                                                                                                                                                                                   |
| 9/20/2023 | "Use dark green welding goggles to drive BUT you won't be able to see red traffic lights or brake lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| 9/20/2023 | "on road trip travels, I used to prefer to drive at night because it is cooler and easier on the eyes... NOW< forget about it...."                                                                                                                                                                                                                                                                                                                                                                                                      |
| 9/19/2023 | "I can not believe these LED lights where even given the green light to begin with. They are extremely dangerous and painful. They give me headaches, make me want to throw up and give me anxiety. Throw the entire crew of idiots away that thought this was a good idea. No telling how many people have not lived to speak on how they lost they're life in an accident due to blinding lights. They probably just think they drove into on coming traffic for no reason. Get rid of the ridiculous LED headlight right now. ❖"     |
| 9/17/2023 | "Jill Nelson"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 9/16/2023 | "When I drive at night all I can see sometimes is bright blue dots. If people think these overly bright headlights make them safer they should ask themselves if making everyone else on the road bike is safer."                                                                                                                                                                                                                                                                                                                       |
| 9/13/2023 | "I can not see when these blinding headlights are coming towards me...I no longer drive at night because of it.. Sure would be nice to go to dinner or a movie at night..."                                                                                                                                                                                                                                                                                                                                                             |
| 9/30/2023 | "They are blinding"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 9/12/2023 | "I am a driver of a sedan, and I am having a difficult time dealing with these bright car headlight beams all around me at night. My vision is suffering as a result and I fear that being blinded by these unnecessary lights will inevitably cause me to crash my car. These lights must be modified or banned for the safety of all people."                                                                                                                                                                                         |
| 9/10/2023 | "Driving, walking, or cycling LED headlights are blinding no matter what age."                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 9/7/2023  | "LED's are starving us from a natural source called NIGHT TIME a time to rest"                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 9/7/2023  | "These INSANE, BLINDING lights are a PAIN IN THE EYES!!! Especially if one drives a low-profile vehicle! Here you have these GIANT pickup trucks blinding you from behind & coming toward you! I put my standard lights on BRIGHT EVERY time one of these INSANE lights come towards me if I'm not going to bother a vehicle in front of me! It's literally HELL to drive at night anymore & further it seems NO-ONE in the US Government cares to do ANYTHING about it no matter who gets petitioned. I think this will NEVER change!" |
| 9/4/2023  | "I like to be able to see when I'm driving at night, which I can't when half the other cars on the road have two fucking searchlights for low beams"                                                                                                                                                                                                                                                                                                                                                                                    |
| 9/1/2023  | "I'm 68 years old and refuse to drive at night anymore. I am totally blinded by oncoming traffic's headlights."                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 9/1/2023  | "I am tired of tailgaters irritating my eyes. Even in the daytime, some headlights are absurd, as if they're competing with the sun."                                                                                                                                                                                                                                                                                                                                                                                                   |
| 8/29/2023 | "The technology is there and used in high end manufacturing, it should be a minimum standard for all makes and models. At least have the option initially."                                                                                                                                                                                                                                                                                                                                                                             |
| 8/29/2023 | "We have street lights in most areas. There is no need for those headlights. They are literally blinding driving toward or behind you in the dark. If behind me and cannot navigate out of their range, I'm forced to flip the rearview mirror up to help with the glare. My eyes begin to hurt. Highway driving at night is the worst."                                                                                                                                                                                                |
| 8/27/2023 | "Agreed"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 8/25/2023 | "I'm gonna start busting headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 8/24/2023 | "Just had to follow an older handicapped person on the road for miles because a truck with blinding led lights was tailing them and blinding them. They drove significantly better once I blocked the light from their view. BAN LED HEADLIGHTS ESPECIALLY ON RAISED VEHICLES"                                                                                                                                                                                                                                                          |

| 8/24/2023 | "I have sensitive eyes and LEDs blind me and make my eyes genuinely hurt!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 8/24/2023 | "Driving at night is already difficult for many people. Older folks, and people with visual impairments alike. Bright lights make it difficult for people with light sensitivity to drive too. There is no need for cars to be so bright"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 8/24/2023 | "I wear glasses and sometimes at night I cannot see where I am going at all because of the glare from LED headlights coming the other way."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 8/23/2023 | "I have given up driving at night after running off the road due to the blinding glare of LEDs and HID's. These lights are dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 8/23/2023 | "Projector lights in Forrester allow me to only visualize the bottom 25% of my windshield, much worse going over a hill. How the heck is this safe?? Cannot see street lights or anything on sides of road as well as 3/4 of regular viewing area. If using adaptive dim setting, oncoming traffic is constantly flashing brights at me as if I'm using high beams."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 8/22/2023 | "I'm fighting light pollution!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 8/22/2023 | "We should ban LED lights in general. Terrible idea with no proper testing done. They are literally everywhere now and I have to wear sunglasses during the day and night because of how strong these lights are. Even with my sunglasses, my eyes end up getting irritated with these new lights. I hate driving back home during the night because of how bright these lights are when they come by from the opposite lane. I've seen some street lights with LED bulbs and it's so distracting. I used to like driving at night but now I just have to deal with constant surprise flash bangs on the road. I want to go back to florescent and Halogen again. I miss not worrying if I'll get flashed in the face and not having to wait until the traffic is gone just to drive back home safely at night."                                                                                                                                                                                                                                     |
| 8/22/2023 | "i drive a lot at night and its becoming increasingly hard to not be blinded by these lights, especially because they are so high on the vehicle"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 8/21/2023 | "These lights are extremely dangerous to motor vehicles and more. They cause a type of blindness and disorientation. These bright lights are the reason I don't drive at night. They shouldn't be used on motor vehicles of any type, including emergency vehicles and construction lighting."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 8/21/2023 | "I'd like to add this. How much WORSE is it when a psycho who happens to be a cop seems to get a perverse pleasure out of stalking and threatening innocent drivers - using her insanely bright lights as a weapon? A woman alone at night - not another car seen for almost 5 miles - when a woman cop keeps running up on the woman's car/tail/bumper, moving back and then speeding up - for over 4.5 miles - IN HEAVY HEAVY FOG, up and down hills!!! When the innocent driver tries to move to see who is behind her and free her eyes from the blazing lights of 6 suns - the cop pulls her over for "weaving". The cop even acknowledged that the woman driver has complained before that "YOU ARE BLINDING ME" and I cannot see with your lights (later on video - TEN BLAZING, GLARING LIGHTS not counting the flashing bar turned on after stopping the woman). and the same cop has done this twice in 6 months (the driver is only in that town once a month!) So this is a HUGE issue - as is the willful life threatening behavior of" |
| 8/20/2023 | "Headlight output laws were put in place for a reason. Modern cars are built oblivious to this and the headlights are blinding and unsafe. Our eyes are still human just like before. The worst offenders for blinding lights are the modern police cars. When they're sitting there with flashing lights, there is 100% some                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                           |
|-----------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|           | situation going on. Your entire vision is washed out, even proceeding at a crawl. There's no reason the lights can't be auto dimming based on the amount of ambient daylight or lack of."                                                                                                                                                                                                                                 |
| 8/17/2023 | "Which were just banned earlier this month!!!!"                                                                                                                                                                                                                                                                                                                                                                           |
| 8/17/2023 | "I'm going crazy every night almost getting blinded off the roads. It's so dangerous and horrible for everyone and everything."                                                                                                                                                                                                                                                                                           |
| 8/13/2023 | "I literally cannot see at all when driving past an LED headlight car (or when in front of one). It is INSANE that they're allowed to be on the road. It's dangerous and irresponsible and has caused and will continue to cause vehicular accidents. Please fix this!"                                                                                                                                                   |
| 8/11/2023 | "I do a lot of night driving and I can't count how many times that I've been blinded by these outrageous lights. There's no sense in them being that bright. It has almost caused a few accidents for me on long trips."                                                                                                                                                                                                  |
| 8/10/2023 | "We don't have reliable or effective public transit across America and it's designed for people to rely of automobiles and I basically had to stop driving because when the sun goes down I literally can't see the street lines the second another car is driving in my direction. I imagine this is a huge problem for a lot of people and there aren't really any good alternatives other than just risking your life" |
| 8/8/2023  | "I'm tired of being blinded by these types of headlights. They're not safe"                                                                                                                                                                                                                                                                                                                                               |
| 8/5/2023  | "Why?! I'd like to be see why i'm flying down a highway at 75.They are literally painful and cause discomfort. EMS/Police lights too.I'm not being hyperbolic or dramatic. These need to go."                                                                                                                                                                                                                             |
| 8/3/2023  | "The car lights are so blindin when I drive even if I looks away from the car. I have to adjust my mirrors because the glare is so bright it's like if you're looking at the sun. Leaves a spot on my eyes when looking forward or back mirror. They are too intense."                                                                                                                                                    |
| 8/3/2023  | " <a href="https://www.activistpost.com/2023/07/behind-your-back-yet-in-front-of-your-eyes-blinding-technologies-for-vision-burnout.html">https://www.activistpost.com/2023/07/behind-your-back-yet-in-front-of-your-eyes-blinding-technologies-for-vision-burnout.html</a> "                                                                                                                                             |
| 8/2/2023  | "I don't understand, do some people just not have any night vision or are they too mentally retarded to realize they're being blinded? Why are all of these new lights so f@cking bright?!"                                                                                                                                                                                                                               |
| 8/1/2023  | "Led headlights are blinding and unnecessary and dangerous."                                                                                                                                                                                                                                                                                                                                                              |
| 7/26/2023 | "Who is responsible if accident happens when I was blinded by this head lights."                                                                                                                                                                                                                                                                                                                                          |
| 7/24/2023 | "I'm signing because bright headlights and tail lights have made driving at night so incredibly unpleasant that I rather not drive at night at all. I'm a 33 year old person, not in my 60s or above. The fact that people of all ages are affected should be evidence that the lights being made today fail to meet certain standards and it's causing distraction, disorientation and danger on the road for ALL."      |
| 7/22/2023 | "Because tired of being blinded at night!"                                                                                                                                                                                                                                                                                                                                                                                |
| 7/10/2023 | "Definitely, there has to be regulations about what kinds of lights are good for oncoming traffic and not just for looks or something. Lights should serve the purpose and not otherwise. I wonder if there had been any discussions about bringing LED lights into usage as headlights and drls etc. This regulation should be made international for the good of mankind."                                              |
| 6/27/2023 | "LED Headlights are dangerous to oncoming traffic, even in the daytime.Stop the assault on other drivers."                                                                                                                                                                                                                                                                                                                |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| 6/27/2023 | "I'm tired of being blinded by these dangerous lights while driving at night. They are not safe."                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 6/25/2023 | "I agree though keep places well lit too on some level to prevent murder please also put area curfews everywhere. Please also make paper license plates illegal. Please also install better traffic safety signals and please also install cameras in public places and in parking lots or places where there are lights like this. To prevent things like accidents abuse and murder and death"                                                                                                                         |
| 6/10/2023 | "sick of these dumb pricks with bright ass headlights on well lit roads"                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 6/5/2023  | "The use of these ultra bright headlights is extremely blinding and distracting not only are drivers blinded from on coming traffic, they are also blinded by reflective light from all rear and side mirrors. These effects ts are worsened on anyone older or dealing with simple eye conditions like astigmatism. This a large percent of the population that drives. Bright lights from oncoming traffic also blind drivers to pedestrians and bikers on town and city roads."                                       |
| 6/1/2023  | "Even after cataract surgery removed the halos and stars from lights at night, I am frequently blinded by oncoming headlights worse than any previous high-beams. It prevents me from seeing oncoming traffic, or blinds me from behind and prevents me from seeing anything else around me, like road hazards and other vehicles. People are supposed to dim their lights for oncoming traffic; the new LED headlights are brighter than old high-beams! So. Dangerous!"                                                |
| 5/31/2023 | "Not true"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 5/31/2023 | "Some of these headlights and taillights can trigger seizures and severe migraines in people with certain neurological diseases. I shouldn't have to give up driving at 38 y/o due to the risk of seizure or debilitating migraines, but I've had to do just that."                                                                                                                                                                                                                                                      |
| 5/29/2023 | "I wish I could take back my signature. This is a petition requesting the ban of a particular technology, not the regulation of headlights."                                                                                                                                                                                                                                                                                                                                                                             |
| 5/27/2023 | "why not"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 5/26/2023 | "We need to find the balance between energy efficiency and health. Corporate influences must not overrule science and common sense. Please bring back incandescents until a new safe solution is developed."                                                                                                                                                                                                                                                                                                             |
| 5/23/2023 | "because i have had near misses with bright LED headlights which are temporarily blinding"                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 5/20/2023 | "I pulled out in front of oncoming traffic because a truck was blinding me at night. We were both making a left turn in the middle of the intersection. I just missed being hit head on. I was completely blinded. I had to get away from it so I turned in front of oncoming traffic."                                                                                                                                                                                                                                  |
| 5/19/2023 | "I have these lights on my car, and I understand that they are extremely blinding, dangerous, causing accidents and injuries. They should be banned everywhere, and any car that has them should be able to have incandescent lights installed immediately for free. We do not need to make another contraption to deal with the effects of these lights. Stop making them, stop installing them, and reinstall normal incandescent bulbs on all cars that currently have them. Common sense says this is the only way." |
| 5/18/2023 | "yeahhhh fuck led headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 5/17/2023 | "I am fed up with being 'blinded' by these headlights - it so SO dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 5/17/2023 | "Because they are dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| 5/12/2023 | "I FUCKING HATE HOW BRIGHT HEADLIGHTS ARE!!!! LIKE JUST LEAVE EM ON AS BRIGHTS WBHEN YOU TURN ON BRIGHTS, NOT NORMAL HEADLIGHTS"                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 5/12/2023 | "I can't see on the road or use my mirrors at times due to these headlights, which is very unsafe. They also trigger migraines for me."                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 5/11/2023 | "soooooo i drive a super tiny little car which oftentimes, results in the headlights of basically any new suv or truck being riiiiiiight at my eye level and since lights are so bright, this means that if i drive at night, i can't see shit if someone else is on the road and especially if some massive compensation-mobile is hogging up my lane as well."                                                                                                                                                                                                                                            |
| 5/10/2023 | "There have been numerous times at LED headlights have almost caused me to have an accident. HIDs we're banned for this very reason back in the early 2000s."                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 5/7/2023  | "I've been blinded on the road multiple times by these brutal headlights and am very lucky it hasn't resulted in an accident yet. However, I'm noticing more and more cars with these headlights and it seems dumb and dangerous."                                                                                                                                                                                                                                                                                                                                                                          |
| 5/5/2023  | "I remember reading years ago, when I first noticed how these very bright lights affected my ability to see well when driving at night, that part of the reason it is a problem here in the US is because our headlights are directed upward to illuminate road signs. In other countries, where signs are illuminated through other means, the headlights are directed downward so they are not shining directly into the eyes of drivers in oncoming traffic. Barring a complete change in how our road signs are illuminated, I would like to see more regulation on the use of very bright LED lights." |
| 5/5/2023  | "I cant see when im driving at night"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 5/5/2023  | "This has to be changed. There is no excuse for using lights that cause injury and death."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 5/4/2023  | "I can't see when these lights hit my eyes. Too dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 5/4/2023  | "These lights are blinding, which makes it LESS safe for oncoming drivers. There needs to be some standard for safety for both the driver and oncoming traffic."                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 5/4/2023  | "These headlight can be blinding to oncoming drivers and thus very dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| 4/28/2023 | "Sometimes I'm being blinded from both ahead and behind. It's actually really scary, because I can't just slow down. People get aggressive. So I literally can't tell if I'm about to hit something. I don't even have an astigmatism."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 4/26/2023 | "The LED headlights are dangerous to other drivers."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 4/25/2023 | "Raised trucks that don't adjust their lights down to regulated distance and when you flash them, their lights point 45 degrees up. And tow trucks with all six headlights on high beam when regular driving, not on service call. They blind you enough that you cannot see stationary big rigs waiting to make a left turn on a one lane road. Lastly those cars and trucks that have LED light bars between their headlights always on bright and light up the inside of your car like it was an ET. So, need enforceable regulation on brightness, intensity & distance on raised vehicles. Set at the factory and/or dealers for their areas and notices to buyers from auto and tire dealers and custom shops. Lastly more roaming police light check stations. Usually, no trouble with big rig lights so why can't P/U trucks keep it down?" |
| 4/24/2023 | "I'm blinded by the light."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/22/2023 | "LED headlights continue to blind myself and other drivers even in the brightness of daylight. It is extremely dangerous to blind other drivers and against the highway traffic act. LEDs are dangerous and unnecessary."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 4/21/2023 | "Simply because LED lights are dangerous. Numerous times, I have been dazzled by lighrs that were no better tgan on full beam."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 4/20/2023 | "Mary Turner"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 4/20/2023 | "It's beyond absurd that this has not been addressed already. There really isn't much else to say. This should be self explanatory. It's similar to driving into the sun in the morning and unable to see the road, but yet we have rules for how far your tires can be outside of the wheel wells 臘☞☞"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 4/19/2023 | "Because they cause temporary blindness in drivers whether in back of you or oncoming! Dangerous!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4/19/2023 | "This sh*t is ridiculous! I get newer lights but these are above & beyond blinding! I can't even imagine what their high beams look like. Initially I didn't know these were the new norm in cars, so I did what anyone else would do to let a fellow driver know(in case they didn't) they had their high beams on.....many a driver either turned on & off their reg headlights to let me know that's all the got, some flashed their high beams (WOW!) to let me know they weren't using high beams. This is gonna kill a lot of ppl!!!"                                                                                                                                                                                                                                                                                                          |
| 4/19/2023 | "All aftermarket LED bulb replacement's are illegal for use on the US road ways. This is an issue of not enforcing FMVSS No. 108 by officers and also a total lack of prosecuting those who sell these lights under the guise of them being legal. Reputable aftermarket LED light producers make it very clear that the lights are designed for off road use."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 4/19/2023 | "Some headlights are blinding even on dim."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/19/2023 | "I almost ran into the car in front of me one night. The on coming cars were so close together and the 2 lanes are separated by only a stripe on the ground. What if we had a wall separating the 2 lanes?? Both sides face each other, so we are always blairing bright, bright lights at each other. Does anyone care?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 4/18/2023 | "Driving is dangerous enough without be blinded by careless drivers and poor automobile design!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| 4/18/2023 | "I deal with astigmatisms and these headlights make it nearly impossible for me to safely drive after dark. On a busy road with a dozen or so oncoming cars, most having these headlights now, my vision is just bright starbursts everywhere, nearly whiting out my field of view to the point I almost can't see the lines on the road even. Eventually someone is going to wreck because of this and go after either the vehicle manufacturer or or the aftermarket headlight manufacturer and very rightfully so."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 4/18/2023 | "LED headlights are not necessary."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| 4/17/2023 | "Trying to see at night with rude ass drivers and their bright lights is a really hard thing to do"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 4/17/2023 | "I am signing because it is dangerous and very disrespectful to oncoming traffic."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/17/2023 | "They're too bright!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 4/17/2023 | "From my experience those headlights prevented me from seeing & she possible, I slowed down & pulled offer to side of road"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 4/17/2023 | "Take out the emissions regulations loophole for light trucks too so that car companies lose the financial incentive to push SUVs and pickups down our throats. It would reduce variation in vehicle height and thus make the road safer for people driving normal cars or riding bikes."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4/17/2023 | "These lights can only be used in placed where you may tint your window other wise they blind opposing drivers and its not appropriate"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 4/17/2023 | "I choose to no longer be the driver at night time because of blinding lights. Now that Rivian has made their home in my community, this issue is much worse. The factory is very near my home and many people are driving these vehicles and hopefully it can be understood why I make a choice to not put myself in danger. I've already had my life significantly altered due to a car accident and the driving of another. How would I ever be able to explain that a vehicle's headlights is the liable party in an accident? The blame would be placed on me alone and this is WRONG. I know this because I worked in claims for a large insurer. Something everyone should think about when deciding if this petition is worth their signature. I also hope someone who has decision making capabilities on this issue sees my comment and looks into fair claim-handling practices and notices that consumers may very well be footing the bill for recovery for reasons they are not liable for." |
| 4/17/2023 | "Only ignorant people choose to blind other people at night driving with bright lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| 4/17/2023 | "On top of having eye stigma, I also have a scarred retina that, among other things, gets "burn-in" really easily from intense light, and the effect from those headlights can sometimes linger for 5 minutes at a time--not ideal as a delivery driver."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 4/17/2023 | "I have recently build up cataract and flash spot in my eyes and I am only 46 years old. White led headlight is always my problem. Sometimes I need to wear sun glasses driving regardless day or night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 4/17/2023 | "I frequently have to drive along a pass to get to work at night. Hill on one side, cliff on the other. These new car lights are just atrocious, not to mention the brights on some of these cars and work trucks. It's to the point that I have to go from 50 mph to about 25 in order to feel like I'm not going to run off the edge from blindness. Sometimes I can't even see 10 feet ahead of myself cause of this."                                                                                                                                                                                                                                                                                                                               |
| 4/17/2023 | "I too have problems with the bright lights on headlights. It is very disorienting."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 4/17/2023 | "The lights are blinding. And for someone who has issues with her eyes it can be dangerous to drive at night with headlights like LED's."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 4/17/2023 | "blinding lights are dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 4/17/2023 | "These headlights are dangerous to oncoming traffic. They blind us all."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 4/17/2023 | "My eyes are green, which means that they have less melanin to protect them with. Since I can't afford a car, I must take public transportation a lot. This means having to sit at bus stops enduring an endless stream of vehicles blazing their headlights into my eyes from the streets and parking lots. This can get physically painful after awhile. However, I have no choice, because I need to keep a steady watch for my bus, or I'll miss it. I sometimes can't even escape from these torturously bright headlights when I'm walking out of a door, or even looking out a window. As such, I even got an eye full of them while eating at a restaurant. Words can't even begin to describe how much I hate those overly bright headlights!" |
| 4/17/2023 | "These headlights cause such a glare that they are blinding. I find them unsafe to drivers. I cannot see safely when driving."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/17/2023 | "Those lights are incredibly hard on pedestrians, too."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 4/17/2023 | "Are those the yellow glasses?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/17/2023 | "Where I live, the government forces drivers to have their high beams on both day and night...!!! 💎"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 4/17/2023 | "These lights are blinding. I hope this changed for the safety of all."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 4/17/2023 | "It used to be that eeevery so often, I'd end up in front of somebody with improperly aligned headlights, but the easy solution was to let them pass when I was able. Now this problem is no longer a once-in-a-while thing, it's EVERY DAY. Every morning I drive to work, and every day I am forced to shield my eyes from the countless ultra-bright LED headlights on vehicles of all shapes and sizes. This is far beyond annoying or uncomfortable-- it's made driving at night nearly impossible, and driving during the day painful and dangerous. We need regulation yesterday."                                                                                                                                                               |
| 4/17/2023 | "These lights blind you they are so bright."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 4/17/2023 | "Debra Basilico"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 4/17/2023 | "These excessively bright headlights are unnecessary; even at legal highway speeds you don't need to see 18 miles up the road. In urban environments where the streets are well-lit and traffic moves relatively slowly, headlights are mainly useful for making vehicles more visible, not for seeing what's inside the trunk of the car in                                                                                                                                                                                                                                                                                                                                                                                                            |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| 4/16/2023 | "I can't see while driving into these bright lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 4/16/2023 | "I drive a Honda Accord, and I am blinded more and more by those SUVs with ultra bright headlights, to the point that I will only drive at night if I have to!! It's especially bad on turns when those lights hit my side view mirror!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4/16/2023 | "I would like to start by saying, I am a good driver. I am always respectful of others on the road. My biggest complaint is the glare from bright headlights! They are so bright that I can't see the road. There have been many occasions where I had to slow down or almost come to a complete stop, because I can not see the road. These bright lights are dangerous, and are going to cause an accident. It's also blinding when they are in your rear view mirror! I have to flip my mirror up, so I can see to drive. And I have to put my hands in front of my side mirrors to block the bright light. There are high beams on cars for a reason, you can turn them off so your not blinding other drivers. I avoid driving at night because of the bright lights. I'm afraid one of these days I will end up in an accident because I'm being blinded. I hope this petition proves useful, the lights gotta go!" |
| 4/16/2023 | "Those head lights blind me too"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/16/2023 | "I hate blinding lights. Get rid of it!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4/16/2023 | "They are nothing but painful!!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| 4/16/2023 | "I hear from many older people that the white headlights cause a temporary blindness from the newer headlights. Takes a few seconds to readjust their vision. It does the same to me. That few second adjustment could put a person off the road or into another vehicle. The old yellow color lights didn't have that effect. I feel the newer white headlamps are a hazard to driving because most vehicles don't have them adjusted properly. The dam lights burn into your brain. Don't know how the white lights can be deemed safe for use on the highways. They need to be banned and go back to the old yellow lights. Much safer." |
| 4/16/2023 | "I'm blinded by the ligggggghtttttt!! seriously can't see driving down my main road home at night, oncoming cars lights are too bright to see the road ahead."                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 4/16/2023 | "i think it is unfair to allow cars and trucks with powerful led lights. I cannot see and most people with such led lights have no respect for other drivers."                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 4/16/2023 | "So glad to see someone is trying to do something about this. These outrageously bright headlights make driving at night very difficult. Even the bright LED lights indoors are causing many people problems. My daughter is having to quit her job because of these lights. They are literally making her sick."                                                                                                                                                                                                                                                                                                                           |
| 4/16/2023 | "BRING THIS TO LA!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/16/2023 | "The new headlights are very blinding & dangerous, especially the jeep products. Makes me want to take a ball bat & bust everyone of them out. But unfortunately, it will take a higher up "important person" to be affected by this issue to get anything changed."                                                                                                                                                                                                                                                                                                                                                                        |
| 4/16/2023 | "Back in the late 80's you could not run off road lights because they were dangerously bright. Today's lights are even brighter. We did fine with the lights 20 years ago. Tighter lights only help to blind oncoming drivers."                                                                                                                                                                                                                                                                                                                                                                                                             |
| 4/16/2023 | "I am naturally light sensitive due to my eye color and genetics. It is a very common problem that people suffer through and many are unaware that they are light sensitive. This has been an issue that has made me quit my job due to night drives home. I also feel that all lights should be at a standard height on all vehicles as that is ignored as well. Different heights of lights can sometimes be directly in drivers eyes due to manufacturer or after market designs."                                                                                                                                                       |
| 4/16/2023 | "Bright white lights blind drivers who must pass by them and that's too dangerous and must be outlawed. Call or email your legislators and congresspeople!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 4/16/2023 | "I hate them lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| 4/16/2023 | "Bright light do affect night drivers negatively, especially when the vehicle is behind you. It prevents you from seeing anything in rearview or side mirrors, and is prevents visual focus ahead (in front of) your vehicle due to the blaring lights that overwhelm vision; it's like the equivalent of looking directly at the sun - which any human should know is dangerous for the health of their eyes.If you flip your center rearview mirror, you still won't be able to escape it because the effect is also on your side exterior mirrors, if the vehicle remains behind you."                                       |
| 4/16/2023 | "These lights are a hazard to everyone"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/16/2023 | "My car is a 2000 Ford car. The second those lights show up the lines disappear for me. Almost killed me multiple times actually got me pulled over once"                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 4/16/2023 | "This happens to me everyday blinding lights in my eyes and in my rear view mirrors. I hope we can facilitate some kind of change."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 4/16/2023 | "Glad to hear I'm not alone in my frustration. I fear the truck companies will lobby against any action to restrict headlight glare caused by vehicles that are too high"                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 4/16/2023 | "They are easy targets for law enforcement, so let's enforce some laws."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 4/16/2023 | "Brighlights are very blinding and dangerous. Whether you are driving a car or a truck. Just because people can't see animals in the dark, let's just blind everyone cause you are a moron. Emergency vehicle's should have bright lights, not a moron who wants to blind people. Thank you fir this petition."                                                                                                                                                                                                                                                                                                                 |
| 4/16/2023 | "Headlights are too high on large vehicles.Too many people drive with their high beams on."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 4/16/2023 | "It's absurd that it's totally legal to blast blinding light into people's eyes while they're driving."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/16/2023 | "My eyes are very sensitive and the newer headlights look like someone has their brights on. It's bad no matter what size vehicle I'm in, whether it sits high or low"                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/16/2023 | "I had a brain surgery a few years back. It is extremely difficult to see at night time due to the bright headlights. My community gets very dark and yet people are speeding with high beams on unnecessarily. The trucks and tow trucks are a major problem too. Rushing for work with these bright lights completely covering the vehicle. Someone is going to get hurt if nothing is done about it."                                                                                                                                                                                                                        |
| 4/16/2023 | "I drive a low car & makes me insane when the majority of cars around me blind me! I'm lower than most, so I'm constantly adjusting my mirrors when driving or stopped simply so I can focus on the road! Not safe at all, especially with so many rude drivers these days. I do not drive slow, but I'm in a charger, so winding roads are a huge issue. It's terrifying to be driving on winding mountain 1 lane roads with some jerk close behind me until I'm able to pull over, with their lights completely blinding me. So many more instances that I could go on about, but I'm sure everyone here already knows them." |
| 4/16/2023 | "Some of these lights are too blinding and I have nearly gone off the road multiple times and to a new driver this could be fatal really quickly."                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 4/16/2023 | "The lights are so bright sometimes I can't even see if front of me. I have to turn the tear veiw mirror down and sometimes that doesn't even help! Also, I've noticed even people with older cars are now driving with their high beams are. And the big trucks woth their bright lights are very bright! This is crazy!"                                                                                                                                                                                                                                                                                                      |
| 4/16/2023 | "Yes! They need regulation, as much as high beams are..."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 4/16/2023 | "I work solely at night and I'm tired of being blinded my whole commute. Sometimes I have to even close my eyes because the lights are THAT bright"                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| 4/16/2023 | "I travel roads near me that have no sidewalks and deep drainage ditches. bad headlights, blind me, so if someone was walking on the road, I would not see them."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 4/16/2023 | "I'm tired of being blinded by these ridiculous headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 4/16/2023 | "Hell yeah!! I'm always complaining about this, thanks for taking a stand ☑. Especially when it's dark and rainy I often have to drive by looking at the passenger side lane line as to not be blinded!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/16/2023 | "As a grubhub driver, I drive at night alot. There are times I nearly have to come to a stop when passing cars with said headlights because I am blinded. I never know anymore if someone has their brights on or they just have obnoxious headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/16/2023 | "I'm tired of being blinded driving at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 4/16/2023 | "This has been a problem for years. I thought it was just because I'm getting older. I'm 40. We the people need to stand up!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 4/16/2023 | "They are a nuisance and downright dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 4/16/2023 | "Blinding lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 4/16/2023 | "Those lights are ridiculous and turn me into a blind angry driver - instantly."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 4/16/2023 | "I'm sick of being blinded in a city and state full of red neck trucks."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/16/2023 | "Bright headlights are dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 4/16/2023 | "It is getting ridiculous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 4/16/2023 | "I am literally looking to leave a job that I absolutely love because I am having so much trouble seeing against on-coming headlights on the highway I have to travel. Because I work 10-hour days, I cannot adjust my travel times so that I both go to and come from work in the daylight. I have no choice but to drive in the dark either going to or coming from work. I drive 20.5 miles each way to get to work, and the highway I travel has several very narrow areas where there are really sharp curves. I get held up at least twice a week by accidents where other people have either hit each other or run into one of the concrete barriers in these areas because they can't see any better than I can against people's blinding headlights. I know it is only a matter of time before I am the one in one of those accidents." |
| 4/16/2023 | "Whether they're shining into someone's eyes head-on or into their mirrors from behind, sacrificing one person's ability vision in order for another to see better makes the road more dangerous for everyone, not safer. Adaptive headlight systems are not enough. It will take decades to get all of the vehicles that endanger other drivers with their blinding lights replaced. There needs to be comprehensive Federal DOT action forcing massive recalls to replace the headlight assemblies of cars currently on the road, and legislation to enforce it. Laws are supposed to protect the public good, and safe roads are about as ancient and essential a public good as it gets."                                                                                                                                                    |
| 4/16/2023 | "Light sensitivity without brights on, including all types of color"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 4/16/2023 | "Dog thief's are disgusting creatures who do not understand that the animal they steal greaves for their home and family! They are cold hearted non humans!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 4/16/2023 | "These lights present dangerous conditions for all those who encounter them while driving, bicycling or walking. Finally, this issue can be addressed!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/16/2023 | "I drive significant miles and these lights present a wide range of risks including dangerous shadowing from behind and blinding from the front. They should be outlawed"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| 4/16/2023 | "Contrary to the IIHS argument that LED lights are safer and pose no safety hazard (when properly aligned) many of us find these lights to be dangerously blinding. They not only sometimes pierce one's skull but they wash out the road making it impossible to see the driving path. Even from behind they are obnoxious. The IIHS is not asking the right questions and their defense of these lights, ad an organization funded by insurance companies, is suspicious."                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/16/2023 | "I found that wearing glasses that reduce blue light make a difference. It doesn't appear that way at first, but driving seems easier after a while. Look for glasses to cut down blue light emissions from computer monitors. Good luck!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 4/16/2023 | "I wrote my Congressman, both Senators, and the NHTSA about this issue back in December 2021. I'm tired of being blinded in my compact car.I have found that glasses that are typically used to cut down on blue light emissions from computer monitors seem to help when driving. But it really shouldn't have to come to having to use something like that!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 4/16/2023 | "After driving in the night and getting blinded so much as I drive a Honda fit, i see long light tendrils and can hardly drive at night anymore. Being so low to the ground there is literally no escape from assholes with super bright lights. I'll try to slow down but often times they just ride my ass and blind me more. I've been in cars with these lights and often times the driver cares very little for the people in front of them and will not pass because they would rather do the blinding than get some soft light in there eyes. This is a medical danger and needs to be addressed. Instead of making new arbitrary rules just to fine us, can you make a rule to save us. I'd have a number on speeddial just to report assholes like this and gladly call it because it's common sense and it's entirely on the driver to ensure that everyone can drive safely on the road." |
| 4/16/2023 | "I find many led style headlights to be obnoxious. That includes the OEM's. I believe it is very dangerous. When the one year old vehicle behind me using his low beams is casting a shadow of my vehicle in my high beams, its gotten out of hand."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 4/16/2023 | "I am constantly blinded by these!!!! So dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 4/16/2023 | "Any driver who is blind enough needing a blinding stadium projector to be able to drive is a dangerous driver and should be banned from driving. The vehicles having such headlights should also be banned. They are no good except causing dangerous and possibly fatal collisions. Sadly the count is rising. Please stop this non sense."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 4/16/2023 | "Sonia yanez"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 4/16/2023 | "I already have astigmatism and these lights make it dangerous for myself and others to be driving at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 4/16/2023 | "Automatic high beams may be great for the drivers who own them, but they blind me when they come at me in my car. They're supposed to dim when another car is near, but they don't see my low-beams until I'm already blinded. These things create a hazard for other drivers and should be illegal."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 4/16/2023 | "Driving at night has become dangerous. My family is tired of hearing me complain about being blinded by oncoming traffic. Seems like it started overnight. Don't remember it being a problem before lockdown but after a couple of years WFH I started driving at night again and that is when I noticed the problem. I can't tell if everyone is driving with their bright lights on or not. When I can look it seems                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|           | multiple bulbs are lit up in each lenses assembly. Whatever the cause it needs to stop. I can't believe the people who build cars and the government employees who are responsible for highways are immune from experiencing headlight blindness's themselves. Somebody in a position of authority needs to recognize the problem and take action."                                                                                                               |

| 4/16/2023 | "blinding headlights are unsafe and cause accidents and kill people!!"                                                                                                                                                                                                                                                                                                                                                                                            |
| 4/15/2023 | "I hate them, and it should definitely be illegal."                                                                                                                                                                                                                                                                                                                                                                                                               |
| 4/15/2023 | "I'm signing because I don't think anyone needs to see up a junebugs butt a mile down the road,these LED LIGHTS blind you and I'm sure are the cause of many accidents"                                                                                                                                                                                                                                                                                           |
| 4/15/2023 | "I'm a glass wearer with very thick lenses and an astigmatism. Even with my lenses shaved, anti-glare, etc. I'm still blind at night, especially if it's raining on newly paved streets. It's not always just the incoming traffic either. Sometimes my rearview and sideview bounces the light of the person behind me. At that point I'm sucking the light just to see my lines. It's horrible and had become more and more difficult to drive over the years." |
| 4/15/2023 | "Most people's headlights are aimed too high and too bright, blinding pedestrians and drivers alike."                                                                                                                                                                                                                                                                                                                                                             |
| 4/15/2023 | "I have been in this situation many times! Its hard to see at night. These headlights need to be controlled"                                                                                                                                                                                                                                                                                                                                                      |
| 4/15/2023 | "I have a light sensitivity and work nights, I have to turn my rear view mirror up and wear tinted lenses to drive without being blinded. It isn't just brighter lights, but people running with more than two forward facing lights or with brights/fog lights on as well."                                                                                                                                                                                      |
| 4/15/2023 | "I often have to look away from oncoming traffic -- even during the day -- because of overly bright headlights. The new super bright headlights are a dangerous safety issue."                                                                                                                                                                                                                                                                                    |
| 4/15/2023 | "I can no longer drive at night because of the new headlight. So dangerous"                                                                                                                                                                                                                                                                                                                                                                                       |
| 4/15/2023 | "Everyone is safer with less blinding lights."                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 4/15/2023 | "I literally have to wear tinted safety glasses to drive at night."                                                                                                                                                                                                                                                                                                                                                                                               |
| 4/15/2023 | "The lights blind me and also cause me to have migraine headaches. Not safe. Not good."                                                                                                                                                                                                                                                                                                                                                                           |
| 4/15/2023 | "If you need extremely bright headlights while driving through neighborhoods or town streets, you are driving too fast. These lights are blinding to other drivers and pedestrians and encourage excessive speed at night"                                                                                                                                                                                                                                        |
| 4/15/2023 | "The lights are blinding even in the day time-in the daytime it's like the sun hitting your eyes."                                                                                                                                                                                                                                                                                                                                                                |
| 4/15/2023 | "I shouldn't have to wear my sunglasses at night to drive 🙄"                                                                                                                                                                                                                                                                                                                                                                                                      |

|           |                                                                                                                                                                                                                                                                                                                                  |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4/15/2023 | "I am tired of being blinded. I've almost had numeraccidents because I can't see and then people turn their high beams on too. When driving in the city, there is no need for high beams."                                                                                                                                       |
| 4/15/2023 | "These ultra bright headlights are a hazard to everyone on the road."                                                                                                                                                                                                                                                            |
| 4/15/2023 | "Some headlights are so bright you can "x-ray" flash the bones in you sheild hand trying to block em being 50k x brighter than noontime sunlight.. need welding goggles not to go blind from em..."                                                                                                                              |
| 4/15/2023 | "I am blinded by the brightness of the led lights on vehicles. Can't drive at night because of it!!!"                                                                                                                                                                                                                            |
| 4/15/2023 | "I almost crashed once because the other car had custom lights misaimed. It was pitch black, raining and there comes the blinding sun, the whole road disappeared; I put my high beams on to see, he did the same blinding me way more."                                                                                         |
| 4/15/2023 | "I agree that this is dangerous. It's ok that your lights are so bright that it causes a shadow of my car and you can see great but everyone else is blinded by your bright headlights and can not see safety to drive. How is this safe?"                                                                                       |
| 4/15/2023 | "I drive a compact car and whether behind me or coming toward me, I am blinded by these ridiculously bright lights. They are dangerous and need to be regulated."                                                                                                                                                                |
| 4/15/2023 | "I hate bright headlights"                                                                                                                                                                                                                                                                                                       |
| 4/15/2023 | "The bright headlights are very hazardous, leading to increased accidents and fatalities.I'm restricted from driving at night because of the bright headlights!"                                                                                                                                                                 |
| 4/15/2023 | "These are blinding lights at night and makes it hard to see the road before and after the vehicle passes by!"                                                                                                                                                                                                                   |
| 4/15/2023 | "It's extra frustrating, especially in a small car, to have super bright white lights making it so that I can't see what's coming up on my left or right when I'm on the highway. So much of the population lives in well lit cities anyhow, wer don't need the standard bulbs to be brighter than what the brights used to be." |
| 4/15/2023 | "I'm an OTR truck driver and it's worse than ever on roads at night. Plus ever since I had covid, my eyes are super sensitive to light. People don't realize that they are blinding other drivers and create a huge opportunity for accidents that can kill people."                                                             |
| 4/15/2023 | "I have a strip of red LED lights taped above my drivers seat in my 18 wheeler that I turn on at night. It helps reduce the effects of bright lights from other vehicles. Not 100% but it does help."                                                                                                                            |
| 4/15/2023 | "Those headlights make it hard the on coming traffic to see as well. This is why we have high beam and low beam, but the low beams are brighter than the high beams with these bulbs, it's ridiculous!"                                                                                                                          |
| 4/15/2023 | "This petition is long overdue. The aftermarket blue headlight need to he included in this petition"                                                                                                                                                                                                                             |
| 4/15/2023 | "All blinding light needs to be addressed, period! I chose to sign this petition as I've been personally affected and have known others to be affected. I feel more lives can be saved from horrific traffic accidents if limitations are imposed."                                                                              |
| 4/15/2023 | "Modern headlights are as bright as welding arcs. There are times that my vision is impaired from a mile away. Close your eyes for 10-15 seconds the next time you're driving and see if you feel safe. Sometimes I wear sunglasses to drive at night."                                                                          |
| 4/15/2023 | "Justine Ward"                                                                                                                                                                                                                                                                                                                   |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| 4/15/2023 | "Headlights that are currently being used are excessively bright. They make driving in hours of darkness much more dangerous as they eliminate the ability to see anything other than the light."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 4/15/2023 | "The lights are too bright to oncoming drivers, even on low beam, especially on two lane roads!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 4/15/2023 | "I have been driving a semi for 28 years and the past 15 years it is crazy to see how many people have these blinding lights. Jeeps and pickups are the worst. Especially if they're hauling anything on a trailer or in the back."                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/15/2023 | "At night I get blinded regularly when I drive. While there is an incoming car I can only see the road and if a deer jumped out which happens often around here I'd probably be a fatality myself."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/15/2023 | "Constantly blinded by hrad lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/15/2023 | "I don't feel safe driving at night in fear that I may hit someone, cause an accident or drive of the road into a ditch because these lights are so over powering. I literally have to look down onto the white or yellow lines to the right side and even then I'm nervous, blinded and scared. So have to do everything before the sun set completely out here where I live. It really sucks because I have to tell my kids that I can't take them somewhere or pick them up from somewhere after a certain time because of these blinding lights. And even when I flash mine as to kindly signal them to dim their lights while close to cars coming close they completely ignore it. It's frustrating." |
| 4/15/2023 | "Getting blinding, glaring light in my face while night driving is terrible"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 4/15/2023 | "There's a special place in hell for people who drive vehicles with LED lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 4/15/2023 | "I have to stop until they pass me. Otherwise, I can't see what's on the road when the lights are heading in my direction. Street lights are very dim and makes driving with incoming bright lights a hazard."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 4/15/2023 | "I have green eyes. This means light at night is 100% harder on them. The fact of the matter is I think these "better" headlights are causing more crashes especially with deer. If a deer is blind they are going to be disoriented thus it's more likely to run into the thing blinding it."                                                                                                                                                                                                                                                                                                                                                                                                              |
| 4/15/2023 | "Too many times I've seen accidents because of excessive bright headlights! Seems regulation is the only option."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 4/15/2023 | "Adaptive headlights mean high beams come on if area is more hilly. We have streetlights, yet cars blind us all the time and drivers say it's the car putting them on. You don't have to use that feature, it's just lazy driving. Don't cause somebody else to crash into you and hurt your kids. Because you can't be smart enough when to turn on your high beams and not turn on your high beams, you will hurt yourself or others. If I'm on the sidewalk walking a I can see without high beams. Then you can see without high beams when driving. It's a huge problem in california too."                                                                                                            |
| 4/15/2023 | "I'm signing because this has started to affect me at 41 years old. I find that it takes almost a full minute to recover from being blinded and on the twisty back roads of New England, this is incredibly dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 4/15/2023 | "These new headlights blind me while driving. They are like highbeams but aren't. Florescent should be reserved for police officers. They scare me because I can not see ahead of me and fear one day I will hit someone."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4/15/2023 | "I have to drive at times late at night. This has almost caused me to get into car accidents a number of times! I have been a licensed driver for 44 years. This was                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|           | never an issue until the past 15 years or so. In the past ten it has increased enormously! I don't like driving at night due to this. It has to be corrected now!"                                                                                                                                                                                                                                                                                                                                                                          |
| 4/15/2023 | "Blinding"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4/15/2023 | "Combine the lights with interment divisors on the highway and your have yourself frequent high intensity flickers that take several seconds to clear from your focus. Very dangerous."                                                                                                                                                                                                                                                                                                                                                     |
| 4/15/2023 | "This is a very dangerous problem. It's the ultra bright lights that blind oncoming traffic. Absolutely NO need in headlights being this bright!"                                                                                                                                                                                                                                                                                                                                                                                           |
| 4/15/2023 | "These lights are totally unnecessary and dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 4/15/2023 | "I do this exact thing on longer trips. I put my sunglasses on. I have to as to not be blinded!"                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 4/15/2023 | "I can barely see to drive on two-lane roads at night because of these lights! I fear I'm going to hit someone head-on!"                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 4/15/2023 | "Ban these unsafe and obnoxious headlights, and pass hefty fines for a\$\$holes who put them on their vehicles."                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 4/15/2023 | "It's blinding. The lights are so bright and blinding I can't watch the road because I can't see anything but the glaring lights!"                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/15/2023 | "I have eye damage from head light glare"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 4/15/2023 | "It's nice to see when you need it but not at the expense of oncoming traffic. We need to limit the lumen concentration or wavelengths somehow."                                                                                                                                                                                                                                                                                                                                                                                            |
| 4/15/2023 | "A few months ago I was driving home from work - an easy 14 minute drive on back roads at the time. There is one turn where I needed to see both ways before turning as there is no light there. It wasn't even dark yet. The truck behind me had lights on that were so bright I literally couldn't see to my right AT all. I literally had to make the turn hoping there was no one there. Luckily no one was there but in my life I've never wanted to stop my car, get out and address the driver of a car so badly before in my life." |
| 4/15/2023 | "I found this petition/drive on the CITIZEN FREE PRESS news aggregator website. Finally! LED headlights are a curse! Horrible! I avoid nighttime driving as much as possible for this reason. Beware: It is the normal course for government regulatory/safety agencies to be bought off and OWNED by the very industries they "regulate." Let's do this! Thank you, organizers!"                                                                                                                                                           |
| 4/15/2023 | "It's about time Someone does something about these headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 4/15/2023 | "I hate blinding lights because they are dangerous and annoying!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 4/15/2023 | "I have been blinded often by brilliant oncoming headlights, mostly on the 'redneck style trucks'."                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/15/2023 | "It's not just headlights, it's also blinding LED Brakelights when you're behind a car with those at a stop light. I keep seeing them more and more"                                                                                                                                                                                                                                                                                                                                                                                        |
| 4/15/2023 | "They are bright and high. They need limited. New tech should not take so long to be adopted in the US."                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 4/15/2023 | "I am literally left blinded and CANNOT see when those obnoxious trucks with their idiotic led lights get behind me. Those bright lights can easily cause an accident and cause long term eye issues."                                                                                                                                                                                                                                                                                                                                      |
| 4/15/2023 | "I'm a trucker . Those headlights are dangerous at night, especially on 2way roads. They are so bright that they block 75% of my road vision. Get rid of them asap before I have a wreck and possibly kill someone or myself."                                                                                                                                                                                                                                                                                                              |
| 4/15/2023 | "I've nearly crashed because of those things"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| 4/15/2023 | "I thought it was just me."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 4/15/2023 | "I cannot drive at night due to bright headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/15/2023 | "I used to LOVE night driving. But now, it is a near-constant barrage if absolutely blinding lights! Each time, I swear the incoming driver has his/her brights in. But no! These outrageous, ludicrously dangerous lights have caused several close calls lately. I am completely astounded these blinding lights were EVER considered safe for automobiles. And side from the sheer terror of being blinded and getting into an accident, there is now the added concern to one's eye health long term. Outrageous! Stop the assault on night drivers!!!" |
| 4/15/2023 | "Drivers in my state - NE - consistently drive with their brights and or multi-stscked LED vehicles... I frequently can't even see the right side of the road to look away from the glare... and have to drop my speed to maneuver on out tight or curved roads..."                                                                                                                                                                                                                                                                                         |
| 4/15/2023 | "This is a real concern for my husband & myself. There should be regulations on something that blinds you while driving."                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 4/15/2023 | "I agree that this problem has to be corrected"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 4/14/2023 | "I have reduced visibility in low light. My eyes adjust slowly. These needlessly bright LEDs make it very difficult for me to see while driving at night especially in the rain with the reflective wet roads. It's unbelievably inconsiderate to blind others for your own minor visibility increase."                                                                                                                                                                                                                                                     |
| 4/14/2023 | "It forces me to look away until they pass which is unsafe. This has caused me a night life. I have given up driving at night unless completely necessary.. if you need lights that bright. We have always had them. Called brights and every one knows you turn them off when another car is coming.. because it blinds them.. common sense for 100 years what the hell happened."                                                                                                                                                                         |
| 4/14/2023 | "If I can't see EVERY time a car goes by me, they should not have them. I've almost ran off the road several times because of those eyeball burning lights. It's bull. And I will run into you"                                                                                                                                                                                                                                                                                                                                                             |
| 4/14/2023 | "Safety first"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

| 4/14/2023 | "Airport runway lights .. hideous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4/14/2023 | "I have been blinded many times while driving at night and have limited my night driving because of it. It is so dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 4/14/2023 | "Can't see at night with these blinding LED lights. Very dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 4/14/2023 | "Being blinded by high intensity light is no fun and is quite dangerous. This of us in lower sitting vehicles are particularly vulnerable. Plus, don't we have enough light pollution around us?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 4/14/2023 | "There comes a point when energy savings or whatever reasons manufacturers are giving for using LEDs or for the safety of the driver behind those lights is negated by the Hideous Lack of Safety for oncoming drivers. Ask insurance companies how many claims there are for drivers who went off the side of the road because the road curved and the driver didn't because the driver was so blinded by oncoming LEDs they didn't see it. Ask insurance companies how many claims are for drivers who went off the side of the road because the driver flinched when suddenly hit with LEDs coming out of a cross street or driveway. I know several elderly people who will not drive at night, not because they have bad night vision, but because trying to drive safely while dealing with blinding LEDs is too high stress for their hearts. Blinded by the light makes for great song lyrics, but not for driving safety." |
| 4/13/2023 | "I, too, am fed up with ridiculously bright headlights on cars at night. At first, I thought some people were driving with their high beams on, but then I thought to myself, it can't be this many people driving around with their high beams on at the same time. Too many times I have been blinded by oncoming traffic, which is extremely dangerous, not to mention, the interior of my car being brightly lit by the headlights on the car behind me while also being blinded by the flare in my rear and side view mirrors. How are these lights even legal? There's zero consideration for the safety of other drivers."                                                                                                                                                                                                                                                                                                   |
| 4/13/2023 | "I'm tired of being blinded by these types of headlights as I drive home every evening. Many times I cannot see the painted lines on the highway as they are so bright."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 4/13/2023 | "I'm light sensitive to begin with, and these obscenely bright headlights make it much worse."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 4/13/2023 | "It's more dangerous to be blinded by the opposing traffic at night. The newer lights are painfully blinding and are worse than ever. They make night driving miserable and dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 4/13/2023 | "I'm a home health aid who drives far to work in the dark. I am concerned my eyes are being permanently damaged by the insanely bright lights of newer vehicles. I'm also worried I'm going to have an accident due to impaired vision. After a vehicle with bright lights passes me, it usually takes at least 15 seconds until I stop seeing spots and my night vision begins to return. During that time, I'm technically visually impaired. I'm really worried I'll hit a deer/animal or possibly drive off the                                                                                                                                                                                                                                                                                                                                                                                                                 |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

|           | road.I'm not old, only in my 30's. I go to the optometrist/ophthalmologist every year and I do not have anything wrong with my vision. It is simply a fact that vehicles are being made with excessively bright lights.There's also the issue of after-market lights which needs to be addressed. People using extra sets of bright lights, blue/colored lights, LED light bars, spotlights, etc. These ALL need to be regulated if they're approved for on-road use. Anything unregulated or not approved needs to be clearly labeled as "Of"                                                                                                                                                                                                    |
| 4/13/2023 | "I am sick of being blinded at night by these people with insanely bright headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 4/13/2023 | "I've been complaining about the bright lights since the halogens came out! Have had to hold my hands in front of my eyes and THAT is dangerous while driving!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 4/13/2023 | "Tonight, after being blinded by a jacked up truck across from me, both of us waiting for a green signal. I take my turn which there happens to be road construction on and hit some orange cones because I have big white spots in my eyes. I couldn't tell the difference of the lanes and when coming to another light I couldn't tell the distance between me and the car ahead of me. These lights are causing vision impairment to all drivers and the effects last several minutes. I had to pull over until those white spots faded enough to drive safely."                                                                                                                                                                              |
| 4/13/2023 | "I believe it is causing eye damage. It's just like looking directly at the sun."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 4/13/2023 | "I'm SICK of blinding LED's in new cars! Especially Ford pickups with FOUR low beams!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/13/2023 | "I have been temporarily blinded by Led lights while driving, especially when it's raining."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 4/13/2023 | "almost caused soooo many accidents"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 4/13/2023 | "The amount of accidents I've narrowly avoided due to led headlights on vehicles like a Toyota camery is insane. This shouldn't even be an issue."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 4/13/2023 | "Driving to work at 5 am it is always dark. I drive an older truck so the small cars lights do not blind me as badly but the new trucks on the road have those white leds, they are brighter than my conventional yellow high beams."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 4/13/2023 | "These lights are blinding, dangerous & should not be allowed. Without regulations to prohibit, this is affecting so many people & causing so many accidents, even death."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 4/13/2023 | "It's blinding and triggers migraines. Additionally, you can't see for a significant period of time after experiencing. This is a recipe for disaster!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 4/13/2023 | "I've HAD IT with these ***** LED headlights. I only drive in the dark now when I absolutely have no choice, which has completely destroyed my social life, family life, is risking my job, and puts my life in jeopardy every time I meet these blinding DEVIL LIGHTS. My eyes don't just hurt after meeting them anymore, they hurt in the daytime as well now, after years of exposure. And I know I'm not alone.The NHTSA and the other government agencies responsible for this avoidable catastrophe owe me and the rest of us \$\$\$\$\$ compensation for essentially destroying our lives. Everyone of us should start thinking about early retirement, cause some day these CRIMINALS are going to get sued for every dollar they have." |
| 4/13/2023 | "I really can't stand those high lights on cars it's blinding and scary when u can see the road,especially for pol with night blindness,and if ur on a road that turns and winding,and head on..someone is going to get hurt or killed."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| 4/13/2023 | "well, I thought I was just old, crazy or imagining things when I started complaining to myself about the bright lights...and cursing at drivers (windows closed)...moving my mirrors up down, in & out ...trying to actually SEE!...I have a difficult time seeing bicycles, pedestrians and the actual ROAD at times....and those damn high profile suv's and pickup trucks are HORRIBLE!...I don't know know if the owner's are aware of how dangerous their vehicles are, or even care? What makes me angry is the fact that if I have MY "brights" on to see, these drivers (of big brand new vehicles) signal me to turn my lights down! HaHaHa! I DO NOT COMPLY!! how do they like it!???" |
| 4/13/2023 | "Humanity need's to prevail over profits"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/13/2023 | "I don't want to drive with blindness, the blindness may only last a few seconds, but those few seconds can be a matter of life or death"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/13/2023 | "Many cars headlights are too bright"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 4/13/2023 | "Blinding headlights have been getting worse over the past several years. Blinding opposing traffic is unacceptable as it puts everyone in the road at risk."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 4/13/2023 | "It's too dangerous for me to drive at night now due to the brightness of the headlights. Since headlights are no longer part of the inspection process for annual vehicle inspections it is only gotten worse."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4/13/2023 | "They need to outlaw fog lights when not needed as well"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/13/2023 | "Extremely dangerous - as a truck driver it greatly interferes with me driving safely on the big roads!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 4/13/2023 | "LED headlights suck. I'd like to SEE when I'm driving."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/13/2023 | "Safety should be the number one concern when driving. Headlights are bright enough when someone has their high beams on inappropriately, but the new "low" beams are too bright and are equivalent to the high beams."                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 4/10/2023 | "So sick of overcompensating jerks blinding people at night and making the roads dangerous for everyone else."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 4/10/2023 | "LEDs are dangerous and harmful"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4/10/2023 | "I have astigmatism, which makes driving hard at night, even with glasses to aid me. Add in the LED lights on new cars, I avoid driving at night as much as possible as I don't want to go blind and cause of be in an accident"                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4/10/2023 | "I have worn glasses since I was 5, and I have blue eyes. My eyes are not super sensitive to light but these modern hid and led headlights are absolutely blinding. Making driving at night painful if not dangerous for anyone driving at them. As a hunter I can appreciate bright lights when off the main road but not on the roadway. Almost all streets are well lit these days with lights even being installed on the interstate at transitional areas for safety. No one needs lights this bright and if they do then maybe they should do what my grandmother does and do their driving while the sun is up."                                                                           |
| 4/9/2023  | "I have developed a light sensitivity and LED lights absolutely hurt my brain.. it's very important to me to not have to buy these bulbs.. please lift the ban!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 4/9/2023  | "Im blinded by the lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 4/9/2023  | "This is a significant and solvable problem."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4/9/2023  | "I have nearly gotten pushed off the road from drivers tailgating me at night. I have to pull over frequently and have intense headaches from driving at night. I've tried numerous expensive night driving glasses that do not help. I already have pre-existing light sensitivity and this has made life almost intolerable- I won't go out, go anywhere some days because I worry about dealing with eye strain and headaches. Some cars even have flashing lights that make me feel like I am going to faint. I also have ADHD and it's extremely difficult to focus. This is endangering us all. Please do something about this." |
| 4/8/2023  | "These lights blind me. I have to raise a driving hand to blank them off, which I hate doing since it's not safe."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 4/7/2023  | "These lights impact my ability to see at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 4/7/2023  | "I'm terrified to drive at night because the headlight situation is dangerous for me"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4/6/2023  | "I avoid night driving whenever possible, as someone in a sedan, I am simply not able to see with these LEDs in my face. I have to pull over and wait for them to pass. And this is coming from someone with no vision issues whatsoever. These need to be regulated"                                                                                                                                                                                                                                                                                                                                                                  |
| 4/5/2023  | "My solution is to wear sunglasses while driving at night and memorise the road ahead for when blinded, but it is not ideal!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/5/2023  | "These headlights are unnecessarily bright, and exceptionally worse when used in higher riding, or lifted vehicles. There needs to be more strict regulation."                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/5/2023  | "I am tired of being blinded while driving by these headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 4/5/2023  | "I hate being blinded by really bright headlights shining in my eyes at night. There needs to be a limit"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 4/5/2023  | "They are dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 4/4/2023  | "I recently got stuck behind an ambulance whose brake lights were so bright they hurt my retinas and I had to look away from the road, endangering me and others. If they're getting so bright they cause retinal pain, this has become a national crisis. LED lights need to be banned on ALL external vehicle lights!"                                                                                                                                                                                                                                                                                                               |
| 4/4/2023  | "light pollution is hazardous to everyone's health"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 4/2/2023  | "I'm not trying to die on the road."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 4/2/2023  | "I suffer from photosensitivity and optical migraines. The sudden blinding light in contrast to the dark surroundings is excruciating. It causes an uncontrollable flinch or squint. This translates to blurry vision, halos, and sharp pains. Headlights simply do NOT need to be this bright. A well focused light would not do this."                                                                                                                                                                                                                                                                                               |
| 4/2/2023  | "When you get old, lights start to blind you. Well, regular car lights aren't a problem for me, but these LEDs are brutal. Especially on high-rise trucks, it's constant blinding even in my night-time rear view mirror, and in a hilly town I'm regularly expected to go over the top of the hill and take a turn while blinded. We have laws prohibiting using your high beams because they can blind people, and LEDs are BRIGHTER... why on earth are they legal?"                                                                                                                                                                |
| 4/1/2023  | "I like safe roads"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 4/1/2023  | "They come towards me and I can't see. Its awful i can't even see the road."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 3/1/2023  | "I often wonder if drivers are using their bright lights that are causing a blinding glare. LED/HID don't help drivers see better and yet are dangerous in many ways. Regulation could save lives."                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 3/31/2023 | "I'm tired of being blinded by LED headlights at night! They are so distracting and dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

|           |                                                                                                                                                                                                                                                                                                                                                                   |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3/29/2023 | "These lights are fucking ridiculous, they're literally brighter than the high beams on my car, and WHY THE FUCK are they always adjusted right at eye level? Aim them at the fuckin street not the fuckin moon!"                                                                                                                                                 |
| 3/29/2023 | "I can't see when I drive at night any more cause these headlights are blinding."                                                                                                                                                                                                                                                                                 |
| 3/26/2023 | "Screw these lights."                                                                                                                                                                                                                                                                                                                                             |
| 3/26/2023 | "There is no reason for them light's to truly be that bright I truly have to stop just to make sure I'm staying safe and on the right side of the road"                                                                                                                                                                                                           |
| 3/26/2023 | "I'm tired of almost crashing from being blinded by these awful things"                                                                                                                                                                                                                                                                                           |
| 3/25/2023 | "I fucking hate those lights"                                                                                                                                                                                                                                                                                                                                     |
| 3/24/2023 | "These high intensity lights are dangerous to other drivers on the road"                                                                                                                                                                                                                                                                                          |
| 3/23/2023 | "I like to see at night"                                                                                                                                                                                                                                                                                                                                          |
| 3/23/2023 | "I have never had a problem driving at night until the increased use of blinding headlights became the normal. I cant believe I have avoided tinting my windows for 10 years (the sun is fine!) but am now considering it for the nigh-time?! No thank you. This is a real problem, and I cant imagine how it affects the visually sensitive or elderly drivers." |
| 3/22/2023 | "I CANT SEE! Literally. The New LED Headlights arent even on "High-Beam" and they're lighting up the whole inside of my car, blinding me, and now allowing me to see PAST their car On MY LANE. What if there was a pedestrian, or a stopped car on the side of the road. WE NEED A SOLUTION"                                                                     |
| 3/22/2023 | "These headlights are a real nuisance, they leave a mark in your eyes that takes a few minutes to go away sometimes, and they're not necessary."                                                                                                                                                                                                                  |
| 3/21/2023 | "I'm only 22 and i had to stop driving at night as much as possible because of lights like this. i have astigmatism and driving with people who have bright lights on the road blinds me so bad. it's unsafe and our government needs to do something about it."                                                                                                  |
| 3/21/2023 | "These lights are unnecessarily bright making them an unsafe distraction on the road."                                                                                                                                                                                                                                                                            |
| 3/20/2023 | "These lights has caused severe pain and migraines to myself and eleven year old son. The pain last for awhile after being blinded or waiting at a stop light. I'm a nurse and work nights. Just imagine that!!!"                                                                                                                                                 |
| 3/20/2023 | "I no longer feel safe driving at night. I can't see properly with the blinding lights of other cars and this is curtailing my personal and family life."                                                                                                                                                                                                         |
| 3/19/2023 | "The LEDs are not the problem...." NOOOOOO! Use your head! LED's *are* the problem!"                                                                                                                                                                                                                                                                              |
| 3/19/2023 | "Inconsiderate individuals. That's the New Normal!"                                                                                                                                                                                                                                                                                                               |
| 3/19/2023 | "I know EXACTLY what you are referring to! I see it all the time on my walk!"                                                                                                                                                                                                                                                                                     |
| 3/19/2023 | "Them shitsis too bright yo"                                                                                                                                                                                                                                                                                                                                      |

| 3/14/2023 | "IT AGGRAVATES MY ASTIGMATISM!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 3/14/2023 | "Im in my early 30's and I've done my best to stop driving at night solely because of the popularity of lifted vehicles with blinding lights. There are often times when I am so blinded that I can not see the road and I am driving off memory. The person blinding me is putting their life in my hands and they are doing it without my consent. It is insanity.I drive an SUV, I can only imagine how bad it is for people driving lower vehicles. And the truth is many 'lifted bright lighters' literally and metaphorically look down on people in smaller cars. It's Idiocracy." |
| 3/14/2023 | "I'm 45 my car is 2012 model these new cars have very very very bright leds headlights it is very very dangerous I find it very difficult to see it would be great if somehow the government could replace older headlights for a cheaper price for leds so we all can see for people in need it it is very dangerous & scary something needs to be done just make them affordable on older cars without LED headlights just being honest it can be very scary"                                                                                                                           |
| 3/14/2023 | "I'm tired of being blinded for up to a minute by cars oncoming, one day it's going to cause me to wreck and hurt myself and my family"                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 3/14/2023 | "As an optician I have countless patients that complain about how these lights have made driving more difficult and more dangerous. The height of the lights needs to be addressed as well. Many of the trucks being sold today have headlights that are placed directly at eye level of anyone in a normal sized vehicle."                                                                                                                                                                                                                                                               |
| 3/14/2023 | "Super bright LED headlights and accessory lights are not only a nuisance, but are also dangerous for the other drivers on the road. They not only cause a distraction when being confronted with them, but also when being approached from the rear. Please pass regulations to limit the brightness and color of what is acceptable for being on the road."                                                                                                                                                                                                                             |
| 3/14/2023 | "Headlights are too bright and distracting. They are so bright that they are commonly used to blind other drivers on purpose."                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 3/14/2023 | "I have TBI and it is extremely difficult and scary to drive with blinding lights coming at you."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 3/14/2023 | "I don't want to be blind"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 3/14/2023 | "I've been blinded by these newer headlights and almost crashed because of it. It's ridiculous we have got to this point."                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 3/14/2023 | "I live in an urban area and these are so unnecessary and dangerous on city streets."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 3/13/2023 | "I suffer from migraines and can no longer drive at night without risking triggering a debilitating migraine."                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 3/13/2023 | "The headlights are blinding and eye damaging. It's ABSURD. And who is really at fault when an accident occurs as a result of being blinded? Is the the fault of a driver or the manufacturers?????"                                                                                                                                                                                                                                                                                                                                                                                      |
| 3/13/2023 | "I have experienced near crashes because of people either behind or coming towards me. I used to drive to work in the mountains where it is much worse."                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 3/12/2023 | "They are ridiculous and unnecessary!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 3/12/2023 | "I have astigmatism and these headlights at night are so blinding and dangerous. The LEDs are not the problem, it's the glare — there needs to be some kind of luminance regulations put in place as this is life safety issue."                                                                                                                                                                                                                                                                                                                                                          |
| 3/12/2023 | "I have many times been blinded by headlights and nearly run over someone"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| 3/12/2023 | "Driving at night has become a perilous adventure, especially on winding roads. I am continually blinded by these high power lights and no longer feel safe."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 3/12/2023 | "I drive too and am constantly blinded by high beam headlights at night which makes me freak out"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 3/12/2023 | "Everyone I know, including me, are blinded by these headlights at night, making driving dangerous for everybody!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 3/12/2023 | "They blind me on the road. My wife almost ran off the road blinded by a truck with LED. She can't drive at night anymore. They also trigger her migraines. They are dangerous!!!! And affect people's physical health!!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 3/12/2023 | "These are dangerous as they temporarily blind oncoming traffic creating a possible deadly situation."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 3/11/2023 | "I have eyes that are very sensitive to light and bright (especially white) things.. I honestly can't see (low riding car) every single light shines right into my window. Hear me out okay, (I'm obviously not the only one who can't see.) If someone could create having your brights on be the LED BS, then regular running lights be the warm yellow again (WHERE I CAN SEE AGAIN AND SEE PAST THE CAR AND NOT WONDER WHATS ON THE OTHER SIDE OF THE LIGHT WALL I'M LOOKING AT) I just feel like it wouldn't just help me but a lot of other's too."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 3/11/2023 | "Y'all stay safe out there! Always try to be aware of ur surroundings  <br>            |
| 3/10/2023 | "I wish they'd bring back affordable, easy to replace, glass sealed beam halogen headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 3/10/2023 | "This should be a no brainer. I cant believe anyone thought this was a good idea. Im tired of driving home from work, and essentially letting jesus take the wheel, because I cant see anything. The blinding light of a thousand suns burning right through my retinas causes black spots to appear in my eyes, so the blindness lingers much longer than the actual headlights. There was never a problem with the old headlights. I could see just fine before the blue lights came."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| 3/8/2023  | "It's physical painful and emotionally exhausting to drive at night. Not only are the lights a sensory hell, they also are preventing me from seeing where I'm going. It's so dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 3/8/2023  | "I live in Iceland and these bright headlights are terrible. They destroy our eyes and our environment. More and more cars have these bright headlights. I use sunglasses when driving in dark. The authorities are totally corrupt allowing these lights. They don't care about common people, they only care about big buisness."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 3/8/2023  | "I do not drive at night anymore because of the intense glare from these lights. It not only hurts my eyes it is extremely dangerous and there have been numerous accidents, injuries, and even deaths because of these lights. People over Profits!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| 3/7/2023 | "I can hardly drive at night anymore from these lights ruining my eyes."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 3/7/2023 | "I have had to stop driving at night because of led headlights especially Pickups and SUVs"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 3/7/2023 | "These blinding headlights are dangerous and should be outlawed"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 3/6/2023 | "I wish I could share with lawmakers the view from my condo/high rise. Every few minutes at night a blinding light from an intersection 1.4 miles blinds me. If that level of bright light from an Led Car headlight can reach and disrupt from over a mile away, what can that be like for the person in front of them. I've tried recording it but my iPhone camera/video is terrible. I feel like it would be a great indicator of just how bright these lights are."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 3/5/2023 | "As someone with impaired vision which isn't an issue but I also have an astigmatism..all light's already look like little light explosions as..BUT LED lights!!..it LITERALLY burn my eyes ..and then having it reflect off the side and rear view mirrors is ABSOLUTELY TORTURE..GET RID OF LED HEADLIGHTS"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 3/5/2023 | "I constantly have to lower my driver side view mirror down just so I block out the light..and the rear view thank god has the little piece that I switch up which puts it in I guess like a reflective or somethin like that..but that works really good to block the lights but I'm able to still use the rear view mirror"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 3/5/2023 | "I struggle to drive at night due to these headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 3/5/2023 | "Drivers are literally blinded when an oncoming vehicle is approaching AND after they've passed. And it's almost equally as distracting when LEDs shine in your eyes via the rear and side view mirrors. And so what are drivers reduced to doing in order to not be blinded? We look off to the side of the road when oncoming cars are passing, which of course is dangerous but at least we don't get momentarily blinded. We also adjust our mirrors to positions that aren't optimal so that we don't get blinded from behind. Note that I have absolutely no problem driving in the dark with warm toned halogen lights, even on country roads. But when I've driven cars with LEDs I find it harder to see long distance than with halogens. The eye is meant to adapt to low lighting, so a super bright light is counterproductive when trying to see in the dark. Halogens disperse light more naturally and the light slowly dissipates in the distance allowing for the eyes to adapt to the surrounding darkness, whereas LEDs create a stark bright" |
| 3/5/2023 | "💎 Way too many people on the road with their lights angled in the wrong direction. Sometimes when there's an oncoming car with high beams I'll flash my high beams to activate their car's automatic switch to low beam, or if they don't have automatic at least it reminds the other driver that they need to turn down their high beams."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 3/5/2023 | "I have photosensitivity and astigmatism in both eyes. I seriously can't drive for more than a few minutes without getting blinded and instantly dizzy. I come home with a mild headache at best every single time. It is VERY scary. How is this legal? I already have bad anxiety driving and this has made it x200 times worse. I'm so scared i'm gonna hit someone or something one of these days. PLEASE do                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

|          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

|          | something about this. It's not just me. Too many people are having issues with it. Please take this seriously."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 3/4/2023 | "Saves lives I agree with the petition"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 3/3/2023 | "It is now extremely difficult to drive at night with the headlights coming at me. I drive an older taller minivan so it is not the level of my vision field coming into p,at, it is the new headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 3/3/2023 | "December 2022 I was run off the road, blinded by their headlights(they were also in my lane) and ended up in a ditch with a \$700 tow bill while they drove off into the night. Blinding headlights were the reason I couldn't see and swerved into the ditch"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 3/3/2023 | "I become completely blinded by oncoming LED lights and have to adjust all my mirrors when cars are behind me with LED lights. It has become very dangerous to drive at night because of these lights. I truly cannot believe that this is becoming the norm on new vehicles. I am in my 50's so I do have older eyes, but my 20-year-old daughter also has the same difficulty seeing in the same situations. It is even more overwhelming when driving on narrow 2-lane roads. I fear being on a narrow, unfamiliar road at night. I think they should be banned and manufacturers should be forced to recall and replace them on factory-issued vehicles. At the very least, stop rolling them off the production lines with these lights now!!" |
| 3/3/2023 | "I have, along with other people that I have talked to, also have complaints about these BLINDING headlights. I have suggested that we file a lawsuit against these LED headlights. It's almost traumatizing, driving after the sun goes down or when its raining. I am afraid that I or someone driving in vicinity will wreck, causing serious bodily harm. Something need to be done, ASAP!!!! Chrystal Flake"                                                                                                                                                                                                                                                                                                                                   |
| 3/2/2023 | "Tired of unaware people driving rolling flash bangs"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 3/2/2023 | "I'm signing because first of all, I care! And to be honest, my eyes are getting older too. These lights are blinding to many of us and very dangerous for that reason.Thanks for considering the facts."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 3/2/2023 | "I commute to and from work. These lights blind travelers on interstates already going 80mph."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 3/1/2023 | "I prefer to drive a smaller car as I am only one person and don't need to use a lot of gas. Lately it feels hazardous to drive at night when these taller vehicles's bright blue-wave headlights are in my eyes. Even after a brief flash, my eye sight is temporarily compromised and I am still seeing spots for 15-20 minutes.This cannot be good for our eyes. Many of us suffer from migraines as well, and this can absolutely trigger them."                                                                                                                                                                                                                                                                                                |
| 3/1/2023 | "I CANT SEE"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 3/1/2023 | "I hate driving at night seeing everything alright, and some schmuck nearly causes me crash because of the dumb high beams!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 3/1/2023 | "Yes, thank you! I now have to wear sunglasses at night due to these LED headlights, making night driving even more dangerous!!! This is madness!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 3/1/2023 | "I certainly have this problem and never drive at night. Regular headlights are enough glare, no one needs to be blinded while driving."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 3/1/2023 | "This is extremely dangerous and can cause accidents"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 3/1/2023 | "I can almost not drive at night because of blinding lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| 3/1/2023  | "I often wonder if drivers are using their bright lights that are causing a blinding glare. LED/HID don't help drivers see better and yet are dangerous in many ways. Regulation could save lives."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 2/28/2023 | "It's blinding and dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2/28/2023 | "These lights are literally blinding. I also heard cyclists are having more accidents bc of them - they can't see either."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 2/28/2023 | "A lot of the newer headlights are blinding..."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/28/2023 | "The new headlights are extremely dangerous I have almost wrecked several times from them blinding me. I suffer from migraines and I am very light sensitive already. They not only blind you as they are approaching but even afterwards all you can see a spots and your eyes which prevent you from being able to see to drive afterwards. I have to put my sun visor down and hold my hand up in front of my face to block the lights as I'm driving or sitting still even. Also not only the headlights but has anyone else noticed the tail lights and blinkers are terribly blinding as well when you're sitting behind a vehicle at a stoplight. I truly wish that they would pass a law Banning the LED headlights and tail lights, brake lights and blinkers! Including the colored ones, especially the blue ones! And mandate restrictions height and brightness with mandatory state inspections!" |
| 2/28/2023 | "Not safe to be as Bright as high beams..."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 2/28/2023 | "the glare of oncoming lights is blinding at times. I actually have to block them with my hand in order to see the road!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 2/28/2023 | "I'm getting blinded during the dark on way to and from work. I wonder how many people are killed in accidents caused by these lights. I noticed jeeps low beams are really blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2/28/2023 | "It's dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 2/28/2023 | "They are so dangerous and completely blinding"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/27/2023 | "I'm signing this because I can't count the number of times these bright headlights have almost made me drive off the road. I also have noted an increase in my headaches and migranes after driving at night and passing cars with these headlights, or having them drive behind me. I prefer the duller yellow ones, we could see and it doesn't kill my eyes to drive at night if they pass me by or are driving behind me."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/27/2023 | "Since introduction of LEDs, I suffer from migraine, nausea, vertigo, difficulty concentrating, especially from excessively white blue LEDs. Also driving has become just about tolerable and a frustrating uncomfortable experience. I used to enjoy driving, now I avoid it."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/27/2023 | "Today a Lincoln Navigator was driving behind me. During the day with their high beams on. The light was blinding me in my rear view mirror and driver side mirror. I couldn't see to even drive. There needs to be some kind of regulation on these lights. I would think this new normal of brightness will blind people or we will have a lot more eye damage in the future for the young."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 2/27/2023 | "Blinding headlights are dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 2/26/2023 | "The new, super bright headlights are outrageous and need to be corrected ASAP!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 2/26/2023 | "What has ever happened to DOT rules regarding automotive lights? Today's super bright blinding head lights are dangerous and are aimed too high off the road. Restore sane and reasonable headlight rules and save lives while not blinding oncoming traffic."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| 2/26/2023 | "We need change and increased safety."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 2/26/2023 | "I absolutely detest these lights. They hurt my eyes and make it less safe for drivers coming the opposite way."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 2/26/2023 | "Bright or righly called blinding headlights don't help anyone. It's the opposite, they can distract drivers, pedestrians and animals, and could cause accidents. Stop using them!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 2/26/2023 | "Bright oncoming headlights are a safety hazard."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 2/26/2023 | "I can't drive at night anymore due to the led headlights. It hurts my eyes and I can't see, which is unsafe for everyone."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/26/2023 | "I have a TBI (traumatic brain injury) from being hit head on by a drunk driver 15yrs ago. I have to wear sunglasses and a bucket hat almost 24/7 due to all of the LED lights from cars, many of which are painfully bright even in the daytime. Thats in addition to every other light in sight being swapped out for LEDs now as well, ex. street lights, buildings, buses, etc. I have to look at the ground when walking at night which puts me at risk for accidents, assaults, etc. I know I am hypersensitive due to my TBI but these lights are so far from natural I know that with time healthy folks will be having increased health issues. Already every person on the road is in danger as vehicles are in constant motion blinding them with LEDs from all different directions, angles, and heights. I remember getting tickets for leaving on high beams just 20yrs ago in cars where u switched em on with your foot. Today's running lights are brighter than those!!! How is this ok?" |
| 2/26/2023 | "None of this is ok. Thank you for signing."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 2/26/2023 | "I was convinced people were just refusing to turn down their high beams, but this is worse. America has always been behind the rest of the world in headlight technology. It used to be that our sealed beams gave much less visibility than Europe's replaceable bulbs, but now our cars just spew blinding light. This is of a piece with giant pickup trucks that have head-height hoods to appeal to our reptilian brains, and at the same time mash the brains out of any pedestrians they hit. We need our laws updated to keep up with the marketing departments of the Big Three automakers."                                                                                                                                                                                                                                                                                                                                                                                                      |
| 2/26/2023 | "Not just the brightness level and color spectrum of these LED / HID lights but also the angle at which these are installed making a modern cars "lo-beam" act like a regular cars "hi-beam". Add to this idiotic AI technology like automatic high beam, you end up with blinding cars in the opposite direction."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 2/26/2023 | "I'm so tired of being blinded at night. I used to live driving at night but more I dread it! Please fix these headlights!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/26/2023 | "I'm signing because I almost hit a motorcyclist while changing lanes at night. The car behind them had really bright lights and I couldn't't see the motorcycle. There's times I can't see the lines on the road. Also, it makes driving with astigmatism even worse."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 2/26/2023 | "I've been completely blinded by these headlights. I think they should be banned EVERYWHERE. Absolutely NO reason why I should be blinded while driving, by another driver. Oh, and....the LEDs on police cruisers is JUST AS BAD."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 2/26/2023 | "I'm tired of being blinded. Afraid I'll end up in an accident because of it!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2/26/2023 | "the headlights are way too bright, and I cannot see if there is someone on the side of the road. I do not want to hit someone walking their dog because of stupid too bright oncoming hesadlamps, or a tree alongside the road on a curve."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

|           |                                                                                                                                                                                                                                                                                                                                                                            |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 2/26/2023 | "This is what government can do something about. This can measurably improve day to day life in the U.S.. There is an actual answer to this problem.It would be nice to see this tackled and unwinnable arguments/fights over issues like abortion (pro or con) tabled. Long enough to solve issues we can actually solve."                                                |
| 2/26/2023 | "Drive a small car and am light sensitive. Adaptive lights would be awesome and less painful."                                                                                                                                                                                                                                                                             |
| 2/26/2023 | "I too am affected by being blinded by LED headlights. My vision while driving becomes such a hazard when a vehicle coming the opposite direction blinds me, which almost has me either almost hit the other vehicle or a sharp turn that causes me to go off road."                                                                                                       |
| 2/26/2023 | "I agree! It's a danger to everyone in the road with no real benefit for the driver."                                                                                                                                                                                                                                                                                      |
| 2/26/2023 | "Shining a light in people's eyes is used as torture, distraction, and to confuse them. That is what driving with these lights coming at me and from behind me does to me. It is blinding and distracts my attention from being literally able to see and pay attention to everything going on while driving."                                                             |
| 2/26/2023 | "Been "blinded" by these bright headlights especially when they are on taller trucks and suv. Also get blinded by emergency vehicles having blinding emergency lighting."                                                                                                                                                                                                  |
| 2/26/2023 | "Enough is enough!"                                                                                                                                                                                                                                                                                                                                                        |
| 2/26/2023 | "As an Optometrist, I have had a huge increase in patient complaints regarding the perceived brightness of newer headlights, and the dangerous effect on night driving."                                                                                                                                                                                                   |
| 2/26/2023 | "I find LED headlights to present a driving hazard in many situations. They should be regulated to ensure they are just as safe as HID and halogen headlights. The height at which headlights are mounted on a vehicle should also be regulated?"                                                                                                                          |
| 2/26/2023 | "It has become difficult and dangerous to drive at night."                                                                                                                                                                                                                                                                                                                 |
| 2/26/2023 | "I am being blinded by these new lights. It literally causes me to turn my head away, thereby causing me to become a "distracted driver". If I physically cannot keep looking forward due to the pain from bright oncoming headlights, how am I to be able to be fully engaged in safe driving? Please, please.....LOWER THE LUMENS!!!"                                    |
| 2/26/2023 | "Blinding headlights are dangerous and this important issue must be addressed."                                                                                                                                                                                                                                                                                            |
| 2/26/2023 | "I thought it was just me that was having problems at night because of the brighter vehicle lights but now I SEE it isn't."                                                                                                                                                                                                                                                |
| 2/26/2023 | "I want to see the stars"                                                                                                                                                                                                                                                                                                                                                  |
| 2/26/2023 | "The LED headlights are very blinding and there are to many running lights around the headlights and as hould reduced"                                                                                                                                                                                                                                                     |
| 2/26/2023 | "I get blinded daily more and more over the last few years"                                                                                                                                                                                                                                                                                                                |
| 2/26/2023 | "These lights are blinding and disorienting. Go back to yellow lights!!!!"                                                                                                                                                                                                                                                                                                 |
| 2/26/2023 | "I'm tired of being blinded while driving at night"                                                                                                                                                                                                                                                                                                                        |

| 2/25/2023 | "The headlights blind me and I can't drive at night!"                                                                                                                                                                                                                                                                                                                                                                                      |
| 2/25/2023 | "I can no longer drive at night, especially in the rain, due to the blinding brightness of led headlights. They are surely causing accidents."                                                                                                                                                                                                                                                                                             |
| 2/25/2023 | "Shauna Revelli"                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 2/25/2023 | "My eyes are very sensitive and the head lights on cars are so bright and only getting brighter I have nearly crashed into parked cars as I'm driving past them with the glare of oncoming traffic it's very unsafe to the point I try to avoid driving when it goes dark"                                                                                                                                                                 |
| 2/25/2023 | "This is a serious safety issue. I can barely drive at night anymore, because I do not feel safe because I can barely see because of these absurdly bright headlights. Between this and people on their damned cell phones, it is getting less safe every day on the road."                                                                                                                                                                |
| 2/25/2023 | "These headlights are blinging and it makes me want to close my eyes. Instead I squint to be able to see."                                                                                                                                                                                                                                                                                                                                 |
| 2/25/2023 | "I am blinded by head lights .....both coming toward me and in my rear view mirrors!! It's dangerous and PAINFUL"                                                                                                                                                                                                                                                                                                                          |
| 2/25/2023 | "Being blinded while driving especially in our area because of living in the largest deer migration route in the USA"                                                                                                                                                                                                                                                                                                                      |
| 2/25/2023 | "Driving at night, even in the late afternoon is getting increasingly unpleasant and dangerous unnecessarily."                                                                                                                                                                                                                                                                                                                             |
| 2/25/2023 | "Honda pilot lights and pickup headlights are too bright"                                                                                                                                                                                                                                                                                                                                                                                  |
| 2/25/2023 | "In my area, rural Oklahoma, the newer trucks lights are adjusted to high so when a trailer is hooked up they blind oncoming traffic. On many occasions I've just pulled to the side not being able to see."                                                                                                                                                                                                                               |
| 2/25/2023 | "They are Uncomfortable"                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2/24/2023 | "I literally can not see"                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 2/24/2023 | "I'm tired of having spotty vision at night after being entirely blinded by completely unnecessarily bright lights from other vehicles. It's a safety risk AND it's permanently damaging to eyesight. Those lights should have NEVER been allowed to be installed into cars."                                                                                                                                                              |
| 2/24/2023 | "Over bright headlights are a disaster in action. Surely the authorities can see they are dangerous to other road users. As they give a very bright spread of illumination they also can encourage drivers to drive too fast."                                                                                                                                                                                                             |
| 2/23/2023 | "Been blinded by these things while driving at night."                                                                                                                                                                                                                                                                                                                                                                                     |
| 2/23/2023 | "As a motorcyclist and migraine sufferer, I am acutely aware of this problem. Polarized glasses help but even then there are times when I am simply blinded by oncoming headlights - AND headlights in my mirrors. I sometimes wear sunglasses at night, fold out my mirrors and close my eyes while driving - none of which are remotely safe of course but still better than being blinded and seeing nothing for the next few moments." |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

Anyone who has been on the receiving end of them knows this."                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 2/20/2023 | "To keep my loved ones safe"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 2/20/2023 | "I too am tired of being blinded by these lights. There used to be a "rule" when on a rural road or sans streetlights, you had to dim your high beams when you see an approaching car. These lights are far more blinding than a high beam light emitting from a "regular" headlight. Definitely Should be made illegal. Also, if you are driving a vehicle with these blinding lights, there is a risk of someone colliding with you due to temporary blindness."                                                                                       |
| 2/19/2023 | "I'm tired of being blinded and not seeing the road ahead"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 2/19/2023 | "*Can't see..."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2/18/2023 | "Troll"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 2/18/2023 | "First off this is a relief to know I'm not alone. I drive an hour home daily and this is through back country roads leaving my eyes unaccustomed to bright lights. I used to white knuckle drive in severe snow storms and now I'm doing this every time I drive after dark."                                                                                                                                                                                                                                                                           |
| 2/18/2023 | "It's dangerous to drive at night because of the blinding headlights - especially if you're in a sedan at the mercy of bigger and bigger SUVs!"                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2/18/2023 | "This is not an alignment issue."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 2/18/2023 | "Blinding lights causes accidents"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 2/18/2023 | "Almost got fired for scratching a parked vehicle because I couldn't see due to blinding headlamps from another parked vehicle. I was in a delivery vehicle much higher than regular cars but still caught beams. This is not an alignment issue as the car companies are saying in order to shift the burden onto citizens. This problem can only be solved by banning unnecessarily bright lights on the road. You only need to see what's on the road far enough ahead to be safe. You don't need to light up everything between you an the horizon." |
| 2/18/2023 | "People have taken things too far and it will only get worse. This is just another form of reckless driving. If you can see the road with normal lights, you shouldn't be driving."                                                                                                                                                                                                                                                                                                                                                                      |
| 2/17/2023 | "It's a serious problem, especially for those on smaller cars."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2/17/2023 | "Newer headlights are way too bright - distracting and fatiguing - and on far too many trucks and SUVs, too high off the ground"                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 2/17/2023 | "I have been blinded by vehicle low beams that shine directly in my eyes instead of at the road."                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 2/17/2023 | "Getting blinded by more and more oncoming cars every night!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 2/17/2023 | "many people have light sensitive eyes and this compounds the problem of bright headlights. Some drivers seem unaware that their lights are aimed wrong,                                                                                                                                                                                                                                                                                                                                                                                                 |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

|           | directing their beams into the eyes of other drivers, while other drivers have their high beams on unnecessarily, also blinding their fellow drivers. This needs to stop. Drivers with bright beams on should be ticketed and issued fines. Headlights should be standardized to be below the eye-lines of other drivers."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/17/2023 | "These headlights and tail lights are truly dangerous. They blind and distract and seem to be everywhere. Perhaps they improve the vision of the person who is driving with them but how can that justify their use when they blind oncoming traffic. They need to be banned."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 2/16/2023 | "Stock or aftermarket, these headlights should be illegal and possess at least a thousand dollar fine. The headlight manufacturers should be sued to hell & back."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 2/16/2023 | "I'm sick of being blinded on the way to work!!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 2/16/2023 | "Many of these vehicles are after market equipped and there are already laws in most states requiring D.O.T. approval for all lighting but there are many false D.O.T. certifications on aftermarket equipment. A larger problem is police vehicle emergency lighting. Not only are the static lights absolutely blinding but before the evil of LED the beacons rotated and that rotation illuminated officers and others standing at or near the scene. However the LED light bars only emit blinding unidirectional light so objects other than the light source become invisible. If your are a LEO or know anyone that is a LEO please let them know drivers are not trying to run over them, they simply can't see them due to the non rotating beacon so stand behind that beacon and never near the roadway or between the LEO vehicle and the roadway. Young drivers with healthy vision are vulnerable but those with even mild visual impairment may "follow the light" causing a collision with the source vehicle. If you wish to experiment" |
| 2/16/2023 | "These lights are entirely too bright. I used to drive truck. On a windy 2 lane road on a rainy night with no streetlights or other options and me weighing in at nearly 80,000 lbs, even sitting high up you are unable to see and off the driver coming at you, you may be running over them. You are not able to see anything but bright and reflection off the wet surface of the road."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 2/16/2023 | "I left the blinding rain reflection out of my comment. As one who hates night driving due to the incoming blinding lights, if it's raining, nothing is that important to risk an accident due to all the variables annoying lights have, now adding the double vision of reflective road conditions. I think at 65, I'm going to start learning how to navigate the senior assistance programs, learning at my pace, not being thrown into it, last minute not knowing what in earth I'm doing!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 2/16/2023 | "@Kent Petyon - Excellent observation. Please post these same comments on our petition to the FDA to regulate LED strobe lights:<br><a href="https://www.regulations.gov/document/FDA-2023-P-0233-0001">https://www.regulations.gov/document/FDA-2023-P-0233-0001</a> "                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 2/16/2023 | "I like to be able to see when I drive :)"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/16/2023 | "It's NOT safe getting blinded by these outrageously bright lights that'll block my vision of the road, and prevent me from using my mirrors!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 2/16/2023 | "I can't see shit!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 2/15/2023 | "Headlights are getting brighter and are blinding me while driving. Not only that, people are using illegal light bars."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2/15/2023 | "Hi,It's ridiculous, but it's good to know I'm not alone with the dread. You literally can't see the road in front of you, almost anything at all. Warmer yellow lights are nicer!Came across this on google articles.For the cure.Nicholas"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| 2/15/2023 | "I also restrict my driving at night due to the bright, blue-toned headlights located at eye-level"                                                                                                                                                                                                                                                                                                                                                 |
| 2/14/2023 | "I am legitimately afraid of crashing because I can't see with oncoming traffic."                                                                                                                                                                                                                                                                                                                                                                   |
| 2/14/2023 | "I signed because I would prefer not to be killed in an easily preventable accident caused by blinding headlights."                                                                                                                                                                                                                                                                                                                                 |
| 2/14/2023 | "I stopped driving at night not because of the deer, etc. but because of these lights"                                                                                                                                                                                                                                                                                                                                                              |
| 2/14/2023 | "I'm only 53, but I have had to give up most driving at night. I have light sensitivity because of severe nearsightedness and migraines, and today's blinding headlights overwhelm my ability to see anything at all while driving at night. Lights are intended to help us to see our environment; when all we can see is the lights themselves, they are no longer useful or beneficial."                                                         |
| 2/14/2023 | "It's simply infuriating how regulatory authorities can be so blind to such a glaring health & safety issue. Ban these migraine-inducers!"                                                                                                                                                                                                                                                                                                          |
| 2/14/2023 | "I can't see at night"                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2/13/2023 | "My eyes have been effective so bad I cannot drive safely anymore at night also when they are on standing still I get blinded."                                                                                                                                                                                                                                                                                                                     |
| 2/13/2023 | "Extremely dangerous for drivers of all ages. The car company that can solve this will sell more cars. Put some engineers on making these lights safer instead of adding more to the front and rear and inside of cars. Flying over cities now the lights on highways are extremely bright and all white. Ugly and blinding. Very unsafe. How many fatalities caused by this will the car companies say is acceptable before they solve the issue?" |
| 2/13/2023 | "I literally have to hold my hand up to block the glaring blue lights of oncoming traffic. The worst offenders are the pick-up trucks that are typically fitted with lift and light kits - which means MORE blinding blue-white LEDs."                                                                                                                                                                                                              |
| 2/13/2023 | "I know my own vehicle also blind other drivers. Had taken to the dealer to try to fix and told there's nothing they can do! So many time people high beam me thinking I have my high beam on! This is really ridiculous!"                                                                                                                                                                                                                          |
| 2/13/2023 | "This needs to go "viral" before these car manufacturers will do something about it! My guess is the car engineers don't even know how to drive! They probably Uber to work!"                                                                                                                                                                                                                                                                       |
| 2/12/2023 | "I'm sick of being blinded by these lights and having to move my mirrors just because one of these people is behind me. They give me migraines and have blinded me many times while driving."                                                                                                                                                                                                                                                       |
| 2/12/2023 | "I hate being blinded"                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2/12/2023 | "They are binding and absolutely unnecessary. There's no reason someone needs to see a raccoon's butthole from a mile away and blind everyone is the process."                                                                                                                                                                                                                                                                                      |
| 2/11/2023 | "Yes they need to do away with the led lights . They blind me at night ."                                                                                                                                                                                                                                                                                                                                                                           |
| 2/11/2023 | "Headlights are ruining my vision. If you do a bit of research you will discover that they are now using Laser technology in modern headlights? Are they trying to create a generation of blind people? This lights are ridiculous. They are not even safe! What is the point of blinding the on coming traffic? That doesn't seem to make any sense."                                                                                              |
| 2/9/2023  | "I signed because it causes eye injury, I drive at night and it makes perception of Road lines and boundaries extremely dangerous. When a bulb is over 4300 kelvin it provides no real benefit and washes out shapes and figures in the road. Making                                                                                                                                                                                                |

|          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|          | them appear to be in a different spot on the road, than they really are. With more than 68% of cars on the road being swapped to these bulbs. Its time officers enforce these rules and issue citations."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 2/8/2023 | "Headlights and brights have become the same. The only difference on new cars is when they turn on the brights the headlights angle up. Ill flash my brights at someone because i cant see a thing, they ignore it and ill have to stop in the middle of the road blocking traffic due to not being able to see anything but a wall of white like the photo above. Its not my fault you bought a car with headlights that bright, the owners should be required to dim them with tint or lesser bulbs by law."                                                                                                                                                                                                           |
| 2/6/2023 | "These lights are just awful. Ban them!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/5/2023 | "I have to avoid driving at night because the glare from these LED lights is horrendous. They force me to look away from the road (does that strike anyone as dangerous?) or put up a hand in my front windshield to shield my eyes (same question). I wrote a complaint to the NYS DMV years ago but never heard back from them. These lights are someday going to drive me into a tree. They're fatally blinding. My son says the same thing when he drives - and that the light image is still in his eyes EVEN after the car has passed, blinding him still. I already posted my enraged comments about LED lights in general on the light bulb ban opposition petition. Thank you so much for doing this petition." |
| 2/4/2023 | "This is not just a health issue, but it is very much a safety issue! Blinding LED headlights cause collisions! When faced with blinding head lights, it is impossible to see the lane designations, or the vehicles that may be stopped ahead; it only takes a few seconds for the distraction and the disorientation to result in a collision and injury. There is no justification for LED headlights on vehicles or street lights. A law against them must result in a mandated car inspection that is required before a vehicle can be registered yearly, and/ or a hefty fine would stop the use of LEDs. But first, there must be a clear regulation."                                                            |
| 2/4/2023 | "The headlight are blinding.have came close way to many times of going off the road being blinded by on coming headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2/2/2023 | "I'm sick and tired of the led lights everywhere. headlights that blind me from seeing any potential road hazards, police lights that almost have me come to a complete stop from the extreme flashing glare that only gets worse with new model squad cars. There's the neighbors who replaced their 6 outside lights with led on 24-7 so now I have to keep my blinds always closed at night. Add the new led street lights 4 blocks away, the only stars that one can see now are only the brightest. I live in a small town of 5k that 20 years ago there were lots of stars and darkness at night. No more."                                                                                                        |
| 2/1/2023 | "My cataract surgery resulted in more glare from lights at night, but it wasn't until the LED and Xenon lights became more common that it became a serious problem for me. Sometimes, I'm so blinded by oncoming headlights that I can't even see the lane markers for a few seconds. I need to be able to drive at night."                                                                                                                                                                                                                                                                                                                                                                                              |
| 2/1/2023 | "While driving at night I've lost the ability to see the road when vehicles coming in the opposite direction have incredibly bright headlights that blind my eyes. I don't understand why people who purchase vehicles with extremely bright headlights don't seem to grasp the reality that they are putting themselves, and others, in                                                                                                                                                                                                                                                                                                                                                                                 |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|           | danger of causing head-on collisions at night because of the impact their very bright headlights have on other drivers."                                                                                                                                                                                                                                                                                                                                                                 |
| 1/30/2023 | "I can not see to drive when these LED headlights shine directly in my eyes. I seem to go blind. Very dangerous."                                                                                                                                                                                                                                                                                                                                                                        |
| 1/30/2023 | "They are too bright and blinding"                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 1/30/2023 | "It's so scary being intermittently blinded when I'm driving at night. I literally cannot see when a vehicle with LED headlights is oncoming and then for a few seconds after it passes. Which means when there's several cars in a row coming at me with the LED headlights, I can be completely unable to see for a minute or more. That is terrifying."                                                                                                                               |
| 1/29/2023 | "There's no reason for those bright a\$\$ lights"                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| 1/20/2023 | "These headlights ARE blinding, especially at night without streetlights and proper lines on the roads. These lights should be banned!!!"                                                                                                                                                                                                                                                                    |
| 1/20/2023 | "Im blinded by the lights... I can not drive at night because of these lights"                                                                                                                                                                                                                                                                                                                               |
| 1/20/2023 | "I'm avoiding driving or cycling at night because of the blinding led lights of oncoming new cars trucks and suv. I've had to stop and pull over to wait and get my vision back"                                                                                                                                                                                                                             |
| 1/20/2023 | "driving at night has become impossible and dangerous so many times I have had to come to a full stop knowing there is a curve in front of me but am not able to see it."                                                                                                                                                                                                                                    |
| 1/20/2023 | "Those LED lights look bad. I see them on cars and they glare and throw a bad light. They are unhealthy and our Christmas tree looks sad with these lights. They are a mistake. Gov't makes so many mistakes and it costs so much...life and dollars."                                                                                                                                                       |
| 1/19/2023 | "Lights that are too bright are not safe for oncoming drivers. This needs to be regulated."                                                                                                                                                                                                                                                                                                                  |
| 1/19/2023 | "I'm so sick of being completely blinded driving home from work at night on 100km country roads. And of people that think their high beams aren't on and their car came like that so it's fine. It's not fine, it's dangerous, selfish and stupid. Clean the casing and lower them before you get someone ram into you because they literally can not see."                                                  |
| 1/19/2023 | "We need to ban excessively bright headlights for everybody's well-being."                                                                                                                                                                                                                                                                                                                                   |
| 1/18/2023 | "I have be blinded by these lights on the highway. Not safe to be hurtling into nothingness all of a sudden"                                                                                                                                                                                                                                                                                                 |
| 1/18/2023 | "For years, I have struggled with night driving due to the white lights. They cover my entire windshield when coming at me and my tires have gone off the edge of the road on a curve on a few occasions. The bright white lights are too dangerous to use, especially on pickup trucks which are higher than any car. I am grateful for this petition. Karen Martin, Victoria, BC"                          |
| 1/18/2023 | "We Thank You for Your signature & support Karen.Please Share this petition with as many people as possible & please take a look at this other petition as well. Thanks Again. <a href="https://www.change.org/p/justin-trudeau-elimination-of-bright-hid-led-headlights">https://www.change.org/p/justin-trudeau-elimination-of-bright-hid-led-headlights</a> "                                             |
| 1/18/2023 | "Catherine Nevin"                                                                                                                                                                                                                                                                                                                                                                                            |
| 1/18/2023 | "I agree"                                                                                                                                                                                                                                                                                                                                                                                                    |

| 1/17/2023 | "I drive a sedan and a hatchback."                                                                                                                                                                                                                                                                                                                                                                           |
| 1/17/2023 | "I have had trucks and SUV's approaching from behind and in front of my car and have been totally blinded."                                                                                                                                                                                                                                                                                                  |
| 1/17/2023 | "It's getting to the point where driving at night is more dangerous than ever. It seems like at least half the vehicles out there these days have absolutely blindingly bright headlights. Quite often the only thing I can see is the fog line when these vehicles are coming at me. It's no surprise to me that the motor vehicle death rate is on the rise. Driving at night anymore is downright scary." |
| 1/17/2023 | "Vicki Crocker"                                                                                                                                                                                                                                                                                                                                                                                              |
| 1/17/2023 | "There needs to be rules around bright LED Headlights. They are a hazard to Evey"                                                                                                                                                                                                                                                                                                                            |
| 1/17/2023 | "These lights have been bothering me both when I drive, and when I walk on foot at night. They make it very hard to see. Old headlights were just fine...and there's                                                                                                                                                                                                                                         |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|           | no reason LED lights can't be just as good, they just need to turn down the brightness to the same levels as before, and softening the color temperature would also help. I have LED lights in my home that look just like old incandescent lights, so there is no reason we can't make car headlights that are the same!!! I want this fixed ASAP."                                                                                                                                                               |
| 1/16/2023 | "These lights are unnecessarily bright and very dangerous. Many vehicles do not have them aligned properly either."                                                                                                                                                                                                                                                                                                                                                                                                |
| 1/16/2023 | "They're dangerous!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 1/16/2023 | "I have photophobia (sensitivity to light), and driving at night or in the rain is especially difficult when LED headlights are repeatedly shining in my eyes. Warmer and less bright lights are much preferred."                                                                                                                                                                                                                                                                                                  |
| 1/16/2023 | "This is dead serious! The LED headlights completely blind the oncoming driver and continue to be the main reason for fatalities. Unfortunately, it's all about these car manufacturers saving money. Find a soft bulb that doesn't cause blinding glare! This has to stop!!!"                                                                                                                                                                                                                                     |
| 1/16/2023 | "LED headlights should be Banned! Absolutely blinding to oncoming traffic"                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/16/2023 | "Bright whites are the worst to drive against. They're blinding, dangerous, and cause horrendous glare.GET RID OF THEM NOW. I won't ever buy a car that has them, ever."                                                                                                                                                                                                                                                                                                                                           |
| 1/15/2023 | "Blinding headlights suck either coming at you or coming up behind. Can't see anything else but that blinding light, it's dangerous!!"                                                                                                                                                                                                                                                                                                                                                                             |
| 1/15/2023 | "Because we all need to be safe"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 1/15/2023 | "I find the new LED lights blinding. They are dangerous and keep people from driving at night thereby reducing their quality of life Please regulate the strength, type, and angle of car headlights."                                                                                                                                                                                                                                                                                                             |
| 1/15/2023 | "I'm tired of getting a migraine whenever I drive at night, and it only gets worse when it rains and everything becomes a reflective surface."                                                                                                                                                                                                                                                                                                                                                                     |
| 1/15/2023 | "I drive and hate those lights coming at me. My biggest fear is the blinding effect. Please ban those darn lights"                                                                                                                                                                                                                                                                                                                                                                                                 |
| 1/15/2023 | "I have light sensitivity and vertigo both are affected by leds"                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 1/15/2023 | "These lights cause a smaller field of vision to oncoming drivers and that issue is multiplied when it's dark and rainy. As a professional driver for 34 years I find these lights dangerous , especially when these lights are on the front end of todays huge pickups and SUV'S, having them behind you causes it's own issues with the blinding light reflecting into your eyes via the rear view mirror.On a separate note, why do so many people drive with their high beams on, it exasorbates the problem." |
| 1/15/2023 | "i'm sick of being blinded by headlights every night"                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 1/15/2023 | "I 100% agree"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| 1/14/2023 | "I hsbr same issues with these lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 1/14/2023 | "These LED lights are a hazard. They are too bright. When they are calibrated poorly, they are even more blinding for oncoming traffic than driving with high beams on all the time!"                                                                                                                                                                                                                                                                                                                                                                                                    |
| 1/14/2023 | "Not only are the LED headlights blinding going forward but are extremely blinding when you are followed from behind. I have to move my review mirror down in order to get my sight back. I think all cars and trucks should switch back to tungsten lighting by law."                                                                                                                                                                                                                                                                                                                   |
| 1/13/2023 | "It is dangerous to be driving and have such high beam lights blinding me. I have to cover my side mirror if someone behind me has them or I can't see ahead of me. It's Very distracting."                                                                                                                                                                                                                                                                                                                                                                                              |
| 1/13/2023 | "I'm about to give up driving at night because of these blinding headlights, which severely limits my social life."                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 1/13/2023 | "Driving at night is becoming dangerous, it seems. Oncoming lights are way too bright."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 1/13/2023 | "I avoid driving when dark because I feel blinded by the lights of oncoming vehicles. It is just too dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/13/2023 | "These lights are blinding! And dangerous for on coming drivers."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 1/13/2023 | "Bright headlights in oncoming vehicles are a safety hazard and either they must be modified to reduce glare or windshields must provide enhanced shielding."                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 1/13/2023 | "These lights are blinding. Why are they allowed? We have to buckle up but ok to drive blind?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1/13/2023 | "those oncoming car lights are dangerous , I am very concerned about having to slow down and becoming a hazard myself having to close my eyes until that car has passed."                                                                                                                                                                                                                                                                                                                                                                                                                |
| 1/13/2023 | "These are to darn Bright."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 1/13/2023 | "These lights are not necessary and dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1/12/2023 | "Someone on the road flashes their LED lights at me rapidly fast because they were mad I was going to slow for them. People are literally using these to harm individuals because of their own uncontrollable road rage. I nearly got in a wreck trying to get away from them because I was BLINDED."                                                                                                                                                                                                                                                                                    |
| 1/12/2023 | "These new headlights are absolutely blinding at night time"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 1/10/2023 | "I cannot see at night due to the use of LED or HID headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/10/2023 | "LED headlights are dangerous on unlit rural roads - the glare completely drowns out a view of the road edges and the shape/width of the oncoming vehicle."                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 1/9/2023  | "These white headlights are blinding my visibility of the road. Looking away to avoid these white headlights is very high of distracted driving. Exposure to white headlights for a few minutes driving on road causing headaches. In an attempt to look away from these white headlights, drivers may not be able to detect any sudden occurrence of person/animal on road, and delays the reaction time."                                                                                                                                                                              |
| 1/9/2023  | "I almost caused an accident last week b/c an SUV with BRIGHT, cool white headlights was right on the tail of my little coupe, BLINDING me!! It wasn't just the reflection from my mirrors, which was painful enough, but it seemed like a spotlight was on my car! I was in the left lane of the end of an off-ramp, waiting for the light, to turn onto a busy three-lane, two-way street, when he pulled up (VERY close) behind me! I had to turn VERY SLOWLY, (BARELY moving at all) and still veered a little into the next lane! I continued to drive VERY SLOWLY, in an effort to |

|          | force the idiot to go around me! Even then, it took almost a full minute for my eyes to readjust! This was in a pretty well-lit area, with NO fog - this is MADNESS!! SOMETHING NEEDS to be done, NOW!!!!"                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 1/8/2023 | "Police blue lights are too bright as well."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1/8/2023 | "I detest the danger that these ridiculous lights cause. I've been driving for 60 years, when people haven't dimmed their lights it was highly annoying, not blinding. With these nasty blinding LED lights,I don't dare drive at night, anymore. How about a dose of reality!"                                                                                                                                                                                                                                                                                                                                                       |
| 1/7/2023 | "I can't see when the bright lights hit me while driving at night"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 1/6/2023 | "There's no reason LED headlights must be a blue-tinged 'cool white' emulating the HID arc; they can be tuned to emit white light of any color temperature, and should be legally required to emit a 'warm white' (or better yet, selective yellow) spectrum, with minimal blue wavelengths that cause significant glare and other visual issues deleterious to driver safety."                                                                                                                                                                                                                                                       |
| 1/6/2023 | "I'm tired of being blinded"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1/6/2023 | "It is True, LED headlights Makes it Difficult to See Particularly on Dark Nights. Being an Able to See for a Second Can Cost Your Life or Someone Elses."                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 1/6/2023 | "I have epilepsy. When a line of cars drives in front of another with a set of bright LED lights, it causes my heart to race. Not only do I have to worry about emergency services hazard lights, I now have to watch for civilians ill equipped vehicles. This does not happen with a standard yellow bulb. I avoid driving at night at all costs now. Its one thing for it to be an emergency response crew..theyre there for assistance. These are civilians. It's absurd that this is okay. They're doing it with street lights too and they're always going out, resulting in a fast pulse like flicker."                        |
| 1/6/2023 | "LED lights are not equivalent or better than incandescent lights, and are especially detrimental and dangerous in certain situations (ie, automobile headlamps)."                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 1/6/2023 | "Day or night they are blinding! You cannot tell if they are dim or high and when it rains especially at night, completely blinding literally have to come to a stop to either keep from going off road or hitting them!"                                                                                                                                                                                                                                                                                                                                                                                                             |
| 1/5/2023 | "sometimes bright headlights are more dangerous than no headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 1/5/2023 | "It's tooo damn bright and my eyes hurt!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 1/5/2023 | "I have had to stop my car in the middle of the road suddenly because I could no longer see the road and a drop off was to my right; the on coming car momentarily blinded me with their headlights. I have run off the road on two occasions because I couldn't see after passing a car with LED headlights. I have sit crouched down and toward the middle of my car if they are behind me OR position my mirrors to an unsafe place to keep the glare out of my eyes. I have had to pull off the road many times to just let the person pass me because I couldn't drive due to their headlights. This is a huge safety hazard!!!" |
| 1/5/2023 | "These are a danger to everyone that travels at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 1/5/2023 | "I've been a truck driver for over 16 years and I'm on the road a lot at night. The led headlights are essentially like having your high beams on constantly. I'm beginning to have frequent headaches and unable to scan the road as well as before the led headlights were introduced. The excessive brightness of the "daytime" classified headlights create dangerous situations whether someone is                                                                                                                                                                                                                               |

|          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|          | passing me or crossing my path on the highway. In order to keep everyone safe; we need to ban these headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 1/4/2023 | "I'm signing because at night it gets bad foggy raining out. You could sit for a minute in a parking lot someone comes parking in front of you wit them stupid bright blue LED lights on high beams then next thing you know you can't see for awhile. Whomever started to put these blinded lights totally didn't analyze or think this through how the lights could blind out someone or even yet people with seizures it could effect those with seizures"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 1/4/2023 | "I'm a 24 year old young man with good eyesight (with my glasses on, of course), and tonight I was nearly blinded by a newer SUV with these ridiculously bright blueish-white lights. I've come across vehicles like these before, and they're always a problem, but I usually pass them by or turn soon after encountering them. Tonight was different. This driver followed me for several miles through the city and on the highway and their LED lights coming in from all of my mirrors were absolutely blinding; it was painful just trying to focus on the road in front of me. After nearly 10 minutes in traffic with this vehicle behind me, I had to take a detour and stop just to rest my eyes for a minute. There either needs to be major steps taken to lessen the impact of these blinding LED lights or they need to be banned. I'm not a driver that gets distracted easily, so I imagine other drivers with less than great eyesight might have major issues, especially if they're exposed to them over extended periods, like I was." |
| 1/3/2023 | "LED headlights are fucking blinding"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 1/3/2023 | "Current headlights are ridiculous! We are not in the desert! They are absolutely blinding and ultimately dangerous. Also, people don't seem to have the aim correct!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 1/2/2023 | "I'm signing because of the danger it causes for me to drive at night. The lighting needs to change, soon, before I get blinded and hit someone!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/1/2023 | "Can't make our roads safer but sure can send other countries billions of dollars. We as Americans should be sick and tired of this crap."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| 12/31/2022     | "These are dangerous for my family who sometimes cannot avoid driving at night"                                                                                                                                                                                                                                                                                                                              |
| 12/31/2022     | "I frequently drive long distances, so I do a lot of night driving. I have very light sensitive eyes and I get blinded by these headlights the way most people get blinded by high beams. We won't talk about how bad it is when I'm dealing with a driver who doesn't seem to know how to turn off the high beams on his already-too-bright lights. I've had to pull off the road to let my eyes readjust." |
| 12/31/2022     | "The more time goes on being lax on this issue the more these lights are popping up on our roads, and the more miserable it gets to drive at night."                                                                                                                                                                                                                                                         |
| 12/30/2022     | "New bright headlights are so blinding at night when they approach from behind driver can't see which lane the car is in and can't safely change lanes"                                                                                                                                                                                                                                                      |
| 12/30/2022     | "I am getting retina burnout from these headlights!"                                                                                                                                                                                                                                                                                                                                                         |

| 12/29/2022 | "Tired of these lights blinding me to where I can't see for several minutes"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/28/2022 | "I'm signing this because these over bright headlights are a serious safety issue!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/24/2022 | "Bright headlights are awful"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/23/2022 | "LED headlights are dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 12/23/2022 | "the driving conditions in rural America have gotten ridiculous. There are no street lights or background light so your pupils dilate even more until these new led lights come along and are so bright that they feel like they're burning your retinas!"                                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/22/2022 | "Im constantly blinded on the road by people in suv's and trucks with literal sun bright headlights. Its a real danger."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/22/2022 | "Car manufacturers have no brain now a day."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/22/2022 | "I hate those lights. They are blinding not only coming toward you, but also when they are behind you"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 12/22/2022 | "I avoid driving at night when I need to strictly due to other's offensively bright lights. When I do drive, I place my mirrors into positions that makes them harder to use to avoid high intensity reflections."                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/21/2022 | "Driving blind is mortally dangerous even for an instant."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/21/2022 | "Getting blinded by these headlights has set up a passive form of distracted- and dangerous - driving conditions. My eyes cannot control their brightness. I can only control my driving while being blinded from behind as well as from what is coming towards me.The super brights are not sexy, not necessary, cannot be easily changed out of a vehicle for softer lights, and are stirring up road rage reactions in the eyes of the beholders."                                                                                                                                                                                                                |
| 12/21/2022 | "Driving at night has become untenable for me because of the blinding glare of these lights. They are a hazard."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 12/21/2022 | "I'm sick of these blinding headlights it's Rediculous at night driving"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/21/2022 | "Thank you Mark Baker for starting this petition along with your two friends! I was getting ready to start one myself and you beat me to it! Good for you my friend! We try not to drive after dark too much anymore because of these headlights. It is just too hard if not impossible at times to see! Not only do they need to stop making these headlights, but they also need to replace the ones that are out there on so many vehicles because if we don't these vehicles that the lights are left in are sure to cause more traffic accidents! Due to the cost though I doubt that will happen but in my opinion, it still needs and should be done! 🎯🎯🎯🎯🎯🎯" |
| 12/20/2022 | "I'm 50, with astigmatism and I've had Lasik. Even with glasses designed to cut the glare from lights at night I'm frequently blinded to a ridiculous degree by so called normal headlights. I also drive a Miata so I'm low to the ground and with newer trucks being so high up there is no way to escape it when they are behind me, it makes my mirrors useless. There is no need for this level of brightness in traffic. Yesterday's hi beams seem to be today's normal ones."                                                                                                                                                                                 |
| 12/20/2022 | "I find myself affected by these ultra-bright headlights, and I don't even have any underlying conditions for these lights to aggravate. I think we ought to invest in more streetlamps instead, which would make the brighter headlights unnecessary."                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/20/2022 | "These are causing physiological damage to people, besides being absolutely blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 12/19/2022 | "These headlights are dangerous! There are times I have to pull over and come to a stop I am so blinded by them."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| 12/19/2022 | "This is dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/19/2022 | "The bright headlights are extremely unsafe."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/19/2022 | "It's absurd can't even drive at night anymore!!! It needs to be changed"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 12/18/2022 | "I drive on two lane rural roads often. In addition to increased traffic, bright led and hid headlights are making driving at night too dangerous. I have to drive well below the speed limit just so I can stay in control when I'm blinded by a new car. This problem is even worse in the winter, when it's dark out during peak traffic hours and lights are amplified by snow."                                                                                                                                                                                                                                                                                                                               |
| 12/18/2022 | "As a frequent bicyclist, it can be a HUGE problem to be blinded by car headlights and tail lights. I try to buy responsible bicycle lights that aren't blinding to other people, but some car lights are so bright that I can hardly see after my eyes adjust! It is true that for healthy eyes, less light sources at night actually allow better night vision. The less light pollution we create, the better we can all see the road ahead."                                                                                                                                                                                                                                                                   |
| 12/17/2022 | "I want to drive safely at night without being blinded by other vehicles constantly."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/17/2022 | "These headlights are entirely too bright! When driving on the freeway, with a LED truck behind me and I need to pass the car in front I can't see behind me to safely go into the next lane. One evening I was driving through a small town, the oncoming SUV had BLINDING headlights, I couldn't see the people trying to cross the street. That scared me to death. These need to be banned for the safety of all people. Angela Aron Perkins"                                                                                                                                                                                                                                                                  |
| 12/16/2022 | "It's a Safety issue! If I'm blinded by oncoming vehicle I can't see any pedestrians!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/16/2022 | "It's dangerous and it affects lots of people."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/16/2022 | "Your eyes don't recover as fast with LED lights coming at you compared to normal headlights. We have talked to other people who have problems with LEDs also. Unfortunately the snowplows in our state are using very bright flashing LEDs now facing behind them which are horrible to follow when dark. They are dangerous!"                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/16/2022 | "This has become an increasing issue for me as more people get cars with these high-emitting headlights. I don't do crazy things with my eyes that make me especially sensitive. However, I have almost gotten in a couple of accidents due to the blinding light of oncoming traffic. I slump in my seat to avoid the rearview mirror lights. This is no way to live. Sometimes we just can't avoid driving at night and this is unfair to the public. Bring back the warmer but efficient lighting! If it ain't broke..."                                                                                                                                                                                        |
| 12/15/2022 | "I personally am affected by LED lights, as they trigger severe migraine attacks and prevent me from rest and sleep, which makes it even worse. I personally know others who are severely and badly affected by LED lights in the environment to the point where they can no longer participate in the LED dominated world, which is only getting worse. This may seem so trivial to you or others, but lighting choices can and do affect humans, animals, insects, and our environment on a scale much larger than we like to believe. Please speak up if LED lights are affecting you or anyone or anything in any negative way -whether it's small or large. Our voices are what's needed for change for all!" |
| 12/14/2022 | "These lights are flat-out dangerous. Within the last month, I have been blinded (seeing purple spots) by three separate vehicles running these aftermarket LED's. Each of these incidents happened in BROAD DAYLIGHT. These lights are typically improperly aimed and are completely unnecessary for the safe conduct of the driver of the vehicle, day or night. To those who use them, your rights do not                                                                                                                                                                                                                                                                                                       |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
|------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|            | trump mine. While we're at it, let's ban the use of light bars, intended for off-road use, on public highways. There should be a restriction on the number of light sources, light frequency spectrum, dispersion, total lumens, etc. These people are putting others (elders, children, and others) at risk. To my rural friends. If I never see another lifted pickup truck, with its tail lowered blazing lights now blinding more people, wrecking the stability of the vehicle, and reducing the driver's visibility, it will be too soon. My state, North Carolina, has outlawed the practice of lowering the rear. Yet I con" |
| 12/14/2022 | "I've been blinded at least five times anytime I drive my 18 wheeler at night-it is ridiculous and blinding for at least 15 seconds every time 勞"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/13/2022 | "I don't want to die because of someone else's too-bright LED headlights blinding me, my husband, or any of the drivers in front of us in the road!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 12/13/2022 | "I like to be able to see where I'm going when driving at night, but the intensity of LED headlights causes so much pain that I have to struggle not to avert my gaze when there is oncoming traffic. This is obviously a safety hazard, and after driving any distance more than a few miles at night, I often experience migraines and eyestrain headaches."                                                                                                                                                                                                                                                                       |
| 12/13/2022 | "These headlights are blindingly bright and reduce the chance of seeing any pedestrians in that vicinity. Drivers will naturally close their eyes for a split second or look away which will give an opportunity to cause an accident in that split second. Also, when one of these over bright cars are coming towards you, it distorts your vision and you are unable to see any potential obstacle until it is too late."                                                                                                                                                                                                         |
| 12/13/2022 | "Led headlights are dangerous!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/12/2022 | "I am signing because dont think these light do anything buy blind the oncoming cars. It is especially bad on the country roads"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 12/11/2022 | "Those lights make it hard for me to drive at night and I used to love driving at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 12/11/2022 | "I drove on I95 north last night and was amazed at the number of vehicles with offensive headlights. It makes driving at night a bit scary. These high profile vehicles with unbelievably bright lights bear down on other vehicles causing blindness and disorientation. How are these allowed? This is a nightmare—literally."                                                                                                                                                                                                                                                                                                     |
| 12/11/2022 | "LED lights are dangerous and being sold to the public in the name of energy efficiency, despite health risks. There are better ways to conserve energy."                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 12/10/2022 | "I actually want to END people who drive cars with these. But it's illegal to murder so I'm signing a petition instead."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/10/2022 | "Last week I ended up running a stop sign at a four way intersection because I was blinded by the lights on a pickup truck. Thank God no one was coming the other way or I might not be here to sign this. Thank you Mom and Dad for posting this! ❤️"                                                                                                                                                                                                                                                                                                                                                                               |
| 12/9/2022  | "I can't see what's in front of me when I am blinded by these LED lights,"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/9/2022  | "I've become much more sensitive to light recently and the LED lights that were annoying and disorienting when I was first driving have become blinding. These types of headlights may make driving at night easier for those in the car but that comes by sacrificing everyone else's ability to see properly."                                                                                                                                                                                                                                                                                                                     |

| 12/7/2022 | "It leaves burned after images in my vision even if I'm averting my eyes. Causes instant migraines. Completely ruins my ability to see the road. Impossible to use rear view and side view mirrors when an LED equipped car is directly behind."                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/6/2022 | "LED headlights are too bright. They need to be ticketed and banned. They are blinding and dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/6/2022 | "Its mostly because aftermarket led bulbs by Sylvania and other companies....just go in autozone/walmarts etc you will see them for sale and they will go in any vehicle except they say only for offroad or such. So people are putting those into stuff not designed for use in their headlight assembly and no way to aim them correctly. More and more people are doing this. Yes some vehicles like newer jeeps come stock with wayyy too bright leds but monkey see monkey do they all go and buy them because why not everyone else is doing it right? They ate lucky i am not like i was in my younger years i would of been hitting them back with a spotlight in return for blinding me." |

| 12/6/2022 | "Bright headlights are dangerous to oncoming traffic."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/6/2022 | "I find the bright lights coming towards me makes it difficult to see where I am going"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/5/2022 | "I have become scared to drive at night because I can't see from the bright lights. It's horrible. General Motors trucks are the worst offenders. Bring the auto leveling headlights to the US quickly please."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 12/5/2022 | "I'm afraid to look at other cars, and that's not safe."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 12/5/2022 | "My eye sight damage has increased faster over the last 5 years due to driving at night and being subject to excessive bright lights. This damage has been confirmed by my Optometrist. There seems to be no escaping these bright lights unless I move all three of my rear view mirrors to direct the reflection elsewhere, thus impairing my safe view of the road even further. It's only worse with Jeeps and Large pickup trucks. I live in a suburban area and there is no reason for lights this bright."                                                                                                                                                                                   |
| 12/5/2022 | "I live in Chicago and have a very mild astigmatism. In the winter it gets dark at 4:30 and driving with all these unregulated, uncalibrated, unaimed high beams can make driving in the dark dangerous to the point of dissuading me entirely. They're needlessly blinding and the light pollution is ridiculous."                                                                                                                                                                                                                                                                                                                                                                                 |
| 12/4/2022 | "These lights are so dangerous...far too glaring."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/4/2022 | "I live on an island where there are no city lights and I am literally blinded by oncoming cars that have new headlights they are a death trap"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 12/3/2022 | "Yes it is..i see some led lights that aren't bad at all so i know they can be done right but most are ridiculously bright and move with the road on top of that. Not mad at the moving but when they do its usually right in my mirrors if they're                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

|           | behind me. I literally had to stop in the middle of the road once to motion a car around me cause i was completely blind. If you have the really bright led headlights and see me coming all i gotta say is good luck"                                                                                                                                                                                                                                                                                                                                                                            |
| 12/3/2022 | "Yes cause they move as well so they not only hit every mirror and blind me they literally light up the entire inside of my car. I mean i can see their lights outshining mine in front of me and im the one ahead of them. Ive seen leds that are actually built correctly and they're not bad but most are ridiculous. I came here looking for sumn to sign to get em banned cause i just had to stop in the middle of the road and motion the car behind me around it was so bad. Like i mentioned above if anyone has those really bright ones and see me comin Good Luck is all I gotta say" |
| 12/3/2022 | "Yes and now they're causing road rage...makes me wanna bright light everyone i see coming but that wouldn't solve the problem"                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/3/2022 | "Yes ban em...ive seen some that aren't bad so i know they can be built correctly but most are ridiculous and we've dealt with this long enough and im over it"                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/3/2022 | "Lets ban em...im gonna start fussing about em every website, every newsletter or wherever i see or hear about em im gonna fuss about em cause i just about wrecked on the way home just now which is why im here releasing all my anger on every comment i see 💎"                                                                                                                                                                                                                                                                                                                                |
| 12/3/2022 | "Yea cant believe im gonna have to pull a Corey Hart just to drive now"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/3/2022 | "Yea and they even have the nerve to ride your bumper on top of the ridiculous lights. The lights move as well and usually right in every mirror of my car. I literally just had to stop in the middle of the road a few min ago to motion the truck behind me around cause i was blind and yes i was boiling mad but i let it go so im on here releasing my anger 💎 if anyone has those really bright ones and see me coming all i gotta say is good luck cause im not giving an inch anymore"                                                                                                   |
| 12/3/2022 | "The jeeps are worst of all em. Those are ridiculous and im sick of all of em... they're bringing out the roadrage in me. BAN THESE LIGHTS. You know they have to know how bright they are but they don't care as long as they make the sell and their drivers can see in their vehicle. Im over it so good luck to all yall with those lights when u see me coming cause im not giving an inch anymore and not slowing down no more cause i cant see. Hope we make it 💎"                                                                                                                         |
| 12/3/2022 | "Push to ban em...thats what im doing .lets all work together...ive seen some that aren't bad so i know they can be built correctly but they only worry bout their vehicle sale and the ones driving their vehicle. If they see me coming all i gotta say is good luck cause im not giving an inch nor slowing down anymore"                                                                                                                                                                                                                                                                      |
| 12/3/2022 | "Push to ban em"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/3/2022 | "Push to ban em"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/3/2022 | "I can't see when there's a car with bright headlights behind me. There's no way to get away from the light and it's super dangerous to guess at where you're going when you're driving."                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/3/2022 | "I had a crash not long ago all because i was blinded by another cars LED super bright headlights and couldn't see, therefore, crashed. Luckily it was minor, no one was hurt. Big cars, small cars, it really doesnt matter, they all seem to have super bright lights that dazzle drivers and all it takes is a setting through the ECU to bring down the brightness. My car isnt bright so i can confidently say im not the reason for increase in numbers of crashes but it would be great if all other cars was the same. Why have them so bright for? This must be addressed."              |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| 12/2/2022  | "I almost cannot drive at night now- it's so disorienting. I can't concentrate on driving safely when oncoming lights hit me in the eye- I'm blinded. And the ones coming up from the rear give a triple blinding effect in rearview and side mounts all at once. It completely alters depth perception."                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/2/2022  | "It is terrifying to drive at night with these blinding lights. It is such a danger"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/1/2022  | "These lights are blinding, especially when driving in the rain. It's impossible to see where the road lines are, let alone if anyone happens to be crossing the road."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/1/2022  | "Please! I thought my eyes were going out and I wouldn't be able to drive in the dark anymore until someone told me that it's the LED lights on cars. At times it is blinding, so bad once that I had a complete panic attack on the road and had to pull over (before I knew about the lights). I'm reading up on this and I'm not the only one this is affecting. I 100% agree with this petition. Car makers should no longer be allowed to put these on cars! No one should die due to lights blinding them!"                                                                                                                                                                                                                                                              |
| 12/1/2022  | "I might have to try this! Hope it helps!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 12/1/2022  | "The car manufacturers need to be sued for putting them on cars. I'm sure they know by now the dangers!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 12/1/2022  | "Try living in a HIGH traffic area like the Bay area where I do where you have TONS of these bright lights blinding you on your way home, I'm surprised I haven't crashed yet.....I have started taking back roads just to avoid these. This shouldn't have to happen."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 11/30/2022 | "I can't see anything! I can't see the road much less any pedestrians or cyclists that might be nearby."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 11/28/2022 | "Those lights TOO bright and they can cause accidents when you blind the driver coming towards you. Please, for the life of others, recall them and fix it and don't put any more on any other vehicles!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 11/28/2022 | "I completely agree."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 11/28/2022 | "My eyes are very sensitive. The eye doctor said the back of my eyeball is very reflexive, and it shines back into my retinas. I've almost wrecked many times over blinding lights. Especially jeeps."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 11/27/2022 | "I totaled my car because of these things."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 11/26/2022 | "Drivers who use bright led headlights force me to drive at night with sunglasses. It doesn't feel safe but I have no choice. I can't see otherwise."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 11/25/2022 | "Absolutely. No need what-so-ever for it, it's down to trendy looks NOT proper optical engineering and design. To an extent the rear light problem can be mitigated by keeping well back from the vehicle in front, unless of course the vehicle in front is being driven by an asshole who sits with their foot on the brake at stop signs and traffic lights. But headlights are a real problem as it's not practical and potentially fatal to try and avoid a numbnutz f***wit coming towards you on high beams and/or poorly adjusted main beams. Again it's in part down to poor/cheap light design for fashion, not putting light on the road in front where it IS actually needed. Rant over, I'm off to trim the wicks and top up the lamp oil on my vehicles lights." |
| 11/24/2022 | "I can't see, they're blinding"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 11/24/2022 | "Tall SUVs, trucks, and especially Jeeps should not be allowed to have LED headlights. They are too bright and we are all below the cutoff shield. What happened to the purpose of the cutoff shield? But even smaller vehicles are guilty"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

|            | too. Toyota you're the worst! The reflection on rainy days is horrible.If the roads have hills one gets blinded coming over the crest. If the divided highways are not on the same level you are blinded.This is not safe! I hate driving at night now and refuse to be in front of them! I wrote the transportation safety board to express my concern!"                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 11/23/2022 | "It's a serious hazard."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 11/23/2022 | "It is so dangerous. Those lights are blinding for everybody but especially for seniors and more prone to night vision problems"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 11/22/2022 | "I'm tired of being blinded at night!!!! It's dangerous!!! And when it's rainy they reflect off the wet pavement!!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 11/22/2022 | "I get blinded every time I drive at night I wear sunglasses but afraid I will hit a deer a dog mailboxes or even a person, I try to drive at night without sunglasses and I get head aches every time from the new white lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 11/21/2022 | "Most semis have 4 bright LEDS headlights too!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 11/20/2022 | "These lights are one of the biggest reasons I cannot drive at night. I already have horrible vision and will be getting LASIK eye surgery soon due to the difficulties I face. I am stunned that anyone besides law enforcement can have these lights. They are the equivalent to driving with high beams and I certainly believe that the auto accident rates have sky rocketed since this engineering failure."                                                                                                                                                                                                                                                                                                                                                         |
| 11/19/2022 | "Driving is becoming more difficult and dangerous due to blinding lights(headlights, tail lights, turn signals, daytime running lights, etc.) from other vehicles that are proliferating today.The glare from these lights makes driving even more difficult for older drivers whose eyes take longer to recover from flashes of bright light.Exposure to the blue light component of LED lighthas numerous health effects including disruption of circadian rhythms and sleep and may be a contributor to age-related macular degeneration."                                                                                                                                                                                                                              |
| 11/19/2022 | "I am SICK of being blinded while driving. If there's even a LITTLE dirt on my windshield, the light scatters across my windshield and it makes it super hard to see at night. Plus, all the rednecks love installing the brightest, bluest lights they can on their trucks in my area. I also get migraines/nauseous if I see too much bright light.BAN ALL WHITE LIGHTS. Yellow/warm lighting only and I would argue making that so for EVERY residential use (landscaping for example). White lights just blind us and suppress our melatonin production. This is an area of technology that does not need further advancement. For the betterment of mankind, we need to plateau our headlight tech, nay our lighting in general, at warm lighting and call it a day." |
| 11/18/2022 | "I hate LED lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 11/17/2022 | "These are so dangerous - I would like to know how many accidents have been caused by them?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| 11/9/2022  | "I almost hit a pedestrian in a crosswalk last week. She was right in front of me but I couldn't see her, or anything, because of the headlights on the opposite vehicle. Why are these high-lumen blue headlights allowed?"                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 11/8/2022  | "I have astigmatism and bright headlights put my life at risk"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 11/7/2022  | "HID headlights from two wheelers to hour wheelers all is a showoff for the vehicle owner. It encourages high speed at night time for the vehicle owner with hid and the same blinding lights are a hazardous for oncoming traffic. With a very high probability of accident due to combination of owners speed and blind oncoming traffic. Save life's say no to HID led headlamps."                                                                                                                                                                                                                                                                       |
| 11/3/2022  | "Those light are too bright, can be dangerous, can cause sickness, headaches,rashes and aren't necessary"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 11/3/2022  | "These lights are ridiculously bright and blinding. If you have a vehicle with these lights approaching you and behind you, you are completely blinded. This is clearly not a safety improvement."                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 10/31/2022 | "Night driving is dangerous greatly in part to blinding head lights. Especially the bright bluish head lights! Are there safety studies which can identify the safest head lights for night driving?!!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 10/30/2022 | "These headlights are making it harder and harder to drive at night time."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 10/27/2022 | "I find the LED headlights very dangerous while driving."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 10/27/2022 | "Fuck led headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 10/26/2022 | "These blinding lights are dangerous. They distress me when driving in the dark."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 10/24/2022 | "Until 2012, LEDs were classified as lasers. I don't want humanity to suffer severe eye trauma. Incandescent and halogen headlamps have served us well for many decades and the severe glaring of oncoming traffic with LED lamps is incredibly dangerous. LED is surface illumination and not point illumination, this technology on the roads was never legal to begin with."                                                                                                                                                                                                                                                                             |
| 10/22/2022 | "I am blinded every time I drive at night by the ridiculously bright LED headlights. They are dangerous and need to be banned."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 10/22/2022 | "Quite frankly I find these bright lights at night, when a car is following me sets off PTSD that I am getting ready to be pulled over by law enforcement. For years, the only time you would be exposed to these lights was when law enforcement was ready to pull you over. These lights trigger a panic response that I am doing something wrong and need to look for a place to pull over before their red siren lights came on. This is due to conditioning from decades of driving in a world where the only time we were exposed to this was for an emergency or other issue where I needed to respond to the bright light warning. Was I speeding?" |
| 10/21/2022 | "90001"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| 10/20/2022 | "I'm signing because these headlights are truly Dangerous. I now drive with sunglasses on as a few times, I've almost hit a pedestrian having been blinded by an oncoming LED featured vehicle. Jeeps and 18-wheelers seem to be the brightest and most offensive, hazardous. On some vehicles the daylight headlights shine Wide, spotlighting side-view mirrors AND houses on residential streets. When these lights first hit our streets, I asked a Nissan engineer WHY the new lights; his reply with a smile, "If we can save a buck...."; aka LED's are cheaper. Congress or the FHA MUST implement a mandatory, standardized low lumen as they did in the '80s with halogens. This is irresponsible private and federal sector management." |
| 10/20/2022 | "This 2021 NYT article is interesting.<br><a href="https://www.nytimes.com/2021/06/05/business/led-hid-headlights-blinding.html?smid=url-share">https://www.nytimes.com/2021/06/05/business/led-hid-headlights-blinding.html?smid=url-share</a> "                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 10/19/2022 | "Every small change matters"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 10/19/2022 | "It's getting extremely difficult to drive at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 10/18/2022 | "With me having epilepsy my seizures have spiked in numbers due to the effects of the lights!!! I work and I am a closing manager so the seriousness of these lights being banned would do wonders for me!!! I have had 13 plus seizures in the past two weeks!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 10/18/2022 | "I have really bad light sensitivity and where I live it's not an option to just not drive. Here in Canada we have long nights in the winter and we also have LED car lights. I get temporarily blinded by those lights and it's a serious issue. One day I, or someone else I know may crash, get injured or die."                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 10/16/2022 | "My commute includes driving home after dark for about an hour and there are many cars out there that appear to have their bright headlights on. Some may not actually have them on. If they do, they are major assholes!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 10/15/2022 | "It's not all LED lights. They are called xenon lights. They are incredibly bright. This year the FTC approved pixel headlights for the regular LED lights. What this does is shade out an area where there is an oncoming vehicle or one in front of you. Many manufacturers have these features, but they weren't activated cause they were illegal. I did sign the petition, but I wanted to make sure before you sent it, that most of the issue is with the xenon lights. People will have them installed by a third party, and most of the time they aren't installed properly. The lights should be adjusted to shine on the road directly in front of the car. A lot of people install them themselves and don't do it properly."           |
| 10/15/2022 | "These lights are dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 10/12/2022 | "Extremely bright lights really bother me at night. The LED & HID headlights are extremely bright & almost blind me. This is most dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 10/12/2022 | "I have post concussion syndrome. These ridiculously bright lights have nearly caused me to just pull off the road until they pass by."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 10/12/2022 | "I agree these headlights are dangerous. They are definitely blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 10/12/2022 | "You can buy a 40,000 lumen led headlight on eBay and Amazon right now. No where on Amazon/eBay is it mentioned that these items are illegal for on road use. People have already been blinded and injured by the recklessness of these sellers. A class action against Amazon/eBay would put a stop to this."                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 10/11/2022 | "too blue are these lights horrible in fog. need to return to soft white color temp. 3000 to 4000 on the kelvin scale no higher. yellow not blue"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| 10/11/2022 | "There are so many ways to assault people, in which the effects may be felt only gradually, over time, and by degrees. In the case of driving, sudden blinding may make other road hazards not visible, leading to sudden disaster. When government agencies are captured by the companies they allegedly regulate, harms, such as these harms, may continue unless there is concerted rebellion by the public."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 10/11/2022 | "Bigger and brighter is NOT better! Also we are suffering from Visual Overload with more and more brilliant stop lights, borders around them, neon buttons to mark the lanes, way too much Visual CLUTTER. It is getting increasingly challenging and way overboard and unnecessary!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 10/10/2022 | "Cannot drive at night due to these LEDs."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 10/8/2022  | "been having a hard time riding my bike for how my sunglasses and goggles cant reflect them from my eyes since i find the bright white LEDS be annoying when they should not be on in the day or night"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 10/8/2022  | "It's soooo dangerous, I have a very hard time driving at night!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 10/7/2022  | "LED headlights aren't just inanimate objects. They represent a group of CRIMINALS who have unleashed an eyesight and life destroying pandemic upon drivers. Normally criminals are forced to pay for their crimes. But these criminals have been committing their crimes with absolute impunity and no repercussions. These criminals include: Ann Carlson and the rest at the NHTSA, the DOT, State DOT's, the FDA, elected officials, and local law enforcement who despite mountains of evidence that LED headlights destroy eyesight and endanger lives have refused to lift a finger to do anything to regulate this atrocity or even take legal action against those violating the law by putting illegal aftermarket LED's in semi trucks and vehicles. LED headlights have RUINED my life. They have damaged my eyesight. They have taken away my job of ten years. They have taken away my ability to make a living and pay my mortgage and bills. They have ROBBED ME of my ability to go out at night and drive when and where I want. They have DES" |
| 10/1/2022  | "I've almost gotten into several accidents being blinded by led headlights behind me, they need to put limitations on how bright and what color they are"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 9/30/2022  | "Can we please stop this madness! At least stop putting LED lights in high trucks and jeeps which negates the cutoff shield. Please!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 9/29/2022  | "Please for the love of God make this blinding lights illegal. A huge truck parked in front of us last night while we were pulling out of target and I am still seeing weird spots the next day. It makes me so sad honestly. Our vision is one of the most precious gifts. We are killing it with this stupid bright headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 9/29/2022  | "Those who use blinding headlights on their vehicles are scumbags of society who are irresponsible and extremely selfish to the core, show zero respect to lives.they should be dealt severely by law of the country. Expect authority to take stern action ASAP before the innocent road users are killed by them."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 9/29/2022  | "I can't drive at night because of HIDs. They are unsafe!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 9/27/2022  | "As someone who gets migraines from bright lights (as many people do), the bright headlights make driving at night impossible and dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| 9/26/2022 | "These lights are dangerous and unnecessary."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 9/23/2022 | "The United States is lacking in headlight control. Other countries, such as Europe, allow for ADB headlights. United States laws do not allow for the use of these adaptive headlights. Manufacturers are fitting new vehicles with these dangerously bright LED headlights, but using old methods of simply blocking off the light or angling it down to reduce glare. This works ok when on a flat road, when the headlights are properly adjusted, and the vehicle is not modified. We all know the world is not flat though, and modifying vehicles is a strong hobby. This leaves other drivers on the road blinded by oncoming vehicles simply by cresting a hill. Trucks can be towing a small load, causing the rear to squat, and angling the headlights upwards, making it seem like they are driving with their high beams on. It's a fairly simple solution, change the laws to allow for the ADB system to be used in the United States, and outlaw the use of LED headlights without being paired with an ADB system. We need to move quickly as th" |
| 9/22/2022 | "Highly distracting, lives matter more than aesthetics. Especially on a night drive."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 9/20/2022 | "I have a condition called Adies Tonic pupil which causes for one eye to be dilated. Even with special prescription glasses to drive at night, I'm still blinded by these lights because they are so bright. These new lights need to be regulated NOW! For the safety of all pedestrians and drivers."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| 9/12/2022 | "LEDs are a health hazard and dangerous to drivers. They need to go ASAP."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 9/12/2022 | "These lights are killing people"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 9/12/2022 | "It is very blinding driving at night and a car with these types of lights comes towards you."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 9/8/2022  | "The car and truck lights are blinding and could cause an accident."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 9/8/2022  | "When I'm driving at night these headlights makes difficult for me to see the cars approaching me and the Road."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 9/2/2022  | "I'm sick of being blinded by these headlights their practically high beams"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 8/30/2022 | "There's no reason for the lights to be as bright as they are. Eyes can't adjust that quickly which means that for a few seconds drivers are literally driving blind."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 8/23/2022 | "Being constantly blinded by ridiculously bright headlights while driving at night is a completely solvable issue and its ridiculous that nothing has been done to address this ever-growing problem."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 8/19/2022 | "Too many people swap out ther bulbs for these super bright LEDs and aiming them high. I've been blinded too many times from on coming traffic with these LEDs and have have to change my rear view mirror and side mirrors when they are behind me because its so blinding. These lights need to be illegal. Cops and highway patrol need to pull them over."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 8/19/2022 | "These lights seriously are blinding, they have affected my night vision. Cars are equipped with bright lights when needed. Please go back to the regular headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 8/18/2022 | "These super bright HID lights that are put into reflector housing are putting out a super blast of light that is like driving directly into the sun! The purpose of these"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|           | types of lights are to hopefully cause an accident in the hopes of killing a targeted person. These headlights are currently being used by hate groups, gangs, police, and by political groups who just can't think for themselves and believe the rhetoric and must go out and force their ideology and everyone else. These super bright, completely blinding headlights are being used as one of the newest killing weapons. I have personal experience with this new murder tool as it is currently being used against me as I am the current target of a local hate group which is backed by several home owner associations. My crime, I am a 63 year old disabled widow living with my dog in my van. This vigilante group has been running homeless people out of my county for a couple of years now or simply being homeless. I on the other hand and quite stubborn and will" |
| 8/17/2022 | "these bright lights make driving at night VERY difficult."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 8/15/2022 | "This is a horrible traffic hazard --- exponentially worse when used on higher-profile vehicles like SUVs and large pickups. But even with regularly-sized cars, it's made it so that I can hardly see the road ahead, whether it's someone coming astride in the other lane, or oncoming traffic. I don't see a single benefit here. I'm not sure why these are necessary -- for safety?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 8/12/2022 | "I've been literally temporarily blinded for a few years from extreme white and blue spectrum headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 8/11/2022 | "These headlights are blinding from oncoming vehicles and from the vehicles behind. The mirrors drill them into the driver's eyes."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 8/11/2022 | "I get blinded if driving at night and a vehicle with LED lights is coming towards me. It is incredibly dangerous. The old-style car lights never bothered me unless they'd left their high beams on."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 8/9/2022  | "LED cause migraines"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 8/8/2022  | "LED are just dangerous. Even during the day they blind me and I'm only 47. How bad do they blind older drivers?????"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 8/5/2022  | "I'm tired of being blinded from this style of headlights. It is dangerous to have these headlights on vehicles."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 7/28/2022 | "These lights are completely unnecessary & DANGEROUS! The human eye is not meant to constantly dilate & be flooded with blinding light one second, and then plunged into darkness the next. Your eyes cannot physically possibly adjust that fast! If someone blinds you with these horrible led headlights and then someone crosses the street in front of you in the dark, you could possibly hit them! It is insane! They give me headaches and eye aches. LED headlights WILL kill people. In fact, they probably already have"                                                                                                                                                                                                                                                                                                                                                      |
| 7/27/2022 | "The street lights have gone dimmer and car lights are so bright they literally blind you for seconds after they pass you."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 7/22/2022 | "these lights are evil and they suck improve road lighting fixtures instead"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 7/22/2022 | "As a migraine sufferer with light sensitivity, these headlights make it very difficult to drive at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 7/22/2022 | "I hate those headlights with a passion"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 7/21/2022 | "These headlights are actually dangerous. If you need that much light to drive at night you shouldn't be driving."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| 7/10/2022 | "Clean headlights should be suffice. You're not directing ships to port. Your stock headlights are enough."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 7/2/2022  | "driving with double astigmatism at night was hard enough before these headlights. even in my 20s, i've almost completely given up driving at night due to these too bright headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 6/30/2022 | "I get "Blinded By The Lights""                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 6/26/2022 | "Yes I understand it because, certain newer cars have a tendency to blind you, it can be very very dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 6/24/2022 | "They are to bright."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 6/9/2022  | "i get constant migraine and i think its from driving at night, these LEDs arent it. ive been blinded to the point that im almost driving towards the light which can cause friggin accident"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 6/9/2022  | "The over last 10 years have become far to bright."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 5/26/2022 | "I hate these headlights, I can't see!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 5/20/2022 | "I can't stand halogen headlights and they're dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 5/19/2022 | "I'm signing because these lights are horrible!! The LED ones (super bright white ones)... They are absolutely blinding!! Whether they are shining from the car in back of you or cars that are facing you... "They are a blinding"and I can't see how people are able to bare them? I use a my rear few mirror dimmer to help me with cars behind me, but I literally have to hold my hand up like I'm blocking sun glare for the cars that are driving towards me. They are really hazardous. I was literally blinded by a car driving towards me with them one day and I had to pull over and let it pass because I couldn't see! They shouldn't be legal at all. This isn't safe! They are too bright and there will be more fatalities if something isn't done. I'm so happy to see this petition. After yet another blinding experience this evening I had to look for help! Hopefully it won't take a horrible event for something to be done." |
| 5/18/2022 | "The blinding lights cause me migraines. I won't drive at night now. They need to be stopped"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 5/15/2022 | "My aunt has almost wrecked because"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 5/6/2022  | "I have a very low car and they shine right into my window I can't see anything until I pass them! I know I can't be the only one who gets blinded."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 5/4/2022  | "These lights are ridiculous! Driving back home from Airlie beach yesterday so many people not only blinded me with their lights on low beam but they seem to not see you coming either. I had to flash at least 8 cars just to get them to dim their lights. You are left with light burn in your eyes for a few seconds that is so dangerous! I cannot believe it is legal."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/26/2022 | "this has been driving me crazy and the lights are damaging my family's eyes and affecting our sleep"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4/25/2022 | "The saying is to look at the painted guide line on the passenger side. However, that doesn't work for oncoming vehicles. Also, from the rear it makes you do not want to look at your dude view mirror. I can flip my rearview mirror. However, my side view mirrors didn't come with the feature of mirrors being able to reduce glare and brightness. It's not just the LEDs. It's also people with these yellow/haze oxidized headlights with high beams on. Like there's self DIY restoration kits and also pros that's restores headlights clarity."                                                                                                                                                                                                                                                                                                                                                                                             |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| 4/25/2022 | "I'm sick of being blinded by super bright headlights while driving at night. You can tell from a mile away which car has reasonable headlights, and which one has the newer super bright blinding headlights that are going to daze you when it passes. It's gotten ridiculous now, and NHTSA should have done something long ago."                                                                                                                                                                                                                                                                                                                                                                                                              |
| 4/24/2022 | "These LED lights might actually brighten a road, but their excruciating glare causes oncoming drivers to both miss markings (and signs) and to have to look completely away from a road. Installing useful lights—head or tail—that are actually possible to look at should not be even slightly difficult to manage."                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 4/21/2022 | "I darent drive at night because of the blinding lights. I cant see a thing."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 4/21/2022 | "To be accurate. LED = light emitting diode. JUST Like a Laser Diode. LED "lights" are NOT LIGHTS! But dirty unfocused, un-natural LASERS! They have NO PLACE on vehicles!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 4/20/2022 | "I'm blinded by oncoming headlights!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 4/19/2022 | "These lights aren't just blinding they're painful; daggers stabbing into my eyes. It's gotten so bad I have to wear sunglasses at night to protect my eyes."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 4/19/2022 | "I am affected while driving when others have super bright led headlights. It blinds me to the point that I can't see the lines on the road and have to shield my eyes."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/19/2022 | "These are a danger to all road users. If they cannot be correctly installed an angled by the manufacturer in the first place, ban them altogether."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 4/18/2022 | "It is bewildering that someone decided these glaring, painful lights were a good idea anywhere. They give more light, but there is less visibility, due to glare. More bewildering is that they got manufactures and a big chunk of the population to go along with it. However, using them for headlights is just... what word is strong enough for "so obviously foolish; surely they could have predicted what would happen." If they can make these lights with a more tolerable color spectrum (as they do with fluorescent lights), why don't they? They hurt my eyes and blind me if I'm caught unprepared. For self preservation I look at the line at the edge of the road, and not directly at the road. I assume others do the same." |
| 4/16/2022 | "These blinding headlights have gotten out of hand and should go away for good. There is absolutely no reason why vehicles such as pickup trucks and semi trucks need to have blinding headlights which are brighter than a car's high beams. These lights are very unsafe for oncoming and outgoing traffic, especially during heavy rain storms at night."                                                                                                                                                                                                                                                                                                                                                                                      |
| 4/12/2022 | "Lights are so obnoxiously bright. I get blinded by low beams from the back, shining in my rearview mirror. Lights should be the lowest level necessary for safety, not a security light that lights up the road for miles."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 4/4/2022  | "I'm only 38. I shouldn't have to to consider not driving at night. But every night I drive home from work im blinded and the cops do nothing to help. They watch you drive by with your car lite like it's the middle of the day and do nothing. Till something is changed im driving 15-20 mph if they get behind me."                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 3/29/2022 | "I'm tired of having to move my mirrors because of some jerk off behind me blinding me"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 3/29/2022 | "The LED lights give me headaches and make night driving unsafe bc I can't see curbs or islands. I try not to drive at night, but have resorted to wearing sunglasses at night if I must drive."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 3/28/2022 | "When that car drives towards me with led lights, I Can't See the road car etc. Led lights are dangerous for incoming traffic!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

|           |                                                                                                                                                                                                                                                                                                                                                                               |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3/27/2022 | "The LED headlights are blinding"                                                                                                                                                                                                                                                                                                                                             |
| 3/24/2022 | "Well a win for us today! GM and Ford are recalling some vehicles that have headlights too bright! Also shows the Transportation Safety Board are useless!<br><a href="https://abcnews.go.com/US/wireStory/general-motors-recalls-740k-suvs-headlights-bright-83598621">https://abcnews.go.com/US/wireStory/general-motors-recalls-740k-suvs-headlights-bright-83598621</a> " |
| 3/24/2022 | "Also ban the use of LED emergency lights that blind motorists, and ironically makes the 'Move Over' law hazardous to comply with."                                                                                                                                                                                                                                           |
| 3/23/2022 | "I already have awful astigmatism making night driving awful already... These headlights have made it A WHOLE LOT WORSE. They need to be banned/outlawed immediately!!!"                                                                                                                                                                                                      |
| 3/23/2022 | "Driving is a part of daily life for many Americans, and widespread adoption of LED in headlights has had a noted effect on my life. If this is true for me, it must be for millions of others."                                                                                                                                                                              |
| 3/21/2022 | "I drive approximately 1.5 hours to work in the dark and back home daily. I am so sick of being blinded by these bright headlights. I just close my eyes and keep rolling when I pass them. I go in everyday thinking this will be the day they get me. It's insane. Nobody needs headlights that bright!!"                                                                   |
| 3/20/2022 | "Something needs to be done about this. It's terrible and dangerous"                                                                                                                                                                                                                                                                                                          |
| 3/18/2022 | "I am signing this petition because these led headlights are dangerous and can cause vision complications. I have personally experience these led headlights are blinding me at a stop light and driving on the road. It is not safe for anyone and will cause unfortunate accidents."                                                                                        |
| 3/17/2022 | "all the 5g smart grid is a slow kill technology."                                                                                                                                                                                                                                                                                                                            |
| 3/17/2022 | "I struggle to drive at night, avoid it as much as possible because of these blinding lights."                                                                                                                                                                                                                                                                                |
| 3/16/2022 | "I'm signing because my family friend was a severe car accident that left her hospitalized from a 6 months due to being blinded by an LED headlight and swerving off the road"                                                                                                                                                                                                |
| 3/14/2022 | "I am so tired of being blinded by lights on vehicles! I cannot change my eyeballs, but people can certainly change their lights!"                                                                                                                                                                                                                                            |
| 3/13/2022 | "I genuinely cannot see at night due to these lights. I've caught myself in the other lane or on the side of the road because these lights blinded my vision to the point I could not see the lane lines. I have chronic migraines and any time I drive at night these induce them without fail."                                                                             |
| 3/11/2022 | "Helen Wilson"                                                                                                                                                                                                                                                                                                                                                                |
| 3/10/2022 | "Blinding people indicators need to be more visible not blended into break lights"                                                                                                                                                                                                                                                                                            |
| 3/8/2022  | "I live in a southern CA mountain/lake resort town with very challenging road conditions. Many people from out of the area use their high intensity lights indiscriminately. This causes many accidents with people being blinded and forced off the road as well as causing a lot of wildlife accidents/fatalities. It isn't safe - let's fix it."                           |
| 3/7/2022  | "The breed of today's headlights especially those decorative and blue filament types dazzle and should be banned."                                                                                                                                                                                                                                                            |
| 3/6/2022  | "They are fitted to appeal to the feeble minded who think they look 'cool', car manufacturers are more interested in sales than road safety"                                                                                                                                                                                                                                  |
| 3/5/2022  | "I hate LED lights. Bring back amber and sodium vapor."                                                                                                                                                                                                                                                                                                                       |

| 3/5/2022  | "I'm 26 and can barely drive at night due to the sheer amount of cars with these lights. They blind me from my rear and side mirrors unless I hunch over the steering wheel, which is incredibly dangerous. I am also autistic and suffer from migraines so even a drive around the block is a guaranteed pain attack unless I pull over but even then I can't avoid the oncoming brights. These lights have even stunned me DURING DAYTIME! It's ridiculous that car manufactures think bright blue is better. It hurts! Please change the law and ask manufacturers to do light recalls!!! How can I hold down a job safely if I can't drive at dawn or after dark? It's beyond my control." |
| 3/5/2022  | "These lights are a hazard to oncoming traffics ability to see while passing the person with these lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 3/5/2022  | "Yesterday I looked in rear view and a new trucks light was so bright I was coming to a light n couldn't see ,I stopped in the middle of the road ,at a green light ,and almost got rear ended"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 3/5/2022  | "I am tired of being blinded by on coming bright headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 3/4/2022  | "I'd like to live another few years!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 3/2/2022  | "This shit is ridiculous now. Enough is enough. Brighter lights help the driver behind them and then temporarily blind the oncoming drivers. This is NOT a safer enhancement!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 3/2/2022  | "These lights are blinding for those in on coming traffic, particularly on country roads where city lights do not balance their effect. Traditional car lights are just as effective for driver's visibility."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/24/2022 | "Lights blind other drivers and cause deaths and accidents"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| 2/19/2022 | "It's so dangerous to blind someone that's driving."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 2/18/2022 | "I hate being blinded by stupid LED headlights. I have to drive a lot at night working Door Dash. We are all going to be blind in a couple of years!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2/17/2022 | "I am tired of being blinded by HID and LED car lights, even in day time, but especially the night time. Furthermore, The American Medical Association stated they find that increased levels of LED and blue light can cause blurriness, migraines, sleep apnea, heart disease, even cancers."                                                                                                                                                                                                                                                                                                                         |
| 2/17/2022 | "I encountered a car today that was a pair of blinding suns moving towards me DURING DAYLIGHT. I had no idea what kind of vehicle was behind the light until it passed me, because I couldn't see anything else on the road at all. I expected something unusual, like a rescue vehicle. Nope, just an ordinary car. That can't be legal."                                                                                                                                                                                                                                                                              |
| 2/16/2022 | "No one needs these headlights on he automobile. They are blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 2/15/2022 | "These lights are great for seeing....if you're the one driving with them. For everyone who has to drive with these lights shining in their face, it can cause or worsen a migraine and/ or it makes everything other then the lights look black! Therefore it temporarily blinds the driver from the road ahead...."                                                                                                                                                                                                                                                                                                   |
| 2/15/2022 | "For a long time now people have been driving with LED lights that despite the dipped position are still glaring drivers on the road. I am a learner driver and spend most of my time as a passenger in my partner and my friends car and the glare from oncoming LED lights is unbearable. Several times when I have been in the car with other people they have had to slam on the brakes because they are dazzled by oncoming LED headlights. They should be made illegal unless the bulbs or headlight casings can be tinted a pale yellow colour to reduce glare and help all road users to become safer drivers." |
| 2/15/2022 | "They are a danger to other road users as they are too bright and could easily cause a accident due to dazzling"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 2/14/2022 | "As someone with an astigmatism in both eyes, these lights are quite blinding. I have driving glasses that don't even work with the LED and HID lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 2/11/2022 | "Karen Stillings"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| 2/9/2022  | "I get blinded by them and can't see where I'm going."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 2/7/2022  | "Europe already has these laws and it saves lives. We can do better in the United States. Trucks and large SUVs are the major culprits to this."                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 2/7/2022  | "It seriously is causing me harm. I drive on single lane highways often throughout Ontario and I am fearing for my life because of oncoming and even traffic following me. I cannot see, it is basically a guessing game with me praying that I do not fly off the roadway into a ditch. Blinding is an understatement."                                                                                                                                                                                                                                                                                                |
| 2/6/2022  | "Can not drive at peace anymore. Especially now, in the winter, when the glare is ever more prominent.And the worst thing is - since most cars come equipped with DRLs nowadays and it's considered "more safe" - makes my life even more miserable.Obviously, my issue won't get fixed by any sorta legislation in US. But it's a start.P.S. Did you know that in France it was illegal to have any manner of white lights until 1993 and you had to use "selective yellow" headlights?"                                                                                                                               |
| 2/5/2022  | "These lights are dangeroys"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 2/5/2022  | "They blind me when driving not safe at all"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| 2/5/2022  | "I wholeheartedly agree. It's dangerous! When they are coming toward me in a narrow dark road at night, some headlights are so blinding and I have to hope for the best until the other vehicle passes. When they are directly behind me, I have to fold my rearview mirror up (which is dangerous in and of itself, but still less so than not doing it) so that I can see on front of me and that only helps so much, since the glare from them are still blinding me from my sideview mirror. I don't understand why this has been allowed to become such an issue, in the first place. I hope this will save some lives." |
| 2/5/2022  | "Sometimes I am blinded by these headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 2/4/2022  | "I am a professional driver and the harsh white light makes working dangerous and hard to see while driving at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 2/2/2022  | "hate being blinded by headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 2/1/2022  | "We're in Southern California where there's streetlights every 15 feet. You don't need these here, and we NEED to be able to see in front of us instead of using both hands to block the rear and side view mirrors when you're behind us. In backwoods Oklahoma, fine, it's dark. But we're in a very well lit part of the country. Stop it. You suck."                                                                                                                                                                                                                                                                      |
| 2/1/2022  | "These type lights are blinding. And I can't see good at night already."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 2/1/2022  | "I drive in the dark in the morning a good part of the year. Usually these ultra-bright lights are on lifted pickup trucks, which is a double-whammy. It's too much and needs to change."                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 2/1/2022  | "These headlights are dangerous. They should definitely be banned."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1/31/2022 | "These lights are blinding and dangerous. Impossible not to squint when someone has these lights coming towards you. How in the heck is that safer than the other less bright lights???"                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 1/31/2022 | "Sadly, we've all seen how some people act when "it's for the good of others or the environment"...My question is when did BRIGHT lights like these become LEGAL?! I remember getting PULLED OVER & TICKETED 20yrs ago (in a mid-90s car) for having my "brights" on since 1 of my headlights was out. As DIM as those lights were, the Officer said I blinded him when I turned behind him! Now, 20X BRIGHTER IS OK?! Like most nonsensical things, it's probably going to take someone "IMPORTANT" to get hurt because of it for anything to change..."                                                                     |
| 1/31/2022 | "LED head lights are blinding and very dangerous. Especially at night in the rain when you can't see the lines on the road or anything in front of you because you're blinded by LED head lights."                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 1/31/2022 | "These light should be banned they are blinding when you meet them head on. The glare and blinding is so dangerous While driving."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 1/31/2022 | "I can't see anymore driving at night!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 1/30/2022 | "I drive daily. And I see people using LED light bars as headlights. Even during the day. And the light is beyond absurd and blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 1/29/2022 | "If we're having issues now and nothing is being done, it's only a matter of time before car manufacturers start increasing lumen levels in their headlights making the problem worse."                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 1/29/2022 | "You think they are on main beam when they are on dip, you cannot help but look straight at them. So sad they have been allowed to become so common and the new "norm"."                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

|           |                                                                                                                                                                                                                                                                                                                                                                                                |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1/28/2022 | "I absolutely cannot believe that these lights are legal! Everything about driving a car should be about safety, seat belts, air bags, etc but it's okay to have blinding lights on your car?!?! This is reckless and inexcusable and needs to stop now!!"                                                                                                                                     |
| 1/26/2022 | "I work in lighting industry and I know the effects of blue light and think this should be addressed globally."                                                                                                                                                                                                                                                                                |
| 1/26/2022 | "I struggle to drive at night with bright lights like this and almost had an accident. I had my eyes tested and they are fine, it's purely people with lights too bright"                                                                                                                                                                                                                      |
| 1/25/2022 | "Blinding brights lights at night are a nightmare you think it's full beam that's on accident waiting to happen"                                                                                                                                                                                                                                                                               |
| 1/25/2022 | "We need regulation on headlight luminosity."                                                                                                                                                                                                                                                                                                                                                  |
| 1/25/2022 | "I have lost my confidence in my ability to drive at night because of this and so avoid going out at night."                                                                                                                                                                                                                                                                                   |
| 1/25/2022 | "I know first hand the effects this has on my health and how it has made my life so restricted both indoors and out . People need to know the effects it has on photosensitive people and in fact non photosensitive too. The impact on health is phenomenal and it needs to be better understood & circulated to all and significant action taken to address this issue ."                    |
| 1/24/2022 | "They are blinding!!! I hate them!!"                                                                                                                                                                                                                                                                                                                                                           |
| 1/24/2022 | "I know very many people, including myself, that fear driving at night because of these lights. It's unsafe and unnecessary."                                                                                                                                                                                                                                                                  |
| 1/24/2022 | "Because led headlights have blinded me during nighttime driving therefore I cannot drive at night."                                                                                                                                                                                                                                                                                           |
| 1/24/2022 | "These auto lights are causing much distress to my eyes during daytime but especially at night and I know I'm not the only one. Something must be done to stop this agenda to blind American citizens."                                                                                                                                                                                        |
| 1/24/2022 | "Agree with the cause being fought here. LED lights are particularly glaring - its the directional intensity, colour temperature (if only they were at the very least a 'warmer' colour), they often have high-frequency but discernible flicker, and auto-headlight sensors in cars bring them on too early, heightening the glare at dawn/dusk when dimmer sidelights are more appropriate." |
| 1/23/2022 | "LED lights can cause seizures in people with epileptic photosensitivity."                                                                                                                                                                                                                                                                                                                     |
| 1/23/2022 | " <a href="https://www.ama-assn.org/press-center/press-releases/ama-adopts-guidance-reduce-harm-high-intensity-street-lights">https://www.ama-assn.org/press-center/press-releases/ama-adopts-guidance-reduce-harm-high-intensity-street-lights</a> "                                                                                                                                          |
| 1/22/2022 | "Some people have astigmatism or blue eyes and there are no regulations on how bright LED headlights can be they are dangerous not to mention painful."                                                                                                                                                                                                                                        |
| 1/22/2022 | "It's ridiculous they're legal"                                                                                                                                                                                                                                                                                                                                                                |
| 1/22/2022 | "No where in nature do you see lights this intense and blinding. It's un-natural and harmful. Time to reclaim the night and start living in harmony with nature."                                                                                                                                                                                                                              |
| 1/22/2022 | "No where in nature do you see lights of this intensity and brightness. The whiteness and glare is harmful on all levels to people and the environment. Best way to send a message to manufactures who churn out this crap is to simply NOT buy it."                                                                                                                                           |
| 1/21/2022 | "We live in rural area and these lights are incredibly dangerous."                                                                                                                                                                                                                                                                                                                             |
| 1/21/2022 | "I have Irlen's Syndrome and walking in the dark is horrendous because of these lights, worse when I am driving in low light! They because me significant pain"                                                                                                                                                                                                                                |
| 1/20/2022 | "I find driving at night very dangerous because the headlights are blinding"                                                                                                                                                                                                                                                                                                                   |
| 1/20/2022 | "They're blinding to other drivers on the road"                                                                                                                                                                                                                                                                                                                                                |

| 1/19/2022 | "The LED headlights blind oncoming drivers. They should be banned outright."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 1/19/2022 | "Since the introduction of LED lights I am noticing getting 'blinded' at times by the brightness glare causing much difficulty for me driving at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1/19/2022 | "The new LED headlights are too bright and very dangerous, particularly for those who suffer with photophobia migraine and other similar conditions. These new lights are not a move in a positive direction, they are a set back."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 1/19/2022 | "LED Car lights are a irritation and dangerous... they are unnecessarily brightcausing temporary blindness to people with sensitive eyes when driving at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 1/18/2022 | "I can't for the life of me understand how these extremely blinding bright headlights are legal. It's frustrating driving at night because of those headlights!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 1/17/2022 | "These headlights are unnecessarily dangerous and potentially lethal."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 1/16/2022 | "I've been temporarily blinded by these ridiculous lights. They are dangerous to safe driving!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 1/16/2022 | "LED headlights are way too bright and they're dangerous. Whenever a car with LED headlights is driving past me, I can't see anything until they're gone, and I have 20/20 vision. Please ban LED headlights for the sake of road safety."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 1/15/2022 | "Bring back yellow lights 🚗🚗"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 1/13/2022 | "The intensity of the led headlights is beyond all possible reasoning. I'm 46 with no health issues and drive with 1 hand over my face for oncoming traffic. A ridiculously tall pickup that has no use other than to feed egos had 6 lights on each side of the grill, and were at least 5 feet above the ground. Additionally, a behemoth truck passed me and the lights shone sideways as well and blinded me as it was passing me. How did this pass government safety regulations.? Guess the auto lobbyist bought a few more politicians. Where is the justification in for this level of lighting? It is equally bad when one of these giants pulls up behind you at a stop light. Once again, I guess we haven't reached the number of led light related deaths to change anything. The only people supporting these lights are the ones who drive them." |
| 1/12/2022 | "This light are hazardous and blinding"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1/11/2022 | "I remember growing up in the 70's and 80's. Any off road halogen lamps, which are a lot weaker than today's modern cars' lights, being used on the road would la d you a ticket. Today corruption is evident, the motor vehicle departments and the legislature as well as the transportation department has given in to manufacturers, for profit, and prove of it is that these blinding lights are no longer considered ilegal. Enforcement against these lights is not possible because corrupted officials have turned these blinding lights "legal". Third world business in the USA of today !"                                                                                                                                                                                                                                                           |
| 1/11/2022 | "It's gotten to the point I drive at night only if I must. Jeeps and lifted trucks are the worst"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 1/11/2022 | "Like other comments these lights are great in an operating room, not so good on the road. There is a time and place for everything in life and LED headlights DO NOT belong on vehicles. The government nneds to regulate the LUMENS we all know 60 lumens LED are not comparable to 60 Lumens regular bulb. The worst"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

|           | ones are in vehicles that were built for regular bulbs most pre 2019 vehicles and people are buying crazy bright LED's on amazon. This has to stop SOON!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 1/11/2022 | "I am all for banning LED's on headlights. They belong in an operating room not on the road. I really hope more people start opposing these lights as more and more are going to be seen on the road in the next 2 years. It's going to come to a point where you will feel like you are in the twilight zone just going for a drive! PLEASE BAN LED'S OR REGULATE THEM SO THEY ARE NOT WHITE BRIGHT AND HARD ON THE EYES! I'm not old but it's going to become an issue for those in their 20s and 30's eyesight will be destroyed!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1/10/2022 | "The ridiculously bright headlights are SO dangerous. For everyone. Motorists, cyclists, pedestrians. PLEASE DON'T USE THEM PEOPLE."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 1/10/2022 | "Went out last night and on the way home on a narrow road the oncoming Suv's lights were blinding the crap out of me! I had to slow way down. I don't like flashing them but I did! Bas-ard had his hi beams on! Really! Even after lowering his high beams I was still blinded! Pisses me off! According to police data, accident investigators report 'dazzling headlamps' as an influence in 10 fatal crashes, nearly 70 serious accidents and more than 250 other accidents. Some drivers suffer something called 'disability glare'. Studies have shown it can take up to 10 seconds to recover from."                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 1/9/2022  | "Im tired of being blinded at night and scared im going to hit someone or something while blinded! I cant believe these lights ever passed ANY car manufacturers safety inspections?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1/8/2022  | "Because I feel that these headlights are dangerous & deadly. My mom almost got in very bad accident because of these damn lights!! How many more people have to get hurt or lose their lives because of this stupid trend of LED lights. It has to stop !! 🙄"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 1/8/2022  | "I am signing this petition because the high intensity lumens (3000-4000) from LED highlights should be illegal, not the specially-designed glasses that are an alternative solution for driving at night. Once again it is a matter of money and power supported by the stronger lobbyists. I thought it was my imagination, that the headlights today are stronger and brighter than yesteryear. With almost 29,000 people supporting this petition, how is it these lights are still legal. It is clear the powerful lobbyists have a strong government backing and consumer affairs are of no concern. What horrific event is going to ban these LED lights the way, the Amber alert came into play. Why will it take a tragedy for this country to create a statute to ban LED headlights. These lights are blinding, these lights cause migraines, these lights force to look away from the road. And for some, these lights cause people to blackout when they are driving. Seriously, that in itself is enough reason to ban LED headlights. The irony" |
| 1/7/2022  | "I drive my car now with high beams all the time bc it bounces back some of the light and even though I know this is illegal; I have no other alternative."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 1/6/2022  | "hurts my eyes"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

These new lights blind other drivers"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 1/6/2022 | "When I drive at night, and there's an oncoming car, I can't see a darned thing until it has gone by me. I try to look at where the road in front of me SHOULD be, and pray that I don't hit anything on the side of the road.It's even worse if I am driving in a regular car (I drive a light duty truck.) I have friends who refuse to drive at night because they are blinded by oncoming halogens.Please, please, just angle them DOWN a bit??? Why do they ALL have to look like highbeams are already on? And when they do switch on their highbeams, then I am white knuckling the steering wheel, slowing way down, because I am almost completely blind until they have gone past me.Please, especially for the shorter amongst us, please stop blinding drivers?? It's incredibly dangerous! It is light someone shining a flashlight directly into your face in the dark - all you can see is blinding light." |
| 1/6/2022 | "We were just talking about this at work yesterday. Extra bright headlights, coupled with people having their high beams on, plus the fact that truck & SUV headlights are at the height of sedan windows, make for some dangerous driving conditions."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| 12/27/2021  | "I deliver for a living and these lights are so bright that I have to block them with my hands or pull over and let them pass me. Nobody needs lights and powerful under normal driving conditions."                                                                             |
| 12/24/2021  | "This has been an issue for me for years!! My eyes are sensitive, and I also suffer from severe migraines. Bless the person who started this petition, and you've got MY signature!"                                                                                             |
| 12/23/2021  | "These lights are harmful and are going to cause many accidents!"                                                                                                                                                                                                                |
| 12/23/2021  | "not only is it harmful to myself and other human road users outside of said vehicle, it is also penetratingly damaging to living creatures, notably insects who are disoriented, and disrupted by the effects; this in the sixth great extinction, in a biodiversity crisis..." |
| 12/23/2021  | "It's so bad that I get migraines any time I go out at night. It's just not reasonable to expect everyone with sensitive eyes to never drive after dark or in stormy weather. These lights are so bright and disorienting that it can lead to premature vision loss!"            |
| 12/22/2021  | "I drive country roads often where conditions can be challenging without blinding bright white lights causing temporary blindness. A lot of the time road lines are                                                                                                              |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                 |
|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|            | faded or nonexistent in foggy, rain or other inclement conditions on windy roads these bright white lights. That have become the standard instead of a exception create a perfect storm for close call situations. I can handle old school standard halogen lights even with their brights, but these new led style lights make it impossible for ANYONE to see and we must not take away vision from our drivers."             |
| 12/21/2021 | "It is so distracting and dangerous while driving and having these kinds of headlights blinding you! I have feared for my safety when I could barely even see the guide line to the right of my truck. Before these new LED lights became wide spread, that level of brightness was only used when your brights were on. There is zero reason for lights this bright esp when the majority of people drive in populated areas." |
| 12/21/2021 | "It's dangerous, when you're blinded by these lights"                                                                                                                                                                                                                                                                                                                                                                           |
| 12/20/2021 | "I get blinded by cars with LED lights and LED streetlights. We need help to stop this madness!"                                                                                                                                                                                                                                                                                                                                |
| 12/19/2021 | "bright led headlights with auto dimmers still to BRIGHT"                                                                                                                                                                                                                                                                                                                                                                       |
| 12/18/2021 | "In really tired of "driving by feel" everytime a car with a set of these lights passes me by. I'm likely going to crash soon."                                                                                                                                                                                                                                                                                                 |
| 12/18/2021 | "bc fuck them im trying to see to drive !!!! fuck u too if you have headlights brighter than the sun☹"                                                                                                                                                                                                                                                                                                                          |

|            | ridiculous. It's dangerous. Something needs to be done. Stop fixing things that don't need to be changed and focus more on things like this!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 12/10/2021 | "I am blinded by theseights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/10/2021 | "Not only do these light make your side of the road not visible creating a safety hazard but if you're like me they give you an instant pounding headache. These headlights are a nuisance and should be banned."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/9/2021  | "I can't drive safely with these brighter lights behind me and coming toward me"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/8/2021  | "I hate excessive glare in eyes on night highways."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 12/8/2021  | "I suffer from chronic Migraine Migraine and night blindness. I have to drive to and from work on very dark roads with these headlights either coming at me or coming up from behind. On very narrow country roads, it's hard to look away and stay safe. It's even worse when it's on a work truck displaying two sets of these lights. Something has to be done about these lights before anyone else dies, and I sure hope that someone isnt me."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/8/2021  | "The LED headlights on these new vehicles and semis blind me so I can't see ANYTHING. These ****ing things...I can't even tell if they are on low or high beam they're so bright. If I think someone's halogens are on high beam but they aren't and I flash them, and they flash me back...no big deal. But if that happens with LED headlights and they turn on their high beams in retaliation it's like being forced to look at someone welding without a helmet and my eyes hurt for hours after.Anything that damages your eyes and creates deadly conditions is not a headlight: it is a WEAPON. And that's just what these LED abominations are. And they need to be BANNED.To anyone who says "people who hate LED headlights need their eyes checked": if you need THAT much blinding light to drive at night, then you need YOUR eyes checked. And to everyone in the government who authorized this, take note. WE ARE COMING FOR YOU." |
| 12/8/2021  | "These lights are extremely blinding, and also a threat and trigger to my health condition."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/8/2021  | "I drive alot at night & these new lights are so bright & blinding it's ridiculous how it's even being allowed! Take these lights off the strets so we can see!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/7/2021  | "They are dangerous and I haveto avoid night driving."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/7/2021  | "These lights make it difficult to drive at night, are blinding, and induce migraines and other issues in many people."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/7/2021  | "These lights are dangerous! You cannot dim them, and they blind other drivers!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/6/2021  | "I can't drive at night , specially approaching any curves on the road , if this lights are coming at me I have to slow down completely till they are no longer pointed directly in my eyes"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/6/2021  | "Sick of it...it's already dangerous enough to drive at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 12/6/2021  | "Driving at night especially in rain and snow you cannot see when when you approach a vehicle with led bright lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 12/6/2021  | "Its blinding"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/5/2021  | "I have a hard time gauging the distance or speed of an oncoming car with LED lights. Not only because of the way it looks but also they are often blinding. Whenever a large truck with LED headlights is behind me, the lights reflect off of my rearview mirror and are painfully blinding. This creates scary and unsafe situations for myself and others on the road. I can only imagine how awful this is for those with strong astigmatism and light sensitivities"                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| 12/5/2021  | "I live in a dark sky city where outdoor lighting ordinances are enforced to preserve the night sky. This makes extremely bright headlights all the more dangerous in areas where there are no other light sources. I went out to run an errand around 7:00pm two nights ago and had to turn around and head back home after five minutes of driving due to the blinding lights of oncoming traffic which caused me to fear for my safety. Something needs to be done about this before serious accidents occur." |
| 12/5/2021  | "I've almost been in several accidents involving 12 ft ditches because I'm blinded my trucks and suvs with insanely bright led headlights. Headlights brighter than my high beams ! Absolutely ridiculous this hasn't been handled already !"                                                                                                                                                                                                                                                                     |
| 12/4/2021  | "It makes driving dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/4/2021  | "Driving at night has started giving me headaches. Earlier I used to wonder what's causing this but over the time I have realized it's the bright lights from oncoming traffic in the new cars. I don't feel this with the occasional cars having old halogen bulb yellow lights. There are many times that I had to look away to protect my eyes. I wonder how many other people are facing this"                                                                                                                |

|            | anything. Enough already, I know the whole inconsiderate jerk in a lifted truck is the life blood of the police force and it's supporters but at some point the public they supposedly serve must be taken into account."                                                                                                                                                                                                                                                                        |
| 11/30/2021 | "These lights are a joke and should be banned."                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 11/30/2021 | "They are too bright! No need for it"                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 11/30/2021 | "I am tired of being blinded by these lights. I have to wear special glasses at night to drive and even then sometimes they are not enough."                                                                                                                                                                                                                                                                                                                                                     |
| 11/30/2021 | "I have stopped driving at night because I can not handle the bright lights. Every time I pass a vehicle that has these headlights I end up having trouble refocusing and arrive at home with the start of a migraine. There is no reason for lights to be this bright."                                                                                                                                                                                                                         |
| 11/29/2021 | "I don't want to die so some entitled douchebag can follow spacecraft and pterodactyls at night!"                                                                                                                                                                                                                                                                                                                                                                                                |
| 11/28/2021 | "I have driven over 250,000 miles over the last 20 years. The recent change to bright lights on an increasing number of vehicles is not just an annoyance, but a serious safety hazard to other drivers. If the oncoming traffic has any vehicle with this new type of lights, I find that the light is quite blinding, and reduce severely my ability to see the road. Please do something about this before it is too late and we have too many vehicles on the road with this type of light!" |
| 11/28/2021 | "They have blinded me to the point that I've had to completely pull off the road and stop!! I no longer can enjoy evening rides with my grandchildren"                                                                                                                                                                                                                                                                                                                                           |
| 11/28/2021 | "It's hard to see when headlights like that are coming at me."                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 11/27/2021 | "Night driving has become a danger imposed on drivers by Detroit. Enough!"                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 11/27/2021 | "I CAN'T FUCKING SEE AT NIGHT"                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 11/27/2021 | "It's hard to drive at night, dangerous, and scary for me with my kids in the car"                                                                                                                                                                                                                                                                                                                                                                                                               |
| 11/25/2021 | "I've come close to hitting parked cars and pedestrians walking because of these headlights. Some lights are way too bright. And some people have 4 or even 6 of these headlights. BAN THEM!"                                                                                                                                                                                                                                                                                                    |
| 11/24/2021 | "Those Led lights are way to much blue light for those who were glasses. At some points at night we can't even see the road because of overly high Led lights blinding us from behind and oncoming traffic. More fatalities will come from these light source while on the road."                                                                                                                                                                                                                |
| 11/24/2021 | "The public would benefit from a serious inquiry into how these lights affect other road users, and regulation to ensure that manufacturers are not putting out products that are unnecessarily unsafe for others. Car manufacturers should be held to a high standard of safety for a community—not just the driver."                                                                                                                                                                           |
| 11/23/2021 | "The led headlights are getting out of hand!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 11/17/2021 | "I feelEndangered by these new lights!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 11/16/2021 | "I've been blinded by those dangerously bright LED headlights more than once. They're a menace on the road."                                                                                                                                                                                                                                                                                                                                                                                     |
| 11/16/2021 | "I've been snow blinded because of the LED lights won't melt the snow and from drivers coming head on. They look like high beams and it is blinding."                                                                                                                                                                                                                                                                                                                                            |
| 11/16/2021 | "Its needed."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 11/16/2021 | "I've been blinded!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

Just experienced this issue tonight!!!!"                                                                                                                                                                                                                                                                                                                |
| 11/13/2021 | "I have an astigmatism in both my eyes & these lights have caused that worst starring of any lights I have ever seen. It completely blinds me even just at dusk."                                                                                                                                                                                                                                                       |
| 11/12/2021 | "LED headlights are painful, blinding and dangerous, creating a situation where we can no longer see at night while driving, which is especially dangerous when approaching a crosswalk with an oncoming car with LED lights."                                                                                                                                                                                          |
| 11/11/2021 | "They literally blind you"                                                                                                                                                                                                                                                                                                                                                                                              |
| 11/11/2021 | "These headlights create dangerous conditions for oncoming drivers. They are blinding."                                                                                                                                                                                                                                                                                                                                 |
| 11/11/2021 | "I find the bright lights difficult to navigate around and annoying."                                                                                                                                                                                                                                                                                                                                                   |
| 11/10/2021 | "Morons Drive With These Blinding Lights That's Why They Look Brighter Far Away"                                                                                                                                                                                                                                                                                                                                        |
| 11/7/2021  | "they need to outlaw these lights. They blind you so you can't even see what lane you are in. DANGEROUS"                                                                                                                                                                                                                                                                                                                |
| 11/6/2021  | "I just click on my high beam on them they click on their even brighter ones but I leave mine on till they go by."                                                                                                                                                                                                                                                                                                      |
| 11/5/2021  | "LED headlights have no place on our roadways period!!! They are so blinding! And you see spots afterwards. I find myself looking at the far right side of the road, but then I'm not even watching the road in front of me. Please outlaw them!!!"                                                                                                                                                                     |
| 11/3/2021  | "I think safety should always come before selfish and/or "cool." It used to be law to dim high beam lights as a courtesy if another vehicle is coming. These new halogens or whatever are even brighter than older high beam brights were/are. They are temporarily blinding and are causing many problems to other drivers. Get rid of these and encourage yearly eye exams. People need glasses not brighter lights." |
| 11/3/2021  | "I'm signing because I have been blinded by LED headlights and nearly crashed."                                                                                                                                                                                                                                                                                                                                         |
| 11/2/2021  | "Ban the blinding lights! Light pollution is ruining neighborhoods, commutes, and a serious danger on all roads!"                                                                                                                                                                                                                                                                                                       |
| 11/1/2021  | "I really hate those bright lights at night."                                                                                                                                                                                                                                                                                                                                                                           |
| 11/1/2021  | "Bright lights in vehicles cause issues for the rest of us on the roads. This is dangerous. While the person driving with LED and HID lights may see better, the rest of us are blinded by them. Please ban these lights."                                                                                                                                                                                              |
| 11/1/2021  | "I hate the LED lights on cars & trucks!"                                                                                                                                                                                                                                                                                                                                                                               |
| 11/1/2021  | "We made it! 25,000 signatures! Let's get some action."                                                                                                                                                                                                                                                                                                                                                                 |
| 10/31/2021 | "I am signing this petition, because I suffer from chronic inflammation of my optic nerves (which causes bright white vehicle headlights to be impossibly blinding). I am able to handle the soft yellow headlights without too much difficulty. I am speaking up for the many thousands of people who suffer from optic nerve issues that cause artificial lights to appear extremely bright. -Chris Weston"           |
| 10/29/2021 | "I am sick of being blinded by over bright headlights that make roads less safe"                                                                                                                                                                                                                                                                                                                                        |
| 10/29/2021 | "These lights are blinding and absolutely dangerous for oncoming vehicles! Sure glad THEY can see! And some of the vehicles have three lights on both sides! WTF!!! Whoever invented those ought to be....."                                                                                                                                                                                                            |
| 10/29/2021 | "I can't stand these blinding lights. They are unnecessary!"                                                                                                                                                                                                                                                                                                                                                            |
| 10/26/2021 | "I cannot see when driving at night and passing other cars that have bright lights"                                                                                                                                                                                                                                                                                                                                     |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

God bless. <a href="https://chnng.it/7jKzphDD" rel="nofollow">https://chnng.it/7jKzphDD</a>"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 10/25/2021 | "Passing by a whole line of cars coming from the opposite direction is scary. The brightness makes it more difficult to see in front of me. This increase in brightness has become remarkably more problematic over the last few years."                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 10/25/2021 | "In one particular scary instance I remember being at a four way stop late one night and all three opposing vehicles had these extra bright lights glaring into the intersection, and as my vision was practically blinded I barely saw, at the last moment, some pedestrians start to come in front of my car as I began to drive forward. Thankfully I noticed them in time and stopped, but that was too close for comfort, not to mention the terrible uncomfortableness in my eyes from that horrific, blinding brightness. And unfortunately this blinding is all too common in many circumstances, pretty much every day. This needs a remedy, like yesterday!"                                             |
| 10/21/2021 | "These lights are totally unsafe!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 10/20/2021 | "These blinding lights are making it very hard to stay on the road when approaching a vehicle equipped with them."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 10/18/2021 | "I hate driving at night because headlights have become ridiculously bright in recent years"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 10/18/2021 | "Blinding headlights are dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 10/18/2021 | "These harsh and blinding LED headlights are a danger to all. You're not driving safer if you are blinding other drivers. Please ban LED headlights now."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 10/15/2021 | "The headlights are too bright."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 10/14/2021 | "As a wearer of glasses these produce a ridiculous amount of glare, and as a driver of a newer care with them there is no discernable advantage to visibility. I would rather not have them nor be blinded by them."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 10/14/2021 | "I hate it to honestly people need to be Courteous and careful on the road"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| 10/11/2021 | "They are blinding and very dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 10/11/2021 | "Because of our northern latitude, we get early darkness in fall and winter. On several occasions, I have narrowly avoided an accident because of these blinding headlights. Even when a driver switches from high-beams, the headlights appear overly bright to oncoming drivers. On our rural roads with minimal installed lighting, drivers tend to keep headlights on high for better visibility, unaware that their lights are blinding oncoming drivers. We also get frequent fogs during these colder months, which scatters the bright light, creating an even larger zone of bright-blindness. European countries require auto manufacturers to mitigate this hazard. Why is the US so backward on this?" |
| 10/11/2021 | "I live off of a dangerous road and have been blinded so many times by oncoming halogen headlights it's a miracle I haven't veered off the road. I am shocked that such a dangerous nuisance is not being acknowledged by the masses and rectified:"                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 10/10/2021 | "The headlights are blinding!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 10/9/2021  | "I almost lost my life twice because of these stupid lights. I was blinded by oncoming traffic and couldn't see that traffic stopped in front of me. These lights should've been banned years ago. Until someone dies and the family sues, nothing will ever be done."                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

I have gotten quite a few migraines from bright sunlight and and sensitive to bright lights."                                                                                                                                                                                                                                                                                                                                                                           |
| 10/9/2021 | "I have pulled over and let people pass because of this"                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 10/8/2021 | "I agree there have been many times I almost wrecked and literally felt like I was not going to make it. Many people do blind other people on purpose I don't think some people understand how dangerous it is or maybe they do and just don't care."                                                                                                                                                                                                                                         |
| 10/8/2021 | "It is not legal for a blind person to drive and therefore should not be legal to blind someone while driving. I have experienced these 'blinding lights' and because of them, now only drive at night when absolutely necessary. I regret that my ability to go out at night has been restricted. Since AAA and AARP have no interest in helping with this problem, perhaps a class action suite against the manufacturer would be appropriate. I volunteer to be your lead plaintiff."      |
| 10/8/2021 | "I have a hard enough time seeing at night WITH my glasses much less when someone is brightlighting me with the light of 1000 suns and your eyes take time to recover after and if anything is in the road in front of you there is a good chance you're not seeing it and smashing it full speed. Ridiculous they've ever been allowed at this brightness ever anyway."                                                                                                                      |
| 10/8/2021 | "These new headlights are even to bright for daytime usage"                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 10/7/2021 | "I hate those lights u cant see shit when there coming at u blind ur ass"                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 10/7/2021 | "Forced to pull over and let vehicles behind take over and nearly closing eyes from oncoming vehicles"                                                                                                                                                                                                                                                                                                                                                                                        |
| 10/4/2021 | "I agree 1000% I actually bought Tac Night vision glasses not ready to give up driving! But the experts say you get 40 more feet of distance you can see! Lol"                                                                                                                                                                                                                                                                                                                                |
| 10/2/2021 | "I have stopped driving at night because of these awful lights."                                                                                                                                                                                                                                                                                                                                                                                                                              |

| 9/29/2021 | "Ban Blinding Headlights andSave Lives!"                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 9/29/2021 | "I have personally had trouble seeing momentarily while driving at night due to blindingly bright headlights either behind me, or oncoming the opposite way. These can be very dangerous and we need to put an end to them!"                                                                                                                                                                                                                                                                  |
| 9/28/2021 | "LED and HID headlights blind me when I drive at night. I have to slow down because I really can't see because of these super blinding lights in my eyes. These lights cause a danger to oncoming traffic because they make it impossible to see."                                                                                                                                                                                                                                            |
| 9/27/2021 | "This is a safety issue-clearly!!!We,the public should not have to insist that the producers of these products cease and desist production and distribution ...it should be illegal to:produce,distribute,sell,use for use on our roads, highways and byways!"                                                                                                                                                                                                                                |
| 9/25/2021 | "I'm signing because I have experienced many times the dangerous hazard of being temporarily blinded by oncoming overly bright LED headlights and nearly wrecked my car on numerous occasions because I couldn't see the road nor anything or anyone around my vehicle while those lights adversely affected my vision. I agree that headlights should be regulated and restricted to lower levels of brightness that will create safer driving conditions for drivers that are facing them." |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| 9/23/2021 | "I have been victimized by many drivers at night with blinding headlights especially from the rear."                                                                                                                                                                                                                                                                                                                                                                                                        |
| 9/23/2021 | "I suffer greatly from these HD blinding blue ray lights that has evidence that it's HARMFUL for human eyes."                                                                                                                                                                                                                                                                                                                                                                                               |
| 9/23/2021 | "RON CAVALLAROThis and police car strobe lights are a menace!"                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 9/23/2021 | "Phyllis Abrams"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 9/23/2021 | "I have to look away when faced with the LED lights in oncoming traffic. Even the low beam lights used in the daytime are a problem.AN OVERWHELMING majority of drivers believe new car headlights are becoming far brighter than they need to be, according to research by The RAC. The motoring group found 91% of those surveyed believe car headlights are becoming too bright, with 60% admitting they're regularly dazzled, even by dipped headlights."                                               |
| 9/23/2021 | "The super bright lights make it very hard to see the actual traffic, much less pedestrians. The LED craze is in so many stores now, and some make it impossible to look up, but at least they're stationary, and I can avoid them. But the one on cars— in front of me, or in back of me— are temporarily blinding, and I truly hate what the do to our vision. Please use some common sense to get rid of known driving hazzards!"                                                                        |
| 9/22/2021 | "LED lights and the light pollution they cause have negative effects on our health and environment. People share a common heritage to the skies and stars. Enjoyment of this common heritage is diminished by bright LEDs and the light pollution attributed to them."                                                                                                                                                                                                                                      |
| 9/22/2021 | "The last time I visited my family in the city I came down with a severe migraine headache from the continues onslaught of extremely bright, blinding LED headlights. The sheer amount of light pollution between the streetlights (now LED) and the headlights in virtually every cat on the road destroys my night vision, makes it impossible for me to use my mirrors for safety, and makes nighttime divinga exceptionally difficult. Stop this madness, NOW."                                         |
| 9/22/2021 | "In my experience, bright lights at road level create a halo of darkness, where you can't see the vehicle itself or what is behind or around those lights. A significant contributor to dangerous situations, no doubt!"                                                                                                                                                                                                                                                                                    |
| 9/22/2021 | "I've been blinded by these ridiculously bright lights in a construction zone and hit a barrier that wasn't visible as a result."                                                                                                                                                                                                                                                                                                                                                                           |
| 9/20/2021 | "I just purchased a 2021 VW ID4 with LED headlights. However as a driver age 70 I have noted that headlight glare is definitely more of a problem for me at night AND I do not have 20/20 vision with my glasses on! This change makes sense."                                                                                                                                                                                                                                                              |
| 9/19/2021 | "Add these dangerous LED headlights to under lit cyclist weaving in and out of traffic and unlit pedestrians dashing across the street wearing black at night in the rain during the early dark days of winter in high density neighborhoods in the city and it is simply a cluster bomb of accidents waiting to happen. So scary to imagine a car accidentally hitting a pedestrian or cyclist. No more High beam LED headlights. Cross the street at the cross walk. Lights and helmets on cyclists. Even |

| 8/27/2021 | "These lights are dangerous and for people who suffer from Migraine , painful ."                                                                                                                                                                                                                                                                                                        |
| 8/26/2021 | "This is common sense. Anyone who hasn't been blinded in a dangerous way by HID or LED headlights is in for a serious scare when it finally happens"                                                                                                                                                                                                                                    |
| 8/25/2021 | "I am tired of people putting my personal safety and others at risk by acting smug with their bright headlights and motorcycle headlamps on full bright during the day, as they're passing by on the road. Let's get this petitioner's goal achieved, and get the ball rolling!"                                                                                                        |
| 8/17/2021 | "Where do you actually sign the petition? All I see is the Take the next step! which is a funding request. How about an immediately obvious button?"                                                                                                                                                                                                                                    |
| 8/15/2021 | "these headlights are dangerous."                                                                                                                                                                                                                                                                                                                                                       |
| 8/10/2021 | "I agree"                                                                                                                                                                                                                                                                                                                                                                               |
| 7/31/2021 | "For Austin Lee Beebe and my road rage ~\\_(ツ)_/""                                                                                                                                                                                                                                                                                                                                      |
| 7/25/2021 | "I agree - I've been blinded by some of these and nearly come to grief !"                                                                                                                                                                                                                                                                                                               |
| 7/24/2021 | "I drive a lot early in the morning for work. Just about every morning I experience a vehicle with blinding light and most of these people have no consideration for other drivers. It is very difficult to drive when these lights remain behind you in your rear view or head on. I find myself dodging the reflections from my mirrors or moving out of the way, just so I can see." |
| 7/21/2021 | "Having to face blinding bright white headlights is a painful experience, damaging to our eyes, and dangerous. Thank goodness there is proof that they need to be banned."                                                                                                                                                                                                              |
| 7/21/2021 | "At the age of 66, these needlessly overly-bright and misdirected headlights and streetlights have made impossible to drive safely especially on highways. Many times I had to pull over and let my husband drive who does not have astigmatism."                                                                                                                                       |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| 7/20/2021 | "Canada here: - Our divided highways are not level on each side, so you may always be below the "cut off" point for some parts of the highway- We still have a lot of side roads where you will be blinded by these, especially if it has small hills (toyota corolla you are the worst here). If you come over a hill you will be blinded- We do not have a law to mandate self adjusting headlights, so all trucks with a load in the back or just high off the ground will blind you with these headlights This is the most selfish thing I've seen auto manufactures do. Jeep you are the worst and Toyota how dare you. You are selling the vehicles like this knowing the "a-holes" of the world will buy it and no-one cares... Well we care! Enough is enough. These lights are for off road use." |
| 7/18/2021 | "With the blinding head on lights at night on my local two lane roads, it is often impossible to see if there is any dangerous object in the road ahead. Most of the time roads are clear, but I have witnessed several times where heavy damaging items are laying in the middle of the road that likely fell from a truck. If I would hit one of these items that I could not see, it could cause death/injuries to me and/or people in the on coming traffic."                                                                                                                                                                                                                                                                                                                                          |
| 7/18/2021 | "Please ban these headlights. They blind me even though I focus on the passenger side road lines. People refuse to dim these blinding headlights are also contributing to these road deaths."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 7/14/2021 | "Bright headlights are incredibly dangerous. There needs to be strict regulation to limit their brightness. I once couldn't even see the road in front of me because I was blinded by the headlights of a new Mercedes SUV."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 7/11/2021 | "Blinding lights are a hazard to lives"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 7/4/2021  | "I read through the petition, and I want to be clear that my signature is intended to support a ban on use of LED lights at night while pointed at other drivers. It's important on our farm to have light bars and such to help illuminate equipment we may be trying to fix at night before we need it the following day. But we use switches to control them, and no aftermarket LED headlights are installed. Those who are not responsible in the installation and/or use of LED lights should not be allowed to use them, or at least fined."                                                                                                                                                                                                                                                        |
| 7/1/2021  | "I've almost gotten into multiple wrecks because these types of headlights blind me. They're beyond distracting - they actually become physically painful and it becomes hard to focus on anything else when they're in my view."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 6/29/2021 | "The LED headlights on cars are destroying our environment and our eyes"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 6/26/2021 | "cause i'm short and i drive a short car. i'm at eye level with these fucking mini-suns and i'm tired of the road migraines >:("                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 6/24/2021 | "My father deals with this issue regularly and has a huge problem seeing the lines on the road when faced with these unnecessarily bright headlights. I'm not against HID's but I am against the overuse of various types of LED's especially because I've seen an uptick in my area of people applying many aftermarket parts to their vehicles in recent years."                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 6/23/2021 | "Blinding headlights make it impossible to see the road or any pedestrian or cyclist beside the road. They are horrible to have in the rear view mirror. Driving at night for any great distance in traffic becomes visually exhausting, which is unsafe for everyone."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 6/20/2021 | "These headlights should be made illegal immediately. Besides being blinding, those who drive with them are not able to see what is in front of them and turn on                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|           | their bright lights and running lights to help see better. The color temperature does not light up the road as well as other headlights do."                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 6/20/2021 | "I have, like most all drivers, been nearly unable to see for a number of seconds while driving due to these terrible lights that Never should have been allowed on cars but should Obviously be outlawed from being installed on new vehicles and removed retroactively from existing ones. Do we Need to wait for X number of highway deaths before a serious change is made?"                                                                                                                                                                                                                                        |
| 6/20/2021 | "These lights cause more accidents, affect health and vision and impact bird migration."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 6/20/2021 | "These new lights are to bright"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 6/19/2021 | "Where I live, the roads are 2-lane, hilly, curvy, and unlighted, and it's deer country! The blinding glare from oncoming LED headlights make it impossible to see upcoming curves and in-road hazards such as deer. I do not have this problem with oncoming halogen headlights."                                                                                                                                                                                                                                                                                                                                      |
| 6/18/2021 | "I'm one of the older drivers who is blinded by the lights! Fix them!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 6/16/2021 | "My experience is that these lights are extremely bright and make it nearly impossible for me to see anything else when opposite them. My husband is a trucker and it is equally impairing to them. We value our CDLs, our lives and our fellow drivers lives."                                                                                                                                                                                                                                                                                                                                                         |
| 6/12/2021 | "Dionisia p viloria"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| 6/12/2021 | "LED lights have been a terrible addition to our daily lives and overall health. To continue allowing LED lights on a car, either headlights or taillights, would only prove that our leaders, car manufacturers etc, care nothing about our safety while we're on or off the road. LED headlights blind drivers and black out everything around their glare for only a moment, but it only takes a moment to cause an accident. The worst part is the blurred vision we're left driving with for several moments after when anything could happen."                                                                    |
| 6/11/2021 | "Nathan Currier"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 6/11/2021 | "It is vital to restrict the brightness for safety. "Brights" are available when not following someone or approaching someone coming the other way. That is enough. But what really needs attention is the popular trend toward people using their fog lamps at all times. It is illegal to do so in many places. Yet it is never enforced. Some of these fog lamps are as bright or brighter than the headlights. They are for FOG, not regular driving, and should never be used when approaching or following someone. They have somehow become "fashionable" to be a big shot showing off that you have fog lamps." |
| 6/11/2021 | "Blue/bluish, too high and too bright even with streetlights on. The driver with these lights may see better, but those impaired/blinded may end up aiming for such vehicles unintentionally..."                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 6/11/2021 | "As an independent elder, I have noticed for years that the blinding lights are creating unsafe driving conditions. They're also threatening my independence as the lights are a serious risk factor for accidents that I want to avoid. They're doing the opposite of what they're intended to do — public safety!"                                                                                                                                                                                                                                                                                                    |
| 6/10/2021 | "In the last few years I've begun to find that I can't see the road very well at night due to the excessively bright glare of oncoming headlights. Everything other than the headlights looks black to me. I feel this is not only unpleasant, but also unsafe."                                                                                                                                                                                                                                                                                                                                                        |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
|-----------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|           | When in traffic, I sometimes have to avert my eyes from the bright red LED brake lights of cars in front of me. Some cars are much worse offenders than others. I've also noticed that even LED-based stoplights can be so bright that I can see them from a mile away but I can't see the surroundings. I thought for a while I was just getting old and my eyes were not as good as they used to be (I'm in my early 40's), but a recent news article on the subject has me convinced that this is not my imagination -- it's a genuine problem experienced by many people."                                     |
| 6/10/2021 | "I usually wear sunglasses when I drive at night or raise my left hand to block oncoming traffic. Can we also lower the height of SUVs & other taller vehicles so they aren't at the level of the eyes of the car drivers? Why can't their headlights be at the same level as cars, since they need to hit the road rather than blind oncoming drivers? These lights are also blinding in rear and side view mirrors that I have to redirect at night."                                                                                                                                                            |
| 6/10/2021 | "They are not only distracting but it also difficult to see anything past them. I am most aware of this while driving through areas with a lot of deer as I scan the roadside watching for the tell tale reflection in their eyes."                                                                                                                                                                                                                                                                                                                                                                                |
| 6/10/2021 | "I'm signing because my eyes have been painfully effected by these over-bright headlights for years! I like the softer old lights. Why do we need these when most cities are so flooded with LED's anyway?! | 6/10/2021 | "These blinding headlights are dangerous. It used to be illegal to drive on an interstate with your high-beams on; why are these super-bright headlights allowed?"                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 6/10/2021 | "SUVs/trucks are the worst because their lights are high off the road an aimed straight into the oncoming car. The headlights that automatically dim work terribly on country roads that curve or have lots of dips in them and the lights aren't set up to dim far enough away from the oncoming car. The lights are a huge safety problem."                                                                                                                                                                                                                                                                      |
| 6/9/2021  | "I support this petition."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 6/9/2021  | "The extreme bright lites are insane and dangerous. I hate them. I also feel that way towards the police car flashing lights. What ever happened to the ole single red flashing light on top of a police car that everyone knew what it meant and how to respond?"                                                                                                                                                                                                                                                                                                                                                 |
| 6/9/2021  | "I have to pull off of the road every time one of the vehicles get behind me or slow down to a crawl when coming toward me."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 6/9/2021  | "These extremely bright headlights do impair the driver whose eyes are extremely bothered by having to advert their gaze from the road till the offending oncoming vehicle passes. Likewise one has to flip their rear view mirror up when you have a vehicle behind you with these LED lights, but they still can be very disturbing as when said vehicle is fairly close their LED lights are reflected in my side view mirrors. Only thing for that is to change lanes, if another lane is available, to get away from that vehicle that is following. They should be illegal as they do affect other drivers." |
| 6/9/2021  | "These bright headlights are such a problem for me, thus I find myself not even wanting to drive at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 6/9/2021  | "I feel this is the right thing to legislate as well as have all Truck and SUV night lights angled down a bit more as they are also blinding at night and come level with my eyes in any car."                                                                                                                                                                                                                                                                                                                                                                                                                     |

|          |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| 6/9/2021 | "These bright lights are a significant safety hazard"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 6/9/2021 | "pone en peligro el conducir en la noche porque la brillantez de los focos perturban la visibilidad del conductor que recibe el resplandor"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 6/9/2021 | "I thought I was alone in noticing this problem. Glad to hear that my opinion is shared."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 6/9/2021 | "I have stopped driving at night due to cars that have bright white lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 6/9/2021 | "There are certain vehicles in which the headlights are blinding and cause unsafe and very annoying driving conditions"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 6/9/2021 | "I agree completely with the author and thank him for this petition. I believe this sort of intense light that shines directly into the windshield of oncoming traffic and rear view mirrors of others should be illegal and changed in some way to dim their effect on other drivers."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 6/8/2021 | "I have been saying this for DECADES, even more so now that I am a professional driver!What is worse is that many vehicles are sporting four or six lights. I believe that many drivers do not realize how bright their lights are nor how to turn their "extra" lights on and off!Chevy, South Hadley, MA"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 6/8/2021 | "I'm signing because I still want to be able to drive at night, and the blue lights are blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 6/8/2021 | "Drivers can help reduce the blinding effects of their vehicle's lights by turning off the fog lamps. Some drivers don't even know when these lights are on and they add to the light emitted from the vehicle. At least 20% of drivers leave fog lamps on full time."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 6/8/2021 | "We need to keep safety first on our roads and eliminate the hazards that can cause distraction, especially when driving at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 6/7/2021 | "I'm signing because these blinding vehicle LED headlights including, halogen and HID lights are a blinding nightmare for me. In particular, SUVs blind me when their headlights' glare is reflected in my rear view mirror as well as, directly from oncoming traffic. Automakers promote them as a safety feature when, in reality they pose a danger. I find myself reflexively removing and raising my arm and shielding my eyes with my hand, which further interferes with my view and further disrupts my focus. Lexus and other luxury vehicles began coming out with LED lights in 2006 and in the past several years they are being pushed by most automakers because the cost of manufacturing of the lights has become cheaper. As usual, it's about the money and lack of regulation, quality control, and lack of training and know-how on using the proper installation kits and alignment of the headlight beams. Especially aftermarket LED light bulbs, which are intended for off-road vehicles, not basic transportation vehicles. W" |
| 6/7/2021 | "Older people are having a hard time driving at night since they released those headlight."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 6/7/2021 | "I've literally had panic attacks driving at night faced with oncoming headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 6/7/2021 | "I've been struggling with bright lights for offer 10 years now - from oncoming traffic, rear view cars and stop/blinker lights.I want to ask to also advocate limiting luminance on traffic and road side lighting (such as signage and billboards).Furthermore, I would like to see after-market lights, typically meant for off-road use, banded for use on roads (such as the LED arrays on bumpers, grills, mirrors and roofs, as well as extra flood/beam lights).Lastly, I would like to see strong limits on the use of high beam lights, both through better driver education                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

|          | and stricter enforcement. There is an increase number of drivers using high beams, many of them turning those on by default as soon as they start their cars."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 6/7/2021 | "I am constantly blinded by oncoming headlights, to the point that I avoid driving at night. This is ruining my social life!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 6/7/2021 | "I'm signing because the headlights are blinding"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 6/7/2021 | "Number of high position lights shining right in on car drivers.Drivers license that will not lower their lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 6/7/2021 | "I was surprised, but heartened, to find I wasn't the only person to find the headlights coming at me uncomfortably bright! I thought before reading the NYT piece that it was just me.Let's stop and reassess what we mean by "safety..." not being able to look where you're going at night surely doesn't fit the definition.."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 6/7/2021 | "Not only are extremely bright lights dangerous to the health of our population, but can cause a whole demographic of people to stop driving. For example, people with headaches and seizures are typically unable to drive due to the increasing bright lights that are being put into vehicles. The new Hyundai has 9 bright blue-white lights to "assist" people to see safer. We have road lights and if the area is too dark then we need more road lights. Today, while driving my child they had a seizure because of new brake lights on the vehicle in front of us that blinked in a strobe-like pattern depending on how hard the person was braking. These types of lights should be banned due to people being sensitive to light patterns and the intensity of lights. These types of bright lights and blinking should be only allocated for emergency vehicles." |
| 6/7/2021 | "These lights are absurdly bright and make it hard to see- an accident waiting to happen. I hate them so much!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 6/7/2021 | "Truck driver, and they're too bright"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 6/7/2021 | "I am being "Blinded by the Light" Courtesy Bruce Springsteen and Manfred Mann. And those strobing bicycle headlights are blinding and dangerous. These lamps/lights need to be regulated."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 6/7/2021 | "hard to see at night"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 6/7/2021 | "I shouldn't have to squint to drive."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 6/7/2021 | "having to use rear mirror damping but still get blinding light from side mirrors"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 6/7/2021 | "These lights are dangerous! I have had to adjust my driving many, many times, oftentimes pulling over to the berm, to get out of the glare of those vehicles wielding them."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 6/7/2021 | "I drive at night and completely agree that this is an overlooked danger which needs to be addressed."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 6/7/2021 | "I find the brightness and glare from the newer LED headlights on higher-riding vehicles like trucks and SUVs to be overwhelming, and even dangerous. It can often cause drivers like me, in a conventional sedan-type vehicle, to have to avert our eyes."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 6/7/2021 | "I am signing because this kind of new-fangled light has nearly blinded me on several occasions and NOW I cannot in good conscience drive at night. Fancy for you [whoever you are who owns these lights] deprives me of freedom! Maybe someone out there can make some kind of lens that really neutralizes or diffuses glare might be the answer. IF I am forced to buy new night-driving goggles, so be it."                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 6/7/2021 | "I drive a lot of 2 lane rural roads.It's terribly blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

|          |                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6/7/2021 | "I cannot drive on winding two-lane roads in Fairfax County, Virginia at night because on-coming vehicles blind me with their bright lights. Enough is enough. There are hundreds of highly paid automotive and lighting engineers who could resolve this issue if the government would mandate a solution."                                                                                                                     |
| 6/7/2021 | "These lights are a danger to all other drivers on the road. How selfish can you get? Ban them!"                                                                                                                                                                                                                                                                                                                                 |
| 6/7/2021 | "I have also been blinded by these after market high power LED lights."                                                                                                                                                                                                                                                                                                                                                          |
| 6/7/2021 | "I am very sensitive to light making night driving nearly impossible. The risk of facing these headlights is dangerous for some as the extreme brightness causes a light blindness, possibly causing an accident."                                                                                                                                                                                                               |
| 6/7/2021 | "The macho 50% of Americans are blinding and deafening the other 50%."                                                                                                                                                                                                                                                                                                                                                           |
| 6/6/2021 | "How did it get to this point?"                                                                                                                                                                                                                                                                                                                                                                                                  |
| 6/6/2021 | "I avoid driving at night because of these."                                                                                                                                                                                                                                                                                                                                                                                     |
| 6/6/2021 | "I hesitate to drive at night because of high-mounted bright lights behind me (I'm 70)"                                                                                                                                                                                                                                                                                                                                          |
| 6/6/2021 | "I'm tired of being blinded by LED lights. I am afraid of getting into an accident because of it."                                                                                                                                                                                                                                                                                                                               |
| 6/6/2021 | "Its dangerous to drive at night. I cannot see for the glare!!"                                                                                                                                                                                                                                                                                                                                                                  |
| 6/6/2021 | "omg, finally - thank you! this has to stop."                                                                                                                                                                                                                                                                                                                                                                                    |
| 6/6/2021 | "Being blinded by another driver's headlights and possibly causing a car crash is the result of an industry that values looks and buyer appeal over safety. Past time this issue was fixed."                                                                                                                                                                                                                                     |
| 6/6/2021 | "I am blinded by these blue-white headlights. I am 68 and it's making night driving harder. There was nothing wrong with the warm yellow-white headlights. Just drive the speed limit and you won't out run your vision. Regarding safety, having all cars run automatically run headlights while running, day and night, would help tremendously."                                                                              |
| 6/6/2021 | "Each year, in the past few, my discomfort increases with the rise of SUVs & led lights; this is also a safety issue for older drivers, and therefore for everyone!"                                                                                                                                                                                                                                                             |
| 6/6/2021 | "The glare from headlights at night is extremely painful, and I have no choice but to drive at night. It's ridiculous."                                                                                                                                                                                                                                                                                                          |
| 6/5/2021 | "The lights have an intense bright beam that hinders oncoming traffic from correctly viewing the road and hazards ahead of them. The intense bright headlights are a road hazard with a good potential of causing accidents"                                                                                                                                                                                                     |
| 6/5/2021 | "lights are waaayyy to bright!"                                                                                                                                                                                                                                                                                                                                                                                                  |
| 6/5/2021 | "Oncoming vehicles with these lights blind me. They are not safe to other drivers. When facing these light often times I have to turn my head away from the road and or hold my hand up to try and block the light. None of this is safe and could easily cause a accident. I don't state into the sun in the day time why would I want to stare at it in the night while I'm driving when it's harder for your eyes to adjust." |
| 6/5/2021 | "These too bright, badly adjusted lights are dangerous and I'm scared when I have to drive at night !!!"                                                                                                                                                                                                                                                                                                                         |
| 6/5/2021 | "I am rendered effectively blind for 3-5 seconds at a time by these headlights, and when driving on a two-lane highway at night, it is terrifying. It does not need to be this way."                                                                                                                                                                                                                                             |
| 6/5/2021 | "i have an SUV and cannot see when these pickup ups wit these type of lights come at me! I cannot imagine being in a car with these blinding lights coming at                                                                                                                                                                                                                                                                    |

|           |                                                                                                                                                                                                                                                                                                                                                                                           |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|           | me. We use to have laws against these types of high intensity lights on vehicles, enough already!"                                                                                                                                                                                                                                                                                        |
| 5/23/2021 | "This is one rare case where government regulation can prevent an arms race between drivers."                                                                                                                                                                                                                                                                                             |
| 5/21/2021 | "We've had the science on this for years: white LED lights reduce visibility at night. Whether they're on cars, streetlights or buildings they are a safety and ecological hazard that need to be addressed. With great brightness comes great responsibility, something that most people have failed to show."                                                                           |
| 5/16/2021 | "I have nearly been run off the road by these LED headlights. They are so bright the edge of the road can no longer be seen. These are DANGEROUS."                                                                                                                                                                                                                                        |
| 5/11/2021 | "I like to see"                                                                                                                                                                                                                                                                                                                                                                           |
| 5/11/2021 | "My eyes ducking hurt"                                                                                                                                                                                                                                                                                                                                                                    |
| 5/10/2021 | "They are blinding and if you cannot see good enough to have normal headlights you dont need a license."                                                                                                                                                                                                                                                                                  |
| 5/1/2021  | "It's amazing how something dangling from your rear view mirror is illegal and "distracting" but these lights that cause you to not see the road are fine. People have these on during the day and they are brighter than daylight. The same people that are "pro-mask" are the same people nearly killing people with these lights."                                                     |
| 4/23/2021 | "Mark Orlosky"                                                                                                                                                                                                                                                                                                                                                                            |
| 4/21/2021 | "UNBELIEVEABLE that these blinding lights are legal! I have to wear sunglasses when I drive at night because of these dangerous lights. Or I have to look away when I drive. Please Please Please ban these lights! I assume they cause eye damage as well!"                                                                                                                              |
| 4/21/2021 | "I believe what Neela is fighting for is right. Bright lights do cause health problems"                                                                                                                                                                                                                                                                                                   |
| 4/20/2021 | "Too much glare coming from the new car headlights I. It's as if drivers have their bights on 100 percent of the time. This can't be good for our eyes. Light glare is distracting!"                                                                                                                                                                                                      |
| 4/18/2021 | "Absolutely! Please get rid of these bright headlights. Especially within city limits, there's just no reason why cars should have such bright lights. Also, SUVs and higher vehicles should definitely not be allowed to have bright headlights on city roads."                                                                                                                          |
| 4/16/2021 | "Several bad experiences with this issue!"                                                                                                                                                                                                                                                                                                                                                |
| 4/10/2021 | "I hate those lights! Even when not on bright they are blinding, rather in front or behind."                                                                                                                                                                                                                                                                                              |
| 4/9/2021  | "I've almost wrecked a few times and I've had to come to a complete stop a couple of times. I cannot believe that these are even legal. I'm all for LEDs but some of these are way too bright. And installed wrong. I am so grateful I came across this petition. Thank you guys for all your support please keep sharing."                                                               |
| 4/9/2021  | "The people should have them right!"                                                                                                                                                                                                                                                                                                                                                      |
| 4/8/2021  | "I'm tired of being blinded at night, losing my night vision for several minutes each time. That's a lot of time to not see wildlife."                                                                                                                                                                                                                                                    |
| 3/24/2021 | "these headlights could cause a serious accident , should be banned"                                                                                                                                                                                                                                                                                                                      |
| 3/22/2021 | "The new suover vright headlights cause temporary blindness much in the sane manner that oldvcanera flash bulbs did. Nultiply this times 2, and veing obe's eyes are adjusted to nightine dark, the new super bright lights cause temporary blindness, nuch lije going into a movue thestger on a sunny day. Drivers in oncoming traffic becone temporarilary blinded.A SERIOUS PROBLEM." |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| 3/22/2021 | "I get blinded by headlights on those big-ass "petro-masculinity" trucks all the time. Getting really sick of it."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 3/17/2021 | "Because these headlights are a dangerous threat to night time traffic safety, destroy night vision, and cause eye damage"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 3/15/2021 | "I usually let them pass and get. Behind them turn .y brights see how they like it"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 3/15/2021 | "These lawless blinding lights have been getting worse by the week since around 2011 AND we have still yet to slow down the corrupt and greedy automobile industry from making these standard on most ALL new automobiles. You will never see me bow t acceptance of this safety hazard nor ever support the auto industry/dealers ever again!!! Stop this madness already.....ugh."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 3/11/2021 | "I've been ran off the road with these extra bright headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 3/10/2021 | "My tail lights are someof these, and I have been looking at smoking them with a film."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 3/4/2021  | "I got into five accidents because of so much LED lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 3/4/2021  | "I've not had an accident Yet, though have had Many close calls due to being blinded by another vehicle's headlights. Turning onto roads where a daylight car/s is coming is particularly dangerous as one is blinded when turning and as noted many times here by others, it takes a minute or two see clearly again. Even when sitting a light or stop, an SUV or truck with them blinds me from the Sideview mirrors, so I now wear sunglasses as night when driving. And ALWAYS drive with the review mirror in reflection position. I spoke with a couple of 18 wheeler truckers who won't put them on their trucks because they find them dangerous too, and they even get blinded by their fellow truckers. For the last 2yrs I've thought about writing AAA and the FHA to see what their accident stats are involving daylight headlights. And lastly, talking with a young Nissan engineer about 5yrs ago, he said regarding Why the change to daylight headlights, "If we can save a buck, we will." Manufacturers definitely need regulating and the" |
| 3/3/2021  | "These lights are blinding to oncoming traffic putting many people at risk of an early death. BAN THEM NOW!!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2/22/2021 | "So many times I've been blinded on the freeway and had to hold my hand up to cover my side mirror to see. Also, I feel like some cars always have their brights on."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 2/21/2021 | "Cant see a damn wink when someone with led headlights passes by"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/17/2021 | "I also find it dangerous because the blinding light blocks out other light coming from my rear view mirrors, making it impossible to clearly see other cars. This makes it very dangerous when changing lanes, or turning. It also takes my attention away as the brightness is painful and distracting."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 2/16/2021 | "I'm signing because way too many times I have had to slow down and almost stop in the road because the lights coming up behind me or in front of me and blinding me and I can't see the road."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2/16/2021 | "My husband is an over the road driver. He has been off work because the lights blind him at night and he is afraid of having an accident."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 2/16/2021 | "These new lights are horrible at night and actually hurt my eyes."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 2/16/2021 | "These are terrible. It makes it so hard for me to drive."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 2/15/2021 | "On far too many occasions I have been blinded by these lights. They are too dangerous!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| 2/15/2021 | "These lights are blinding and dangerous. I need to be on the road at night for work so I have no choice but to put up with them. I should not have to take my life into my hands every time I go to work because oncoming headlights are blinding me."                                                                           |
| 2/15/2021 | "Can't see at night with those bright headlights."                                                                                                                                                                                                                                                                                |
| 2/15/2021 | "They are making the road dangerous! I have had a lot of problems seeing the road due to these lights!"                                                                                                                                                                                                                           |
| 2/15/2021 | "I'm a truck driver and these headlights are too blinding."                                                                                                                                                                                                                                                                       |
| 2/15/2021 | "I agree. No rules and now became a competition who has the brighter."                                                                                                                                                                                                                                                            |
| 2/14/2021 | "LED makesroads more dangerous and retinas less responsive"                                                                                                                                                                                                                                                                       |
| 2/14/2021 | "I'm tired of being blinded and fearful of getting in an accident because of headlights being so bright."                                                                                                                                                                                                                         |
| 2/14/2021 | "I now have LED headlights, they are too bright. I have trouble seeing the road in the distance, it's like there is a line...because they have to aim down."                                                                                                                                                                      |
| 2/13/2021 | "Ironically an avoidable dangerous hazard."                                                                                                                                                                                                                                                                                       |
| 2/10/2021 | "It's getting to the point where I need to pull over until it's safe to continue driving. I also have a lot of trouble focusing and seeing on the road when they are behind me, forcing me to adjust my mirrors which is almost as dangerous as not doing so. Please make these headlights illegal for the safety of the people." |
| 2/9/2021  | "I can't see when driving"                                                                                                                                                                                                                                                                                                        |
| 2/7/2021  | "Lights should adjust when cars are in lighting levels areas."                                                                                                                                                                                                                                                                    |
| 1/31/2021 | "They're ridiculous, and flat out rude."                                                                                                                                                                                                                                                                                          |
| 1/30/2021 | "I'm a Truck Driver. I sometimes have a car beside me that I can't see because all I see is the LED lights on the car behind him. With LEDs coming towards me on a busy two-lane, I may not see the tail lights of the car in front of me."                                                                                       |
| 1/30/2021 | "It's very frightening, and very dangerous not being able to see on the road. Also, those bright lights can cause headaches constantly in the rearview and sideview mirrors."                                                                                                                                                     |

| 1/30/2021 | "I own a small trucking company and drive after dark. These headlights are dangerous to drivers. Cause blindness"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 1/29/2021 | "I've experienced this blinding phenomenon and I think it's important for standards to be set regarding hue and brightness in the interest of safety."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 1/27/2021 | "It's time the DOT and Congress intervene as they did in the late 80s or 90s regarding headlight brightness. About 6yrs ago, I asked a young Nissan engineer Why the new bright blinding headlights; his reply with a smirk, "If we can save a buck..." These daylight headlights are extremely Dangerous. I, as do other friends, now wear sunglasses when driving at night in the city or on interstates. I also now always have the rear view mirror in "reflective" position, though that does NOT help if a truck or SUV is behind nor does it block blinding light in side view mirrors. With our US population getting older, blinding older drivers is hazardous to them and other drivers, as is the case for inexperienced young drivers. I'm also told by friends that replacing these horrible headlamps is incredibly expensive on certain high-end cars. Congress needs to ask. I'll be writing Pete Buttigieg and President Biden." |
| 1/26/2021 | "Make the emphasis on the spectrum of light. That is what matters the most. Get rid of the blue lights,"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1/25/2021 | "I hate getting blinded by poorly aimed low beam lasers."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1/23/2021 | "horribly bright and blinding, so bad that in bad weather it makes it impossible to see"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1/22/2021 | "I have only been driving for 6 years now, and HID/LED headlights have made those years miserable as soon as the sun goes down. I can barely see at night thanks to everyone driving their own miniature suns around and searing my eyes."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/21/2021 | "At least start with trucks. They are in direct line of sight with opposing traffic"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 1/20/2021 | "I can't see"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 1/19/2021 | "I am a shift worker that has to drive at night. I regularly fear that I am going to get in an accident. These lights are dangerous and unnecessary."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 1/19/2021 | "I believe that some lights are far too bright and actually increase the risk of accidents happening"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 1/18/2021 | "Because I'm tired of not being able to see when I'm driving. I'm doing this because driving at night I am blinded by the bright lights. I'm signing this also because I have a new teenager who will be driving who is already complaining while sitting"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| 12/30/2021 | "I have had to quit my job as an Uber driver because I can no longer see when driving at night. This directly leads to bar patrons deciding to drive themselves because they don't have another option, which also adds to PEOPLE DYING."                                                                                                                                                                                                                                                                                                                                               |
| 12/29/2021 | "Headlights on new cars are a joke"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 12/28/2021 | "my astigmatism blurrns led headlights so they're the only thing i see"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 12/27/2021 | "I deliver for a living and these lights are so bright that I have to block them with my hands or pull over and let them pass me. Nobody needs lights and powerful under normal driving conditions."                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/24/2021 | "This has been an issue for me for years!! My eyes are sensitive, and I also suffer from severe migraines. Bless the person who started this petition, and you've got MY signature!"                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/23/2021 | "These lights are harmful and are going to cause many accidents!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 12/23/2021 | "not only is it harmful to myself and other human road users outside of said vehicle, it is also penetratingly damaging to living creatures, notably insects who are disoriented, and disrupted by the effects; this in the sixth great extinction, in a biodiversity crisis..."                                                                                                                                                                                                                                                                                                        |
| 12/23/2021 | "It's so bad that I get migraines any time I go out at night. It's just not reasonable to expect everyone with sensitive eyes to never drive after dark or in stormy weather. These lights are so bright and disorienting that it can lead to premature vision loss!"                                                                                                                                                                                                                                                                                                                   |
| 12/22/2021 | "I drive country roads often where conditions can be challenging without blinding bright white lights causing temporary blindness. A lot of the time road lines are faded or nonexistent in foggy, rain or other inclement conditions on windy roads these bright white lights. That have become the standard instead of a exception create a perfect storm for close call situations. I can handle old school standard halogen lights even with their brights, but these new led style lights make it impossible for ANYONE to see and we must not take away vision from our drivers." |
| 12/21/2021 | "It is so distracting and dangerous while driving and having these kinds of headlights blinding you! I have feared for my safety when I could barely even see the guide line to the right of my truck. Before these new LED lights became wide spread, that level of brightness was only used when your brights were on. There is zero reason for lights this bright esp when the majority of people drive in populated areas."                                                                                                                                                         |
| 12/21/2021 | "It's dangerous, when you're blinded by these lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| 12/18/2021 | "If this saves just one life it's worth it."                                                                                                                                                                                                                                                                                                       |
| 12/17/2021 | "Driving stately is utmost important and this change can help reduce the accidents"                                                                                                                                                                                                                                                                |
| 12/17/2021 | "it's highly dangerous"                                                                                                                                                                                                                                                                                                                            |
| 12/17/2021 | "Because these headlights are dangerous"                                                                                                                                                                                                                                                                                                           |
| 12/16/2021 | "These new bright headlights are dangerous and blinding to other drivers."                                                                                                                                                                                                                                                                         |
| 12/15/2021 | "Led lighting has its place but not for headlights or streetlights. The rays are harmful."                                                                                                                                                                                                                                                         |
| 12/14/2021 | "I'm tired of being blinded with these bright lights! It's painful!"                                                                                                                                                                                                                                                                               |
| 12/13/2021 | "I can't even see at night while driving anymore, and I'm only 25! With everything going online nowadays, were stuck staring at screens for hours. Sometimes against our will, with work from home! We can't afford to harm our eyes even further."                                                                                                |
| 12/13/2021 | "I can barely drive at night anymore. I'm afraid of an accident because I am constantly blinded by LED lights aimed into my vehicle"                                                                                                                                                                                                               |
| 12/13/2021 | "I hate these lights. They hurt my eyes and head so bad."                                                                                                                                                                                                                                                                                          |
| 12/12/2021 | "Deborah Kenney-Hood"                                                                                                                                                                                                                                                                                                                              |
| 12/11/2021 | "I have nearly died in the car because of blinding headlights. I've swerved off the road, I've been unable to see the road in front of me, I've missed bends in the road and I've nearly hit the car blinding me before."                                                                                                                          |
| 12/11/2021 | "I can no longer participate in society because of how sick I get from LEDs. Please join me and the many who's lives have been turned upside down by radiation emitting deathiodes in the fight to bring awareness to the deeply painful and life endangering consequences of the lack of regulation and accountability in the 'lighting' market." |
| 12/11/2021 | "I can't see at night with those blinding lights and it causes me to swerve and lose sight and once I gain my sight back another car comes with bright lights. It's ridiculous. It's dangerous. Something needs to be done. Stop fixing things that don't need to be changed and focus more on things like this!!!"                                |
| 12/10/2021 | "I am blinded by theseights"                                                                                                                                                                                                                                                                                                                       |
| 12/10/2021 | "Not only do these light make your side of the road not visible creating a safety hazard but if you're like me they give you an instant pounding headache. These headlights are a nuisance and should be banned."                                                                                                                                  |
| 12/9/2021  | "I can't drive safely with these brighter lights behind me and coming toward me"                                                                                                                                                                                                                                                                   |
| 12/8/2021  | "I hate excessive glare in eyes on night highways."                                                                                                                                                                                                                                                                                                |
| 12/8/2021  | "I suffer from chronic Migraine Migraine and night blindness. I have to drive to and from work on very dark roads with these headlights either coming at me or coming up from behind. On very narrow country roads, it's hard to look away and stay safe. It's even worse when it's on a work truck displaying two sets of these lights."          |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

|           | Something has to be done about these lights before anyone else dies, and I sure hope that someone isn't me."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 12/8/2021 | "The LED headlights on these new vehicles and semis blind me so I can't see ANYTHING. These ****ing things...I can't even tell if they are on low or high beam they're so bright. If I think someone's halogens are on high beam but they aren't and I flash them, and they flash me back...no big deal. But if that happens with LED headlights and they turn on their high beams in retaliation it's like being forced to look at someone welding without a helmet and my eyes hurt for hours after. Anything that damages your eyes and creates deadly conditions is not a headlight: it is a WEAPON. And that's just what these LED abominations are. And they need to be BANNED. To anyone who says "people who hate LED headlights need their eyes checked": if you need THAT much blinding light to drive at night, then you need YOUR eyes checked. And to everyone in the government who authorized this, take note. WE ARE COMING FOR YOU." |
| 12/8/2021 | "These lights are extremely blinding, and also a threat and trigger to my health condition."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 12/8/2021 | "I drive a lot at night & these new lights are so bright & blinding it's ridiculous how it's even being allowed! Take these lights off the streets so we can see!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/7/2021 | "They are dangerous and I have to avoid night driving."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 12/7/2021 | "These lights make it difficult to drive at night, are blinding, and induce migraines and other issues in many people."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 12/7/2021 | "These lights are dangerous! You cannot dim them, and they blind other drivers!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/6/2021 | "I can't drive at night, especially approaching any curves on the road, if these lights are coming at me I have to slow down completely till they are no longer pointed directly in my eyes"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 12/6/2021 | "Sick of it...it's already dangerous enough to drive at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 12/6/2021 | "Driving at night especially in rain and snow you cannot see when you approach a vehicle with led bright lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/6/2021 | "It's blinding"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 12/5/2021 | "I have a hard time gauging the distance or speed of an oncoming car with LED lights. Not only because of the way it looks but also they are often blinding. Whenever a large truck with LED headlights is behind me, the lights reflect off of my rearview mirror and are painfully blinding. This creates scary and unsafe situations for myself and others on the road. I can only imagine how awful this is for those with strong astigmatism and light sensitivities"                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 12/5/2021 | "I live in a dark sky city where outdoor lighting ordinances are enforced to preserve the night sky. This makes extremely bright headlights all the more dangerous in areas where there are no other light sources. I went out to run an errand around 7:00pm two nights ago and had to turn around and head back home after five minutes of driving due to the blinding lights of oncoming traffic which caused me to fear for my safety. Something needs to be done about this before serious accidents occur."                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 12/5/2021 | "I've almost been in several accidents involving 12 ft ditches because I'm blinded my trucks and SUVs with insanely bright led headlights. Headlights brighter than my high beams! Absolutely ridiculous this hasn't been handled already!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/4/2021 | "It makes driving dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| 12/4/2021  | "Driving at night has started giving me headaches. Earlier I used to wonder what's causing this but over the time I have realized it's the bright lights from oncoming traffic in the new cars. I don't feel this with the occasional cars having old halogen bulb yellow lights. There are many times that I had to look away to protect my eyes. I wonder how many other people are facing this"                                                                         |
| 12/4/2021  | "Naheed Azhar"                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/3/2021  | "I like to see some changes."                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/3/2021  | "I am hardly able to drive at night anymore due to the strong headlights and lack of consideration of others not attempting to turn down their overly bright lights. It has become dangerous for me to drive as I literally cannot see the road in front of me."                                                                                                                                                                                                           |

| 12/1/2021  | "These blinding lights are dangerous. I've been blinded by them on the highway driving home from work."                                                                                                                                                                                                                                                                                                                                                                    |
| 12/1/2021  | "These led lights blind me regularly. Not sure why they are legal."                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/1/2021  | "These lights are blindingly bright and so unnecessary in city driving. They make it hard for other drivers, to see what's going on."                                                                                                                                                                                                                                                                                                                                      |
| 12/1/2021  | "I was driving with my family the other day and the headlights blinded me and could have caused a serious accident"                                                                                                                                                                                                                                                                                                                                                        |
| 12/1/2021  | "I'm tired of being blinded!!"                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/1/2021  | "These are way to bright for cars ahead and behind..."                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 11/30/2021 | "I believe these lights are a hazard on the road"                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 11/30/2021 | "These lights are absolutely dangerous and I hope to god we can get a new law in place to save lives. I've dealt with these lights on two lane highways and it's not a nice feeling, you pretty much have to brake and wait cause you cannot see anything. Enough already, I know the whole inconsiderate jerk in a lifted truck is the life blood of the police force and it's supporters but at some point the public they supposedly serve must be taken into account." |
| 11/30/2021 | "These lights are a joke and should be banned."                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 11/30/2021 | "They are too bright! No need for it"                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 11/30/2021 | "I am tired of being blinded by these lights. I have to wear special glasses at night to drive and even then sometimes they are not enough."                                                                                                                                                                                                                                                                                                                               |
| 11/30/2021 | "I have stopped driving at night because I can not handle the bright lights. Every time I pass a vehicle that has these headlights I end up having trouble refocusing and arrive at home with the start of a migraine. There is no reason for lights to be this bright."                                                                                                                                                                                                   |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| 11/29/2021 | "I don't want to die so some entitled douchebag can follow spacecraft and pterodactyls at night!"                                                                                                                                                                                                                                                                                                                                                                                                |
| 11/28/2021 | "I have driven over 250,000 miles over the last 20 years. The recent change to bright lights on an increasing number of vehicles is not just an annoyance, but a serious safety hazard to other drivers. If the oncoming traffic has any vehicle with this new type of lights, I find that the light is quite blinding, and reduce severely my ability to see the road. Please do something about this before it is too late and we have too many vehicles on the road with this type of light!" |
| 11/28/2021 | "They have blinded me to the point that I've had to completely pull off the road and stop!! I no longer can enjoy evening rides with my grandchildren"                                                                                                                                                                                                                                                                                                                                           |
| 11/28/2021 | "It's hard to see when headlights like that are coming at me."                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 11/27/2021 | "Night driving has become a danger imposed on drivers by Detroit. Enough!"                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 11/27/2021 | "I CAN'T FUCKING SEE AT NIGHT"                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 11/27/2021 | "It's hard to drive at night, dangerous, and scary for me with my kids in the car"                                                                                                                                                                                                                                                                                                                                                                                                               |
| 11/25/2021 | "I've come close to hitting parked cars and pedestrians walking because of these headlights. Some lights are way too bright. And some people have 4 or even 6 of these headlights. BAN THEM!"                                                                                                                                                                                                                                                                                                    |
| 11/24/2021 | "Those Led lights are way to much blue light for those who were glasses. At some points at night we can't even see the road because of overly high Led lights blinding us from behind and oncoming traffic. More fatalities will come from these light source while on the road."                                                                                                                                                                                                                |
| 11/24/2021 | "The public would benefit from a serious inquiry into how these lights affect other road users, and regulation to ensure that manufacturers are not putting out products that are unnecessarily unsafe for others. Car manufacturers should be held to a high standard of safety for a community—not just the driver."                                                                                                                                                                           |
| 11/23/2021 | "The led headlights are getting out of hand!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 11/17/2021 | "I feelEndangered by these new lights!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 11/16/2021 | "I've been blinded by those dangerously bright LED headlights more than once. They're a menace on the road."                                                                                                                                                                                                                                                                                                                                                                                     |
| 11/16/2021 | "I've been snow blinded because of the LED lights won't melt the snow and from drivers coming head on. They look like high beams and it is blinding."                                                                                                                                                                                                                                                                                                                                            |
| 11/16/2021 | "Its needed."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 11/16/2021 | "I've been blinded!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 11/15/2021 | "You can't see at night for them blinding you"                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| 1/8/2021    | "These lights blind me because I can't look at them head on. I have to look or wear sunglasses. These are dangerous and cause so much time and distraction from driving."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 1/7/2021    | "We are past the ebay H1 in a civic days! It's 2021 and the latest and greatest culprits are: Any 2020+ Jeep with LEDs 2017-2018 Toyota Corolla 2019 Ford Explorer 2015+ Escalade 2019/2020 Subaru Forester 2019+ Honda Civic Also not all roads are level and here in Canada (ie - twinned highways) and we don't have self adjusting headlights. Recall all vehicles that have these lights!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 1/7/2021    | "i'm signing because i'm one of the many who struggle with exactly this problem."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 1/6/2021    | "I am about to do further research online, but it is already obvious to me that the headlights I am exposed to as a driver and as a pedestrian, in daylight and in darkness, hurt my eyes -- in the same way that a glance into the sun hurts one's eyes. And everyone to whom I have mentioned this problem has agreed that it hurts their eyes, too. Someone has to take action immediately, as the damaging lights are becoming more and more prevalent on the road, and it looks as if the NHTSA is the agency to whom the task of saving our eyesight must fall. It is interesting to hear that the excessively bright and blue headlights might be shown to be causing an increase in motor vehicle accidents -- I find that highly plausible, based on the lengths to which I have to go in order to protect my eyes while driving. And I am glad to hear that the American Medical Association has already taken a stance requesting that these damaging lights be banned. I also want to point out that the great benefit touted for LED lights -- r" |
| 1/6/2021    | "The LED lights are so blinding that I put my visor down and this compromises how much I can see in front of me. I get headaches from too much exposure to these lights. Building and street lights are also ridiculously bright."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 1/5/2021    | "This is a concern that doesn't only affect older drivers or people who may already be visually impaired. This is a concern for all people on the road."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 1/4/2021    | "These lights are incredibly blinding. I have stopped driving at night because of these horrid lights. And during the day, many are STILL blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1/4/2021    | "I can't see when driving at night. It's more dangerous because of these lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 1/4/2021    | "Please ban. This type of headlights is going to cause many accidents and deaths that are unnecessary."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 1/4/2021    | "I am deeply moved by this petition. I am not often an irate person and rarely feel that my options should be imposed to the masses but when it comes to the topic of headlight brightness I am incredibly passionate and have even considered                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

|            | starting petitions of my own. Thank you for creating this .... I feel very seen (but with the warm glow of a normal headlight not anything dangerously bright if you get my drift [which is what happens to my driving when I am blinded by an LED headlight])"                                                                                                                                                                                                                                                                                                                                                               |
| 1/2/2021   | "From one who suffers migraines, these lights often bring them on, I hate them always having to shift my windscreen mirror"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/31/2020 | "I'm so glad I found this, I've been saying how I don't understand how they are legal when they literally blind you, cause you to see spots, and distract from the road. They need to go"                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 12/27/2020 | "Anyone who suffers from even a slight stigmatism like I have had since I was 30 knows these LED are horribly dangerous. It's not just the lumens it's the blue light that is plain awful. People suggest you should just look away OMG how dumb is that!"                                                                                                                                                                                                                                                                                                                                                                    |
| 12/20/2020 | "For life !"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/20/2020 | "Posted it and have talked to other people who feel like we do."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/19/2020 | "I can't deal with being blinded day and night by these ridiculous lights. I'm glad you can see 1,000 miles ahead of you but it's horrible for the rest of us. It's gotten so bad that I have to move my side mirrors down because I can't deal with the constant, painful brightness in my eyes. This needs to stop. NOW."                                                                                                                                                                                                                                                                                                   |
| 12/18/2020 | "To hell with people who own these things. I vote we behead them publicly."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/18/2020 | "they are dangerous and annoying!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| 12/16/2020 | "The lights blind me terribly. I already have issues seeing halos around lights while driving at night and these lights are terrible."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/15/2020 | "I'm afraid I will hit a walking pedestrian one day, due to not being able to see from the blinding headlights of these others drivers."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/15/2020 | "I just watched a news story on how a car safety is pushing for companies to phase out halogens because LEDs are safer since you see farther; but nothing said about this issue."                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/13/2020 | "It has been my experience over the last few years that it's becoming very unpleasant to drive at night. More and more cars have blinding headlights. Most annoying situation which is becoming all too common: SUV or pickup truck behind me or just on the left lane super bright lights blind me through my side mirror. In that situation I have only one option: raise my hand to block the light, which means essentially that I cannot see what's happening on the side, unless I accelerate or slow down so that they pass me. Anyway we need to ban blinding headlights. They are increasing the risk of accidents." |
| 12/13/2020 | "Kenneth Howison"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/10/2020 | "I want to be able to see at night when passing cars"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/9/2020  | "These lights have caused me driving issues after dark on my narrow country roads and I can't believe these headlights haven't already been outlawed. No brainer, they are hazardous!"                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/9/2020  | "Night vision is hard enough for some but add these lights to the mix and they truly are dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 12/8/2020  | "Led lights are annoying"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

|            |                                                                                                                                                                                                                                                                                                                                              |

| 12/3/2020  | "Can't see cause this shit"                                                                                                                                                                                                                                                                                                                  |
| 12/3/2020  | "I hope..."                                                                                                                                                                                                                                                                                                                                  |
| 12/3/2020  | "I hate the blinding LED headlights! It is dangerous for other drivers who don't have them and annoying to be blinded by assholes who want to be boss of the road!"                                                                                                                                                                          |
| 12/2/2020  | "I'm signing because I care about the well-being of the people."                                                                                                                                                                                                                                                                             |
| 12/2/2020  | "Return to normality! The bad light kills!"                                                                                                                                                                                                                                                                                                  |
| 12/1/2020  | "I'm tired of being blinded by o. Coming g vehicles with bright lights."                                                                                                                                                                                                                                                                     |
| 12/1/2020  | "These lights are only beneficial to the person/person's driving the car in which they are installed but putting other drivers in harm's way"                                                                                                                                                                                                |
| 12/1/2020  | "This shit gives me headaches and as the bright lights get closer, my eyes can barely see the lines and what is ahead of me. And I have perfect eyesight, imagine what it's like for someone with out perfect eyesight to see, other than blinding ass headlights, that of which are sometimes worse that other vehicles bright headlights." |
| 11/30/2020 | "LED MUST be banned !!!"                                                                                                                                                                                                                                                                                                                     |
| 11/30/2020 | "Blinded by the light..."                                                                                                                                                                                                                                                                                                                    |
| 11/30/2020 | "Driving at night is difficult for me as is, without that blankety, blankety headlight glare....."                                                                                                                                                                                                                                           |
| 11/28/2020 | "My wife and have almost crashed multiple times cause of people with led bulbs."                                                                                                                                                                                                                                                             |
| 11/27/2020 | "I agree that headlights have definitely gotten to an unsafe level of brightness over the years. More is not better when it comes to proper headlights."                                                                                                                                                                                     |
| 11/25/2020 | "That shits too bright"                                                                                                                                                                                                                                                                                                                      |
| 11/24/2020 | "These lights are dangerous!"                                                                                                                                                                                                                                                                                                                |
| 11/23/2020 | "My mother was killed by flash blindness while driving."                                                                                                                                                                                                                                                                                     |
| 11/23/2020 | "LED lights are DANGEROUS! I've lost count of the number of times I've been totally and completely blinded by them and couldn't see where I was going but had to keep moving forward at the speed limit anyway because slowing down would have caused me to be rear ended."                                                                  |
| 11/21/2020 | "These are going to cause a while bunch of accidents. But then why should I bother signing, it's just another tally for the government to add to population control."                                                                                                                                                                        |
| 11/20/2020 | "They are so blinding in front of you and behind you . It's equal to hanging your brights on. What's the difference ? None !"                                                                                                                                                                                                                |
| 11/20/2020 | "I feel it affects all and it can cause accident"                                                                                                                                                                                                                                                                                            |
| 11/20/2020 | "These lights are too bright and blind on coming driver's"                                                                                                                                                                                                                                                                                   |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| 11/19/2020 | "Dangerous in the extreme!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 11/14/2020 | "These LED headlights are completely blinding and dangerous on the road!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 11/14/2020 | "These lights are a hazard. Causing temporary blindness of other drivers and countless other problems that a light that bright presents"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 11/11/2020 | "These style lamps are far to bright and cause momentary night blindness. They are just dangerous to oncoming traffic. Plus they are bright enough to blind you to obstacles such as narrowing verges and pedestrians on country roads at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 11/10/2020 | "I'm signing because I'm tired of being dangerously blinded while driving. I'm for safety but safety for ALL drivers not just THE driver."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 10/30/2020 | "As a professional class a cdl driver with over 30 years experience I'm surprised these blinding headlights are legal i am blinded consistantly at night to the point of almost crashing on certain sections of interstate and highway. Also so bright my eyes take time too recover these lights are gonna cause fatal accidents guaranteed"                                                                                                                                                                                                                                                                                                                                                                                                         |
| 10/29/2020 | "Super super dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 10/29/2020 | "SHOULD BE ILLEGALABSOLUTELY BLINDING"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 10/29/2020 | "These are so bad for our vision & they are blinding at times, esp for those with less than perfect vision. Some do it just to annoy people (turn them on before its dark) while other cars turn them on automatically. Im sure they cause accidents, its like the blaring sun & at the LEAST are a huge safety hazard. Weve all had the regular lights, should stay that way"                                                                                                                                                                                                                                                                                                                                                                        |
| 10/27/2020 | "I wasn't aware of this blaring problem until my shift changed and I leave my house by 4:30AM. Now that I drive through the dark every morning I am regularly blinded by cars. This is especially bad on curvy and hilly side roads. I thought some people were just driving with their brights on so I flased mine at them only to be assailed with their brights.It is so bad that I have to keep my sunglasses ready so I can put them on then take them off again so I can see without getting blinded. These do it yourself LED upgrade kits should be illegal, especially since they often beam straight ahead instead of aiming downward towards the road ahead of the vehicle. Trucks are especially egregious in this regard."               |
| 10/24/2020 | "I find it scary driving at night when I'm constantly being blinded by headlights that are way more bright than they ever needed to be"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 10/22/2020 | "- YESTERDAY- THIS HAPPENED TO ME BECAUSE I COULD NOT SEE - Driving to a new workplace before daylight in a drizzling rain, no street lights, no visible road markings, tons of glare from oncoming hyper-headlights multiplied by the reflections on wet pavement made my visual acuity so poor that I turned into the near lanes of a divided highway... had to drive a half mile against traffic (thankfully sparse) before I found a paved crossover. This is not my first incident with hyper-bright LED blindness, just the latest. Even under ideal conditions I often can't see turn signals next to the hyper-headlights. I don't dare flash high-beams at a hyper-brights coming at me for fear that might be their low-beams blinding me." |
| 10/21/2020 | "Bright LED lights are dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 10/17/2020 | "Those lights get me dizzy and I was close to crashing and fainting"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 10/16/2020 | "Super bright headlights are dangerous. There's no need for headlights that bright in a city or around other drivers. We have separate brights for a reason. Install them as your brights so you can have a lot of light when it's actually necessary without blinding other drivers."                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| 10/15/2020 | "LED headlights are blinding! Let's get rid of a totally needless danger on our roads."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 10/14/2020 | "I'm signing because on a daily basis, I am unable to use my side view mirror to check lanes when driving to work due to these lights. When the interior of your car looks brighter than noontime sunlight at 5:30 in the morning, it's dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 10/14/2020 | "the lights today are sooo bright they hurt my eyes and often trigger headaches and migraines"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 10/12/2020 | "I hate not being able to see well when driving and these lights make night driving terrible especially when it's a new suv or truck that accidentally turned on their high beams on top of their annoying led lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 10/8/2020  | "Because when confronted with these lights, I am temporarily blinded. Not safe."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 10/7/2020  | "This extreme intensity of brightness can't possibly be necessary for the vast majority of driving situations. But this intensity and glare is dangerously blinding for oncoming drivers. Combine this with the huge popularity of SUVs and crossovers and these extremely bright lights seem to hit directly on eye level for drivers who are in passenger vehicles that sit lower to the ground. If the new, blinding lights are intended to be trained at the roadway, that's not what's happening. It's very stressful - even for a very experienced driver in a familiar area - to simultaneously avoid the oncoming car, parked cars along the road - and, especially pedestrians and cyclists. This seems to be part of a virtual arms race - much louder horns, much brighter lights. And the drivers behind these lights don't seem to realize the danger they are causing - including to the themselves. I don't know what else to do other than slow down - and flash my brights briefly at a distance to try and let the oncoming driver" |
| 10/2/2020  | "Because they are dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 10/2/2020  | "2018+ Toyota Corollas are still the worst here in Canada. All new higher trucks, and even Acura SUVs with their new LED units too. What I won't stand for are the new Jeeps with their LED lights in the driving lights and fog lights. It's the most a-hole selfish thing I've seen. Worst than older civics with ebay bulbs."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 9/28/2020  | "They are too bright and blinding. When they reflect on rear view and side mirrors they are also a nuisance."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 9/21/2020  | "Your improved vision is not justified at the expense of others on the road. Use normal headlights or don't drive."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 9/18/2020  | "I've been blinded 1 to many times."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 9/16/2020  | "I have severe light blindness"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 9/12/2020  | "I feel extremely unsafe driving with LED lights flashing in my direction. It makes it incredibly difficult and painful to drive with those lights directly in my eyes"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 9/7/2020   | "I've almost been run off the road when cars with these bright blue lights come from the other direction. The glare seems to negate any potential safety benefit to the driver of the car with the offending lights. We have high beams that can be toggled on/off for a reason! The blue also scatters more, causing light pollution and potentially making it harder to see in fog or snow."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| 8/27/2020 | "I have almost ran off the road several times due to idiots failing to dim these lights. I hate meeting a car using HID. I took the HID headlights out of my housing as a courtesy to other road patrons."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 8/26/2020 | "Excessively bright headlights have repeatedly made it to where I couldn't properly see while driving at night, causing me to nearly run a stop sign one time and nearly hit a pole on another. Ban these pointless safety hazards! No one needs them!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 8/22/2020 | "I have had to pull off the road when these are behind me - blinding and dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 8/22/2020 | "These lights are blinding! I already have trouble seeing at night and these make it worse. It's gotten to the point that if I don't know exactly where I'm going, I can drive at night because of these lights! And I'm only 50!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 8/21/2020 | "I find driving st night challenging when oncoming vehicles have high intense white LED lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 8/21/2020 | "I dislike large 4WDs behind me blazing these ridiculous lights in my mirrors. They don't focus well on the road, but rather spread light in all directions."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 8/18/2020 | "I've been ran off roads numerals times from these bright lights. They prevent a normal ability to drive at night. But they include unshielded streetlights shining for blocks away into private residences. And.... spotlights on houses pointing up & off owners property. In turn, this prevents residents from being able to walk for exercise! Bright lights disrupt circadian rhythms of all living beings, even plants. It appears most citizens don't care or perhaps just ignorant to the damage in process to this planet. Not to mention taking away our right to see the beautiful night sky. It's no wonder so many children have no knowledge of science since the simple joy of viewing the Cosmos thru a telescope is non-existent in many cities & towns. We used to be able to drive to the countryside to see the night sky but with so many home owners duped into believing these bright LEDs are healthy, many have these lights with no shields or covers, sending billions of \$\$ wasted energy into the sky per NASA." |
| 7/30/2020 | "Sick of being blinded at night and am concerned about safety on the road"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 7/29/2020 | "I work third shift and I HATE these lights!!!! They give me Migraines."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 7/10/2020 | "I find myself often having to stop in the road because I cannot see where I'm going due to stupidly bright lights equipped on oncoming traffic. The simple view of regulating lighting by their wattage is no long accurate, those standard were set when filament bulbs were the normal. Compare the lumen output from a 35w filament bulb compared to a 35w LED. Also newer lighting has much much blue light spectrum which scatters and is harmful to health. I believe the colour temperature should also be controlled and limited to no more than 4700k"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 7/6/2020  | "I have to pull down a very dark filter to nearly completely block my view of the oncoming side of the road."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 7/1/2020  | "These lights increase the risks associated with driving and cause RTCs."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 6/22/2020 | "I am BLINDED by headlights when I drive at night. Those coming towards me, and those behind me. The LED lights that are a blue hue should be illegal. The yellow hue is much easier on the eyes. I don't often drive at night because of the extreme glare from headlights, especially those on new cars."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| 4/11/2020 | "I come very close to head on collision several times, I work driving a fuel transport in West Texas oilfields, on 2 lane no shoulder roads these way too bright lights people are changing to are extremely deadly... I've been blinded (temp) and regained sight to find I've drifted over the center line... traffic is horrible out here and you get a line of cars bumper to bumper alot in the mornings and it can be deadly out here... please ban these headlights and save lives!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 4/7/2020  | "I am having to stop driving at night because the car lights actually HURT my eyes...PAIN...in my eyes."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 4/5/2020  | "I hate these lights, they don't need to be so bright."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 3/30/2020 | "Why is it acceptable for people to be color blind but not acceptable to be blinded by brighter lights?Very Simple Request " TAKE A POLL" The poll I am getting is at least 40 % of the drivers don't like seeing these new headlight coming at them. Then why are GM Truck running light even brighter then the regular headlights?Why are jeeps interchangeable headlight low beam seam like they are full time high beams? Would it Kill our auto makers to TAKE A POLL to help protect the on coming drivers?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 3/29/2020 | "I have photophobia (which is quite common), and the blinding bright white headlights is very dangerous. It's not just the brightness, it's the colour temperature of the whiteness. Headlights are usually more a yellow tint, but these super white ones are dazzling and I've nearly crashed several times after being blinded by them."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 3/15/2020 | "I agree with this 100%."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 3/13/2020 | "I drive a medical transport at night. Constantly blinded from oem and aftermarket led lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 3/13/2020 | "America is a country with no discipline."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 3/13/2020 | "These LED headlights are a real nuisance and causing problems to eyes, they are blinding and even worse in suv's and 4x4's as they are higher up.. Nothing worse than a suv or 4x4 sitting close behind while driving and putting lots of pressure on as they blind you, it's even come to the stage where I've got out my car had a few words.."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 3/12/2020 | "I have been at the brink of fatal accidents because of blinding headlights it should be prohibited !!!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 3/12/2020 | "They ARE dangerous! I am literally driving blind when a car with HID or LED is in front or behind me. I have a panic attack every time I have to drive in the dark because I can't see where I'm going. Praying that I don't run off the road and kill myself or someone else. We've gotten by just fine with normal headlights!!! Not everyone can afford the headlights or a new fancy car with them already installed. So the driver with death ray headlights can see 5 miles up the road but I can't see a single thing, that just doesnt make sense. People in my hometown used to get tickets if they had the blue halogen lights, but now it's a norm. It's not a "safety feature" it's a freaking safety hazard because one person is putting multiple people in danger and it's getting ridiculous. When you drive at night your pupils naturally dilate. And then when you pass a blinding light that looks bright as the sun, it's painful! And then your pupils naturally try to contract and then you can't see whats in the dark anymore. It's si" |
| 3/12/2020 | "FIX FOR BLINDING LIGHTS HERE!!! PAY THE JERKS BACK! MAKE THEM SEE HOW YOU FEEL!!! I HAVE HAD IT BEING BLINDED. I bought a 14x14 mirror with a handle                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

|           | and a hole at the end, I first stabilized the mirror on the flat part behind the back seat with some masking tape, it holds but doesn't mess with that area , i threaded the string thru the hole of the mirror handle, then at the top of the back window i taped down a small U shaped piece of plastic to thread the string thru, then i looped the string thru the passenger above window handle, then thru my handle above my door, the string hangs down for me to reach, when a BLINDING vehicle gets behind me, i pull that string, the mirror goes up, and WAAAALLAAAA that driver is blinded by his OWN LIGHTS. They immediately go around me having no idea what hit them!!!! So, this fixes the rear. For the front i have a boat searchlight, i am careful to only blind someone at stoplights who are blinding me on the other side. I can use this on rear drivers as well, but the m" |
| 3/12/2020 | "Read my response just above you, i have a fix for these rude idiots. It really works, at least for the ones behind you. These Bad LED lights are not factory installed, people buy brand new trucks and change the lights right after. After begging lawmakers, i have taken this into my own hands. More people need to, then the blinding light drivers will start complaining, it will be hilarious. Paybacks."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| 3/8/2020  | "My wife had lasik eye surgery and has issues with bright lights star bursting. These insanely bright lights virtually blind her when cars are coming towards her or behind her. I also have mild light sensitivity and these lights blind me as well so I can only imagine. These lights create dangerous driving conditions for everyone including those who use them because they blind other drivers. Please save lives and everyone's eyes."                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 3/7/2020  | "I can't see the road or or a person should one come in front of me if a car with these lights are coming at me."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| 3/7/2020  | "these lights are to bright"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 3/6/2020  | "I think all these new supersonic headlights whether factory OEM on new cars and trucks or aftermarket bought from the auto parts store, are extremely annoying and down right dangerous, I get almost completely blinded by mostly every other car or truck coming at me with those LED or projector style LED's, takes awhile for my eyes to recover, these new headlamps can't be any good for anyone's eye sight as well, it's just ridiculous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 3/6/2020  | "This is definitely an issue for anybody. These LED headlights blind everyone and they aren't any more effective than the old fashion headlights but instead all they are good for is blinding other drivers. Banning these headlights should've been done long ago"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 3/5/2020  | "I have night blindness and these make it IMPOSSIBLE to see when coming either toward or in rear view 郎"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 3/2/2020  | "These lights are so blinding!! It's going to, if it hasn't already, cause accidents!! I get totally blinded and I'm mad about it!! How can they allow this? No different then me driving around with MY brights on!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| 3/2/2020  | "Finally some much need attention to this."                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 3/1/2020  | "I was driving on a back road one night and was being tailed by a car with blinding lights so had to point my rear view down. Suddenly another car approached with blinding lights and I could not see the edge of the road and wound up in a ditch requiring road service, wheel rim repair and a new tyre. It could have been much worse. These lights also give me mild headache like lasers and I believe they should be banned and all production ceased with full scientific and medical investigation done." |
| 3/1/2020  | "Unnecessary bright lights are dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 3/1/2020  | "These new headlights are so dangerous. Can we have the old ones back please. They don't help the driver and blind the people in oncoming cars."                                                                                                                                                                                                                                                                                                                                                                    |
| 3/1/2020  | "As a driver, I believe there a driving hazard. Extremely dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 3/1/2020  | "The lights are extremely distracting. Especially at night"                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 3/1/2020  | "Due to the brightness of these lights, it now takes longer for my eyes to adjust back to normal after having them blind me starting from quite a distance away. It's not only dangerous it's also very annoying!!"                                                                                                                                                                                                                                                                                                 |
| 3/1/2020  | "It so dangerous to the income driver"                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 3/1/2020  | "They blind the heck out of you while trying to drive"                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 3/1/2020  | "It's awful. I see them and it's a shock."                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2/29/2020 | "The Auto Club is wrong...drivers will never get "acclimated" to these headlights, but continue to be endangered by these blinding lights."                                                                                                                                                                                                                                                                                                                                                                         |
| 2/29/2020 | "I flipped my car over 4 days ago. Actually wnet airborne 15 feet in the air and landed upside down on account of being blinded by LED lights in oncoming traffic. Luckily no one else was involved, I was able to walk away with scratches, bumps and bruises. My car a total loss. Thankfully, it did it's job an kept me cocooned in safety bags. These led lights are disgusting, and so selfish. They need to be banned!"                                                                                      |
| 2/29/2020 | "Let's not lose lives for annoying headlamps plz I do dislike them too."                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| 2/27/2020 | "It is getting harder and harder to drive safely at night. In Nebraska, lots of people spend hours on the highway and I have almost been ran off the road meeting some of the vehicles with these lights. They also cause macular degeneration which is irreparable damage that causes blindness."                                                                                                                                                                                                                                                                                                                                                  |
| 2/26/2020 | "Modern headlights especially ACURA, Honda and Toyota are to bright. They cause you to temporarily be blinded."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 2/25/2020 | "I drive at night and these lights make it more difficult to see."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 2/25/2020 | "I'm a 63 yr. old full time driver who has come very close to hitting pedestrians due to being blinded by these super bright lights. I feel that many (immature) drivers use these lights as weapons, and get pleasure out of annoying others. I wanna do my part to help dial it back before more lives are destroyed."                                                                                                                                                                                                                                                                                                                            |
| 2/24/2020 | "I personally hate these headlights! They aren't any more effective than the old fashion soft white headlights and the only thing they are good for is blinding other drivers and putting people at risk for crashing. Especially in the rain."                                                                                                                                                                                                                                                                                                                                                                                                     |
| 2/23/2020 | "Long over due"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 2/23/2020 | "So glad there's a petition for this. Just within the past year or so this has become more noticeable and it's becoming a big problem. They are so overly bright even when I'm not looking directly at them it seems like there's a stadium light shining in my eyes. I have to use my hand to shield my eyes because the brightness is so harsh. I'm only in my 30's and wasn't expecting to have issues with driving at night for another at least another 20 years. It's not just a problem with car headlights either. Some street lamps in my area have been upgraded to LED and the glare from those hurts my eyes while driving too."        |
| 2/23/2020 | "The new headlights greatly impact my night vision and create a hazard for drivers even if high beams aren't used."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/23/2020 | "I can't tell you the number of times my vision got fucked because some guy went and installed bright ass LEDs on their headlights. Why these people aren't charged with reckless driving or whatever is outrageous. Most all of them don't even have the decency to get the lights calibrated to be tolerable on the road. It's worst than getting tailgated, because atleast with tailgating I can fucking see"                                                                                                                                                                                                                                   |
| 2/23/2020 | "I'm signing because I am constantly blinded by these headlights lately. These are dangerous. I have to choose between either being blinded when a driver with these lights is behind me, or seeing out of my mirrors because the only way to see is to adjust my mirrors so that they reflect the light away from me. But this means that I cannot see out of my mirrors! Not only are these lights blinding, but they are also extremely agitating and distracting. This is not only affecting seniors and those with vision impairments. I am 27 with pretty good vision and I am struggling to drive at night when these lights are behind me." |
| 2/22/2020 | "I experience this everyday."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 2/22/2020 | "Im being blinded to the point of danger."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2/22/2020 | "I am really offended by overly bright headlights. It's hard to believe they are legal, considering how dangerous they are. I have to shield my eyes and hope I'm seeing enough to continue."                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 2/22/2020 | "Please ban all blue-light technologies on vehicles and keep tail-lights, brake-lights and turn signals at a maximum brightness no greater than that allowed for traffic signals."                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| 2/21/2020 | <p>"They are so dangerous with the extreme contrast at night, between the headlights in front, behind, maybe add sides, you lose the grey areas...like pedestrians, cyclists, scooters, skateboards, motorcycles, kids, dogs; even other cars nearby in your rearview disappear on a multi-lane road. Add rain at night. Glare from the wet road reflecting these beams at now more angles really fully blinding most ppl, for maybe small amounts of time but that's all it takes for a person, dark winter coat, to step into a crosswalk. A lot of people don't feel safe driving, walking, cycling at night. I commute from city to suburb and it's harrowing most nights. They are migraine inducing as well. So how many ways do these things need to be a menace before they stop putting them in these cars? Who is responsible for accidents being caused by these poorly thought out and hazardous headlamps?!"</p> |

| 2/21/2020 | <p>"The headlights, taillights, LED signs are blinding and dangerous. First responder vehicle lights are exponentially more bright. Unnecessarily bright at night. I'm afraid it will cause more accidents as people must look away in order to preserve sight"</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 2/21/2020 | <p>"These headlights are so dangerous. Gotten to the point I can't even drive at night. They just totally blind you. People have survived with regular headlights for many years why do we need these things that are going to cause accidents?"</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2/21/2020 | <p>"I can not drive at night any longer because of the outrageously bright headlights! If I do, I usually get a bad headache and I am sick of it! Bright headlights are dangerous and uncalled for!"</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 2/20/2020 | <p>"I am an optometrist. LED headlights are causing problems for drivers of all ages. In my younger patients the LED lights cause them to over focus and their eyes suddenly act a lot more nearsighted, in older eyes blue light scatters more than any other wavelength of light. See my journal article for further info: &lt;a href="https://www.reviewofoptometry.com/article/seeing-blue-the-impact-of-excessive-blue-light-exposure" rel="nofollow"&gt;https://www.reviewofoptometry.com/article/seeing-blue-the-impact-of-excessive-blue-light-exposure&lt;/a&gt;"</p>                                                                                                                                                                                                                                                                                                                                                |
| 2/20/2020 | <p>"I'm angry my driving is being impaired by on coming cars with led lights. It must be banned"</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2/19/2020 | <p>"I have been close to blinded by these strong lights and almost went off the road many times. I'm starting to be anxious about driving at night and that is very limiting."</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

|           |                                                                                                                                                                                                                                                                                                                                                                                    |

| 2/19/2020 | "I am sick and tired of being blinded at night because of these ridiculous headlights. Not only are they annoying and glaring but they are dangerous to drivers. They need to be gotten rid of!"                                                                                                                                                                                   |
| 2/18/2020 | "I'm constantly being blinded by the LED"                                                                                                                                                                                                                                                                                                                                          |
| 2/18/2020 | "I have regularly been blinded while driving passengers at work. And in my own vehicle. They are dangerous no argument about this fact. The end."                                                                                                                                                                                                                                  |
| 2/18/2020 | "I'm tired of being blinded and I don't want to have an accident caused by said blinding. There are high beams and low beams for a reason... so you don't blind people driving on busy streets and cause accidents."                                                                                                                                                               |
| 2/18/2020 | "These lights are dangerous. They literally blind me."                                                                                                                                                                                                                                                                                                                             |
| 2/17/2020 | "I agree"                                                                                                                                                                                                                                                                                                                                                                          |
| 2/17/2020 | "These lights are terrible."                                                                                                                                                                                                                                                                                                                                                       |
| 2/17/2020 | "I'm one of thousands who no longer drives in the dark due to being blinded by modern car headlights on twisting country roads! I'm a confident and competent driver and feel I am sadly losing my freedom due to this common issue. Lorries lit up like Christmas displays are a danger too as many drivers are distracted from concentrating on the road by their fancy lights!" |
| 2/17/2020 | "I'm signing cause I CAN'T SEE with these things glaring into my car. Even if you reposition mirrors they are still blinding and a total distraction."                                                                                                                                                                                                                             |
| 2/16/2020 | "The headlight situation has become debilitating at times. If I get into an accident because of being blinded by the intensity of headlights, who is to blame? Will I be at fault? Will the car that's pulled up behind me and hauls A— after I crash, will they stick around so I can get their info??? Hardly!!!What are we to do??? HOW HAVE THESE BECOME LEGAL?????"           |
| 2/16/2020 | "If you buy a new car and don't remove the new blinding ones you are part of the problem."                                                                                                                                                                                                                                                                                         |
| 2/15/2020 | "Driving at night is becoming a dangerous ordeal. Cars headlights are too bright and i find i need dark glasses to dim the impossible non stop glare. Same foes for the red lights. It must be addressed."                                                                                                                                                                         |
| 2/15/2020 | "Nothing worse than blinding headlightsPlease ban the use of them"                                                                                                                                                                                                                                                                                                                 |
| 2/15/2020 | "These lights must be eliminated for the sake of public safety. The blinding brightness of these lights are typically as bad as high beams at night, only full time! Personally dealing with this at night on two lane country roads, is aggravating and so unsafe. It makes no sense for lights to be this bright, much less legal."                                              |
| 2/15/2020 | "I hate the white lights! So hard to see at night when they are coming at you!!"                                                                                                                                                                                                                                                                                                   |
| 2/15/2020 | "Gloria Donaldson"                                                                                                                                                                                                                                                                                                                                                                 |
| 2/14/2020 | "I have been blinded several times my these new headlights and don't understand how car manufacturers can possibly claim they are safe. Especially when they're on a truck!"                                                                                                                                                                                                       |
| 2/14/2020 | "I am tired of being blinded by those super bright lights."                                                                                                                                                                                                                                                                                                                        |
| 2/14/2020 | "I am easily blinded at night now."                                                                                                                                                                                                                                                                                                                                                |
| 2/14/2020 | "the old halogen headlights are the only things making our roads vibrant, headlights should only be at least 2700k or lower thank you"                                                                                                                                                                                                                                             |
| 2/14/2020 | "I have astigmatism. I have to actively close my eyes any time someone has these."                                                                                                                                                                                                                                                                                                 |
| 2/14/2020 | "These headlights blind me at night, and trigger some truly horrible headaches as well.... that's not safe on the road, night driving is hard enough to begin with."                                                                                                                                                                                                               |
| 2/14/2020 | "It's hard enough to drive at night and then to be blinded by theses lights."                                                                                                                                                                                                                                                                                                      |

| 2/13/2020 | "How the use of these blinding lights on motor vehicles on U. S. roads was ever allowed in the first place is a huge miss / failure on the part of the government agencies meant to protect us. Their increasing use on tractor trailers cabs - where the headlights are higher and therefore more blinding - make this issue even more urgent. And as an avid walker as well as driver, I have to cover or shield my eyes from oncoming traffic at night because of the insane intensity of these new lights. Let's please roll back this technological advance to some kind of sane permitted national standard that doesn't offend / disable oncoming drivers and other users of our roads." |
| 2/13/2020 | "This is truly a real problem!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/13/2020 | "Bright LED lights are blinding for me and give me terrible headaches, which have made it nearly impossible for me to drive at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2/13/2020 | "Blinding lights are dangerous and cause accidents everyday."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2/12/2020 | "Yes, I almost hit a cyclist (riding with no lights) last night because I was blinded for a few seconds."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 2/12/2020 | "I try to avoid driving at night these days - they are blinding and so dangerous. Surely the people who design them must be aware when they are driving themselves. Yes, it's impossible to tell if they are on beam or dipped. Even when dipped they are more blinding than the older lights are on full beam."                                                                                                                                                                                                                                                                                                                                                                                |
| 2/12/2020 | "And traffic lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 2/12/2020 | "I agree, although I never had/have a problem seeing with my old style lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/12/2020 | "Yes, I almost hit a cyclist (riding with no lights) last night because I was blinded for a few moments by oncoming traffic with those awful lights. Honestly, sometimes they literally make my eyes feel like they are burning."                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 2/12/2020 | "These lights even on dipped are much worse than old style lights ever were on full beam!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 2/12/2020 | "I have Lupus. Anytime I come across these headlights.. I AM BLINDED! My life and those around me are in danger. Whoever came up with these needs slapped!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 2/12/2020 | "I agree with this the facts in this petition. These type of headlights are very dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 2/12/2020 | "The lights could at least be properly aimed. I flashed my lights once and the oncoming vehicle really blinded me when they hit their brights !"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 2/12/2020 | "Please join our new Facebook group to further discuss news and research about the dangers of HID and LED headlights. I am happy to see how many people have signed this petition and I hope we can continue to collaborate to get headlights regulated appropriately. The group is called "Are LED Headlights Dangerous?""                                                                                                                                                                                                                                                                                                                                                                     |
| 2/11/2020 | "Carol Fairchild"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 2/11/2020 | "The new lights are blinding and distracting. They make driving by more difficult and have made greater the possibility of driving accidents and fatalities. Please outlaw these!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2/11/2020 | "These lights are extremely dangerous and blinding to other drivers at night and during the day. There is no good reason or applicable safety reason to allow these lights on vehicles. Please listen to the data and to the AMA and ban LED lights on all motor vehicles."                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 2/11/2020 | "Those lights are horrible."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| 2/11/2020 | "They cause me to not be able to see for several seconds after one of these vehicles passing by me at night."                                                                                                                                                                                                                                                                                                                                                                   |
| 2/10/2020 | "I have spoken with several individuals of all ages who complain about the brightness causing distortion. It doesn't matter your age. They are a hazard to driving"                                                                                                                                                                                                                                                                                                             |
| 2/10/2020 | "I am struggling to drive at night. I find it hard to tell if someones high beams are on or not. I hate the new led lights. They are just too bright"                                                                                                                                                                                                                                                                                                                           |
| 2/10/2020 | "It's truly a Hazzard.. especially in our small towns.. you hget blinded"                                                                                                                                                                                                                                                                                                                                                                                                       |
| 2/9/2020  | "Incandescent bulbs are safe and have proven to be safe for many years LED bulbs blind incoming traffic and blind from behind perhaps the driver with the LED bulb can see better but the people around them have to have their eyes hurt as a consequence I could see these causing many accidents."                                                                                                                                                                           |
| 2/9/2020  | "Not just LED headlights, but also LED streetlights!"                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 2/9/2020  | "too damn bright for us older drivers. We're already at a disadvantage."                                                                                                                                                                                                                                                                                                                                                                                                        |
| 2/8/2020  | "These lights BLIND ME"                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 2/6/2020  | "I signed because they are blinding and lately drivers are in such a hurry that they will sit with these blinding white leds on behind you till you speed up way past the speed limit and 5 miles over limit that cops allow"                                                                                                                                                                                                                                                   |
| 2/6/2020  | "I agree with the potintioner 100% we are being blind by the bright LEDs when obeying the law."                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/6/2020  | "These LED headlights are blinding oncoming traffic. They are brighter than most high beams and people will be blinded and run off the road and be killed."                                                                                                                                                                                                                                                                                                                     |
| 2/5/2020  | "These lights may make the 1 person driving the vehicle with them installed feel more safe but the other 50 or more cars that they drive past (oncoming) are blinded! I can't count how many times i haven't been able to see or had to squint or even close my eyes because the brightness is so intense. Or when they are behind me, the whole cab of the truck lights up and every side mirror and rear-view mirror makes it even worse, the lights hit me from everywhere!" |
| 2/4/2020  | "I have to drive every night in the dark and it's awful if it's a truck with these lights behind my car because then I definitely can't see! These lights are horrible and should never have been allowed to be installed. Now Sylvania has a commercial talking about how great they are and it makes me want to scream"                                                                                                                                                       |
| 2/4/2020  | "These lights are a hazard."                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 2/4/2020  | "I drive to work each morning around 6:15am when it is still dark out. Most mornings my view is obstructed or impeded by someone approaching me or following me with those dangerous LED headlights and it is especially dangerous in wet weather conditions when the lights reflect off of the wet pavement."                                                                                                                                                                  |
| 2/4/2020  | "My brother is suffering with this problem and many others I know"                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2/4/2020  | "I can only see spots after that BMW blinded me."                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 2/4/2020  | "Carolyn Barnes"                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 2/3/2020  | "I'm blinded every night coming home from work. People need to at the very least limit their use of the "high beam""                                                                                                                                                                                                                                                                                                                                                            |
| 2/2/2020  | "If you need headlights that bright to see to drive, you don't need a driver's license."                                                                                                                                                                                                                                                                                                                                                                                        |
| 1/31/2020 | "Headlights are extremely blinding!!!!!! Please do something!!!"                                                                                                                                                                                                                                                                                                                                                                                                                |

| 1/30/2020 | "Night time is a difficult time for me to drive at Baseline. When those bright bright lights are coming at me I am blinded. When the lights are behind me I am distracted as I use my left hand to cover my driver's side mirror"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 1/30/2020 | "Slowly but surely I'm feeling forced to drastically reduce and/or completely stop my night driving because of these ridiculously dangerous headlights. Maybe some night the only vehicles on the road will be those using these type headlights & they can just blind each other!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 1/29/2020 | "HID & LED should be banned off our roads. A lot of the headlights on the vehicles are not properly installed and shouldn't be over a certain amount of lumen in the lights of a vehicle. I would compare some vehicles like a Christmas tree, so much that they have up to 2 HID/LED headlights one above the other on each side and not to mention that they also have an LED string around them for decoration. These are just blinding for others. If they were low mounted like the Fog lights, it wouldn't be such an issue but unfortunately we literally have to turn our heads away from the road when passing by. It's like when you look up to the sun for a second and then try to refocus... we are clearly blinded. Nowadays, trucks, buses and pickups has them and they're all at the face level because of the height. Not to mention that when they follow you, the inside of your car is completely lighted up. They should be a law to make sure that the lights on each vehicle are properly installed and only by its manufacturer. The beam" |
| 1/29/2020 | "It's important to save lives"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| 1/29/2020 | "These lights are so dangerous. I can't even make out the road because I just see bright lights. I try to avoid driving at night because of this. It's Terrible"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 1/29/2020 | "This is a preventable, dangerous situation."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 1/29/2020 | "These lights are accident prone. Blinding and should be illegal."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 1/29/2020 | "These headlights are very dangerous to motorists whether they are coming at you or behind you you literally can't see! At night is the worst time!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 1/29/2020 | "It's dangerous and blinding, it's worse than high beams !!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 1/29/2020 | "I agree. Dangerous to all. Trucks with these lights are blinding. Lights do not have to be this bright for adequate sight. Adding fog lights to cars can help without blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 1/29/2020 | "I shouldn't be blinded by a car's headlights when they are 30 yards behind me in another lane."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 1/29/2020 | "I agree light are to bright especially LED light some times i have to slow right down to 10mph from like 50mph"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 1/28/2020 | "Agreed, when they keep all of their outside car lights on it's blinding even looking the opposite direction because they reflect off of everything"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 1/28/2020 | "LED headlights are the WORST! They blind everyone on the road and are extremely dangerous in snow and rain!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 1/28/2020 | "As a car travel down the road and the light beam moves with the road the increasingly brighter lights get more and more dangerous as the beam passes over the driver. I've noticed it with many newer cars a half mile or more down the road and the light are blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1/27/2020 | "Newer vehicles have lights around the headlights, the running lights are bright white, is there no regulation or restrictions on how bright they can be as long as there technically"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| 1/26/2020 | "I am signing because the glare of these lights at night make it impossible to see pedestrians crossing the street."                                                                                                                                                                                                                                                                                                                                                        |
| 1/26/2020 | "It needs addressing"                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 1/26/2020 | "Overly bright vehicle lights cause me eye pain and headaches. We need a national standard for head lights and tail lights in the subject of brightness."                                                                                                                                                                                                                                                                                                                   |
| 1/26/2020 | "I'm professional truck driver and the lighting systems that are being used in newer model vehicles and commercial trucks also have in many occasions caused me to have to brighten my headlights in order for me to be able to see the road that I'm traveling on. That's because the glare cause by these types of headlights on my windshield is blinding me, specially at times when it's raining (at night) or after it finishes raining and the roads are still wet." |
| 1/25/2020 | "I don't see well at night and brights coming toward me is hazardous."                                                                                                                                                                                                                                                                                                                                                                                                      |
| 1/25/2020 | "Zondra Clunn"                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 1/25/2020 | "I hate led head lights they blind me from being able to see the road"                                                                                                                                                                                                                                                                                                                                                                                                      |
| 1/25/2020 | "These headlites should have never been allowed on vehicles!!!"                                                                                                                                                                                                                                                                                                                                                                                                             |
| 1/25/2020 | "When bright LED lights coming towards you are the only lights you can see at night in the country, you basically go blind."                                                                                                                                                                                                                                                                                                                                                |
| 1/24/2020 | "Way too bright! Dim them down. Blind me when they are driving in back of me or when in front. Scary."                                                                                                                                                                                                                                                                                                                                                                      |
| 1/23/2020 | "I'm signing because I live out in the middle of nowhere with no other lights on the road, and I know I am not able to see anything else when I see these headlights come at me."                                                                                                                                                                                                                                                                                           |

| 1/22/2020 | "I've gotten pulled over because I was swaying on road because idiot behind me was blinding me, which was a cop. He asked why I was driving in such a manor and I explained why and I was let go. It does distract drivers and blinds us."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 1/20/2020 | "Light pollution is a big problem and car headlights are getting brighter every year. It's hard to see where you are going when they pass you."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 1/20/2020 | "I can't drive at night now because of them."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 1/20/2020 | "The vehicle that finally pissed me off enough to join this fight was a newer ford pickup. F-250 i think. Not only are the headlights ridiculous but the front is covered with about 100 smaller LEDs , The smaller ones apparently just for decoration. It was also lifted quite high making it clearly in violation. The lifts are often factory                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

|           |                                                                                                                                                                                                                                                                                                                                                 |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|           | these days. My point is this vehicle was factory equipment. Time for us to go after the manufacturers as well."                                                                                                                                                                                                                                 |
| 1/20/2020 | "These high intensity life lesson lights make night driving more dangerous. My eyes are temporarily blinded by their brightness when b I drive at night."                                                                                                                                                                                       |
| 1/20/2020 | "Please remember that a MAJORITY of our population consists of folks over age 55 who are beginning to need cataract surgery and/or may be experiencing macular degeneration. Let's keep everyone's eyes HEALTHY by banning LED lights in/on motor vehicles. It may even save the eyes of millennials!"                                          |
| 1/19/2020 | "They blind you"                                                                                                                                                                                                                                                                                                                                |
| 1/19/2020 | "These led lights are a true hazard! They make it really hard to focus once blinded by them on the road and can be dangerous"                                                                                                                                                                                                                   |
| 1/17/2020 | "I hate bright headlights blinding me"                                                                                                                                                                                                                                                                                                          |
| 1/17/2020 | "I'm tired of being blinded by these obnoxious lights. They are a danger to everyone on the road."                                                                                                                                                                                                                                              |
| 1/16/2020 | "I agree!"                                                                                                                                                                                                                                                                                                                                      |
| 1/16/2020 | "The lights blind me so much that I cannot see well while driving. I am scared it will cause me to get into an accident!!!! Ban them please!!!!!!!!!!!"                                                                                                                                                                                         |
| 1/15/2020 | "These headlights are blinding and should be banned!"                                                                                                                                                                                                                                                                                           |

| 1/4/2020 | "I won't even drive at night anymore because of these lights!!"                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/3/2020 | "street and auto LED lights are way too bright."                                                                                                                                                                                                                                                                                                                                                                                                        |
| 1/3/2020 | "because I have a hard enough time seeing at night with out them darn things in my eyes"                                                                                                                                                                                                                                                                                                                                                                |
| 1/3/2020 | "I have a small car, and can't seem to drive anywhere at night without a taller car or tuck with ridiculously bright lights practically blinding me."                                                                                                                                                                                                                                                                                                   |
| 1/3/2020 | "Led head lights blind both drivers and passengers in both oncoming traffic as well as traffic that drives behind your vehicle that bounces off of both sideview and rearview mirrors."                                                                                                                                                                                                                                                                 |
| 1/2/2020 | "The lights blind me"                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 1/2/2020 | "LED lights are known to cause injury to the photo receptors of the eyes! No government, industry or otherwise has the right to expose us to a product that causes injury. No excuse or explanation is acceptable to justify risking our eyesight! This is an outrageous agenda with companies such as Regeneron waiting to offer a solution after many people develop eye problems from this kind of light exposure. This agenda needs to be stopped!" |
| 1/2/2020 | "These lights blind so many people at night when driving. They even blind the passengers as well."                                                                                                                                                                                                                                                                                                                                                      |
| 1/2/2020 | "I hate theses things we don't need to see bugs having sex!!"                                                                                                                                                                                                                                                                                                                                                                                           |
| 1/2/2020 | "These headlights are blinding and dangerous to on-coming drivers. Who ever thought mega-bright lights that could be seen from space was a good idea?"                                                                                                                                                                                                                                                                                                  |
| 1/2/2020 | "I am so tired of having to pitch my sideview mirrors off the road because of these solar flares burning a hole in my peripheral vision."                                                                                                                                                                                                                                                                                                               |
| 1/1/2020 | "It is becoming increasingly difficult to drive at night, thus it affects my freedom. In what universe is it safe to blind a driver in a car that is coming toward you. Additionally, owners of these cars need to address the issue and have some empathy for those of us being blinded by their lights."                                                                                                                                              |
| 1/1/2020 | "Becoming dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| 12/29/2019 | "These lights cause blind spots and more accidents are occurring"                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/28/2019 | "Like many others I am blinded by on coming vehicles with LED headlights, and I find it impossible to drive with those headlights behind me. Please ban these headlights for the safety of all on the road."                                                                                                                                                                                                                                                                                             |
| 12/27/2019 | "These lights are awful!! I'm sure they've caused wrecks"                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/27/2019 | "Not only are lights getting brighter but drivers are driving permanently at night on full beam until blinded back"                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/27/2019 | "Don't blind oncoming traffic!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 12/26/2019 | "It's dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/26/2019 | "Halogen headlights are going to kill somebody, someday."                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/26/2019 | "Pretty much anytime I am driving and a car that has these halogen light pulls up behind me I'm blind and unable to see the road or anything inside my car. They need to be illegal."                                                                                                                                                                                                                                                                                                                    |
| 12/25/2019 | "Technology at times can be the enemy. LED lights not only blind you as the driver, but for me, give a massive migraine headache as well. You can't even use the rear view mirror to darken at lights at night time as the lights are so bright, it does not work. I have to pull over and let them pass so that I can see."                                                                                                                                                                             |
| 12/25/2019 | "Technology is becoming the enemy. LED lights not only blind the driver, but also give me a massive migraine. The rear view mirror cannot even help darken the lights of the driver behind you, I have to pull over and let them pass in order to see. It is impossible to see deer crossing the road with the lights blinding you."                                                                                                                                                                     |
| 12/25/2019 | "Literally blinds me every time I'm on the road and when I see these bulbs. Not to mention the owners are usually pretty aggressive knowing that they have weaponized their car's headlights against all other drivers since even without brights on, the lights are blinding. I was once flashed by an aggressive driver who owned either HID lights or LED's and I legitimately lost vision while I was trying to operate my car because some cretin let his ego overpower his reasoning on the road." |
| 12/22/2019 | "Those lights are ridiculous and deadly!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/22/2019 | "The lights are too bright and the emergency vehicle's are even worse"                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/22/2019 | "I have always found it difficult to drive at night with the oncoming headlights blinding you"                                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/22/2019 | "Light pollution is ruining everything."                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 12/22/2019 | "I don't like being blinded while trying to drive safely."                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 12/21/2019 | "Unhealthy unpleasant lights, LED streetlights are harsh and harmful and the ones on cars are a danger to driving."                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/19/2019 | "It is true. As an older driver they do blind me at night. Back streets are what I drive on"                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/18/2019 | "I am signing this because these lights kill my eyes and I myself have a hard time driving when these LED headlights pass me head-on! Even during the daytime! These are dangerous and must be made illegal!"                                                                                                                                                                                                                                                                                            |
| 12/18/2019 | "Years ago, anyone driving at night could tell if a car had on their high beams or low beams. Low beams did not blind other drivers. High beams did. It was illegal to blind other drivers with high beams. What do we do today when all low beams are now HIGH BEAMS? Those who allowed this to happen must be identified. Who signed off on allowing low beams to become high beams? The car manufacturers                                                                                             |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|            | could not put high beam lights on cars, and call them low beams, without legal authorization. We have recalls in this country when cars are made unsafe. Recall ALL HIGH BEAM CARS MASQUERADING AS LOW BEAM CARS! The science used to identify low beams vs. high beams has been seriously compromised. What ever happened to lumens? Is there no yardstick to quantify the illumination a car headlight emits today? Are we a nation of idiots? How many years has this been going on for? Why are we even talking about this today? Is this going to be a PERMANENT problem with no solution whatsoever? I am really tired of signing WORTHLESS peti"                                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/18/2019 | "It's so hard to see the lines on the road when the lights are so bright. You can't see anything. It's so scary and I believe those lights cause accidents and should be band."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/18/2019 | "I wear blue blockers throughout the day and have found they also work on the super bright headlights. Without them I find the lights extremely blinding, making it extremely difficult to drive. I think they should be banned globally. They also mess up our circadian rhythms."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 12/17/2019 | "These types of headlights hurt my eyes and have impaired my vision so much so that I feared I'd drive off the road!!! They most certainly should not be allowed my any means!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 12/17/2019 | "I'm a retired aerospace engineer with 28 years experience in system safety engineer and management for DOD, NASA, Jacobs and Northrop Grumman. There is no "might be" with glare. Glare is a very well known Category I hazard causing "death or system loss."The only two reasons allowing this to happen are incompetence or criminal behavior. Pick one and fix it."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 12/16/2019 | "It's getting generally harder and harder to see at night because of them. They create excessive glare, which makes it very difficult to see pedestrians, particularly in winter, when it's dark most of the time and generally gloomy and rainy. I have stopped using my mirrors completely, which is itself disorienting and makes me feel insecure, but at least I'm not being blinded by the people behind me. These things are becoming standard on more and more cars, and now we're seeing them on large trucks, as well as Semis and delivery vans, all of which have much higher profiles than a car, which means it's impossible to aim them so that they are both a functional light source and also not blinding to other drivers. To make matters worse, we are also now seeing police and fire & rescue vehicles equipped with them as well. These are "safety" vehicles; city owned and tax payer funded safety vehicles. The irony of HID headlights on a safety vehicle would be amusing if it weren't outrageous. I hasten to add that they ar" |
| 12/16/2019 | "Glad someone has taken this issue on. Driving at night has become a difficult task. There needs to be a ban on led headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/16/2019 | "I have almost driven off of the road (mountain clifside roads in BC!! Not just little ditches) on more than one occassion due to oncoming traffic with these lights. Even in otherwise perfect driving conditions."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/16/2019 | "Not quite so bright is a safety necessity."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| 12/15/2019 | "I would bet that many accidents already have been caused by those dangerous blinding headlights!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 12/15/2019 | "The lights have been hurting my eyes since their production in the market. Thank God for this petition."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/15/2019 | "I want the NHTSA and The USDOT AND Transport Canada to ban Daytime Running Lights (DRLs) because they do more harm than good, especially for those who are nearsighted and those with low vision impairments. DRLs cause glare for drivers in broad daylight, and it causes problems for people who forget to switch the regular headlights at night resulting in the rear taillights not coming on.PLEASE BAN DAYTIME RUNNING LIGHTS!!!!!"                                                                                                                                                                                                                                                                                                             |
| 12/14/2019 | "These lights are very distracting causing me to not even want to look at a vehicle and see which way it is going which is obviously a dangerous reaction... But, I would like to avoid migraines and loss of my direction by looking at them. Please make them illegal!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/14/2019 | "I want to be able to drive at night safely"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/13/2019 | "It's is getting more difficult to drive at night as more and more cars have these overly bright headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 12/13/2019 | "LED lights are a huge hazard and impair drivers"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/13/2019 | "I am afraid to drive at night because of the glaring headlights on the other side of the road. It is extremely dangerous and frightening"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 12/13/2019 | "I'm tired of being dangerously blinded by these headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/12/2019 | "I've had a run in with the insanely bright headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 12/12/2019 | "The lights are too dang bright!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/11/2019 | "They are way too bright and can not see anything because of them"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 12/11/2019 | "Frustrating how bright some of these flashy car lights are, unfortunately it won't be long before there's more collisions on our roads, due to this issue."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/10/2019 | "Please do something, these new lights are painful. I was behind an Escalade and the brake lights made my eyes so uncomfortable I had to look to the side. Seniors who are beginning to get cataracts will have acceleration of the condition. This is a crisis."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/8/2019  | "Except for motorcycles and emergency response vehicles, there is absolutely no need for this kind of blinding presence."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/7/2019  | "There is no real need for high intensity headlights. They are dangerously blinding on all vehicles, but particularly so on SUVs and pickup trucks. I used to enjoy night driving, but avoid it as much as possible now solely due to these ridiculously strong headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/7/2019  | "I'm concerned about safety and I hate these headlights!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/6/2019  | "I sincerely support this campaign"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/6/2019  | "I hate these over bright headlights so much. They cause instant headaches for me. When I am on a two-lane road and vehicles with LED lights are coming at me I am completely blinded I cannot see my lane or anything else, it's like drivers always have their brights on but even more intense.. These are so dangerous and we do not need this technology. Whoever invented this and allowed it to be put in vehicles is an idiot and I find this grossly negligent, because it's so blindingly dangerous for other drivers. Have you ever been in a car and then a high truck is coming at you with these hideous lights? you can't see a thing. It's bad enough when it's just a regular car coming at you with the Hideous lights. The trucks are |

| 12/4/2019 | "I am startled by the glaring LED lights. Car headlights should not be a dangerous distraction"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/4/2019 | "Twice recently a large pickup truck was approaching with the blinding led lights on a windy back road I was traveling on. Both times I almost ran off the road due to being completely blinded. These lights are dangerous and worse than any "bright lights " from years passed. The courteous thing was to turn them off when another car was approaching, but now these new LED lights cannot be turned off."                                                                                                                                                                                                                                                                                                           |
| 12/4/2019 | "I drive an older model truck, with the more yellow-white head lights. My truck is a normal height. It is a step up to get in and I am being blinded by small cars. I will flash my brights, so they will dim theirs, only to be flashed back, because they didn't have their brights on. I am in my 20s, this is not an old person thing. And of course then you have the jacked up trucks with these new lights.... They may as well have their brights on all the time! I literally cannot see the lines on the road at night and I work until dark everyday. I know you are suppose to look away or at the white line, but I couldn't see anything! Its so scary....Please help. I don't want to become a statistic..." |

| 12/2/2019  | "Enough with the excessively bright headlights on cars. They are dangerous."                                                                                                                                                                                                                                                                                    |
| 12/1/2019  | "Night time driving is potential dangerous with LED lights on cars!"                                                                                                                                                                                                                                                                                            |
| 12/1/2019  | "Night time driving is potential dangerous with LED lights on cars!"                                                                                                                                                                                                                                                                                            |
| 12/1/2019  | "I would love to see something like this become law!"                                                                                                                                                                                                                                                                                                           |
| 12/1/2019  | "The new bright headlights are worse than someone with brights on. I am constantly traveling, and am,blinded at least 3 times every night I'm,on the road. I have have prescription yellow tinted glasses and they only take away a tiny bit of the pain my eyes feel,when confronted. These things are dangerous."                                             |
| 12/1/2019  | "These headlights are dangerous. They will kill people."                                                                                                                                                                                                                                                                                                        |
| 12/1/2019  | "It's hard enough to drive at night or when it is raining!!! What's the purpose!?"                                                                                                                                                                                                                                                                              |
| 12/1/2019  | "Too damn bright! There's no need. And people drive with their high beams on too. Tell them to get a clue! Dangerous!"                                                                                                                                                                                                                                          |
| 12/1/2019  | "The DOT and police depts could make five times as much revenue from ticketing people with these headlights than they could speeders-! Please do something, it's very bad here in Florida."                                                                                                                                                                     |
| 12/1/2019  | "Common sense says these lights are dangerous but the idiots at NHTSA don't care for passenger safety."                                                                                                                                                                                                                                                         |
| 11/30/2019 | "They are blinding"                                                                                                                                                                                                                                                                                                                                             |
| 11/29/2019 | "These lights are horrible and cause you to be blinded at night in both directions and causing people to almost drive off the road in the dark due to people getting blinded! These need too band!"                                                                                                                                                             |
| 11/29/2019 | "As someone who bikes at night I want to share these are not only blinding to me, the person who has to take care not to hit obstacles that can cause me to fall or end up in the road, but actually painful and sometimes nausea inducing for those of us with sensitive eyes."                                                                                |
| 11/29/2019 | "I don't like the bright lights."                                                                                                                                                                                                                                                                                                                               |
| 11/29/2019 | "Having Epilepsy alone makes this unfair!!! Ad in someone w/ a brain injury, autism, even overstimulation & we cannot function. I don't know how this is ok & legal. Pleaseeeee no more of these lights"                                                                                                                                                        |
| 11/28/2019 | "These things are as much a driving hazard as cell phones"                                                                                                                                                                                                                                                                                                      |
| 11/28/2019 | "It's getting ridiculous out there. It's also getting dangerous. Something needs to be done or there are going to be a lot more accidents."                                                                                                                                                                                                                     |
| 11/28/2019 | "The led headlights are way too bright and can cause me to have a migraine."                                                                                                                                                                                                                                                                                    |
| 11/28/2019 | "These new lights are dangerous. Not too many years ago you would get a ticket for having high beams on when approaching on coming traffic. Today's lights are so much brighter than old high beams, and more lights on the the new vehicles. Who needs four lights on one side of the car? Yes, eight lights in my rear view mirror. These need to be banned." |
| 11/28/2019 | "Photosensitive"                                                                                                                                                                                                                                                                                                                                                |
| 11/27/2019 | "Because LED headlights are blinding and most drivers who use them also use fog lights which are also LED- making it hard to focus in the rain or darkness- they also tailgate with them in our rearview mirror- they need to be banned-"                                                                                                                       |
| 11/27/2019 | "As a pizza guy I drive a lot and these leds gotta go!!"                                                                                                                                                                                                                                                                                                        |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| 11/27/2019 | "These lights are blinding and terribly dangerous, not to mention unhealthy for the human eye. They should be banned in all forms"                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 11/26/2019 | "I'm signing because I'm happy that they can see better. But can they see me DRIVING OFF THE EDGE OF THE ROAD BECAUSE THEY BLINDED ME?????"                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 11/26/2019 | "These lights are very dangerous even in daylight! They totally blind the driver in the oncoming car and they are so bright it remains in your eyes like you've looked at the sun too long. Hideous invention."                                                                                                                                                                                                                                                                                                                                                          |
| 11/25/2019 | "The headlights have become so bright, they are now a distraction and hindrance."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 11/25/2019 | "They are dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 11/24/2019 | "Might also reduce light pollution so we can see the stars that are also blocked from our vision"                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 11/24/2019 | "I struggle to see every time I have these lights coming at me from the opposite direction."                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 11/24/2019 | "They are so blinding ! That can be dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 11/23/2019 | "I'm signing because I have been noticing the past few months that I'm being blinded by these new fangled headlights. At first I thought these were high beams, but then I realized that they are different and much more bluish. IT makes a significant difference to me because I often drive on 2-lane undivided roads."                                                                                                                                                                                                                                              |
| 11/23/2019 | "These lights kill my eyes for night driving that I'm afraid to get into a wreck. These lights blind me to where I can no longer see"                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 11/23/2019 | "These lights should be banned! I've had to slow to almost a stop numerous times on two lane roads because of these lights. I hate driving at night now."                                                                                                                                                                                                                                                                                                                                                                                                                |
| 11/23/2019 | "Driving at night is already difficult. Blinding lights on two lane roads are a nightmare and extremely dangerous. If it's raining, even more."                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 11/23/2019 | "With my sunglasses on during the day, the LED lights on cars are still brighter than sunlight reflected off chrome on cars. This is with my sunglasses on. These lights must be damaging to young people's eyes at night when they have no light protection glasses on. I envision a class action lawsuit in the near future."                                                                                                                                                                                                                                          |
| 11/22/2019 | "They blind you when coming torge you"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 11/22/2019 | "Have to be at work early in the morning and live in the country . I'm always looking for deer and when an oncoming car has these lights I can't see anything after passing and if there are following me it's so bright I have to move all my mirrors just to be able to see what's in front of me."                                                                                                                                                                                                                                                                    |
| 11/22/2019 | "Highway driving is not so bad. But on dark country roads its impossible to see when a car comes towards you... if there is someone with bright lights behind you it's even more dangerous, and its getting so much worse."                                                                                                                                                                                                                                                                                                                                              |
| 11/22/2019 | "I'm a migraine sufferer and it's already hard to drive at night, but these horrible things are making me consider giving up night driving entirely. That would have a huge negative impact on my life, including possibly costing me the part time job that allows me to live a better life on disability and makes me feel like a contributing part of society. Adaptive glasses with my special prescription would be very expensive. It's backwards to expect people to spend money they don't have or sink deeper into poverty to adapt to these dangerous lights." |
| 11/22/2019 | "it is required."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 11/22/2019 | "Yes please let's save some lives by saving our vision!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 11/22/2019 | "Of my friend and myself"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| 11/22/2019 | "These awful things should have never been approved by the National Highway Safety Institute. They are way too dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 11/22/2019 | "They are a dangerous product!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 11/22/2019 | "Light sensitive eyes and there are certain headlights that cause lasting difficulty with focus."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 11/22/2019 | "I used to enjoy driving at night. Not anymore. The LED headlights are the main issue. HID lights never bothered me at all. There is something about the intensity and the color temperature of LED lights that just kills my night vision and causes so much glare. This is even worse on pick up trucks or some SUV's that sit higher than passenger cars. Have one pull behind you at a stop light and their lights are shining directly into your back window, blinding you by the rear view mirror. The Feds should require that all headlights be at a maximum height no matter how tall the vehicle is to prevent this scenario. More people will die on our roads until this issue is resolved." |
| 11/21/2019 | "They are very blinding and need to be banned."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 11/21/2019 | "The headlights are that bright I cannot see its sometime hard to make out if they are on full bean or not! They are so dangerous both in the opposite direction or when a car is behind you with the headlights on. I believe these need to be banned!"                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 11/21/2019 | "My eyes aren't what the use to be. Those lights are blinding and cause headaches"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 11/21/2019 | "I agree! I hate these blinding blue lights. They should be banned from normal use."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 11/20/2019 | "I struggle driving at night because of led lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 11/20/2019 | "The new chilling white headlights need to be removed from the roads please. I'm getting blinded from the front and also from behind me as well. Yes. They look very crisp and very cool. I'm sorry though; some things seem good but just don't work for the application."                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 11/20/2019 | "I believe they are dangerous to oncoming traffic especially in wet weather"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 11/20/2019 | "These headlights are terribly dangerous and cause great anxiety in drivers."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 11/20/2019 | "THEY ARE BLINDING! It's entirely unnecessary and thoughtless. A pox on the inventor!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

|            | that you can't drive at night because of being blinded by oncoming lights. Brake lights are too bright (combined with too many) also!"                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 11/17/2019 | "Lights are too bright. Dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 11/17/2019 | "I'm signing because I'm SICK of these new lights blinding me while driving at night!!!! They are FAR too bright and the idiot who came up with these lights should've known that they were far too bright to use!"                                                                                                                                                                                                                                                                                                                                                   |
| 11/17/2019 | "Evidence is mounting about the dangers if excessively bright, harsh, glaring artificial lights in our environment, especially after dark. Industry won't act until officials pass legislation to make them do so. Officials must listen not only to the science (which takes time to do properly), but to the experiences of ordinary people who suffer the effects of excessive lighting. Instead of waiting for years or decades for the epidemic to be proven (like with smoking), act now, and save the thousands of lives that are lost needlessly every year." |
| 11/16/2019 | "I cant see in the dark very well. And when these headlights come at you I TEALLY cant see"                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 11/16/2019 | "These lights blind you even when they drive behind you. They cause me to see spots when they shine in my rearview mirror and I have to drive with the mirror angled down."                                                                                                                                                                                                                                                                                                                                                                                           |
| 11/16/2019 | "Also,if it is against the law to drive closely to another car with high beams on why are these allowed?"                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 11/16/2019 | "Also,if it is against the law to drive closely to another car with high beams on why are these allowed?"                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 11/16/2019 | "I'm signing because I can't see when people forget to turn the high beams off and I'm blind it's not safe."                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 11/15/2019 | "I just drove two nights across the Nevada and Arizona deserts on two lane highways 93 and 95. The glare from headlights of many of the oncoming vehicles, both cats and semi trucks, was nerve wracking. Three times I was temporarily blinded as they passed me. I had a headache when I arrived in Las Vegas that stuck with me to Phoenix."                                                                                                                                                                                                                       |
| 11/15/2019 | "Those lights are dangerous. Too bright, they actually blind you, when they sign in your face while driving"                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 11/15/2019 | "I've been doing a lot at night driving lately I have to for work since we have our shorter days. And my eyes are really bothering me and it's been difficult driving the hour and 15 minutes three nights a week. There is going to be more car accidents because of it that's for sure. Never mind it harming your eyes I don't want my eyes damaged because I have to drive at night."                                                                                                                                                                             |
| 11/14/2019 | "When I first started seeing these headlights, I thought, "What the heck??!!!!?? I thought that was illegal!!!" I still most emphatically think they should be. I used to hate them because of how horrible they are when someone is approaching you from the other direction. Then I drove a loaner vehicle that had them, and discovered that I couldn't see properly as the driver, either! Why does ANYBODY buy these cars?"                                                                                                                                      |
| 11/13/2019 | "I don't enjoy driving at night anymore because of all these awful headlights from high-end cars and kids putting ultra-bright LED/HID lights in their cars. It's a distraction and danger to all drivers on the road and I've wondered why DOT has sat on their asses doing nothing about it??"                                                                                                                                                                                                                                                                      |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
|------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 11/12/2019 | "most new mercedes are awesome and have some of the most non blinding lights I have seen."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 11/11/2019 | "I agree with a complete and outright ban of LED and other blue-light headlamps and tail lamps on all moving vehicles (cars, trucks, vans, etc.) I also agree with another signer--if a person can't see properly at night with normal headlights, he/she shouldn't be driving! Get off the road!"                                                                                                                                                                                                                                                                                                                                                          |
| 11/11/2019 | "I am an optometrist. Patients tell me they are bothered by these lights EVERY DAY! I am so happy someone is doing something about it, I will share will all of my patients and colleagues. These lights are a public safety issue effecting everyone, not just the elderly."                                                                                                                                                                                                                                                                                                                                                                               |
| 11/11/2019 | "I had a horrible drive home from Oakland down the 5 to LA. I was getting blinded from all directions (rear view mirror, side view mirrors, even some oncoming (despite there being a large median). I have a pounding headache today and find the general lack of concern about this to be alarming. Responses like "drivers will adjust as this becomes more common" is such capitalist b.s. These lights are terribly dangerous and unnecessarily bright. I don't think we need to go back to a world of solely halogen lamps but I do think we need to adjust the legal allowable lumens. It's like I've been seeing flashbulbs for the last 12 hours." |
| 11/11/2019 | "Also, I'm 34 so this ageism around who is affected is ridiculous. I would hop on a class action about vision impairment due to these lights in a heartbeat."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| 11/8/2019  | "I am all for bright headlights and being able to see well in the dark, but being blinded by these lights is ridiculous. There needs to be higher standards for bright lights. For example, cars that have really bright HID or LED headlight systems need to have auto dimming feature installed, dim the lights when ambient light is high enough. We do not need SUPER BRIGHT HEADLIGHTS when driving in the city most of the time, the new LED street lights provide enough light as it is. When driving on dark roads though, all cars should be equipped with auto dimming or auto aiming headlights so they do not blind oncoming traffic."          |
| 11/7/2019  | "I commute to school every morning. I cannot see even in broad daylight with these headlights because of the intense glare. They shouldn't be allowed."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 11/6/2019  | "These light are blinding when you come upon them on the road or behind you."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| 11/4/2019  | "There becoming more an more dangerous , especially to elderly folks"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 11/4/2019  | "I'm signing because this is incredibly true and sadly so. I had to give up driving at night because of these blinding headlights. When the transition from daylight tonight is coming it's even worse. Several times since the beginning of using these headlights in cars over the last years I have almost hit pedestrians. I now stop in the middle of the road at night when a car is blinding me with its headlights because I would rather have somebody angry behind me then hit somebody. That's a horrible way to live and this has to stop. The AMA gave these guidelines so many years ago and they have been totally ignored. It's unconscionable that so many people are complaining and that no one is doing anything about it. I doctors have told me that the lights are blinding. They feel helpless because nobody is listening. We cannot stand for this. It could be one of your loved ones that gets hit and then what will you do? You won't be able to turn the clock back and you will live with that forever" |
| 11/4/2019  | "I drive with Uber and Lyft in my retirement. Some of the headlights I encounter are outrageously, blindingly and absolutely unnecessarily bright!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 11/4/2019  | "These blinding lights are just overkill. They are not needed."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 11/4/2019  | "I like to prevent undo trauma of accidents due to blinding head lights!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 11/1/2019  | "Time to MAKE THESE LIGHTS a thing of the past! They are WAY toooo BRIGHT and impedes the driver heading towards it."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 11/1/2019  | "You really can't tell if they have their bright lights on or not, and they really do not care that they are blinding drivers."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 11/1/2019  | "They also negatively affect people just walking on the road. If a driver gets blinded he/she may not be able to see the person walking on the road. It has happened to me several times already."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 10/30/2019 | "Yes!! Please, please, PLEASE, write requests to initiate legislation to your state senators and representatives - I did.Part of my letter - please use this first sentence in your letters to them or something similar: This morning, a person was behind me and even just a short glance before covering my eyes, I has a bright spot appear in my field of vision that made it very difficult to see the road or anything else. I am only 58 - as I get older it will multiply this problem."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 10/30/2019 | "Too bright vehicle lighting is not only dangerous but also just a general nuisance to other drivers and anyone else near roads, driveways, and parking spaces wherever there are vehicles. The bright lights ruin the outdoor experience. What a shame. Too bright vehicle lighting is part of a general trend of too bright lighting everywhere, from digital signage, to flood lights, to LED interior lights that can be seen a great distance through windows, TVs in windows, places of business, outside, and high intensity LED tower strobe lighting that ruins vistas. We are facing an assault of bright lighting. I hope people join and form strong activist organizations that will fight bright lighting. We are also facing an onslaught of                                                                                                                                                                                                                                                                             |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

|            | rising noise pollution everywhere. Many technological trends are adding stress to our lifes and reducing the quality of life and outdoor living."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 10/30/2019 | "LEDs should be banned!! and only the AMBER daytime running lamps should be used on all cars, trucks, and buses (including school buses) during daylight hours."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 10/29/2019 | "They are a hazard and are a cause for the up swing in deadly wrecks in the last 2 years. They should be banned!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 10/28/2019 | "I have nearly gone off the road countless times due to the blazing glare of the new hot white headlights. Particularly in rain they are a terrible hazard. They aren't necessary for seeing the road, and they should be banned."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 10/28/2019 | "Bright white head lights are blinding and dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 10/28/2019 | "They are blinding!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 10/27/2019 | "I'm signing because halogen headlights are completely blinding. The rest of us should then use our high beams at all times to compete to see the roads at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 10/27/2019 | "As a roadway lighting professional, glare is the most underrated metric in design. Blue light glare is real but difficult to measure because it's effects are different per person. Older people are far more susceptible to blinding glare because as we age our eyes's corneas become less clear and the blue light scatters passing thru the eye just like it does in rain, or fog. The blue scattering is called "Rayleigh scattering". Car headlights are the worst offenders, but they should also look at warmer street lights (3000K CCT or less). The scattering effect is much more noticeable in inclement conditions (rain fog snow), but unfortunately the visibility studies are typically done in perfect conditions." |
| 10/27/2019 | "I hope to see that ALL LED and HID headlights on ALL vehicles - No Exceptions - become banned and illegal. They are blinding and endanger lives."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 10/27/2019 | "I too have been blinded by them"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 10/27/2019 | "Because these lights are terrible and are blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 10/26/2019 | "These lights are dangerously bright and need to be limited."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 10/26/2019 | "because I am a night protector and know very well about the shortfalls of blinding blue light. This really needs to be banned."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 10/26/2019 | "Due to the fact that blinding oncoming traffic is more dangerous than driving in the dark ! It's way past time for these so called safety agencies do their jobs and that includes setting a maximum height for headlamps on ALL vehicles which should be no higher from roadway than 17 inches."                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 10/26/2019 | "This is extremely dangerous especially with raised pickup trucks that have not had there lights readjusted. Even more for me as I am 82 years old."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 10/26/2019 | "I'm tired of being blinded by mega bright headlights! I almost went into the opposite lane a few nights ago from lights blasting me in the face! I hate going out in the evening at all anymore!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 10/26/2019 | "These headlights blind me from the opposite direction, especially at night and when they reflect on wet road surfaces. They also blind me from behind too from high profile pick-up trucks. I have to duck below the glare to see out my front windshield. I use my headlights during the daylight, mostly out of habit. What irks me more is idiot drivers that don't use headlights in the rain, snow and fog despite local laws requiring them. Imagine the enormous amount of traffic tickets police could write not using headlights."                                                                                                                                                                                           |
| 10/25/2019 | "The glaring headlights make it harder to see and make my migraines worse."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

|            |                                                                                                                                                                                                                                                                                                                                                                                                         |
|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 10/25/2019 | "Standards for vehicle lighting has not kept up with the lighting technology. Spectral changes in light emission, intensity, and the sharpness or transition between full intensity and no light have all changed dramatically with HID and LED technology and need to be addressed. Drivers are experiencing persisting blindness post encounter with head on traffic that has HID or LED technology." |
| 10/25/2019 | "A little enforcement of the already-existing laws making it illegal to sell or use LED replacements for incandescent headlight bulbs would be nice."                                                                                                                                                                                                                                                   |
| 10/25/2019 | "In rural areas where it is totally dark the fully dark adapted eye is especially vulnerable"                                                                                                                                                                                                                                                                                                           |
| 10/25/2019 | "Im signing because of the bright blinding headlights. Use at night is like bright lights in your eyes."                                                                                                                                                                                                                                                                                                |
| 10/25/2019 | "These blinding headlights make night driving difficult and dangerous."                                                                                                                                                                                                                                                                                                                                 |
| 10/25/2019 | "Yes. It is blinding the oncoming driver."                                                                                                                                                                                                                                                                                                                                                              |
| 10/25/2019 | "Some of these LED and HID lights are too bright"                                                                                                                                                                                                                                                                                                                                                       |
| 10/25/2019 | "Lights that suppress melatonin are a very GOOD idea, but no lights should be too bright. I have been temporarily blinded by headlights in spite of my best efforts. Some lights are simply too bright. When I can't see, I panic."                                                                                                                                                                     |
| 10/25/2019 | "They are dangerous"                                                                                                                                                                                                                                                                                                                                                                                    |
| 10/22/2019 | "They should either be banned or have an annual inspection of the lights to ensure they are aimed at an angle that wont blind drivers. It's a specially impactful when it's a taller vehicle."                                                                                                                                                                                                          |
| 10/22/2019 | "I'm absolutely sick of being blinded by head lights, if it's illegal to drive with your high beams on, then why are these lights that to me seem brighter then high beams legal?!?!"                                                                                                                                                                                                                   |
| 10/22/2019 | "Led lights are absolutely ridiculous how are the brightness of them legal"                                                                                                                                                                                                                                                                                                                             |
| 10/22/2019 | "I drive a lot at night, and these obnoxious blue headlights are blinding and dangerous. We need to outlaw them and require manufacturers to switch to more yellow spectrum leds that are easier on the eyes and do not scatter light as much."                                                                                                                                                         |
| 10/21/2019 | "I detest those LED headlights since they do nothing blind everybody especially when it is raining. They should have never been made for vehicles in the first place"                                                                                                                                                                                                                                   |
| 10/21/2019 | "Absolutely BLINDED from FRONT and REAR...!"                                                                                                                                                                                                                                                                                                                                                            |
| 10/20/2019 | "I rear ended someone last Sunday, due to two improperly adjusted headlights. I look away and it still didn't help anything. I have been complaining about it for a while and everyone says: "Oh, you'll get used to it". WELL I AM NOW!"                                                                                                                                                               |

| 9/28/2019  | "The headlights are blinding amd dangerous to anyone driving"                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 9/26/2019  | "Fed up with those damn lights blinding me and i am not that old. What is wrong with the cops? Ticket the hell out of those dangerous idiots!"                                                                                                                                                                                                                                                                                                                                                     |
| 9/26/2019  | "Simply had enough of being blinded by these ridiculous lights and I feel bad about directing my wing mirrors to reflect straight back at the driver behind even though they should back off or lower their beams."                                                                                                                                                                                                                                                                                |
| 9/24/2019  | "Fuck those lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 9/22/2019  | "It's effecting my eyes, I have to drive at night with sunglasses because the car lights are piercing"                                                                                                                                                                                                                                                                                                                                                                                             |
| 9/21/2019  | "These new headlights are distracting, dazzling and dangerous. They need to be regulated and permitted brightness needs to be reduced to a safe level."                                                                                                                                                                                                                                                                                                                                            |
| 9/20/2019  | "Almost got into an accident today, please ban these bright led lights"                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 9/18/2019  | "I am signing this because these bright headlights burn my eyes when they are coming towards me. If I have been on a dark road they come around a corner and my eyes don't have time to adjust. They are making our roads less safe."                                                                                                                                                                                                                                                              |
| 9/17/2019  | "How are these "safer" if I'm blinded to the extend that I cannot see ANYTHING!! They are ridiculously bright even during daytime. Apart from what should be the obvious blinding danger of these things, their sharp cutoffs, bouncing around in and out of sight increases stress and anxiety. It's no different to having a laser flashed in your eyes. I now avoid night driving - even walking at night has become an annoying experience. I truly wish those in charge would DO SOMETHING!!" |
| 9/16/2019  | "These lights give me a migraine. Very dangerous, have to look away. These horrible headlights just caused a horrible accident with 2 young students being killed because the driver had to swerve away from the blinding oncoming headlights. Ban them completely and go back to the normal headlights please!!"                                                                                                                                                                                  |
| 9/15/2019  | "Because I have migraines and these horrible lights are one of my triggers, and they are so bright I can't see the road even if the lines have been recently painted. I'm fine with normal lights, but these HID hazards need to go. I hope this ban extends to gas stations and any lights visible from the road."                                                                                                                                                                                |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| 9/10/2019 | "I'm blind!!!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 9/4/2019  | "LED headlights regularly blind me and make driving dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 9/3/2019  | "I have night blindness n it's hard enough for me to see without those blinding headlights. Get rid of them! Ban them!"                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 9/1/2019  | "I've thought these lights were painful from the beginning. I'd love to see them replaced by a softer option that doesn't sear the retina"                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 8/31/2019 | "Especially with cataracts."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 8/30/2019 | "I live at the end of a long, narrow, winding country road, where i am often blinded by what i call, if you will excuse the expression, Asshole Lights. I am delighted to promote a ban on these Asshole Lights!"                                                                                                                                                                                                                                                                                                                                                       |
| 8/25/2019 | "These type lights are actually too bright!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 8/25/2019 | "The life you save could be your own or a family member or friend!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 8/20/2019 | "I like to drive without being blinded"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 8/19/2019 | "I drive at night delivering newspapers for 3 hours a night, I get home and my eyes feel like they're burning. I'm sure it's damaging my retina. If someone was to walk in the street, or a deer, I would never see them because of the blinding light,also have my review mirror facing the right,so behind drivers don't blind me,which makes it useless.Going to the eye doctor soon for a exam to see if it's damaging my eyes.These LED headlights have got to go!!! I can guarantee law suits will start soon."                                                   |
| 8/16/2019 | "Because these super bright lights are out of control & enough is enough already!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 8/13/2019 | "They are a danger. I am constantly blinded while driving."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 8/13/2019 | "They are extremely dangerous !! So blinding, when you try to look off so to keep control of your vehicle, YOU almost run off the road. They ARE NOT. necessary"                                                                                                                                                                                                                                                                                                                                                                                                        |
| 8/13/2019 | "LED headlights literally make the road disappear when a car with them drives towards me with them on. It doesn't even have to be pitch dark for me to be blinded either. Car headlights need to be regulated and tested. There's research that proves LED lights damage the retina of the eyes.... When we drive at night, the lights shine directly into our eyes, as we have to look straight ahead at the road ahead, so we cannot avoid them shining into our eyes! This is dangerous and really needs to be looked at!!! Thank you for creating this petition &3" |
| 8/4/2019  | "Everyone I've discussed this with has had the same experience of being blinded by oncoming headlights at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 8/2/2019  | "I have had many close calls because of those headlights I think they should be banned"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 7/27/2019 | "While I am driving I have to shut my eyes against these solar flares and hope I do not have an accident. Even in broad daylight. These diabolical people who put these on the market and continue to do so are CRIMINAL and they just get away with it."                                                                                                                                                                                                                                                                                                               |
| 7/27/2019 | "They blind me"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 7/25/2019 | "yes, that's me. if you have those bright LED lights in your car and you drive by me I'm turning my hi-beams on full blast to burn your eyes out of their sockets and give you a taste of what you're doing to me. Anyone who is ignorant and selfish"                                                                                                                                                                                                                                                                                                                  |

|           | enough to drive a car with those invasive lights deserves nothing less than that, and no apologies!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 7/18/2019 | "I almost drove off the highway in the Mississippi Delta region because of night blindness caused by an oncoming car equipped with these lights. They pose a major risk for any night drivers!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 7/17/2019 | "Strong LED headlights blind me when at the wheel."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 7/14/2019 | "These lights hurt and make driving at night even more dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 7/13/2019 | "These lights are a lot worse on a truck because they are up higher. I see nothing but glare. I don't even see the cars in front of me anymore. I also get a big fricking headache."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 7/9/2019  | "I'm signing because blindingly bright headlights are unnecessary and dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 7/8/2019  | "Because I get blinded at night, mostly in the rain. This is not ok and it needs to change"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 7/7/2019  | "They hurt my eyes and blind me from incoming cars. DANGEROUS."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 7/4/2019  | "I was on the interstate for about an hour tonight and counted 164 pairs of painfully, blindingly bright low beam headlights. My head and eyes still hurt from counting them and I won't do that again. This is getting ridiculous and more and more pop up every day. Even semis use them now. How is this legal?! They are so dangerous and should be banned."                                                                                                                                                                                                                                                                                                        |
| 7/2/2019  | "Good morning Vietnam it's about time someone took initiative to do something about this. I thought I was going to have to argue with all the police about not being able to see down the road, having police tell me that I'm too old to drive because I can't see anymore. The people that put those bars across their top or under the fog lights and every light coming out of the vehicle is a HD highbeam in your face burning up your eyes, they're just nuts. I have rednecks around where I live and they're just decorating their vehicles with these bright lights, they just love messing with people doing anything they can do to be offensive pricks..." |
| 7/2/2019  | "Ban LED headlights, tail lights, yard lights, bicycle lights. According to this Quora article looking at oncoming LED headlights is several thousand times stronger than looking directly at the sun. They bleach our rods and cones - needed to see colors. They accelerate macular degeneration. <a href="http://www.lightmare.org/">http://www.lightmare.org/</a> "                                                                                                                                                                                                                                                                                                 |
| 6/25/2019 | "I completely agree"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 6/25/2019 | "The headlights hurt my eyes."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 6/19/2019 | "I drive on rural roads and cannot believe that some lights are legal, they are as bright as high beams."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 6/18/2019 | "I'm signing because im tired of a**holes in lifted trucks that don't care if they blind other people with their headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 6/16/2019 | "These light create a terrible glare and leave a lasting effect on my vision even after they pass."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 6/9/2019  | "Blinding headlights should be illegal/banned."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 6/8/2019  | "At night on the freeway the glare is so bad from the cars behind me that are equipped with the super bright LED and HID headlights that I need to disable the rear and side view mirrors by pointing them in a direction away from the glare so I cannot see any of the traffic behind me. This puts me at a greater risk for having an accident."                                                                                                                                                                                                                                                                                                                     |
| 6/5/2019  | "Tremendously dangerous, frightening when you are driving and cannot see!! Please outlaw these lights!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

|           |                                                                                                                                                                                                                                                                                                                                                                                                    |

| 6/1/2019  | "Not only effect on human but also environment and our precious sky indirectly."                                                                                                                                                                                                                                                                                                                   |
| 5/31/2019 | "I agree; LED headlights blind other drivers when approached from behind or head on, causing inability to focus on the road."                                                                                                                                                                                                                                                                      |
| 5/30/2019 | "Bright headlights cause me to be temporarily blinded by them. Why can't we go back to the normal headlights like we used to have? I support Banning these new bright ones."                                                                                                                                                                                                                       |
| 5/30/2019 | "These lights are dangerous during night time driving. I hope more lawsuits come about until they are completely banned for automobile use!!!"                                                                                                                                                                                                                                                     |
| 5/28/2019 | "It very dangerous for opposite side driver as nothing would be visible as it leads to major accidents and may cause death"                                                                                                                                                                                                                                                                        |
| 5/28/2019 | "it is very much required for saftey of the people"                                                                                                                                                                                                                                                                                                                                                |
| 5/23/2019 | "I've been blinded many times by the "blue" headlights and no standards or regulations are in place to protect other drivers."                                                                                                                                                                                                                                                                     |
| 5/23/2019 | "The bright lights make it impossible to see at night especially in the rain"                                                                                                                                                                                                                                                                                                                      |
| 5/23/2019 | "Ban bright car lights in uk too. Very hard to drive in uk as well at night. They blind me eveytime need banning and normal bulbs should be fitted as this is good on the older cars which is nicer on my eyes. Good luck of getting it banned in america."                                                                                                                                        |
| 5/23/2019 | "Waaaayy too bright. 歴 It's like being a deer caught in headlights!! Whoever decided that, didn't think too long or hard on it. 浪"                                                                                                                                                                                                                                                                 |
| 5/22/2019 | "It's very scary"                                                                                                                                                                                                                                                                                                                                                                                  |
| 5/22/2019 | "I often have to hold my hand up to mitigate the brightness of lights off oncoming traffic because I simply can't see. Not to mention it actually hurts my eyes. When they are behind me I have to flip my mirrors."                                                                                                                                                                               |
| 5/22/2019 | "I rarely flash my brights at oncoming traffic anymore these days because often what seems like someone with their high beams on is just someone with LED or HID lights on "low". It's hard to tell for sure anymore. Anyway, glad to see many people speaking up about this. Always thought it was "just me"."                                                                                    |
| 5/22/2019 | "Those lights are insane and I have a light case of night blindness, they bother me even with my corrective glasses"                                                                                                                                                                                                                                                                               |
| 5/22/2019 | "Lynn gray"                                                                                                                                                                                                                                                                                                                                                                                        |
| 5/21/2019 | "I am signing because i am ONE that has a problem with glare and these lights. So not necessary"                                                                                                                                                                                                                                                                                                   |
| 5/21/2019 | " Save lives, it's more important than your bright fancy lights."                                                                                                                                                                                                                                                                                                                                  |
| 5/21/2019 | "I'm also blinded by these lights."                                                                                                                                                                                                                                                                                                                                                                |
| 5/21/2019 | "Those lights are blinding. Can't see anything. They need to go"                                                                                                                                                                                                                                                                                                                                   |
| 5/21/2019 | "The LED's make it hard to drive at night"                                                                                                                                                                                                                                                                                                                                                         |
| 5/21/2019 | "I cannot possibly drive at night safely with my family in the mountains"                                                                                                                                                                                                                                                                                                                          |
| 5/21/2019 | "Totally agree, while I have a 2019 Buick Envision, it's maddening to me that every fourth or fifth driver flashes his or her beams at me to turn off my high beams when I don't have them on same thing with my 2017 Buick. The lights are way too bright, I even brought it back to the dealer to see if maybe there was an issue with where they were pointed but they said nothing was wrong." |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| 5/21/2019 | "We should regulate headlamp manufactures to specific lumen/brightness output. That way, no matter what the technology, the brightness would be roughly the same. On top of that, the "cold", "sharp" looking blue wavelength should be reserved for only emergency vehicles."                                                                                                                                                                                                                       |
| 5/21/2019 | "I agree so dangerous blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 5/20/2019 | "LED headlights are really bright and I cannot see anything when those cars with those headlights are coming at me from the other direction."                                                                                                                                                                                                                                                                                                                                                        |
| 5/20/2019 | "Those lights kill my eyes so I try not to drive at night."                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 5/20/2019 | "It's dangerous all the way around. Some people have migraine triggers from these lights."                                                                                                                                                                                                                                                                                                                                                                                                           |
| 5/20/2019 | "I'm signing because the LED headlights are blinding and cause zero visibility at times."                                                                                                                                                                                                                                                                                                                                                                                                            |
| 5/20/2019 | "Brite light coming at me are unsafe. They make me want to stop in the middle of the road"                                                                                                                                                                                                                                                                                                                                                                                                           |
| 5/20/2019 | "I'm signing because this is very true. These lights are very bright and are more of a distraction to other drivers."                                                                                                                                                                                                                                                                                                                                                                                |
| 5/20/2019 | "I can't support and stress this enough. I have almost crashed several times. Not to mention my head kills me after. I shouldn't have to face migraines due to vehicle headlights being so dang bright. There's okay bright and HOLY CRAP! I'm pretty sure it's an easy fix!"                                                                                                                                                                                                                        |
| 5/20/2019 | "I have been blinded many times by too-bright headlights and feel it's a very high risk danger"                                                                                                                                                                                                                                                                                                                                                                                                      |
| 5/20/2019 | "These lights are just too bright I have nearly been hit a few times because of people not being able to see"                                                                                                                                                                                                                                                                                                                                                                                        |
| 5/20/2019 | "I am diabetic and with fluctuating blood glucose levels, vision is also affected. I use anti reflective coating on my lenses for my glasses which helps cut down on the glare, but these headlights are just plain blinding to the point of needing sunglasses just to cut down on the glare of these ultra bright led headlights when they're coming at you. It burns your retina and hurts to have to see them while driving at night when there's nowhere to temporarily divert your vision to." |
| 5/20/2019 | "I drive for a living and these lights are dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 5/20/2019 | "I can no longer drive at night because of these lights."                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 5/20/2019 | "I constantly have to stare at the white line on the side of road because many head lights are so bright. Glare, blindness, etc. I have to blink my eyes several times and weirdly I shake my head lol but many are crazy bright."                                                                                                                                                                                                                                                                   |
| 5/20/2019 | "These are HORRIBLE. You cannot even see the white lines on the road when a car/truck with these headlights come at you. They can cause so many accidents because the driver of the oncoming car can't see for a few seconds after one of these cars go by. They ARE DANGEROUS....not SAFE."                                                                                                                                                                                                         |
| 5/20/2019 | "Ban them lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 5/20/2019 | "I'm with you! I can't stand those lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 5/20/2019 | "These lights are not helping, time to change them."                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 5/20/2019 | "I'm signing because these lights are way too bright on the newer vehicles. I pretty much avoid driving at night and early morning hours because I'm tired of being blinded by the headlights."                                                                                                                                                                                                                                                                                                      |
| 5/20/2019 | "The bright lights prevents me from driving"                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|           |                                                                                                                                                                                                                                  |
|-----------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 5/20/2019 | "Not a frequent driver, but as a passenger and a pedestrian, the lights does hurt my eyes. As a deaf person, the eyes and the sense of sight is extremely important and i have to take good care of them."                       |
| 5/20/2019 | "I can not see the road when blinded by super bright lights at night."                                                                                                                                                           |
| 5/20/2019 | "These LED lights are blinding and unsafe."                                                                                                                                                                                      |
| 5/20/2019 | "These lights really are blinding and you can't see they really need to do away with these lights."                                                                                                                              |
| 5/20/2019 | "They are blinding and very distracting!!!"                                                                                                                                                                                      |
| 5/20/2019 | "I'm signing because I can't see when the car is coming at me, increasing my risk of an accident."                                                                                                                               |
| 5/20/2019 | "Bright lights are dangerous for oncoming traffic"                                                                                                                                                                               |
| 5/19/2019 | "The LED lights are very blinding, especially to those of us that already have sight issues driving at night."                                                                                                                   |
| 5/19/2019 | "The lights are so blinding it makes it unsafe to drive."                                                                                                                                                                        |
| 5/19/2019 | "I can't drive at night anymore cause these blind me and give me a blinding headache."                                                                                                                                           |
| 5/19/2019 | "Why are these blinding white and blue lights even legal? It's illegal to drive around with high beams on, and it these should be illegal, too. They are even more blinding than high beams."                                    |
| 5/19/2019 | "I have had several near misses due to the blinding led/hid lights"                                                                                                                                                              |
| 5/19/2019 | "I can barely see the road with the lights so bright. My new teenage driver has same issue. Really scary."                                                                                                                       |
| 5/19/2019 | "I have been blinded by them to the point where I've run off the road. Thank goodness for the treads on side of line that alerted me by the noise, bumping. If i had been on my motorcycle I'm sure i would have wrecked."       |
| 5/19/2019 | "I have migraines and these lights are excruciatingly painful to see coming toward me and impossible for me to keep my eyes on the road."                                                                                        |
| 5/19/2019 | "Christi Barrett"                                                                                                                                                                                                                |
| 5/19/2019 | "Amen. Those bright lights are a danger. I despise them."                                                                                                                                                                        |
| 5/19/2019 | "They hurt my eyes and make me look away from the road or have to adjust my mirrors"                                                                                                                                             |
| 5/19/2019 | "This is way too dangerous. Many times I have a hard time seeing the road"                                                                                                                                                       |
| 5/19/2019 | "These lights are horrible!"                                                                                                                                                                                                     |
| 5/19/2019 | "Those lights are terrible on the eyes and I feel like it's dangerous!"                                                                                                                                                          |
| 5/19/2019 | "Headlights on newer cars are blinding. Emergency vehicle lights are even worse, those are the most dangerous for other drivers at night."                                                                                       |
| 5/19/2019 | "because those lights are ridiculously blinding to oncoming traffic!!!"                                                                                                                                                          |
| 5/19/2019 | "Hate Night Driving Because Of These Blinding lights!!!! These Will Cause Accidents!!! Outlaw Them!!!"                                                                                                                           |
| 5/19/2019 | "I have complained about these lights for years. It's about time for something to be done about it."                                                                                                                             |
| 5/19/2019 | "Most of them are not at the right calibrated either and being too high. What blinds oncoming traffic!"                                                                                                                          |
| 5/19/2019 | "I've been blinded by these lights! They don't have to be that bright!"                                                                                                                                                          |
| 5/19/2019 | "I can't safety drive at night anymore due to the fact that these headlights trigger a migraine. I literally have to pull over and get my boyfriend to drive or if no one is with me I have to stop and hope it passes quickly." |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| 5/19/2019 | "They are dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 5/19/2019 | "It's about time someone did something about this! It's not only oncoming headlights that are blinding, but they also blind drivers when they shine in rear view and side mirrors, making it IMPOSSIBLE to see!"                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 5/19/2019 | "I have a real problem seeing to drive after I pass cars that have these blinding LED headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 5/19/2019 | "When an oncoming car has its new LED lights on, I can't see! I love on a narrow windy road with drop off so that is dangerous! It's also blinding from behind."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 5/19/2019 | "They hurt my eyes and they are very distracting when coming at me."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 5/19/2019 | "HID and LED lights are terrible! Sure they may make it easier for the person driving the vehicle to see, but when I approach that vehicle I can't see anything! These lights are not safe for other drivers!"                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 5/19/2019 | "I hate these led lights they have on cars these days. Yes the driver can see better but the other person can't see shit. You might as well tell everyone they can ride around with there brights on. I can't see anything except a tiny part of the white line when I pass a car with led lights. They look badass but I believe it causes a lot of wrecks. I know I've almost wrecked a few times passing a car with led headlights. All I could do is pray I make it past them cause I couldn't see shit. It's just not fair for the other drivers on The road to be blinded by these led headlights when it's dark and hard to see anyway. It's not Safe!" |
| 5/19/2019 | "im signing cause they are to bright should be that way can cause a accident or the other driver might not see someone walking along the road or a deer coming out"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 5/19/2019 | "I can't see crap when someone has these. I have had multiple almost wrecks because of them blinding me. So unsafe!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 5/19/2019 | "Yes, please because it's blinding especially when a person has light sensitivity. Almost had accidents a few times."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 5/19/2019 | "These things are going to be the biggest safety concern next to impaired drivers this country has ever seen!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 5/19/2019 | "I've had issues with drivers running extremely bright headlights on U.S. 2 at night -- I work night shifts so I'm heading home at 3AM. I've had cases where the headlights were so bright that I could barely see the side of the road.It is a very serious safety risk. On top of that, HID light bulbs have a phenomenon that I call "color shift"...it shifts between warm colors and cool colors, and that actually can cause disorientation in drivers. I once had a truck behind me with HID's and they were glaring into my cabin, and I nearly drove off the road because of it.I want a return to Halogen spec lighting."                            |
| 5/19/2019 | "I dont like beeing blinded by those coming towards me"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 5/19/2019 | "I am tired of being blinded by tall vehicles behind me and in front of me. It's hard on the eyes especially at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 5/19/2019 | "I agree that these bright, newer headlights should be banned in every state. They are a major safety issue! Especially when a car is coming towards you in another lane. Also, when someone with those headlights is behind you it reflects on your rear-view mirror and when they are beside you and back a little ways it reflects on your side view mirrors and is blinding.. I've had times where I've had to pull over on the side of the road until that car has passed because the headlights were so bright. Something needs to be done about this."                                                                                                  |
| 5/19/2019 | "I've thought for a long time that a lot of headlights were too bright these days."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

|           |                                                                                                                                                                                                                                                                                                                                                                   |
|-----------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 5/19/2019 | "They are way to bright and are blinding!"                                                                                                                                                                                                                                                                                                                        |
| 5/19/2019 | "The new headlights make it impossible for me to drive safely at night. The glare obscures everything in my field of vision."                                                                                                                                                                                                                                     |
| 5/19/2019 | "No one needs light that bright!"                                                                                                                                                                                                                                                                                                                                 |
| 5/19/2019 | "They are dangerous. They are blinding."                                                                                                                                                                                                                                                                                                                          |
| 5/19/2019 | "I deal alot with this situation. Even on low beam these headlamps are blinding. I believe they are a serious hazard to oncoming traffic. Myself and many others agree they should be banned!"                                                                                                                                                                    |
| 5/19/2019 | "please ban these headlights. They are blinding to other drivers and they are dangerous for motorcyclists, pedestrians, and bicyclists because it is so difficult to see them while recovering from the glare."                                                                                                                                                   |
| 5/19/2019 | "Not only are these bright lights blinding to oncoming traffic, but the "lifted" pick up trucks make them even worse."                                                                                                                                                                                                                                            |
| 5/19/2019 | "Hate them!"                                                                                                                                                                                                                                                                                                                                                      |
| 5/19/2019 | "Theses lights are dangerous!"                                                                                                                                                                                                                                                                                                                                    |
| 5/19/2019 | "I drive home 5 nights a week, these lights blind me, sometimes making me see black dots like when you look at the sun they're a danger"                                                                                                                                                                                                                          |
| 5/18/2019 | "I have to wear yellow glasses in order to drive at night because of these blue headlights."                                                                                                                                                                                                                                                                      |
| 5/18/2019 | "Headlights are too bright, people have them on low beam and looks like they are on HIGH. It's glaring and it hurts your eyes."                                                                                                                                                                                                                                   |
| 5/18/2019 | "There is no need to be able to see into space. If I am blinded by your headlights and you're more than 50 feet away... unnecessary."                                                                                                                                                                                                                             |
| 5/18/2019 | "I am so afraid to drive at night because of the terrible glare that comes with these bright lights. When I do, I have to put on my brakes because I can't see the road and then I'm afraid someone is going to hit me from behind."                                                                                                                              |
| 5/18/2019 | "These lights are way to bright and cause people to not be able to see"                                                                                                                                                                                                                                                                                           |
| 5/18/2019 | "LED lights are dangerous when coming at me on the highway."                                                                                                                                                                                                                                                                                                      |
| 5/18/2019 | "I got eye problems yo"                                                                                                                                                                                                                                                                                                                                           |
| 5/18/2019 | "Blinding LED headlights have no place on our highways or city streets; no wonder so many pedestrians are accidentally hit! What are auto manufacturers thinking??"                                                                                                                                                                                               |
| 5/18/2019 | "Unfortunately, those yellow glasses are useless for many people—I've tried 2 kinds, both useless..."                                                                                                                                                                                                                                                             |
| 5/18/2019 | "Drivers safety is first"                                                                                                                                                                                                                                                                                                                                         |
| 5/18/2019 | "I have a problem seeing"                                                                                                                                                                                                                                                                                                                                         |
| 5/18/2019 | "I hate driving at night. The glare from headlights is very distracting. I hate trucks that have them. Up higher, right in your rearview mirror or eyes!"                                                                                                                                                                                                         |
| 5/18/2019 | "LED lights are so dangerous, esp. on the two lane back roads with no guard rails. They blind oncoming traffic to the point of not being able to see where center line or outer edge of road is located. Too manyHave already lost their lives because of these LED lights. They, in my opinion, need to be banned. I used to have 20/20 vision, but not anymore" |
| 5/18/2019 | "Because I'm tired of being blinded while I'm driving."                                                                                                                                                                                                                                                                                                           |
| 5/18/2019 | "I drive to work in the dark and have had to pull over and let someone pass because they were blinding me. My husband hit a deer because someone going the other direction blinded him and he didn't see the deer."                                                                                                                                               |

|           |                                                                                                                                                                                                                                                                                                                                                                                                          |

|           | causing blinded drivers to then retaliate by turning on their high beams, increasing the danger of the situation. Why is it legal for these companies to make and sell aftermarket HID kits? There are actually studies proving that they do not improve the driver's visibility, but actually decrease distance of visibility and cause the driver's pupils to dilate, limiting their peripheral vision. (<a href="http://www.danielsternlighting.com/tech/bulbs/Hid/conversions/conversions.html." rel="nofollow">http://www.danielsternlighting.com/tech/bulbs/Hid/conversions/conversions.html.</a>) These companies should be forced to stop creati"                                                                                                                                                                                                                                                                                                                                                |
| 4/19/2019 | "It is dangerous and impossible to see. When these bright lights come into view I have to squint or sometimes entirely close my eyes."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 4/19/2019 | "Yes! They are actually physically painful to my eyes too!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 4/19/2019 | "I do feel instant physical pain behind my eyes when being blinded by these types of headlights, even when holding my arm up to block the light from my eyes, and it is enraging."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 4/19/2019 | "The aftermarket ones that people put on their cars are not legal at all."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 4/14/2019 | "The use of binding headlights are a danger to the public and on the public highways across America. These lights will cause more wrecks on the highways and be a detriment to everyone."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 4/12/2019 | "Makes it hard to see anything other then those damn headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 4/9/2019  | "I'm signing because the new ford truck is running four headlights on the low beam button. If you flash them you can't tell the difference when they flash back with their high beam. I cannot believe that this has been accepted through the safety council."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/8/2019  | "Dramatically impacted with sudden loss of vision whether seen in oncoming traffic or the rear view, I am adding my signature to thousands of others who have experienced the dangerously blinding glare of the HID headlights. We are asking that all blue light technology be banned on behalf of the lives of citizens across the country. The AMA stated that blue-rich light causes pain and damage to the human eye and suppresses melatonin at five times the rate of other wavelengths. They have urged people to move lighting toward the more natural and warm red-end of the spectrum.We are asking Congress, the Department of Transportation and NHTSA to take this matter seriously and ban all blue-light technologies on vehicles and to keep tail-lights, brake-lights and turn signals to a maximum brightness no greater than that allowed for traffic signals.Kathryn Thomas, B.S.N, M.A.E.T.Nursing Professor and AdjunctLinfield-Good Samaritan School of NursingPotrland, Oregon" |
| 4/6/2019  | "I want all glary LED lights banned completely. There needs to be class action law suits against the manufacturers for making dangerous products - street lights, car lights, porch lights, motion detecting seizure/migraine inducing etc etc. The global roll out of these horrible lights without regard to sensitive receptors like migraine and epilepsy patients is one of the biggest scams of the century. Ban them now!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 4/5/2019  | "I urge continued support for this petition to succeed."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

Then we will only need 75 million to reach the next goal!"                                                                                                                                                                                                        |
| 3/21/2019 | "It is the best time for us to watch the news and we liked the anchors & weather person."                                                                                                                                                                                                          |
| 3/20/2019 | " I don't like those! They blind you at night"                                                                                                                                                                                                                                                     |
| 3/19/2019 | "It's so annoying seeing these sorts of headlights, it honestly terrifies me"                                                                                                                                                                                                                      |
| 3/19/2019 | "OK, What was the point of telling us we need 5000 signatures if now the number is being raised to 7500? I'm guessing at 7500 they will say we need 10,000. Then it will say we need 15,000! What is the actual number we need to BAN BLINDING HEADLIGHTS? 100,000? 500,000? 1,000,000?"           |
| 3/19/2019 | "looks like change.org is ignoring our 5000. they raised the bar to 7500, which then will probably go higher and higher! Try this other petition!<br>#banblindingheadlights <a href="https://petitions.moveon.org/p/l_azY_5L9e">https://petitions.moveon.org/p/l_azY_5L9e</a> "                    |

| 3/19/2019 | "I'm only in my 30's and these lights literally blind you in the road especially at night. I also see people turn them on in the day I have no clue why. Something should be done about this. God feels like a UFO when someone has those beam lights behind you."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 3/18/2019 | "the lights are just too bright, like looking at a blue sun ray."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 3/18/2019 | "4997! Only need 3 more to hit 5000! When that happens, what happens? Will they be banned? Or will people still be allowed to drive around blinding everybody?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 3/17/2019 | "As a doctor of optometry, I fully endorse this petition."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 3/15/2019 | "I'm a teenage driver who drives a low car (Toyota Camry '05) and I cannot see when any car driving by has LED headlights. They are especially blinding on bigger cars since my head is right at the level of their headlights. I've taken to playing a game guessing whether it's a person with high beams on or LED lights since they're so similar. This blinding effect lasts long after the car has passed and is a danger to everyone. If I look at the edge of my lane I cannot see if anything jumps out in front of my car, and it does little to help me see."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 3/15/2019 | "* edge of my lane"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 3/15/2019 | "I signed because I have a special love for my retinas and would like for them to last the rest of my life."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 3/13/2019 | "I have to wear special blue light blocking tinted glasses at night and I'm still getting blinded from front and back by drivers every night. I have had to completely stop my vehicle, because the driver coming at me wouldn't dim there bright HID lights or maybe they couldn't be dimmed. It's much worse for older people, I understand."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 3/12/2019 | "LED Light bars coming at a driver are way too much to overcome when driving. Also, emergency lighting on cop cars is way over the top and creates a hazard when approaching and potentially obscure the scene."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 3/12/2019 | "I had a truck with what seemed like the whole front end was "lighted" so bright that I was totally blinded. Don't know if aftermarket lights were added, but I DO know his high beams were NOT on...at first, because he flashed them back at me (in a tiny Geo Metro!) when I flashed my brights at him. Somehow we both survived, but it was a polarizing moment. Since, other vehicle extremely bright lights in other settings have reinforced my belief that these bright lights are dangerous and in spite of "claims" they are carefully engineered and fall within the established standards, I can't believe they can. I have a Outback and a Silverado, both are newer and have pretty bright lights, but I have no complaint about those, and I HAVE experienced both approaching me at night - without being blinded. Car manufactures are claiming their new led lights illuminate a significant percentage better than the older ones, but they also want you to believe "brighter" doesn't blind oncoming drivers. Which I call "b.s." I'm don" |
| 3/12/2019 | "90 sigs to go!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 3/11/2019 | "These oncoming lights are TOO BRIGHT making it dangerous to drive at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 3/11/2019 | "Jennifer Sloan"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 3/11/2019 | "I'm badly affected by the effects of l.e.d lights when I drive at night not only on main roads but particularly when I have to drive through wooded areas where large cars use they're beams and redirect them too late."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| 3/11/2019 | "The new headlights are dangerous. It always appears as highness are on. The lights are blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 3/11/2019 | "I am signing this because 1. They are blinding and I would venture to say most people are driving with their highbeams on so they can see the road in front of them vs looking down at the ground, because the radius of the beam is so small on low-beam. 2. You might as well be driving with 2 flashlights on the front bumper for as useless as these lights are at night, other than people being blinded by them! Why would anyone need lights this bright while driving???? It's crazy!"                                                                                                                                                                       |
| 3/11/2019 | "Literally just got blinded on my way home this evening by several cars on a dark Road. I had to pause driving because I genuinely couldn't see the road in front of me for the brightness. Made me so cross!! This has to stop!"                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 3/10/2019 | "We're almost to 4900! We need 5000!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 3/7/2019  | "Feels like eternity when one is blinded by LED headlights, as ones car continues to move forward but the driver can't see anything. The recovery time from the glare is too long. Even looking to the very edge of the white line away from the lights does not work. It's scary. I just returned from a short drive home and was blinded by 4 SUVs that sit higher than my own SUV. I was so enraged, I figured I can't be the only one who has trouble with LED light, that a quick google search revealed I am not alone. Please support banning LEDs that are brighter than traffic signal. Please also push to enforce proper height adjustments to headlights." |
| 3/7/2019  | "It's a scary feeling when your car is moving forward at whatever speed but you, the driver, can't see a thing because you have been blinded by LEDs of oncoming traffic, especially those of SUVs and other lifted trucks. Seconds feel like eternity when you are blinded."                                                                                                                                                                                                                                                                                                                                                                                          |
| 3/7/2019  | "Stop this dangerous practice"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 3/7/2019  | "This is crazy! Beam the lights properly on the road, not into outer space!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 3/6/2019  | "Totally agree 100% with this petition. I am literally BLINDED now at night - both as a pedestrian and a driver. I now HATE driving, and even walking around at night. The daytime running equivelants are also just as bad, ruining the "peace" and aesthetic of walking about in the day while not bringing any safety improvements. These ridiculously bright blinding lights need to be reigned in - and quickly..."                                                                                                                                                                                                                                               |
| 3/6/2019  | "“it was obama”.. LOL. amazing what you brainwashed republican trolls will do to inject your divisive hate speech everywhere. This is happening EVERYWHERE! pushed by the auto manufacturers and most countries outdated legal standards that only define light intensity as “wattage” and not “lumens”. Go look it up and take your divisive trolling elsewhere..."                                                                                                                                                                                                                                                                                                   |
| 3/6/2019  | "These headlights are distracting, blinding, and painful!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| 2/25/2019 | "I now have to turn my mirrors down so I'm not blinded by the cars behind me let alone the cars in front of me!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2/24/2019 | "I agree that these blinding lights are not necessary and are even dangerous! What happened to the times when people were considerate of others by dimming their "bright lights" when ANY oncoming vehicle was visible? I also agree that the angle of truck lights are even more blinding especially if one is in a car that sits a bit lower. I plan to keep looking for options to make our opinions heard by car manufacturers, legislators and law enforcement!"                                                                                                                                                                                                                                                                                     |
| 2/22/2019 | "LED headlights are painful and dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 2/22/2019 | "I can't drive at night now because it's I can't see with these bright headlights. It's not necessary."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2/22/2019 | "I'm tired of being blinded by headlights as I drive"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 2/22/2019 | "save a life"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 2/22/2019 | "The issues that are even larger than simply having OEM installed xenon or LED headlights is the positioning of the lights themselves. There is no federal standard for maximum headlight height, large vehicles should have a maximum height off the ground headlights are allowed to be designed into the vehicle. Additionally, the inexpensive aftermarket pieces that people are adding to their vehicle are absolutely ridiculous and the biggest part of this nationwide issue! For \$50 someone can go on eBay or Amazon and buy a xenon light kit and install it into their non-factory equipped xenon headlight housings (which is 100%" illegal to do). This creates very bad scatter, glare and poor illumination, even for the driver. also, |

| 2/20/2019 | "It's an absolute FACT, the intensity from these headlights not only temporarily blind for some drivers but also migraines with visual aura. The light feels like a laser. As for the street lights, I describe the most common ones as glare bombs, no matter what "color" they are. They are excessively too bright, with a glare the most offensive attribute. I am a lighting professional that is confident with my justified reasons for signing this petition. The healthcare professionals - neurologists, optometrists along with the lighting manufacturers, designers need to have a conversation with the actual people who are affected." |

| 2/11/2019 | "I'm signing this petition because blinding headlights cause epileptic seizures. And rather the car is fully equipped, or motified by owner. They are causing serious harm to those who have epilepsy."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 2/11/2019 | "As a bicyclist, I agree that LED lights should only be so bright as traffic signals on automobiles so not to blind other drivers and others on the road. However, I rely on LED lights on my bicycle to be seen. I do not believe my bicycle lights go beyond the brightness of traffic signals."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 2/9/2019  | "As a chronic sufferer in general, I couldn't tell you how many times I've been given migraines after being blinded by LED headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 2/9/2019  | "These blinding lights killed and will kill thousands and hundred thousands of people. We need to stop this madness."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 2/9/2019  | "I have personally experienced dangerous blinding, inability to safely stay on my side of the road, and even turned off of road too quickly and ended up in a culvert due to the intensity of the overly bright LED and/or HID headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 2/9/2019  | "They, re annoying and dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2/8/2019  | "We are getting closer and closer to that magic number 5000 signatures! I wonder what happens when it hits 5000."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2/7/2019  | "headlights are bad"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 2/7/2019  | "It's damaging eyes and we can't see while we're driving there is nothing good about led hid headlights. We had it right for so many years. Why do they change it for no reason. We need to start a Class Action lawsuit against the Government, dot, and the automobile makers. We need to hire some good lawyers. That is the only way to get change. These terrible lights are not even close either. They are like 300 times to bright and I think the rays are too sharp too. So the entire style of the light is just Criminal. Sometimes I feel like getting a green laser and shining it right back at the on coming violator to teach them a lesson. I will never buy one of these new junky poorly designed cars. I drive a 2004 GMC Sierra and its just fine and the Lights are normal." |
| 2/7/2019  | "We need to All Start a Big Class Action lawsuit. This is rediculous that this has happened. Some idiot that have no sense or cooth is the one that put these on all the cars. Actually it was obama. I remember a speech of his saying he wanted all cars to go to LED's in the future. He is such an idiot. led technology and it's waves and rays are say to intense and sharp. It's criminal. It's assault."                                                                                                                                                                                                                                                                                                                                                                                    |

It's assault."                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2/7/2019 | "I have blue Eyes too and the rays are sharp and intense. I can actually feel them hit me. I think it pretty much equally affects people with green and brown eyes too. We need to protest at Capitol hill also we all need to start a Class Action Lawsuit."                                                                                                                                                                                                                                                                                                                           |
| 2/7/2019 | "yes even the tail lights and blinkers are WAY too BRIGHT. It's the type of ray it used. the LED's are just bad and probably invented by Satan or obama."                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 2/7/2019 | "It's Criminal. These lights are not even close. It's like someone was going out of their way to make everything LED HID. That is a bad technology all together and a dangerous one. It's assault."                                                                                                                                                                                                                                                                                                                                                                                     |
| 2/7/2019 | "Me too. It's insane. I think it's so ridiculous that some one did it on purpose to hurt people. I do remember obama in a speech about 6 years ago saying that he wanted all cars to go to LED HID lights. He's such an idiot."                                                                                                                                                                                                                                                                                                                                                         |
| 2/7/2019 | "Thank Obama for it. He preached and ordered all car makers and truck makers to have LED HID lights. LEDs are the same tech used to make those green lazer pens that are illegal to shine. Except they just make it White, Yellow or Bluish White and they aim it in a cone instead of one line. Its' the exact same thing though. This is Illegal what the government is doing to the People."                                                                                                                                                                                         |
| 2/7/2019 | "They can even cause permanent or more serious damage which we don't really like talking about. This is probably the worst problem that has ever happened in USA history probably worse than slavery because that really only affected like 5 % of the population."                                                                                                                                                                                                                                                                                                                     |
| 2/7/2019 | "It actually hurts. The Trucks have lights that are like 1000 lasers. It hurts my eyes and is affecting them. Can we forward this to Donald Trump to make an Executive order and fix this ridiculous obama crime he's done on everyone."                                                                                                                                                                                                                                                                                                                                                |
| 2/7/2019 | "democrats did this and they have no common sense and they hate people. Litterally this is an obama policy."                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 2/7/2019 | "I used to love driving at night. Now it's just ridiculous and there is nothing that can be done other than the government needs to step up big time and fix this terrible problem that obama and his minions caused. This is criminal and they did it on purpose. everyone already knew that led sucks even on flash lights. Those whitish blue flash lights that they were pushing at cheap stores (I never bought one Cause I have good taste and can tell when something is junk but others bought them and would take them camping) Everyone knew those flashlights were garbage." |
| 2/7/2019 | "LEDs HIDs are GARBAGE!!!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 2/7/2019 | "They are WAY WORSE. They use laser technology. Oh no I said the magic word to a millennial "technology" now all the millennials wil coming running saying how awesome and hip they are. That is the problem. millennials don't complain about the things that matter. They love and accept any kind of new electronic even if it's garbage."                                                                                                                                                                                                                                           |
| 2/7/2019 | "Led headlights screams "I'm a douchebag""                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2/6/2019 | "I, too, often have trouble seeing at night with these very bright lights. I have thought people are driving with their him beams on"                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2/6/2019 | "These lights trigger my migraines making it dangerous for me to drive!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| 2/5/2019  | "I'm signing because these lights are terrible for drivers and the environment. We had to fight to get these lights turned away from our house when a new government building went up next door. Thankfully, we had a community rep that took action for us."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 2/5/2019  | "I literally cannot see when LED headlights coming toward me on a dark rural road."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 2/4/2019  | "The new headlights are endangering oncoming traffic. They are simply blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/4/2019  | "These lights are blinding"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 2/3/2019  | "This really is a big safety issue, and these lights don't belong on the roads."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| 2/3/2019  | "I'm going to get in an accident if they don't ban these high intensity lights!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 2/3/2019  | "I have very light blue eyes and these headlights cause actual pain when they shine on my face at night. It makes driving at night dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2/3/2019  | "These headlights cause glare disability and temporarily blind drivers in oncoming traffic. Eliminate the blue-rich white headlights and use warmer temperature colors such as amber."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 2/3/2019  | "Led lights are too bright and a health and safety hazard"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 2/3/2019  | "I drive from Suffolk County to Queens and back again every day to and from work, most of the time in the dark. The newer headlights are downright blinding in the rearview and side mirrors. To make matters worse, the city and counties have begun switching the amber streetlights to bright white blinding lights that hurt my eyes and make actually seeing the lines in the roadways (or lack thereof, especially on Queens Blvd and Union Turnpike) virtually impossible. Please reconsider a better alternative, as these bright white lights are blinding drivers and I'm just waiting for the accidents to happen. I really do not want to be one of them."                                                                                                                                                                                                                                                                                                           |
| 2/2/2019  | "These bright headlights (and even tail lights too) make night driving a nightmare."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 2/1/2019  | "I'd like to get home safely without being blinded by overly bright headlights as I'm sure others would too."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 2/1/2019  | "It is blinding! I have been thinking that people are just insensitive lately and must all the sudden be driving with their high beams then thinking something must be wrong with my eyesight since all of the sudden everything appears to be so blinding only to find out that it's not me that people are now driving with these high powered lights which are blindingly dangerous. The blue lights are the worst offenders. Please ban use of the blue lights and even the high powered yellow lights (I am not talking about high beams) or find some way to make them safe for the public as this is becoming a real danger to society especially on highway driving at night. Furthermore the law should be targeted at the manufacturers of these, auto shops, and mechanics so that they will know not to sell or install these lights for the average person thereby reducing the chance someone will use them knowingly or unknowingly. Please address immediately!" |

| 1/30/2019 | "The new trend of blindingly bright headlights over the last few years is making it harder for other drivers to see at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 1/30/2019 | "These lights are blinding creating very dangerous situations! After being blinded by the light, it's hard to see the road, deer about to cross, etc."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 1/29/2019 | "When these cars are coming at you it is almost impossible to see through the lights and you are temporarily driving blind"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 1/29/2019 | "I want to see at night not to be blinded by the light"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 1/29/2019 | "I was almost in an accident when making a left hand turn because the car across from me at the stop light had such BLINDING lights (not adjusted, not facing the road, but straight ahead so as to be dangerous) that I temporarily couldn't see the road. When the lights are on oncoming traffic, they are horribly dangerous. I am not alone in my complaint with this. The drivers with the ultra-bright lights can see fine, but it is inconsiderate and downright dangerous to other drivers who have to share the road. These lights are worse than a car having their "high beams" on."                                                                                           |
| 1/28/2019 | "Twice in the past week I was almost involved in accidents due to these lights. One because a car behind me had them and their glare off my side mirrors made it difficult to see the road in front of me. Another time another driver drove off the road and I almost hit him. When I stopped to help he told me the headlights of a Lincoln caused him to crash."                                                                                                                                                                                                                                                                                                                        |
| 1/28/2019 | "People such as myself that have what is known as night blindness is a struggle in itself trying to drive at nighttime, add rain in that mix it's twice as hard to see your side of the road. So when you meet the blinding lights of oncoming traffic (even on dim) some of the later model vehicles with LED headlights, I personally have to concentrate to the right side of the road or I totally lose vision. I have a 2017 Ford vehicle and upon meeting oncoming traffic they constantly blink their lights at me thinking my lights are on bright when in fact they're on dim, I know if I flash them I'll blind them so I try not to do it unless they continue to do so at me." |

| 1/24/2019 | "It's very dangerous. The blinding glare from oncoming vehicles with these new headlights are a concern to me and many other drivers I've talked with. Thanks."                                                                                                                                                                                                                                                                             |
| 1/24/2019 | "These lights are blinding and dangerous. I can't imagine driving at night when every car has them. Let's use some common sense and put people first."                                                                                                                                                                                                                                                                                      |
| 1/23/2019 | "People need to have good vision at night, and intense light is not a good way to do that."                                                                                                                                                                                                                                                                                                                                                 |
| 1/23/2019 | "I thought I was the only person that notice this."                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/23/2019 | "I feel the headlights are very blinding and dangerous to everyone on the roads"                                                                                                                                                                                                                                                                                                                                                            |
| 1/23/2019 | "I am signing this petition because I am tired of being blinded by the lights of oncoming vehicles while I drive at night.I can't use the visors to shield my eyes since they won't go lower.I thought car designers were placing high beams higher up on SUVs and 4x4s.Please make changes so driving at night is safer for those who are blinded by these lights.If these lights also harm the environment then please ban these lights." |
| 1/22/2019 | "I CANNOT SEE"                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 1/22/2019 | "I've head people claim that only the elderly are blinded by these headlights. That's not true at all. I'm only 25 and I have to shove my rear view mirror out of the way (dangerous!) in order to see when a truck with LED headlights is following me. It's a constant struggle to see at night while driving. All of my young friends complain about this as well."                                                                      |
| 1/22/2019 | "Some people claim that only the elderly are blinded by these headlights. That's not true at all. I'm only 25 and I have to shove my rear view mirror out of the way (dangerous!) in order to see when a truck with LED headlights is following me. It's a constant struggle to see at night while driving. Every year LED headlights become more popular. It's gotten to the point where I avoid driving at night whenever I               |

| 1/22/2019 | "I agree"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 1/22/2019 | "I'm blinded every night by oncoming drivers of newer vehicles with LED headlamps. So Bright that i signal the oncoming driver to turn off his high beams only to have the driver toggle his high beams and absolutely blind me. To the point that i have to pull off the road way because i can't see. It scares me. Even on low beam LED headlights are disruptive to other drivers ability to see. In fact Even when a driver behind you has LED lamps it reflects off of rearview and side mirrors to the degree that its blinding. As the driver of a compact and miss size car is like to add that the problem of blinding headlights seems worse too me when the oncoming vehicle with LED lights are larger trucks." |
| 1/21/2019 | "I've been a truck driver for almost 37 years people driving today don't know what a dimmer switch is or how to adjust there lites or if the car come with driving / fog lights in the bumper they run them constantly to out of adjustment"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 1/21/2019 | "Patrice Barry"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 1/21/2019 | "I'm afraid to drive at night because of these lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 1/21/2019 | "Let's Make Blinding Lights Against The Law & punishable by PISTOL WHIPPING AND ARREST!!! This problem has become a "cancer" because as young generations begin driving, they think these blinding lights are "normal" because this is all they know. New generations of drivers don't know any different. My Opthamologist STOPPED driving at night because it was damaging to her eyes!!! The above article is Spot-On when it says, "... A visual field so polluted by distracting glare that the brain has a hard time keeping focused on the important subjects like pedestrians in a crosswalk." Brighter is NOT SAFER. The time to Act is NOW."                                                                       |
| 1/21/2019 | "PLEASE THIS IS INSANE VVITH THESE LIGHTS!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 1/21/2019 | "What we really see in a city like seattle with pedestrians and people on bikes is other drivers can't see them because they are in the glare-zone-of these awful unsafe high-lumen-High-Kelvin lights. #VisionZero"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/21/2019 | "These lights are as bright as high-beams used to be and catching one in the face as a driver crests a hill can be totally disorienting!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 1/21/2019 | "The blue-rich glare from these high kelvin lights are a safety hazard. We must change this dangerous trend!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 1/21/2019 | "I have been blinded many times by LED headlights especially at night. Very dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 1/20/2019 | "Every night i drive and have to divert my eyes from the blinding effects of these lights on the road ahead or reflected in my mirrors from behind. I can see the shadow of my own car infront of me from the illumination of these bright lights. It is very unsafe. It affects my ability to see clearly. These lights need to be outlawed and replaced with safer lights."                                                                                                                                                                                                                                                                                                                                                |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| 1/20/2019 | "These are blinding and very dangerous. I drive a school bus and these lights produce intense glare to the point of no one being able to see children at bus stops. It's just a matter of time until tragedy occurs."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1/20/2019 | "I have a hard time driving at night because of all the glare and feel like everyone has their brights on. My husband feels the same."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1/19/2019 | "I drive a long way to work and I am encountering more and more vehicles with these types of lights. I cannot believe they are allowed. It appears engineers only considered one side of this equation! I have recently seen pick-up trucks with basically two headlights on each side of the vehicle! Enough already!"                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/18/2019 | "Countless near misses from LEDs and hids in the wrong housings on these jacked up trucks."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 1/16/2019 | "I have almost run into cars several times when trying to change lanes, due to being blinded by LED lights on vehicles behind me!! If windows tinted too dark is illegal, this should be a no-brainer!!!!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 1/15/2019 | "I'm glad you can see into the future and all, but I'd like to see where I'm going too."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 1/15/2019 | "The increase in the brightness of headlights produces frequent situations in which even the "low beams" from many cars are dangerously bright and distracting, often making lane-marking marks and pavement boundaries harder to discern."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 1/14/2019 | "For the record, it is not a senior's problem with a brightness of these halogen headlights!... It is a common sense problem! I'm in my forties and I've had terrible frustration at these headlights for years now. I am a former professional truck driver of many years and I have to say, the worst are tractor trailers with these headlights as they set up higher than regular cars and are terribly blinding when they drive behind you, let alone the problems oncoming. Note to the National Highway Traffic Safety Administration, it doesn't take a study to realize that the lights are blinding, just common sense! .... stop your studying and start saving drivers by Banning these VERY DANGEROUS headlights!" |
| 1/13/2019 | "I suffer chronic migraines and they definitely trigger them, but they also cause eye pain and difficulty seeing at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 1/11/2019 | "I have been complaining for a couple years about these lights. I can't believe they are legal. I literally have to shut my eyes when passing a car with HID/LED lights. I have almost ended up in the ditch from being blinded. They are straining to the eyes. I have perfect vision, I'm 27, and in good health. Tired of people with them saying we shouldn't be driving at night if we can't handle it."                                                                                                                                                                                                                                                                                                                   |
| 1/10/2019 | "More cities are switching to LED street lights to increase energy efficiency. There is absolutely NO REASON—other than pointless vanity—why people in our cities need LED or HID headlights on their vehicles. It doesn't help that auto manufacturers are abetting this unnecessary and dangerous trend by fitting their vehicles with HID headlights that are too bright, even when meeting current code. And though blue-white headlights are illegal in my state of California, after-market conversion kits are available on the internet. These lights are a menace and a safety hazard, and are not needed in brightly-lit cities."                                                                                     |
| 1/10/2019 | "These are a danger to public safety."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 1/8/2019  | "I am unable to see when they are coming. I have gone off the road because I have lost the road in the light. They also cause pain"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|          |                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

|-------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 12/31/2018  | "The new headlights on cars and trucks are absolutely blinding to me when I'm trying to drive at night. I cannot believe these are even legal! I have seen trucks with additional LEDs added as a third front light that are SO BLINDING that have to shield my eyes from them, almost running off the road. When I was learning to drive many years ago, it was STANDARD practice as well as common courtesy to dim one's lights when approaching an oncoming car or when following behind another car. Now it seems the more obnoxiously bright one can be with their lights, the better?! This is NOT OK." |
| 12/31/2018  | "I am often blinded by these lights and it seems to be getting worse. There seem to be more and more vehicles on the road like this. I consider it a road hazard."                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 12/30/2018  | "because I trust Martin Cohen"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/30/2018  | "Preserving vision and saving lives is important"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/30/2018  | "I live in the country and drive on dark winding roads. Oncoming blinding LED headlights make it dangerously impossible to see anything for several seconds!"                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 12/29/2018  | "It makes it very difficult for me to see! I can't wear sunglasses at night and it's truly hard to keep my eyes open with some cars."                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/29/2018  | "Imagine you are driving along a winding canyon road, in the dark, no lights except the stars and the moon. You have very good vision, but you have the normal visual reactions of a person 65 years old. You have an excellent driving record. However, a car comes around a curve from the opposite direction, with headlights that send a blinding, searing light to your retinas, and completely wash out your visual field for 5 seconds or more. You know the curve up ahead, you are familiar with the road, and so you gently come to a stop (an abrupt stop could cause the                          |

|            | car behind you to either swerve or push you over the side), and briefly wait to recover your vision. But maybe next time, or some other unsuspecting driver won't react so well, or won't have time, or just won't know the road well enough. These lights are murderers."                                                                                                                                                                                                                                                                                                                                        |
| 12/29/2018 | "Yep! Always a problem, here too!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/29/2018 | "They are very bothersome."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 12/28/2018 | "These lights blind me, not to mention Science shows us that blue spectrum light contributes to macular degeneration."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 12/28/2018 | "This is an international epidemic affecting road users as a result of very poor design decisions by car manufacturers. Their drive towards making a car seemingly safer for a driver in fact is making those very cars a lethal danger to other road users, including other car drivers. Glare is lethal. Blinding, blue-white headlights are lethal. The trend towards ever brighter lights, front and rear, is lethal. Just because car manufacturers can make their car lights brighter doesn't mean they should. They are creating conditions that will kill increasing numbers of people in years to come." |
| 12/27/2018 | "These headlights are hazardous! There should be light levels limits on vehicles."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/26/2018 | "I do not have any sensitivity to light, lack of vision, etc. and these lights are still extremely blinding. Who is to blame when these lights cause a fatal accident? This needs to stop."                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 12/26/2018 | "Those lights should be banned."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/26/2018 | "I'm tired of being blinded in traffic. It's dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 12/26/2018 | "I'm being blinded at critical driving decision moments by cars with these lights. The blinding effect lasts after the car has passed putting us all in danger."                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/25/2018 | "They're too damn bright!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/23/2018 | "It's simply blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/23/2018 | "I drive a winding hilly country road frequented by caravans of tire testers. If they have LED lights it is punishing and dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/23/2018 | "I have chronic migraines & driving at night has become impossible. Because these headlights trigger them instantly."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/23/2018 | "They should not even be legal"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

Those lights should be banned!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/22/2018 | "greg bond,it's to much light and distracting on the road!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 12/22/2018 | "I'm a driver"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/21/2018 | "Whether it's a vehicle coming towards you (blinding direct lights) or a large vehicle behind you (blinding through the rearview mirrors), these HID/LED/blueish lights pose a huge safety risk to other drivers. A few seconds without being able to see your surroundings on the road are enough to cause a major accident."                                                                                                                                                                                                                                                                                    |
| 12/21/2018 | "I get blinded at night with these lights . i have sensitive eyes to bright lights and cannot drive at night because of these headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/21/2018 | "My epileptic partner can't even be in the passenger seat without getting a seizure cause of these stupid lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/21/2018 | "I wear glasses with an anti glare protection. They do not work with the new blinding headlights. The glare is blinding, the range of luminescence / beam is to                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
|------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
|            | far outward blinding oncoming traffic. Dangerous and disturbing during and after the lights hit my eyes."                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/20/2018 | "I hate the ultra bright headlights so much! They might help the driver possessing them to see better but the rest of us are blinded and at risk of injuring ourselves or others as a result."                                                                                                                                                                                                                                                                                             |
| 12/20/2018 | "These lights are irritating honestly aren't high beams enough when you need bright lights to see the road. I have to wear sunglasses at times to be able to make it through my drive home from work. I've had spots in my vision and had to pull over. Seriously these lights gotta go I'm done with them they should never even become a thing."                                                                                                                                         |
| 12/20/2018 | "I'm signing because I'm tired of having pick up trucks behind me in my car blind me with their LED headlights. They are also blinding when coming at you on the opposite side of the road."                                                                                                                                                                                                                                                                                               |
| 12/20/2018 | "I am signing this petition because with car sales down and SUV sales up, these exorbitantly bright lights are increasingly difficult to avoid. I don't see how they make driving safer when approaching cars are blinded."                                                                                                                                                                                                                                                                |
| 12/20/2018 | "I'm sick of being Blinded by headlights. Blinded by a douche who's driving with his high beam lights!"                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/20/2018 | "On multiple occasions I have been close to either going off the road, or even hitting head on with another vehicles due to the ridiculous brightness of LED/HID headlights. For the safety of all road users they should be either banned or at least regulated."                                                                                                                                                                                                                         |
| 12/20/2018 | "Those lights are blinding"                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/20/2018 | "I prefer to be able to see when driving at night."                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/19/2018 | "they are dangerous. My car sits pretty low and when trucks or jeeps are coming toward me I can not see."                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/19/2018 | "I'm tired of being blinded and almost wrecking every night from work. I can't take it anymore."                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/18/2018 | "these lights are way too bright."                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/18/2018 | "I had the same thing happen to me a few weeks ago. At first I thought I had at least two vehicles behind me. The 6 headlights (3 on each side) also had the smaller bulbs surrounding them. The smaller bulbs alone put out more candlelight power than my high beams. In all, I would not be surprised if I had 6 large bulbs and at least a dozen smaller bulbs in my rear view and side view mirrors. I was totally blinded and had to pull off to the side to let the idiot pass me." |
| 12/18/2018 | "I think it is funny that not too long ago you could get a ticket for having your high beams on when approaching oncoming traffic. Now, one of those bulbs is 10X brighter than the old high beams. And they have a lot of those bulbs on some of the trucks."                                                                                                                                                                                                                             |
| 12/18/2018 | "Makes you wonder how the auto industry got these okay'd? How much did they have to pay someone off to get these made legal?"                                                                                                                                                                                                                                                                                                                                                              |
| 12/18/2018 | "I have complex migraines that are triggered by light. Driving at night has been made unbearable due to these headlights. During a 7 hour road trip recently I was so afraid I would wreck. There were hundreds of times on that journey that I simply couldn't see."                                                                                                                                                                                                                      |
| 12/18/2018 | "I'm signing because if nothing happens and the only choice left is to be forced into having the bright lights, we all lose."                                                                                                                                                                                                                                                                                                                                                              |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| 12/17/2018 | "I find it unbelievable that we allow these horrific blinding headlights to create a peril to drivers. Please ban them."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/17/2018 | "It's completely true. Everyone is saying it."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/16/2018 | "This truly is a serious threat to our society. While new types of lighting help in certain situations, the end result is causing more harm than good. We need a more gentle spectrum that accomplishes safer driving for all. Go NHTSA and save us. Please fulfill your mission for all of us esp. Our new drivers, our children."                                                                                                                                                                                                                                                                              |
| 12/16/2018 | "Hate the bright lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/14/2018 | "People don't see the bigger picture here. They think if they have brighter headlights it makes everyone safer. That couldn't be further from the truth. When you blind oncoming traffic with your blinding headlights it makes it harder for them to see pedestrians crossing, makes it harder to see potholes in the road, makes it harder to see curbs. Many things! And what ever happened to properly aimed headlights? Is it even possible to aim LED's? Most of the time they look like they are aimed both high and low. This is very dangerous!"                                                        |
| 12/14/2018 | "That is exactly the point I try to make to people."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/14/2018 | "I was trying to turn into a business parking lot recently and ran over a curb because i got blinded by laser headlights. I was so pissed!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/14/2018 | "I'd like to follow them to where they park their vehicle, and then spray black paint over their shitty lights! But I don't want to go to jail because of them being assholes!"                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/14/2018 | "I got "attacked" a couple nights ago by a Jeep coming toward me with 6 headlights, and they were all blinding LED's. They had the 2 blinding headlights, plus 2 blinding foglights, PLUS a light on each side of the windshield that hung out above their rear view mirrors, and those ones were seriously blinding because of their high mount, and total disregard for proper aim! I bet those are illegal for street use anyway. Why don't cops pull those shitheads over and cite them? and those rectangular all-LED light bars, aren't they only for off road use? I keep getting blinded by those, too!" |
| 12/13/2018 | "Those lights are blinding and dangerous at night! I have eye problems and because of those lights, I can't drive at night. Please ban them!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/12/2018 | "I hate those headlights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/12/2018 | "Cataracts make night driving difficult. Bright lights cause halos and are distracting."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/12/2018 | "I've never had problems with oncoming lights until recently. To me these new headlights are more of a problem than the older lights on high beam. Please ban these lights and create standards that work for the driver and their fellow drivers."                                                                                                                                                                                                                                                                                                                                                              |
| 12/12/2018 | "Bright LED headlights actually make it harder to see at night because of the glare. Please take measures to lower the intensity of these headlights!"                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/12/2018 | "I live out in a rural area. At night, when an oncoming vehicle has HID/LED headlamps, about 90% of the time, I'm blinded to the point of barely being able to see the white line. Much less a deer, raccoon, or rare pedestrian."                                                                                                                                                                                                                                                                                                                                                                               |
| 12/12/2018 | "As everything else concerning safety is regulated on a vehicle , it is baffling why headlights are not! Some of these lights are more blinding to on coming traffic Than high beams."                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/12/2018 | "General Motors, pickups are blinding, GM is the worst must be cheaper headlight setup as gm will blind u to save .50¢"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

| 12/12/2018 | "I'm terrified to drive in the evening because of this!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/11/2018 | "These headlights are causing me to be blinded so often it's a wonder I haven't gotten in an accident yet. It's a matter of time. . This is ridiculous they are a danger to everyone on the street except the people who have them."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/11/2018 | "It's dangerous to be blinded while driving"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/11/2018 | "I sometimes literally end up seeing spots after a car on the other side of the highway blinds me."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/10/2018 | "These headlights are extremely dangerous and unnecessary. I can see the road just fine at night with my regular lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/10/2018 | "because my eyesight and anxiety are bad enough already, and I don't need your jackassery to fuck the road up for me"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 12/9/2018  | "Those headlights are blinding to oncoming traffic!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/9/2018  | "A police officer had a car pulled over on the side of the road with blue led lights signaling. I slowed down to go around but thought the officer was in the vehicle. I was HORRIFIED as I drove past to suddenly be able to see that the officer was actually outside his vehicle and that I was unable to see him until I had come alongside him. The blue leds did not illuminate the area. They bathed the area in blue color. This distorted what I was able to see. I worry for everyone's safety with the use of led."                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/9/2018  | "It's so hard to drive at night with these glaring lights. Unnecessary evil."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 12/9/2018  | "Lights are too bright and cause others to be blinded"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/9/2018  | "When I come upon headlamps and police cars that have blinking lights, these days those colored lights blind me for several seconds .. seriously impairing my ability to safely navigate for a ways down the road. It's frightening. There is serious enough risk in recovery time that it might as well have been distracted driving cell phone use. The eyes are rendered useless in these events. Why are the safety patrols using blinding lights !? ?!?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 12/9/2018  | "I am a car and motorcycle enthusiast I fitted off road Halogen lights to my vehicles for decades I remember getting tickets for using my lamps on a highway Never blinding others Late night Dark conditions Still the officers hiding behind a tree will find the excuse to issue a citation Well Today we get 500% more glaring and blinding lamps on the road and those are used as regular headlamps Those blind and glare to extreme levels Needless to say a corrupted DOT has allowed those lamps to be used on cars putting safety on the side I do not see policemen ticketing drivers BMI ding others with their Zenón and LED lamps because the DOT has allowed them to be used on highways and the police follows this corrupted decision by the DOT We need to impeach the officials from the DOT and send them to jail for having put aside safety in the place for money given to them by car manufacturers We need action Impeach the DOT" |
| 12/9/2018  | "They are too bright and dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/8/2018  | "Some jerk tailgating me for over ten minutes caused night blindness in my one eye that couldn't avoid the glare. And I legit cannot properly see the road or its markers when passing other cars with this, and they seem to only be growing in population..."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/8/2018  | "I live in a fairly rural area where many of the roads are narrow, lack white lines and have little to no shoulder. Wildlife in the road is also a big concern. These                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

|           | lights make it impossible for oncoming drivers to see the edge of the road or hazards on the shoulders."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 12/8/2018 | "Because I am blinded to the point of getting in an accident at least 4 times every morning and every night. I don't want to die!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/7/2018 | "LED headlights and taillights are a catastrophe. It's unbelievable that our government is allowing this. How are we supposed to even drive anymore?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/6/2018 | "We used red lights in the Army for night operations. They don't over stimulate your eyes and allow quicker recovery when going back to darkness. This has been known for a very long time. I don't understand why our government ever allowed these super bright lights to become such a menace..."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/6/2018 | "It's really bad now"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/6/2018 | "Les lumières des voitures me donne beaucoup de migraines , depuis que j'ai cessé de conduire lorsqu'il fait noir je n'ai plus de migraines. C'est très aveuglant et donc très dangereux de conduire en étant aveugle, car les voitures en sens inverse nous aveugle , il est impossible de voir une bête ou un piéton qui serait sur la voie."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/3/2018 | "How is paying \$10 going to get this seen to 150 more people? I think this petition is a scam to make money!!!! I have over 13,000 followers, on one of my google accounts - it does NOT cost \$10, nor \$5 or even \$3 to "help" get this petition seen by more people! Besides, the issue is already illegal, just write to the secretary of the DOT! See my LONGER VERSION of my 'comment' bellow!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/3/2018 | "I have a few things to say about this *BLINDING HEADLIGHT*<br>"petition"...1) there are a number of different issues here. Not only are the BRIGHT lights SO WRONG, they are ALREADY suppose to be under so many candle power set from the factory. THEY ARE ILLEGAL ALREADY! We do not need to "petition"!!! If the DOT did their job, they would have been changed already.2) Lights that move, are illegal! They were banned back in the 50's! Lights that move up or down are STUPID and the people who have them looks like they are flashing their brights at me/us when they 'float' up and down!!! Even the COPS have these on the Ford suvs! THEY ARE ILLEGAL! If the DOT did their job, they would have been changed already. YOU PEOPLE NEED TO WRITE TO THE DOT!!! Not start a petition! 3) There is another issue here that is not being covered; the use of MORE THAN TWO SETS of lights are ILLEGAL in the State of Wisconsin, and I think many other states, if not all of them!!! Look it up! The DOT standards are on the int" |
| 12/3/2018 | "It's actually against the law to have more than 4 (four) lights on at any time while driving."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/3/2018 | "It's actually against the law to have more than FOUR (4) forward white lights one at ANY given on the road. They need to be reported then. EVEN MULTI-BEAM LIGHTS are ILLEGAL! And these multi-beam LED lights are NO exception and are ILLEGAL to use. Write to the DOT, tell them to enforce the LAW."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| 12/3/2018  | "For whatever reason my comment was not posted, so entering it again: 1) there are a number of different issues here. Not only are the BRIGHT lights SO WRONG, they are ALREADY suppose to be under so many candle power set from the factory. THEY ARE ILLEGAL ALREADY! We do not need to &quot;petition&quot;!!! If the DOT did their job, they would have been changed already.2) Lights that move, are illegal! They were banned back in the 50's! Lights that move up or down are STUPID and the people who have them looks like they are flashing their brights at me/us when they 'float' up and down!!! Even the COPS have these on the Ford suvs! THEY ARE ILLEGAL! If the DOT did their job, they would have been changed already. YOU PEOPLE NEED TO WRITE TO THE DOT!!! Not start a petition! 3) There is another issue here that is not being covered; the use of MORE THAN TWO SETS of lights is ILLEGAL in the State of Wisconsin, and I think most every states, if not all of them!!! Look it up! The DOT standards are on the internet! LAW STA" |
| 12/2/2018  | "Sick of these LED lights blinding me at night on the road. It doesn't matter if the vehicle is oncoming or behind you. Lights that bright are ridiculous and can cause accidents. Get rid of them."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 11/30/2018 | "Every state needs to reaim headlights during the annual vehicle inspection, if they don't have inspection institute one! Also the truck drivers with the 36&quot; wide light bars on the front need to go. If you are the only one on the road light it up, when others are just in front of you shut em down.....at this point emissions take a back seat to being blinded."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 11/29/2018 | "Even when people get behind you these things blind you, I'm not saying they should ban them for off-road use but on the road it shouldn't be allowed, what was wrong with the old headlights? They're so bright and every vehicle turning the glare changes direction and hits spots causing a glare to where drivers can't see, anyone can easily get blinded with the sun as it is and run off the road, into other vehicles and then who's fault is it if they couldn't see cause they were blinded? Still theirs.. After losing my grandfather in a vehicle accident many years ago, I feel people shouldn't lose their lives and the vehicle they worked so hard for over a silly blinding lightbulb."                                                                                                                                                                                                                                                                                                                                                       |
| 11/28/2018 | "I had a pick-up truck on my back bumper the other night. The truck had 3 lights on each side. It lit up the interior of my car so bright I could have read small print on any contract. These lights are a menace and need to be banned."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 11/28/2018 | "I wear screenvision/blue light reducing glasses when I drive at night, but I shouldn't have to do that. The lights are the problem, not my eyes."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 11/28/2018 | "I am blinded at night by these glaring lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 11/26/2018 | "They are too bright; everyone knows that!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 11/25/2018 | "I'm signing this petition because I find the glare from headlights of oncoming cars blinding and dangerous. I hate driving at night now and am concerned that I will get into an accident due to the brightness of the headlights. It feels like the lights are piercing my eyes and it looks like all cars have their high beams on."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 11/25/2018 | "I'm being blinded by headlight glare in my side view mirrors from newer, whiter headlights. We need to limit the color temperature!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 11/22/2018 | "I've nearly ran bbn off the road or into several cars due to these blinding lights!!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 11/17/2018 | "It's hard to avoid objects and people or cars in front of me when I can't see because of someone's blinding bright headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| 11/17/2018 | "I signed for all of the same reasons as others. These LED headlights are dangerous! I don't believe the problem is the LED technology itself, but how it is constructed (i.e. color, lenses, etc). More safety checks are necessary before dumping such things into the marketplace. In some cases, I have been blinded by these headlights even at a location ~30 degrees to the side! How can this possibly be considered safe?I am disheartened as I see this petition drive was launched around a year ago. I would have expected at least several hundred-thousand signatures by now :{"                         |
| 11/16/2018 | "I am only 20 years old but I seem to have a light sensitivity issue with bright LED lights popping out of nowhere in the dark. The bright lights hurt my head and when I walk at night I need to cover my face or direction of where the bright light is coming. I noticed it's abnormal because it bothers me much more than other people my age. I have to wait until March to tell my eye doctor about this problem. Even wearing sunglasses have not helped me."                                                                                                                                                  |
| 11/16/2018 | "I drive every night on a narrow two lane road to get home from work. I know the common rule is to look down at the road lines whenever an incoming car is in sight with lights, but there's no point when the car has bright LED lights that completely white out my vision. There have been several instances where I, and several of my friends and family, have nearly driven off the road because we couldn't see anything other than the blinding light of LED headlights. What's worse is that they aren't using fog lights or anything, it's just the normal headlights. That needs to be banned immediately." |
| 11/16/2018 | "They should be for emergency vehicles only IMO. Too many nuisance drivers, with no regard for public safety, blinding other motorists. Enough is enough."                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 11/14/2018 | "I hate those lights. I have almost wrecked many times over bcuz of them."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 11/13/2018 | "Three lights are blinding, especially in single lane roads. They're dangerous and unnecessary. Common sense laws need to be passed regarding these lights, sooner than later."                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 11/11/2018 | "The LED lights can be blinding and can make driving difficult."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 11/11/2018 | "I can't stand these HID headlights. I've almost went off the road cause they glare so much. Both my cars have normal halogen lights so now every time someone with HIDs is coming up on me I blast them with my high beams since they're low beams are blinding me."                                                                                                                                                                                                                                                                                                                                                  |
| 11/10/2018 | "I very nearly hit a pedestrian who was walking on the side of the road wearing black clothing, I didn't see him until the last second because of some jerk's brights blinding me!"                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 11/10/2018 | "I'm 68 years old and when driving at night, bright headlights cause me difficulty."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| 10/28/2018 | "I'm tired of being blinded while driving!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 10/28/2018 | "Brenda Wilkerson"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 10/25/2018 | "I have noticed this as a true problem for myself and believe it is extremely dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 10/9/2018  | "These lights have blinded me nearly causing an accident several timesThey should be banned!"                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 10/1/2018  | "I am signing this petition because the number of bright headlights on cars in my area is increasing rapidly. I have a serious medical condition that makes my eyes sensitive to bright lights and as a result I am prone to visual disturbances, auras. These lights are not just in at night but all day long. They strike from my side mirrors and cause me to see spots. On time I ran a red light because I had bright headlights coming at me and from behind me. I couldn't see for seconds. It was scary." |
| 10/1/2018  | "As a newspaper delivery person, I find myself constantly blinded by oncoming lights. In my job, it's important for me to see the road to assess hazards, and not be blinded."                                                                                                                                                                                                                                                                                                                                     |
| 9/29/2018  | "The blinding headlights are not only an issue for oncoming vehicles, but also for the cars driving immediately in front of said vehicles. While many rear-view mirrors have anti-glare capabilities, side mirrors do not."                                                                                                                                                                                                                                                                                        |
| 9/22/2018  | "These headlights are not only blinding and dangerous to drivers but are also hell for those of us with extreme light sensitivity."                                                                                                                                                                                                                                                                                                                                                                                |
| 9/21/2018  | "I can't drive at night with these crazy bright lights!"                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 9/20/2018  | "I'm pissed off being blinded by some person who has not got a clue about road manners. Cyclists have these now front and red to the rear also blinding worse when they are the flashing type."                                                                                                                                                                                                                                                                                                                    |
| 9/18/2018  | "i hate these damn things"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 9/18/2018  | "I've seen the effects on sufferers."                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 9/18/2018  | "I find the modern lights very distracting and the very small indicator strips are very hard to see"                                                                                                                                                                                                                                                                                                                                                                                                               |

| 6/19/2018 | "It's no coincidence blue light is harmful to us during the night and the gov't and dot has allowed the steady increase of these blinding blue lights on trucks and cars. I'm pretty sure even car manufacturers are installing them on their new models and now at least 1/4 of all cars and trucks have them. But it's not only headlights it's street lights store lights lights for your house I read somewhere it's a weapon! The blue light during the night does major damage to our circadian rhythm. I drive a truck, 75% of the time during the night, and it's causing problems with my sleep, my mood, and gives me bad headaches..."                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 6/13/2018 | "I'm tired of becoming "blind""                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 6/9/2018  | "Led lighting should only be for off road use."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 6/1/2018  | "Because these lights are terrible"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 6/1/2018  | "These LED lights are literally ruining my life. The combination of LED streetlights and car headlights is literally unbearable to me. I can only go out at night if someone else drives and I wear an eye mask. I am so freaked out by these lights I don't know how I will live the rest of my life if these don't go away. These lights cannot possibly be healthy for humans or animals. PLEASE MAKE THEM ILLEGAL!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| 5/28/2018 | "Toyota, BMW, and many other cars should be recalled to smash the fuckin LED out of them!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 5/22/2018 | "Thank you..."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 5/18/2018 | "Some LED and HID lights are more intense than high beams and they should be used accordingly on deserted highways. In towns, with lively traffic they shouldn't be used."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 5/14/2018 | "I have a vehicle where I am constantly being flashed by oncoming traffic. The headlights were adjusted, there was nothing in the back to make the headlights point up towards the sky, so I decided to get out and in front of the car to see why this has been happening. It wasn't so much the actual light beam, but rather the &quot;stylish&quot; LED crap that overtakes the headlamp assembly. There is no way to turn these things off. I flipped the switch to parking lamps and attempted to drive down my driveway with only the LED accent lighting and parking lamps on. The LED accent lights did absolutely nothing as far as illuminating the roadway in front of me. They are just a nuisance to oncoming traffic. I have been doing my own silent protest by keeping my high beams on when approaching vehicles with LED light strips. I covered my LED light strips so they are no longer visible. I am at the point of frustration now where I want to be a vigilante and hit all the LED light strips with bright orange or green plastidip" |

| 4/26/2018 | "During the day I have to adjust my rear view mirror to night position due to so many bright daytime headlights which makes any car without them essentially invisible. They are so bright, I frequently see drivers forgetting to turn on their normal head lights at night. Daytime lights should NEVER be bright enough to be used for night driving. Having to block my side view mirror with my hand until a car with these ultra blinding lights passes is also very dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 4/26/2018 | "The trend towards high intensity headlights and other high intensity LED light sources is dangerous to the health and well-being of human and other animal races. Our next generation may well be partially blind if something is not done soon. Blinding of our current and next generation will be detrimental of our economic and creative potential. These high intensity lights make our environment highly prone to accidents, they affect wild life that is struggling to cohabit with us and share our planet. It's becoming hard to drive at night and even during day times. We must bind together to stop this craziness from polluting our visual environment. In the last few recent years, headlights, tail lights, street lights, lights on police/emergency cruisers, tow trucks, public buses have all in my opinion intensified to the tune of 3 to 10x. Head lamps emit white light/beam direct to eyes vs. the old method of reflection and natural light bulbs that used to disperse beams better. I have personally reduced my night/eve" |
| 4/25/2018 | "I drive to work everyday at night. I am disgusted at the amount of people putting these LED aftermarket bulbs in their halogen housings. They're made for a little halogen filament, not a bank of LEDS. Ridiculous glare and light splash. DOT compliant OEM ones are fine. These are ridiculous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 4/18/2018 | "The glare bothers me tooAnd I drive a lot in the night"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 4/18/2018 | "This is one of my biggest pet peeves. These LED lights are just bad. On cars or houses or streetlights doesn't matter. They are brutal. I drive home from work sometimes later and they blind me. Our world is becoming way too bright, loud and dirty. Do something."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/16/2018 | "I'm really having an issues with Toyota vehicles and also even as far as new Silverado trucks.These headlights are blinding when behind you. In front isn't as bad because they will pass eventually. But behind if they are matching you speed you're better off just slowing down to let them pass because of the headache they cause."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 4/16/2018 | "Yes it's like a swirling array of blue and orange colors being emitted from those headlights. RIP my eyes to toyota corollas.Just had a 2018 Camry yesterday do the same."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 4/7/2018  | "Hurts my eyes"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4/6/2018  | "New Toyota Corolla S model was so bright in my rear view mirror I pulled over to let him pass. Oncoming traffic flashed this car, wow align your headlights to point at the road, not at the horizon."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 4/4/2018  | "These headlights are blinding!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

|           |                                                                                                                                                                                                                                                                                                                                                                              |
|-----------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 3/28/2018 | "I have been driving more at night recently and have been blinded by oncoming headlamps to the point where I've had to pull over and wait for the spots blocking my vision to fade."                                                                                                                                                                                         |
| 3/26/2018 | "It takes a second to dim your headlamps. Be kind and dim your brights for an oncoming vehicle."                                                                                                                                                                                                                                                                             |
| 3/26/2018 | "This is a pet peeve of mine. It's dangerous and unkind to not dim your brights to an oncoming vehicle!!"                                                                                                                                                                                                                                                                    |
| 3/25/2018 | "These are a hazzard."                                                                                                                                                                                                                                                                                                                                                       |
| 3/25/2018 | "The lights are blinding"                                                                                                                                                                                                                                                                                                                                                    |
| 3/24/2018 | "I've had times when oncoming headlights have completely dazzled me and they are not on full beam as its inner city. It is especially bad on dual carriageways and puts you off driving at night .I hope something is done.Many people arent even aware that you can lower your dipped headlights a bit.Manufacturers must do something and so must government legislation." |
| 3/24/2018 | "I find that I need to squint my eyes and turn away from on coming traffic. Basically, I'm taking my eyes off the road. After the vehicle passes, my vision isn't clear. This is very dangerous."                                                                                                                                                                            |
| 3/24/2018 | "LED headlights send out flickering radiating rays of light that expand outward from the headlights of oncoming vehicles and make it nearly impossible for me to see the road and the edges of the road or even the markings on the road or anything that might be in the road in front of me. These LED headlights are extremely hazardous."                                |
| 3/24/2018 | "In the UK there's a trend to using fog lamps all the time. This is actually illegal here, except when visibility is bad, but many drivers think it's cool to have them on. Or something."                                                                                                                                                                                   |
| 3/18/2018 | "These are blinding to other drivers. They cause oncoming drivers to lose full field of vision especially on dark country roads. It looks like they are coming at you with brights on. If they are behind you, there is a very bright glare in side and review mirrors. These lights need to be recalled. There is no way these have not caused accidents."                  |
| 3/17/2018 | "Aside from night blindings, I regularly get blinded during the *daytime* in my home's parking garage."                                                                                                                                                                                                                                                                      |
| 3/17/2018 | "They are blinding to people. They actually make my eyes hurt!"                                                                                                                                                                                                                                                                                                              |
| 3/16/2018 | "I can no longer drive at night, these lights cause me to lose my ability to see the whole field of vision."                                                                                                                                                                                                                                                                 |
| 3/14/2018 | "I agree!"                                                                                                                                                                                                                                                                                                                                                                   |
| 3/10/2018 | "I am sick and tired of being temporarily blinded by oncoming traffic, and light glare from my rear-view and side mirrors. Driving at night has become an absolute nightmare because. It's extremely frustrating uncomfortable and hurts my eyes."                                                                                                                           |
| 3/7/2018  | "I am now blinded on a daily basis by these things particularly at roundabouts and have had "near things". German marques are the worst. I have contacted my MP and the issue is with the UN for some bizarre reason. Donald, have you considered raising an e-petition on the Government website?"                                                                          |
| 3/7/2018  | "I am now blinded on a daily basis on these things and have suffered some "near things", German marques are the worst. Apparently, the issue is with the UN for some bizarre reason."                                                                                                                                                                                        |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| 3/6/2018  | "The auto industry says that half of all new car headlights have a poor rating. They include the effect on the oncoming driver. If these are not stopped, driving at night will be next to impossible if every car has them."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 3/6/2018  | "I have noticed this problem has gotten worse over the past several years."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 3/4/2018  | "Unbelievably dangerous. I would like to see lumen limits place on all exterior lighting personally. It is one of the many ways we are wrecking our environment, creating personal health and safety issues, and behaving irresponsibly. I am shocked this isn't talked about more. Being blinded by glare is an undeniable traffic hazard that desperately needs to be addressed."                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 3/2/2018  | "too bright is dangerous and painfully glaring to oncoming traffic. ask yourself if my lights are bright enough to see the next county over are they too bright?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 3/2/2018  | "It's absolutely debilitating to so after these light hit your eyes! They are finding out more and more how harmful these lights are. Yet have not got to the long term effects yet. They need to be removed before it's too late for some."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 3/2/2018  | "These headlights are a danger."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 3/1/2018  | "I want to see laws implemented that makes it illegal for automobile manufacturers to put in auto lighting that blinds other drivers. It's completely unnecessary to have such bright headlights. I also would like to see legislation passed that makes it illegal for individuals to install aftermarket headlights that are blinding, distracting and light up the inside of your car like several high powered spotlights. They are a safety issue for motorists and pedestrians alike."                                                                                                                                                                                                                                                                                                                                                               |
| 2/26/2018 | "It wasn't stupid enough to allow the auto industry to place a turn signal next to a BLINDING headlight. Now there allowed to make those lights so bright you can't see in front of you when one of those vehicles is behind you. I kind of got used to the spots in front of my eyes for 30 seconds when looking for a turn signal, but now with this intense brightness, the turn signal is a much smaller problem. If it's night and someone with these lights is behind you, it's best to pull over and let them go so you have the ability to see. I had someone with these lights behind me and I could not make out where my driveway was to make the turn! Is this what our society has come to? Like everything else in this country, to someone it's all about money! Don't we have safety organizations in place to stop dangerous situations?" |
| 2/25/2018 | "I drive a school bus and these lights have blinded me where I have had to stop the bus for a couple seconds...AND THERE ARE CHILDREN ON THE BUS!Ban these lights. They are NOT needed. Very dangerous!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 2/21/2018 | "Worst LED lights ever ,like they need it ? My biggest fear is the road construction on those police cars ( holy god ) !!! I was totally blinded on the highway! Yikes I was pissed because it took me eyes FOREVER to be back to the normal sighting visions! Not a good move whoever created LED on vehicles! PLEASE BAN THEM !!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 2/21/2018 | "These lights are blinding, especially at night. I have to turn my mirrors down and have to shield my eyes to oncoming traffic. It is dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 2/19/2018 | "hideous blinding lights, last thing we need to have blarring in our eyes while driving!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 2/15/2018 | "These lights are blinding me every time I drive at night. For anyone who have a difficult time driving at night, these only amplify the problem. These need to be banned immediately!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| 2/9/2018  | "There seem to be more and more cars with these headlights on the road, so much so, that my eyes can't seem to get a break in between the glare of oncoming traffic. Even looking away doesn't seem to help so I have to put my hand up to shield my eyes or I will have spots in my field of vision for a few seconds. I am driving a car mind you and those few seconds could mean the world of difference. I choose not to text or talk on the phone while I am driving because I don't want to be distracted but these HID and LED headlights are creating just as much a distraction. Maybe the headlights pass the intensity (Lumens) test however there don't seem to be any regulations regarding wavelength of the headlamps. Maybe that is what needs to be updated? In the meantime, the HID and LED lamps need to be banned for the safety of all those on the road!!" |
| 2/5/2018  | "Headlights are too bright. They are becoming a safety hazard."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 2/4/2018  | "I've created a Facebook group called LED's:The Sun of Hell, because of this blinding, hellish light. I have done extensive research, the AMA recommends streetlights be shielded and below 3,000 Kelvins. Headlights cannot be shielded, and they are often twice the AMA recommendation regarding Kelvins. We are being subjected to criminally dangerous ignorance by city officials, building managers, and the automobile industry regarding these lights. The reason for them, energy savings, is also being negated by increasing the number of fixtures, even rural outbuilding are festooned with them, mounted horizontally to blind passing drivers."                                                                                                                                                                                                                   |
| 1/30/2018 | "LED and Zion lights were designed by technology to be brighter, BUT OUR EYE BALLS ARE STILL THE SAME."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 1/28/2018 | "This has to be fixed-new car low beams are brighter than my high beams. Another great example of stupidity beating out logical safety."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1/28/2018 | "I am so tired of putting up with having to decide if whatever I need to do after dark is worth a 2 day headache or puking! Especially since the city of portland Oregon in its infinite stupidity put up led streetlights. It's REALLY scary trying to drive here! You can't see pedestrians, the blinding effect of the headlights odds much worse, and to top it all off... The police cars and buses are the most blinding... I've had to stop in the middle of the street because I can't see too even pull off to the side! How many young people have to start turning up with cataracts before something is done?!"                                                                                                                                                                                                                                                        |
| 1/25/2018 | "The situation is intolerable. Driving was once my expression of freedom but with the blinding headlights coming at me and if not coming at me, bouncing into my rear view mirror. I have to shift my eyes from the glare which makes me unable to see pedestrians. Street driving after dusk is more anxiety producing than highway and highway is terrible. It feels like people have thier brights on all the time at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 1/25/2018 | "I find them difficult on the eyes, they are blinding and hurt sensitive eyes. Obnoxious!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/23/2018 | "They are extremely unsafe especially when tractor trailers have them. Most people that have them that I know laugh and think it's funny. It's dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/23/2018 | "It is extremely difficult to see at night while being bombarded with these headlights. The lighting used by crews doing road repairs is also blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1/23/2018 | "PLEASE BAN THESE BLINDING LIGHTS ON CARS! They are lethal!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

| 1/17/2018 | "This must happen. Some models low beams (eg. Cadillac Escalade) are brighter than the high beams on most cars."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1/17/2018 | "They sure impact my eyes badly. I have to put my hand up to block them when driving at night. Not good!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 1/16/2018 | "Also blinding when they're tail gating you"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 1/15/2018 | "These lights are extremely dangerous, especially when driving through tall hills"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 1/15/2018 | "I have been forced from my job by LED lighting and now struggle just to drive. I can see just fine with my halogen headlights, incandescent flashlight and incandescent lighting in my home but the LEDs give me an instant headache, brain fog and eye strain. Even Apple acknowledged the problem with LED lighting by giving a &quot;Night Shift&quot; mode to the iOS devices that tints the display to a warmer yellow tone. We have laws against distracted driving due to cell phones but they allow LED / HID / Focused Beam headlights, LED taillights, LED brakelights (especially the ones that pulse on emergency vehicles), LED light bars (sold for off-road use but still used on-road) and LED emergency vehicle lights that are even more blinding than the headlights!! used to enjoy driving at night and didn't mind working the night shift; then LED lighting ruined my life.Put SAFETY FIRST! Completely ban and outlaw LED lighting on vehicles and anywhere where drivers on roadways will be affected by them." |
| 1/12/2018 | "I am blinded every morning on my way to work to a stop. I can see the vehicle coming 2 minutes before I can actually see the vehicle... who needs lights this bright??"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 1/11/2018 | "I have personally been blinded by these overly bright lights and I think that they should be discontinued."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 1/6/2018  | "I'm a total gearhead and love all things "car", and I have never understood why these lights are legal. They're totally blinding and potentially dangerous for everybody on the road except the person using them. Since when are halogen lights NOT good enough?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 1/4/2018  | "Wayy to bright"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1/3/2018  | "Can't tell the difference between oncoming brights and hi-intensity headlights anymore. They are definitely problematic."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 1/3/2018  | "i love astronomy and light pollution spoils it"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 1/2/2018  | "These lights cause accidents from their blinding glare."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 1/2/2018  | "I am definitely having issues driving at night. The lights of many oncoming cars are so blinding i am actually taking strange and possible dangerous steps to be able to drive. Sometimes i put my left hand up or look mostly to the right. This really prevents me from seeing anything to the left. I also have to slow down because i cannot there see the lines on the road or if there are any issues ahead whete i might need to take preventive measures. Please ban these extremely bright lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 1/2/2018  | "Signing because headlight glare is becoming more of an issue with the addition of high intensity headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 1/2/2018  | "These light hurt my eyes"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| 12/31/2017  | "HID and other high intensity headlights need some serious regulating (such as Australia's Design Rules). Many auto mfgs now have HIDS stock in their new vehicles. They cause annoyance from vehicles behind you, which is not only dangerous, it is also a severe annoyance which can be dangerously distracting and lead to even more dangerous road rage. In addition to this they often appear brighter than &quot;Hi-Beams&quot; and are a very severe safety concern."                                                                                                                                                                                        |
| 12/30/2017  | "These lights are ridicoulusly dangerous. Great job consumer safety for the automobile industry. Great job. lol smh"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 12/29/2017  | "What is the purpose of lighting ? If you think that lighting is for energy saving, it's better to turn off."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/24/2017  | "I have experienced being nearly blinded by these lights and realise they are a hazard"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/23/2017  | "These lights are insane! For glasses bearing people it's creates an undeniable glare!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/23/2017  | "This needs to happen in Europe as well."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 12/23/2017  | "I am dazzled by these blinding lights on a daily basis. I totally agree with Donald. There is also a new trend amongst cyclists to have similar blinding LED lamps that flash or strobe. These too are a source of distraction and increase the already dazzling amount light being aimed at drivers too regularly."                                                                                                                                                                                                                                                                                                                                                |
| 12/22/2017  | "I've almost had accidents because of these intensely blinding headlights. They should be banned and removed from the market."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 12/22/2017  | "Thanks Auto Industry...you have ruined being outside at all. I despise your blinding headlights. Join our group to raise awareness and to ban these horrible LED lights. <a href="https://www.facebook.com/groups/155084901640186/">https://www.facebook.com/groups/155084901640186/</a> "                                                                                                                                                                                                                                                                                                                                                                          |
| 12/22/2017  | "I get migraines from these horrible lights. They make driving unsafe due to temporary blindness!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/22/2017  | "There are more and more of these lights and I find them unbearable. I don't have a problem with the lights on older cars. The daytime lights become quite horrible if the driver omits to turn on the headlights when it gets dark and these tiny glaring lights become more intense. Something should be done to regulate car (and street) lights, which are now also being changed to LEDs and which cause bright spots on one's peripheral vision and provide light which does not spread causing dark areas. Something must be done about this. I know someone who had an accident caused by being dazzled by a car coming over a humped crossing towards her." |
| 12/21/2017  | "Good luck, keep up the good work. <a href="https://www.causes.com/causes/793537-ban-drl-s-all-automatic-car-lights">https://www.causes.com/causes/793537-ban-drl-s-all-automatic-car-lights</a> "                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/19/2017  | "I almost had an accident because of these headlights , they are blinding and you cannot see in front of you when a car is oncoming , please ban them"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

| 12/16/2017 | "I have personally had issue with blinding headlights from oncoming vehicles."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/14/2017 | " These new LED headlights are horrendous for drivers with any kind of light sensitivity, and probably not great for anyone. I literally put my hand in front of my eyes when a car with these lights approach. Instinctive reflex to protect my eyes, highly dangerous when driving!"                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/14/2017 | "These LED lights on the new vehicles and the aftermarket LEDs are just watching to bright they do more harm than good also the LED strobe lights on emergency vehicles and even utility vehicles are very blinding when flashing in the on coming drivers eyes."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/14/2017 | "These LED headlights on new vehicles and the aftermarket head lights also the LED strobes on emergency vehicles and utility vehicles are way to bright and blinding they do more harm than good. All mentioned above are a distraction to on coming drivers."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/12/2017 | "Have seen accident happen because of bright flashing lites on police car."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/11/2017 | "Its super annoying and is worsened if you wear glasses."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/11/2017 | "This is important because many accidents could and have happened with blinding headlights. very annoying and very bright."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/11/2017 | "this is very important to me because this is a dangerous to be driving with peoples car who have very bright lights. they are very annoying and and to bright and a detracton to all drivers. the should not be loud on the road. they need to change them to a normal light that's not detracting."                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 12/8/2017  | "Yes get rid of them"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 12/8/2017  | "Recently I've had many cars flashing their brights at me in my bicycle. MY BICYCLE LIGHT IS DISTRACTING DRIVERS. Hilarious and unfortunate."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 12/7/2017  | "I tried everything i even put my high beams on them and its bad living in kent washington and federalway area. These drivers dont have respect at all i think it the older people who be driving at night in their 60s and above thinking they are young. They should have a age cut off limit on elderly peopleover the age 50 and above shouldnt have a licsense period and people who uses their high beams should get a ticket no matter what and have their lic taken on the spot."                                                                                                                                                                                                                                                           |

| 12/6/2017  | "You got to be kidding me!!!It will most had 10 accidents because of this!!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 12/6/2017  | "They have always caused issues for me and my husband"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 12/6/2017  | "I find these high intensity lights dangerous and annoying. I believe they are on a par with main beam headlights of old. There is no need for them. On poorly lit roads there is main beam to use. I did a test on a lit motorway with no other traffic around and turned my lights OFF, I couldn't tell i'd turned them off. So in other words on lit roads there's no need for these eye ball melting headlights. These high intensity lights on today's cars are a marketing gimmick and a dangerous one at that. I believe people are driving around now, who don't have these high intensity lights fitted in their cars, with main beam on because they think it's ok to do so. Standards are dropping all the time, in fact, they've gone." |
| 12/5/2017  | "I would love to see them ban these new lights had some idiots run me off the road cause they seem to want to ride my bumper with these lights in my eyes and I                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

|           | couldn't see my turn for them being so blinding!! I think the real reasons for them to have these lights they are also using them in poaching cases !!! ☹️"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 12/5/2017 | "These lights give me a migraine near immediately and blind drivers on the road. It's known blue light has negative effects for parts of the population."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/5/2017 | "I get migraines easily and these headlights do not help."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/5/2017 | "I want to help save more lives"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/5/2017 | "For the longest time, I thought it was just me. This problem affects all age groups. Sometimes I turn my eyes to the right to avoid oncoming 'spotlights.' When the bright lights are behind me, if I turn the side mirrors to just the right angle, the reflected light goes back to the person behind me and they back off. In slow-moving, bright traffic I use my left hand to shield my eyes. None of this should be necessary. Last evening, I flashed my hi-beams at a truck, and he turned on the light-bar rack that was on the roof of the cab. Is this a Mine-are-brighter-than-yours contest? There needs to be a limit to how many lights can be on a vehicle, and how bright those lights can be." |
| 12/4/2017 | "I understand that headlights are important for drivers to be able to see at night, and in the rain. However, extra bright lights make it harder for other drivers to be able to see, making the roads more dangerous for everyone. They can also be a trigger for migraines in some people. When a migraine is triggered, it often affects vision and reaction time, and is frequently excruciating. Extra bright lights can cause accidents, which can result in serious injuries, or even death. Regular headlights should be sufficient for all drivers."                                                                                                                                                     |
| 12/4/2017 | "LED lights are blinding and cause migraines for me and many wrecks! Fog lights are just as bad!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 12/4/2017 | "I suffer from chronic daily migraines and I've all but stopped driving at night because of these headlights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/4/2017 | "They trigger migraines."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/4/2017 | "Blue lights causes me to have migranes, and that can be dangerous driving at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/4/2017 | "I suffer from photophobia and it triggers debilitating migraines that last for days! I also have to drive at night as a courier since my migraines prevent me from having a full-time job doing my regular work. In confronted with these blinding lights each night and have to wear special glasses in order to survive them! But even with the glasses on, the lights are still too bright. It's awful. Please do something about this problem. Thank you."                                                                                                                                                                                                                                                   |
| 12/4/2017 | "Because I have Multiple Sclerosis and since losing my sight then regaining that ability after the passing of an exacerbation years ago I have had a very difficult time driving at nighttime as well as at "twilight". The lights used now are horrific and do cause me instant migraine if in face of them! Please call for discontinue use of these types of ultra bright lights even at lowest setting!"                                                                                                                                                                                                                                                                                                      |
| 12/4/2017 | "There are many times the brightness and glare blinds me, either being at a single lane two way traffic lanes or easily and most common method from behind. I've flashed the upcoming vehicle from opposite direction assuming their headlights were on "high beam" so they can turn down their headlights. However, I've been flashed back to let me know it is not their "high beam" lights, rather their normal "low beam" lights. I have taught myself to move positions in the seat while driving to avoid headlights from behind to strike me through the rear view mirror, even                                                                                                                            |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| 12/4/2017  | "I get severe migraines and am very sensitive to light."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/4/2017  | "I have severe migraine disease and these lights trigger a flare up of my symptoms. It is difficult/dangerous to drive once the symptoms start."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/4/2017  | "These are blinding and dangerous and are a trigger for people with migraine disease!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 12/4/2017  | "I suffer from migraines and these lights give me an instant migraine."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 12/3/2017  | "Night driving continues to get worse. People with fog lights and the brighter LED lights are ruining my eyes. I have friends who also complain. It is so hard to see with those lights coming right at you. I drove 3206 miles in Oct. and over the week had to do night driving. By the end of the trip which was a very long night drive of 8 hours home, my vision was so messed up. It's been a couple months and driving at night is no fun. The reason for the original yellow cast on the lights was to avoid all of this eye damage we are experiencing. I am sick of it and really hope that something can be done. When I see a car approaching with 4 or 6 lights on the front of their vehicle and there is no fog, it makes me want to put my headlights on bright so they can endure a little of what I am going through. I hope something will be done soon. Maybe the media needs to get involved to spread the word." |
| 11/29/2017 | "I totally agree !! I also started a Petition myself in Canada. I thoroughly read your posting Donald Berry. Thank you for doing this !! We need to keep supporting this and sharing it so that manufacturers stop making these headlights, it causes accidents, casualties and damages people's eyes. We need this to spread North America wide. If you could please support mine, I in huge support of yours. Blessings to you for doing this !!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 11/27/2017 | "When I drive at night, I encounter many vehicles that have hid/blue-white headlights that are too bright and cause pain and temporary blindness. I have to hold up my hand to block some of the light. STOP THE PRODUCTION AND INSTALLATION OF THESE TYPES OF LIGHTS"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 11/24/2017 | "I am TIRED of being BLINDED by oncoming LED car headlights. It is difficult to see the road in front of me!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 11/24/2017 | "Sorry to hear ... I signed, hopefully more will too"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 11/24/2017 | "I agree they are unnecessarily too bright"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 11/23/2017 | "LED street lights and headlights cause dangerous glare and brightness that make driving after dark dangerous. Additionally, individuals with migraine disorders find it difficult to impossible to drive safely at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 11/22/2017 | "These new headlights are blinding in the night time while driving."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 11/22/2017 | "Driving without seeing is dangerous to me and you!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 11/21/2017 | "I hate these dazzling lights with their blue tinge. They may help those driving cars fitted with them to see better what is in front, but they blind the rest of us whether the lights are shining in our faces or into our rear-view mirrors."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

| 11/17/2017 | "LED lights hurt my eyes while driving and should be banned before they cause more accidents. They also cause migraines and should be banned from all lighting. I am personally affected by these lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 11/16/2017 | "I work 50-60 hours a week driving on the road half of those hours are after the sun goes down and then my evening/night is constant blinding, headache, road rage sometimes, frustration and seeing dots for many seconds! It's getting ridiculous this should never ever be ok or legal to us regular citizens! Police I can understand more but when lately all I see is bright bright blinding headlights in front of me and behind me blinding from both directions at same time and also cora buses, fire trucks these are huge trucks 10 times bigger than my small short Toyota Camry! Please stop the use of these for regular civilians please! It's so irritating and so so so very very dangerous every single day after dark hits everyday! Please stop the use of led lights please I'm begging! I'm so scared I will wreck because I'm being blinded by almost every or every other vehicle in front and behind me all the time! This should be immediately taken out of regular vehicles seriously. I know they r nice and cool also la" |
| 11/16/2017 | "Hate them"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 11/14/2017 | "I can't see the road when these things are blaring in my mirrors !"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 11/13/2017 | "I find these lights blinding."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 11/13/2017 | "Extraneous lighting, especially in wavelengths shorter than 610 nanometers, has nothing but harmful effects, particularly biological and astronomical."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 11/13/2017 | "They blind me too."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 11/11/2017 | "HID and LED lights, especially of the blue-ish colour temperature and a public safety hazard. They should be banned. Vehicles that are equipped with them should be required to have them removed, even if they are installed by the factory. why is there not already a standard in-place that restricts the brightness of these lights? HIS lights create a hazard by blinding drivers. They also can be a health hazard by causing damage to the eyes other drivers. Additionally, these lights promote aggressive behaviour and are often used as a weapon against other drivers."                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 10/29/2017 | "Coming at you , behind you , if the police knew haw many tickets they can issue for this offense they would be right on it .....!!!!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 10/29/2017 | "Is there anyway to go after the manufactures or stores hawking these...."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 10/26/2017 | "I have been in too many blinding situations that could have resulted in an accident or worse as of late. Seems allot more cars this year have them then before. I get anxiety close to the end of work knowing I will soon be in traffic. Nowadays it seems every other car has their high-beams on and pointed right in my face. I run a computer repair shop and i am looking at screens all day, so going into what feels like a police search light right in my face is beyond scary and just plain dangerous and disrespectful in too many ways. All HID lighting should be banned on cars in my opinion. If you have to literally put a lighting ballast to amplify power into your headlights then you are purposely trying to blind drivers is my belief. End rant :)"                                                                                                                                                                                                                                                                          |
| 10/18/2017 | "It is important for this campaign to ban not only the blue/white (LED) headlights but also the white ones with too much luminosity, and also the two lights below headlights that are white and almost as bright as headlights. There are also wreaths of lights around headlights and other candlepower embellishments that                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

|           | apparently appeal to people's egos. They (ego trippers and corporations seeking to indulge them) will fight back with other distracting lighting, including excessive tail lights. The overall issue of cars being lit up in many distracting ways should be addressed from the beginning."                                                                                                                                                                                                                                                                                                                                  |
| 10/7/2017 | "I really struggle with the brightness of car headlights in the UK, they really make my eyes hurt to look at them. At the age of 37 I am not the only one of my age I know that find them ridiculously bright"                                                                                                                                                                                                                                                                                                                                                                                                               |
| 10/3/2017 | "I am regularly blinded while driving home at night, especially when I am on my motorcycle. The effect of multiple high intensity headlights from several oncoming cars behind one another is so painful that I have to look off the road to the right, which is almost as bad as driving with my eyes closed. I hope there is a remedy for this problem soon. Thanks"                                                                                                                                                                                                                                                       |
| 9/27/2017 | "This is problematic for me as well."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 9/27/2017 | "Stop the accidents!!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 9/26/2017 | "I'm absolutely tired of not being able to see the road as these types of lights pass, not to mention, tailgating issues. It causes headaches and spots in my vision, along with anyone else I have conversed with on the subject. We've seen fine for years with old halogens, and I say that's all we need! It's enough to deal with halogen high beams!"                                                                                                                                                                                                                                                                  |
| 9/26/2017 | "Very dangerous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 9/25/2017 | "blue light is classified as a class 2a carcinogen in night shift workers. WHO. White LEDs are rich (30% or more) in blue light, shown to inhibit melatonin and disrupt circadian rhythms. Moonlight affects circadian rhythms in humans how much then will LED streetlights disrupt our biological clock?"                                                                                                                                                                                                                                                                                                                  |
| 9/21/2017 | "I've had to put up a curtain behind my front seats to drive at night because these damn LED lights light up the inside of my car from behind like it's friggin' day light!!!! They need to be BANNED now!"                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 9/6/2017  | "i believe in preservation of vision. the laser/tazer from the driverless cars have also blinded me. so did the strobes from the redflex defective photo radar cameras. flashblinding, glare or distraction of a driver or pilot, atleast from laser in arizona, is a class 5 felony."                                                                                                                                                                                                                                                                                                                                       |
| 9/6/2017  | "the led's and rf bulbs are designed to blind, the smartmeters also have sonic and tazer capabilities, the driverless cars invading arizona run on lidar- laser and radar- designed to cause reflected eye injury and blindness."                                                                                                                                                                                                                                                                                                                                                                                            |
| 9/6/2017  | "I'm tired of being blinded on the road at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 8/28/2017 | "I can not say just how dangerous this is, especially for the pedestrian who wears glasses!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 8/25/2017 | "I have autism, and am already extremely sensitive, especially to lights (some can give me migraines- bright LED xmas ones are a hazard if I get carried away with Christmas spirit and can't help but look). When someone has their brights on, even during the day, my eyes are still reeling for minutes after. With the new LED blue, purple, etc lights, I can't even look sideways without still being affected. I thought I was alone in how much this sensory overload hampers my good driving. I'm glad to not suffer in silence anymore about lights that took a serious problem for me and made it astronomical." |
| 8/23/2017 | "I am literally blinded by the light! Turn down those high beams. Seriously. If your eyesight is that bad, you shouldn't be driving at night!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |

| 8/20/2017 | "I'm hoping this will bring change across the world, because they too have arrived in Australia!First I thought it was high beams, but the sheer amount of cars with these glare emitting lights have increased significantly.It's completely unsafe, as a frequent driver at night, oncoming vehicles with these lights blind me, like a camera flash ... I have to squint and slow down my driving.If it's a car behind me, I fear changing lanes because my side view mirrors are completely useless as all I see is glaring white light and I can't see the other lanes. So unsafe!Also, the light emitting from them hurt my eyes. If my body is hurting from this, when previous halogen lights did not, then I know this is not right and not OK!" |
| 8/19/2017 | "I'm tired of being blinded on major highways and/or interstates."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 8/18/2017 | "Blinding tail lights on most new vehicles and big rigs can impair your vision even at a distance and are brighter than stop lights. News media should be involved in the subject.Auto manufacturers and departments responsible for driver safety do not seem to be driving and noticing the problem.Some service stations have blinding LED price sign that you cannot distinguish the numbers"                                                                                                                                                                                                                                                                                                                                                         |
| 8/17/2017 | "It's true and very distracting. Needs to be regulated"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 8/16/2017 | "The blue lights not only cause an instant headache but also induce vomiting and the bright leds cause temporary blindness."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 8/10/2017 | "It dangerous to drive blinded. I turn all mirrors down/away when driving at night, and look away when passing."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 8/10/2017 | "Audi and Volkswagon headlights are especially nazi."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 8/8/2017  | "Many times I've narrowly avoided going off the road or driving into oncoming traffic because I was blinded by blinding LED headlights. These lights are endangering everyone on the road and should be banned."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 8/8/2017  | "The new daytime headlights are way too bright!!!! Correct beaming of headlights would make a big difference!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 8/3/2017  | "Hurts my eyes!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 8/1/2017  | "I am so blinded and feel roadrage toward oncoming cars with bright lights behind or in front of me."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 7/30/2017 | "I suffer chronic migraines and bi polar which is severely affected by these lights."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 7/26/2017 | "It's not safe for us it necessary to have these blinding lights on cars....the roads are unsafe as it is.....stop the lights"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 7/26/2017 | "These abusive auto lights must be banned asap while we still have some peace of mind on our public highways. Please spread the word on these and donate to our just cause! Thanks again Donald."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 7/26/2017 | "I can't drive at night anymore. The blinding lights in front of and behind distract and make it impossible to navigate my vehicle. My eyes are overwhelmed even if I try to look away."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 7/20/2017 | "Yes, please ban these lights. Much too bright at night. Also they really are an irritant during the day. A bright light coming towards you when it is already sunny is quite the distraction and we don't need move distractions while driving. It is dangerous enough. That split second of distraction can cause an accident. Also a problem with cars behind you as well. Turn off the lights during the day, please."                                                                                                                                                                                                                                                                                                                                |
| 7/19/2017 | "LED headlights are incredibly bright and can be blinding, including in sideview mirrors. LED taillights can also be hazardous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 7/19/2017 | "Yes, please ban these lights. The lights are so bright at night. My eyes hurt during the day when these stupid lights are on in the first place. It's one thing to have the                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

| 7/2/2017  | "These lights are bothersome when i drive at night. Some what blinding at times."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 6/28/2017 | "When driving towards cars with HID lights it is like driving towards a vehicle with main beam on. With these lights I have to look to the side of the road. DAMNED DANGEROUS!!! and uncalled for. If you need lights that bright to see further ahead, you are driving too fast, (I'm no slouch)."                                                                                                                                                                                                                                                                                                         |
| 6/19/2017 | "Today's halogen headlights are bright enough. LEDs and those blue Xexons should be BANNED! Along with foglights and all headlight type Daytime Running Lights (except motorcycles). Only the "Amber" DRLs should be allowed on cars, trucks, and buses, not headlights."                                                                                                                                                                                                                                                                                                                                   |
| 6/18/2017 | "In addition, all LED emergency lights on law enforcement and first responder vehicles need to be banned, especially roof mounted emergency lights. They blind motorists, pedestrians, cyclists, and emergency responders, including law enforcement officers. Federal and State laws require motorists to move over while approaching an emergency zone or traffic stop, but it cannot be safely performed if being blinded by LED emergency lights. Even first responders and law complain of being blinded by their own vehicle's LED emergency lights."                                                 |
| 6/16/2017 | "I DRIVE AND TOTALLY AGREE WITH THIS PETITION.GOOD LUCK."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 6/15/2017 | "As someone who has some severe migraines, I almost desperately want these high intensity lights off the roads. They make the roads more dangerous, not safer."                                                                                                                                                                                                                                                                                                                                                                                                                                             |

|           |                                                                                                                                                                                                                                                                                                                                                                             |
|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6/14/2017 | "Bright lights are an obvious safety issue with a simple solution. I rarely drive at night in places where there is moderate to heavy traffic because the lights make it difficult to see."                                                                                                                                                                                 |
| 6/14/2017 | "Lights on vehicles, and elsewhere, have, generally speaking, become WAY too bright in recent years, as regards both comfort and safety. This is a worldwide phenomenon which is largely out of control and urgently needs to be addressed."                                                                                                                                |
| 6/13/2017 | "Same for me. It's like a catch 22. I am forced to view traffic situations indirectly, which is potentially dangerous. Never had a problem in 30 years of driving, and then almost suddenly this crazy escalation in glare virtually every on the road."                                                                                                                    |
| 6/6/2017  | "Thank you for starting this petition! These headlights annoy this sh*t out of me!..Everytime someone gets behind me driving with these bright LED lights, I feel like having a extremely bright light in back of my car to shine in their eyes so they know what they're submitting drivers to! Thank you for starting this..I hope we can get the DOT to look into this." |
| 6/4/2017  | "I want to drive in safety like I used to be able to, particularly at night-time. I've had to give driving after dark!"                                                                                                                                                                                                                                                     |
| 6/4/2017  | "I have been temporarily blinded by the led headlights"                                                                                                                                                                                                                                                                                                                     |
| 5/29/2017 | "Even for non-drivers the lights are visually painful as well as obscuring. I have problems in my eyes as it is and I do not need to have another issue with my eyes because of these lights that sometimes I think are high beams. Whoever thought these were 'SAFE' on the roads seriously had no clue. Get rid of them or tone them down. Thank you."                    |
| 5/28/2017 | "I cannot see when these super bright lights are approaching me! They should be illegal because at the very least it is distracting and forces me to look away. At that point I've lost track of oncoming traffic or a road hazard."                                                                                                                                        |
| 5/28/2017 | "I am blinded on the road by these types of headlights."                                                                                                                                                                                                                                                                                                                    |
| 5/28/2017 | "As a person who is hypersensitive to lights and knowing many others as well also affected, these are very dangerous and can cause side effects that last hours if not more, even to those who are not hypersensitive."                                                                                                                                                     |
| 5/27/2017 | "I have been against these absolutely stupid lights since they first came out. I get black spots in my eyes from them as if a flashbulb went off. Not good for driving at all! Who was stupid enough to approve these?!"                                                                                                                                                    |
| 5/26/2017 | "These headlights need to go.Headlights originally were shining forth a beam, now it has flood light appearance which blinds the heck out of you when oncoming"                                                                                                                                                                                                             |
| 5/26/2017 | "I hate these. You cannot see anything with these behind you."                                                                                                                                                                                                                                                                                                              |
| 5/23/2017 | "They're dangerous - they are blindingly bright and destroy normal night vision for seconds after passing."                                                                                                                                                                                                                                                                 |
| 5/22/2017 | "I'd like to enjoy driving at night again. If I look away from the blinding headlights, I'm distracted. If I look at them, I'm blinded."                                                                                                                                                                                                                                    |
| 5/21/2017 | "I feel like my safety is being compromised when people use the extremely bright headlights, and I also living in Pennsylvania, where they have strict window tinting laws on passenger vehicles only, and those laws are unconstitutionally oppressing my safety as a passenger vehicle owner."                                                                            |
| 5/10/2017 | "My eyes are strained by looking into car lights at night."                                                                                                                                                                                                                                                                                                                 |
| 5/9/2017  | "I have been a victim of those blinding lights"                                                                                                                                                                                                                                                                                                                             |

|          |                                                                                                                                                                                                                                                                                                                                                                                                                               |

| 5/9/2017 | "I'm signing because the HID & LED headlamps are dangerous and annoying. Studies say light above 3000k is bad for your eyes. High intensity headlamps USED to be illegal in California- What happened?"                                                                                                                                                                                                                       |
| 5/8/2017 | "I hope the government listens"                                                                                                                                                                                                                                                                                                                                                                                               |
| 5/8/2017 | "I am tired of being blinded by these dangerously bright headlights."                                                                                                                                                                                                                                                                                                                                                         |
| 5/8/2017 | "These lights are too bright and are a hazard they are blinding with oncoming traffic, as well as traffic behind me"                                                                                                                                                                                                                                                                                                          |
| 5/8/2017 | "I have a hard time seeing, on, the, road at dark with over bright headlights."                                                                                                                                                                                                                                                                                                                                               |
| 5/8/2017 | "i AM BOTHERED BY THOSE PAINFULLY BRIGHT ON-COMING HEAD LIGHTS. THEY ARE A ROAD HAZARD. WHY HAVE THEY BEEN ALLOWED TO BE MANUFACTURED?"                                                                                                                                                                                                                                                                                       |
| 5/8/2017 | "The trend of drivers converting their headlights to HID & even just installing 5500K & higher Bulbs to Halogen type headlight housing can be very dangerous to other drivers. The Halogen housing has no filters and the light is spread out too widely over the entire lens causing road glare. Many of the newer cars have projector type housing which limits road glare & auto adjustments as long as it's under 5500K." |
| 5/8/2017 | "These lights are dangerous, blinding and irritating."                                                                                                                                                                                                                                                                                                                                                                        |
| 5/8/2017 | "Blinding headlights at night are annoying and dangerous. Too much blue light is also dangerous. Check Harvard Medical School blue light..."                                                                                                                                                                                                                                                                                  |
| 5/8/2017 | "The blinding headlights are nothing but a hazard... No way, they need to be that bright."                                                                                                                                                                                                                                                                                                                                    |
| 5/8/2017 | "To outlaw high intensity headlights"                                                                                                                                                                                                                                                                                                                                                                                         |

|          | can illuminate, but who's enforcing that? Pull a roller tape out from the police officers back pocket?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 5/5/2017 | "FOOTCANDLES are the measurement of light that comes out of a headlight. Low beam/high beam intensity was established when the modern yellow light headlight was first invented. All new headlights outside these long-established standards are by definition: illegal. What part of "illegal" don't headlight manufacturers understand today? This petition is really unnecessary. Just ENFORCE THE LAW already."                                                                                                                                                                                                                                                |
| 5/5/2017 | "Yes! These after market headlamps are becoming brighter. There have been times where I'm unable to turn left because the previous oncoming car was so blinding it left spots in my eyes. When it rains the ground becomes a shiny mess, to the point the lines are nearly invisible. And the height standards for the headlamps need to also be accounted for, because if they point straight ahead like an arrow, even the cab of the car ahead is filled with blinding, distracting brightness, making the exterior and the crosswalks hard to view. I don't need to wear glasses, my vision is fine so even wearing glare resistant lenses are not an option." |
| 5/5/2017 | "The headlights are too bright and can cause accidents. People use them to bully cars in traffic, also."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 5/5/2017 | "I commute 65-75 miles one way. I see a lot of cars with blinding headlights and I agree it's dangerous. It's hard to keep eyes on the road when there is so much glare."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 5/5/2017 | "Very dangerous lighting and causes accidents"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 5/5/2017 | "Too bright and blinding. Also turn indicators set so close to day running lights you cant see them even though they should automatically dim."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 5/5/2017 | "Bright headlights are very unsafe for other drivers. Especially where I live, it makes it hard to see other road hazards like wildlife."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 5/5/2017 | "These headlights make it difficult to see but almost impossible when it is raining!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 5/5/2017 | "I hate the led lights. They make night driving very unsafe."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 5/5/2017 | "THE LIGHTS ARE BLINDING and a safety hazard!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 5/5/2017 | "they are blinding!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 5/5/2017 | "In the UK we have exactly the same problem. You have said it all above. I do ask the question what sort of driver, deliberately driver thinks it is safer to drive with lights on reducing visibility."                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 5/5/2017 | "These headlights make it so difficult to drive at night! They are blinding and dangerous. I do not feel safe with these lights on the road."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 5/5/2017 | "I'm signing because driving while temporarily blinded is dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| 5/5/2017 | "It is a dangerous trend."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 5/5/2017 | "The bright lights force me to turn my eyes away from an oncoming car or, if the car is behind me, I must turn my rear or side mirror away from the lights. Dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 5/5/2017 | "Yes, these new LED headlights are a hazard; Especially the ones that have the blue/white toned ones."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 5/5/2017 | "As a migraine sufferer this is a HUGE issue for me."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |

They need to be outlawed!!!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 5/4/2017 | "I'm tired of being blinded when I drive at night"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 5/4/2017 | "These are blinding and trigger my migraines. No lights should be so bright as to cause a person to feel tortured"                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 5/4/2017 | "The new LED headlights are to bright, especially when shining right into a rear-view mirror. I drive a sedan and always have to adjust my mirror when an SUV is behind me with the LED lights because the brightness is overwhelming. It also seems as is the brights are on when a car in on-coming traffic is driving towards me with LED lights. They need to figure out a way to make warm colored LEDs for car and not the bright white, bluish color."                                                                                                                         |
| 5/4/2017 | "It's so hard to drive at night when you have these bright headlights behide you or even on the frwy the opposite traffic headlights...those brights lights make me turn my head or close my eyes...or i get such a glare i can't see and have to break to make sure im not gonna crash into the person in front of me!"                                                                                                                                                                                                                                                              |
| 5/4/2017 | "They r blinding"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 5/4/2017 | "Rather than making night driving safer, brighter headlights encourage drivers to drive even faster! In California, the maximum speed limit is considered by many to be the minimum."                                                                                                                                                                                                                                                                                                                                                                                                 |
| 5/3/2017 | "Thank you for starting this petition! The bright white headlights are awful whether oncoming or in your rear view mirror."                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 5/3/2017 | " They're blinding. And makes me drive slower because at times I can't see the road. Worse during the rain. Yeah good for the driver using it.. BAD & extremely dangerous for the defenseless on coming traffic. Headlights were just fine years ago when you can define an on coming vehicle instead of driving in fear at times. before these detracting and dangerous lights."                                                                                                                                                                                                     |
| 5/3/2017 | "I believe new legislation is required to control acceptable levels of vehicle lighting on today's roads. This includes all motor vehicles as well as cycles and other road users ,"                                                                                                                                                                                                                                                                                                                                                                                                  |
| 5/3/2017 | "There is such a chronically diverse range of headlight colours, brilliance, degrees of glare and intensity on cars on the road today, they are becoming a danger to all road users. Therefore, it is imperative that these concerns are addressed and the manufacturers should not be able to dictate the terms, purely as some sales gimmick to attract potential buyers. Lights can and are, frequently, used aggressively, wilfully and to deliberately intimidate. There, almost, seems to be a quite bizarre mentality that makes and turns the brightness and intensity of car |

|           |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

|           | lights into some type of prestige and status. "My lights are bigger and brighter than yours, so get out of my way"!"                                                                                                                                                                                                                                                                                                                                                                                   |
| 5/2/2017  | "I am often blinded by bright headlights. It's putting me off driving at night."                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 5/2/2017  | "I suffer myself and find many situations where I know to be unsafe because of this."                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 4/24/2017 | "This is one case where signing this petition (to me) is unquestionably the right thing to do!"                                                                                                                                                                                                                                                                                                                                                                                                        |
| 4/20/2017 | "These headlights are killing people"                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| 3/28/2017 | "I'm signing this petition because these headlights are blinding and dangerous. I would like the UK government to ban them too and perhaps if this petition is successful the government of the U.K. will take some action too. Please sign, especially those with LUPUS who are light sensitive - see the article in NEWS AND VIEWS, Spring 2017."                                                                                                                                                    |
| 3/26/2017 | "These annoying headlights are blinding. I have migraines and they make them 1000x worse!! Please get these headlights removed from the market!!"                                                                                                                                                                                                                                                                                                                                                      |
| 3/26/2017 | "Glare from these blinding headlights make it difficult to focus on the road. They are painful to the eye and completely unnecessary."                                                                                                                                                                                                                                                                                                                                                                 |
| 3/24/2017 | "I stopped driving at night, due to glare, missed out on many club meetings, had to leave xmas and thanksgiving visits before dark, affects my ability to drive all winter when sun sets early. Couldn't see lady walking dog on side of road one night, this is definitely a health hazard for people of all ages. No need for these types of lamps. Please ban them, before they existed we managed without them for over one hundred years."                                                        |
| 3/22/2017 | "I am signing because this is a world wide problem and we have to wake up and do something about it."                                                                                                                                                                                                                                                                                                                                                                                                  |
| 2/25/2017 | "Blinding White LED lights on vehicles are a lethal hazard and should be banned forthwith! :("                                                                                                                                                                                                                                                                                                                                                                                                         |
| 2/12/2017 | "I thought it was against the law to drive with high beams on."                                                                                                                                                                                                                                                                                                                                                                                                                                        |

| 12/31/2016  | "I cant say enough against headlight use during the day. It is no wonder fatalities have increased when ignorant motorists make it painful to keep your eyes on the road. I refer to it as a visual equivalent of nails on a chalk board. I have unfortunately had to learn to drive looking out the passenger window. Stop . . . Please, stop."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| 12/24/2016  | "I have excellent vision, but since about 2-years ago, I have had hot pain when cars with those horribly bright lights are near. Driving at night now takes longer, because I simply pull off the road to wait until vehicles with such painfully bright lights pass me. How can drivers with these lights not know the dangers these lights pose?! If you are behind another vehicles, you NEVER need to have high beam lights on. I have been dreaming of a light up sign that says. Get off my bumper with high beams on! This is a huge danger and I refuse to have "high beam bullies" run me off the road! I am serious about my child's safety! The government is supposed to be for the people and of the people. Let's tell them that regulation of these terrible lights is necessary!"                                                                                |
| 12/14/2016  | "Years ago I spoke with NHTSA regarding this very issue, including advising them that the already noted increase in fatalities was likely due to these unregulated lights. Now they care? When I talked to them they said "a lot of people will need to die" before they act at all on this issue. Fools and sociopaths. Read my articles below. NOTE that limiting light emitted to that of traffic signals is a very bad idea as our traffic signals are also blindingly glaring and those are the ones placed by IDOT (IL DOT).Dr. Coleman<a href="https://sliceiconic.com/2015/01/26/led-lights-dangerous-on-roadways-and-off/" rel="nofollow">https://sliceiconic.com/2015/01/26/led-lights-dangerous-on-roadways-and-off/</a><a href="https://sliceiconic.com/2016/03/29/blinding-headlights/" rel="nofollow">https://sliceiconic.com/2016/03/29/blinding-headlights/</a>" |
| 12/13/2016  | "They blind me and cause headaches! It is not only oncoming, when these headlights are behind me, they are just as blinding no matter how I adjust my mirrors! And do not think about replacing them with the proposed laser! Why cant we just go back to past headlights! They did not cost as much to replace either! The new headlights are a danger!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/11/2016  | "How has this not passed yet? Come on 11 more signatures! And how have SNL not mocked LED lights yet either? Am I the only one that wants to drive around with a baseball bat and blow out every Nissan Truck's LED lights that blind people                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

|            | as they drive. Baby Boomers, trying to run the world, can't figure out how to not blind people. Just retire already!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/11/2016 | "I'm signing because I don't want one blinding ray hitting my eye, every night, for 362 nights for the next 20 years until I prematurely go blind. Shall we take all the odd farts in congress and shine bright lights in their eyes and just do it, for a full year, great test. Chicago is about to put these in neighborhoods....mostly because Rahm Emmanuel is retard who runs a bankrupt city, yet throws dinner parties like he's celebrity. #Political Career should be over"                                                                                                                                    |
| 12/11/2016 | "Politicians who vote for LED's because of lobbyist, should be stuck by lighting and fed to sharks."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 12/11/2016 | "I have children, and driving is becoming more difficult, and I'm worried for their safety if I get blinded by these things and crash"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| 12/11/2016 | "In German, would call people who use LED lights, slightly evolved monkeys. Blue light rays, high frequency rays are damaging. And as humans, we're drawn to look at them, so its for sure bad"                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 12/11/2016 | "We stare at computers all day admitting blue light, now we have them on cars as we drive home. May as well just shoot us now and gives us some poison while your at it. Thanks America, not"                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 12/11/2016 | "America sucks"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 12/11/2016 | "This is getting ridiculous"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| 12/11/2016 | "These are blinding!"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 12/11/2016 | "I'm signing because its better than throwing the users of LED lights in the gas chamber"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| 12/11/2016 | "Fuck you congress."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 12/11/2016 | "I have to drive to work and see this bullshit every morning,"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 12/11/2016 | "Because they're fucking stupid"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 12/11/2016 | "How has the goal changed from 200 to 500? joke?"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 12/7/2016  | "Can we speed this up, I'm 29 and am loosing eyesight by the minute. How dumb are these people allowing this to happen? Fucking idiots, total argument against Darwinism, we're getting dumber"                                                                                                                                                                                                                                                                                                                                                                                                                          |
| 12/5/2016  | "I cannot see at night! This is getting crazy. I'm 51 and over the past 2 years these lights have gotten brighter and they, the people who have them (after market ) lights seem to gain joy out of getting behind your vehicle and blinding you ! This is a crime in my opinion. I've almost wrecked on several occasions and try and slow down so they will get the message but they get pissed off, honk their horn and pass (thank God) and seem to not understand! Do they not realize they are blinding the driver? Not to mention the oncoming lights such as these! These lights need to be banned immediately!" |
| 12/4/2016  | "I'm signing because this year I was afflicted by pain in my right eye from an LED light outside my window. This week I am moving house at great financial and emotional expense. Too many people don't seem to understand the harm caused by LED lights."                                                                                                                                                                                                                                                                                                                                                               |
| 12/4/2016  | "Tired of the bright white/blue headlights all night, every night. I can not see because of them"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| 11/30/2016 | "It is a miracle I have not been involved in an accident, which would have been through no fault of my own. Every day I am dazzled and blinded by these                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |

|            | extremely dangerous headlights. It is unacceptable to have them in use on the road. These dangerous headlights must be removed immediately to save lives."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 11/29/2016 | "I have been increasingly blinded at night by new cars with projector headlights and know many others especially my age and older who say these cars are making driving at night hazardous enough to make them wonder if they will have to stop driving at night. These cars make more light than others do with their high beams on and it's dangerous."                                                                                                                                                                                                                                                                                                                                                                                     |
| 11/27/2016 | "It's causing deaths"                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 11/27/2016 | "I'm signing because this has been a serious problem for me when driving at night."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 11/26/2016 | "These lights are horrific and very debilitating. As a cyclist, I regularly have to get off my bicycle as I lose my orientation due to a an oncomer's bright lights. This is ridiculous! What has happened to good old-fashioned consideration? And what about common sense? Vehicle lights - and lights in general - need to be adequate, not over-imposing! Regulations are urgently needed to stop this madness....."                                                                                                                                                                                                                                                                                                                      |
| 11/24/2016 | "I am signing this because binding vehicle lights - whether from cars or bicycles - are an absolute hazard for road users. We urgently need to get back Due Diligence as well as good old-fashioned consideration for others who share the space with us."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| 11/24/2016 | "I'm signing because I'm fed up with having to dip my rear view mirror on bright sunny days because some idiot comes up behind with lights blazing. Also fed up with lazy drivers who sit in front of me at traffic lights with their foot on the brake instead of using the handbrake."                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| 11/24/2016 | "As a sufferer of frequent migraines, with bright lights being a major trigger, I stand behind this 100%. I am also the only licensed driver in a household of three, one of which often works nights, which means I cannot simply choose to not drive in the dark. These ultra-bright lights are definitely a hazard and should be banned."                                                                                                                                                                                                                                                                                                                                                                                                  |
| 11/24/2016 | "I couldn't figure out why I was suddenly being affected by these lights, especially at night. I thought it was just me--even though my vision hadn't changed--until I read all these comments. These lights are deadly dangerous."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| 11/24/2016 | "I believe it would serve driving safety and would save lives."                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 11/24/2016 | "They give me nauseating migraine just to catch a glimpse, I can't go outside at night now because of LED car lights (and LED street lights -separate issue). Never mind that many drivers I know feel they are bullied off the roads by LED and HID headlights and break lights. It's so difficult to see what's around that particular oncoming car or what's coming behind it, be it another car, pedestrian, cyclist. They are absolutely lethal and how car manufacturers are allowed put them on cars I just don't understand. They use LED as a selling point yet they are extremely dangerous and manufacturers continue to promote them and increase their strength and intensity. It's unbelievable how this is allowed to happen." |

| 11/23/2016 | "day time running lights are extremely dangerous"                                                                                                                                                                                                                                                                                                                                                                            |
| 11/23/2016 | "Automatic cornering lights should also be banned."                                                                                                                                                                                                                                                                                                                                                                          |
| 11/22/2016 | "Seriously people - we need to stop this dangerous trend before it creeps into all new vehicles! Read, learn, and take action!"                                                                                                                                                                                                                                                                                              |
| 11/22/2016 | "I recently took the written section of the Driver's License Exam in California. One question asked what you should do if blinded by headlights. The correct answer: look down and to the right! How safe is that???"                                                                                                                                                                                                        |
| 11/21/2016 | "Scares the livin' daylights out of me !For safety sakes, I try to pull over to the right and stop till the driver disappears from sight."                                                                                                                                                                                                                                                                                   |
| 11/21/2016 | "I have a hard time driving at night because of the blue LED blinding headlights."                                                                                                                                                                                                                                                                                                                                           |
| 11/21/2016 | "I would like to see all daytime headlights (except motorcycles) banned and replaced with the Amber daytime running lights."                                                                                                                                                                                                                                                                                                 |
| 11/21/2016 | "They are so bad, many people won't drive at night. (Me included) Please ban these blinding headlights. Terrible invention."                                                                                                                                                                                                                                                                                                 |
| 11/20/2016 | "I am sick of being blinded by the light of some new cars--these lights are a hazard on the road and need to be recalled or made easier on the eyes of on coming drivers."                                                                                                                                                                                                                                                   |
| 11/20/2016 | "Dangerous & blinding. Would have thought automotive companies would have tested them before making such a ludicrous decision!!!"                                                                                                                                                                                                                                                                                            |
| 11/20/2016 | "This is a pet peeve of mine. We used to distinguish between normal headlights and "brights", the latter being appropriate only when you found yourself alone on the road. Now many of the new cars have "normal headlights" the exceed what "brights" used to be. They are blinding to both oncoming traffic and to traffic in the lane ahead of you. Please create legislation that regulates this and keeps us all safe." |
| 11/20/2016 | "I'm a truck driver & am blinded all the time"                                                                                                                                                                                                                                                                                                                                                                               |
| 11/19/2016 | "Blinding headlights and daytime lights are a menace to public safety and should be banned."                                                                                                                                                                                                                                                                                                                                 |
| 11/19/2016 | "these lights are dangerous the low beam of today is brighter than the high beams of yesterday, and laws were written to dim high beams of yesterday and now the lowbeams are brighter"                                                                                                                                                                                                                                      |
| 11/19/2016 | "Please sign this"                                                                                                                                                                                                                                                                                                                                                                                                           |
| 11/19/2016 | "Very distracting and dangerous from all angles (oncoming, rear or side views), especially raised vehicles."                                                                                                                                                                                                                                                                                                                 |
| 11/19/2016 | "Particularly the LED headlights need to be better regulated or banned if they can't be made less blinding. You can always tell when there is a new Acura or Audi coming at you"                                                                                                                                                                                                                                             |
| 11/19/2016 | "I'm signing because these headlights have been blinding me for years. and no one would listen!"                                                                                                                                                                                                                                                                                                                             |
| 11/19/2016 | "I have been a bicyclist for 30 plus years, and cannot figure out why there is a need for even brighter lights when I thought the existing headlights on cars were good enough. If the number of accidents hasn't gone down this should be the most blatant of all messages to the manufacturing industry to re-assess the rationale behind a need for brighter lights."                                                     |

|            |                                                                                                                                                                                                                                                                                                                                                                                                                               |
|------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 11/19/2016 | "There are way too many vehicles with headlights that are blinding to other drivers."                                                                                                                                                                                                                                                                                                                                         |
| 11/19/2016 | " LED and HID headlights are so blinding, I've actually had to come to a complete stop on the road until they are past me because I cannot find anywhere to set my vision that allows me to safely continue until they are past me. They obviously must be responsible for some devastating motor vehicle fatalities, and have necessitated my stopping night time driving."                                                  |
| 11/18/2016 | "These LEDs are simply blinding, dangerous and not necessary."                                                                                                                                                                                                                                                                                                                                                                |
| 11/18/2016 | "I am signing because I agree that headlights are so bright and blinding. They draw the eyes when you are driving and makes it almost impossible to see when walking and cycling."                                                                                                                                                                                                                                            |
| 11/18/2016 | "All auto manufacturers are responsible to recall autos and modify lights that do not meet safe DMV requirements.It is getting worse....."                                                                                                                                                                                                                                                                                    |
| 11/18/2016 | "There is absolutely no reason to have these lights except for someone wanting to make miney on a fad. get rid of them!!!!"                                                                                                                                                                                                                                                                                                   |
| 11/18/2016 | "I am signing because I can no longer drive at night because of the blue headlights."                                                                                                                                                                                                                                                                                                                                         |
| 11/18/2016 | "I have sensory processing issues. Many of these painfullt bright headlights blind me, and flashing turn signals cause me to stumble, sometimes into the street. These things are dangerous."                                                                                                                                                                                                                                 |
| 11/18/2016 | "I have had many problems with these types of lights, especially when a truck comes behind a car and the lights now blind everything in your mirrors and make it very hard to see. This is very disturbing that the auto industry has allowed this and who tested this.... I wonder"                                                                                                                                          |
| 11/18/2016 | "LED lights are especially blinding for the elderly as our eye gradually deteriorates."                                                                                                                                                                                                                                                                                                                                       |
| 11/17/2016 | "I'm signing because I daily get headaches from these blue headlights. My near-accident rate is also increased due to the blinding effect on my ability to focus at night."                                                                                                                                                                                                                                                   |
| 11/17/2016 | "I am a daily bicycle commuter."                                                                                                                                                                                                                                                                                                                                                                                              |
| 11/17/2016 | "I totally support this petition against the "lightmare epidemic" that has swept the world in recent years. Headlights, DRLs, fog lights and even reverse and brake lights have become WAY too bright, as regards both comfort and safety."                                                                                                                                                                                   |
| 11/17/2016 | "I hate the blue headlights!!!!!!"                                                                                                                                                                                                                                                                                                                                                                                            |
| 11/17/2016 | "DRLs are a hazard due to the glare they cause."                                                                                                                                                                                                                                                                                                                                                                              |
| 11/17/2016 | "The sooner they ban these LED lights the btter"                                                                                                                                                                                                                                                                                                                                                                              |
| 11/17/2016 | "This is an issue that concerns people across the world - and it is so unnecessary! I write as a non-driver living in the UK, who is regularly dazzled by the headlights and daytime running lamps of passing vehicles. If this affects me, as a pedestrian, it's obvious that the potential danger to and from drivers having their vision temporarily impaired is so much greater."                                         |
| 11/17/2016 | "Can't stand bright headlights"                                                                                                                                                                                                                                                                                                                                                                                               |
| 11/17/2016 | "As a migrainer (and as such being very sensitive to these new kinds of overly intense and blue-rich white lights) and also flashing lights at high frequencies - I find these kinds of lights on both cars and bicycles not only trigger many multiple ill symptoms, but are also a major deterrent to my ability to be able to drive or cycle on the road safely. Lighting on vehicles and bicycles has gone senseless - we |

| 11/17/2016 | <p>"YES, Please put a ban on all headlights that are over 3200k. Higher temperature light is blinding in the dark and simply a hazard to drivers as well as damage to our eyes. LED lights, sodium vapor lights, should not be used for car headlights or brake lights. Also the tint of headlights (blue, pink, green, we have all seen them) should also be banned. When light of any intensity is reflected in rearview mirrors it is amplified and even brighter, as what a mirror does to light. Super bright headlights become blinding and overwhelm the driver. I literally have to turn all of my mirrors down to avoid being blinded. Please act on this."</p>                                                                                                                                                                                                                                                                                                                                                                                                    |
| 11/17/2016 | <p>"I am signing this because I have been an opponent of too-bright lights for a long time. NHTSA lied to me in writing that they would do something "soon" about the too-bright daytime running lights when first allowed in the 1990s. Some 17 years later "soon" still has not arrived. The entire issue of too-bright lights has been a disastrous failure by NHTSA."</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| 11/17/2016 | <p>"I've had to stop driving at night because of them, and that includes blinding brake lights too. As a working musician, they've ruined my working life, and I now think LEDs, over bright headlights and mandatory DRLs should be banned, or at least a sensible limit imposed on their output."</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| 11/17/2016 | <p>"As an electrical engineer who has investigated in detail outdoor lighting issues, I see the current trend toward brighter automotive lights with higher blue content as innovators exploiting a dangerous regulatory loophole. LED technology offers plenty of solutions with lower blue light content at only a marginal increase in cost. Only through regulations will auto makers adopt these better LED technologies."</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| 11/17/2016 | <p>"These headlights are very dangerous for Motorcyclists and bicyclists since while blinded by these lights motorist do not see smaller vehicles. If you cannot see at night with normal head lights then you should not be driving at night."</p>                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

|            |                                                                                                                                                                                                                     |
|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 11/17/2016 | "Thank god, these lights are so stupid. The mercury argument is weak, the higher frequency light is blinding. This is the most no brainer, and I'm stunned that we continue to elect congressmen without education" |
| 11/17/2016 | "I have been terrorized by blinding lights of oncoming vehicles. This has curtailed night driving for me."                                                                                                          |
| 11/17/2016 | "Cadillac in the 1960's used to have a sensor on the dash to dim lights to on coming traffic automatically. It would be a cheap fix."                                                                               |
| 11/17/2016 | "These lights are dangerous. Medical evidence says the automakers are exceeding safe limits. Why are they allowed to get away by killing people all for a marketing gimmick?"                                       |
| 11/17/2016 | "I have written to the British government 5 times., and every time they tell me its safer with light on"                                                                                                            |
